THE FINANCIAL SITUATION.

A national holiday added to the usual holiday character of business at this season of the year, and not disturbed in the least by any conspicuous event, is in brief the record of the past week. With such surroundings it is hardly needful to say that our markets have been quiet. While that is natural and true the prominent features have been such as belong to a year when the general outlook is promising. The prices of railroad securities have been firm and in many cases have advanced; good bonds of all kinds have been sought for; manufacturing industries have shown increasing activity, giving the best evidence in the advancing wages of present prosperity and an assured future. Even the railroads of the Northwest, where the depression has been prolonged later than elsewhere, are reported to be getting ready for the large crops almost in sight. To be sure the industrials suffered a lapse a week ago. Since then a part of the loss has been recovered. But it is to be said that so long as the values of any class of securities rest on faith not works, on secrecy instead of publicity with reference to the companies' transactions and earnings, they hold a position almost wholly outside of current influences and stand strictly within the speculative field.

The large surplus which the Government revenue figures for June disclose is a favorable fact. As we make them up, including the National Bank Note Fund (see our Miscellaneous News Department for the monthly totals of the year), the receipts are $3,086,000 in excess of the disbursements. Looking at the figures more closely they are not as encouraging as this balance indicates, for the surplus appears to be the result of smaller disbursements not of larger receipts. We are nevertheless assured by Treasury officials that the outlook for the remaining six months of the calendar year is more favorable. Of course in July there will be a considerable deficiency, probably reaching $10,000,000, chiefly owing to 7½ million dollars of interest due July 1, but in part to other larger disbursements which fall in that month. In October it is expected, we are told, that there will be a deficiency of about $5,000,000, but that the other four months of the calendar year are likely to show an increase of revenue over expenditures of at least $5,000,000. If these anticipations prove correct the net deficiency for the last half of the year will reach only $10,000,000. As, according to the debt statement, the cash balance in the Treasury July 1 was $195,240,153, the balance on January 1 1896 ought to be about $185,240,183. If the Department is able to close the year in that shape, after losing all of the Income Tax, the doubt respecting the Government's revenue will be at an end.

The better trade situation to which reference is made above finds forcible expression in the figures of bank clearings. We have prepared our usual compilation for the month of June, and in some respects the showing is the best we have yet had for any month. In the aggregate for all the clearing houses there is an increase over the same month last year of 22·1 per cent. This is a large and satisfactory ratio of addition. But no doubt it will be urged that the gain the previous month was even larger, having been 24·7 per cent, and hence that the latest exhibit is not as good as the preceding one. The fact itself is correct, but the deduction is not correct. There was in June an extra Sunday, so that the totals in 1895 are based on only 25 business days, while last year they were based on 26 days. With the same number of days in both years, the comparison for June would have shown a heavier ratio of gain than that for May. At New York the gains have been especially large right along, this being due to the prominence of financial operations here. For June the increase at this centre is 30·7 per cent and for May it was 35·4 per cent.

A notable fact, indicative of the spread of business revival over the country, is that outside of New York the percentage of increase for June, notwithstanding the loss of a business day, is slightly larger than for May, the figures being 12·5 per cent, against 12·3 per cent. The improvement in this case is the more noteworthy as many of the Western points are still feeling the effects of last season's crop failure. For instance in the Far Western section the clearings fall 2·6 per cent behind those of a year ago. Some of the other distant sections, however, afford marked indication that business revival is penetrating into even the remoter parts of the country. The Pacific Coast section, which in May showed a decrease, this time records 16 per cent increase. Generally the gains are largest in the Eastern manufacturing and financial centres. For the Middle States (including New York) the increase is 28·8 per cent and for the New England section 17·6 per cent; for the Middle Western section it is only 8·2 per cent and for the South 9·5 per cent. We may add that for the country as a whole the results are not unsatisfactory even as compared with 1893 and 1892. The totals are smaller than in those years, but not so much so as might be supposed. The decline from 1892 is about 10 per cent, from 1893 it is but little more than 3 per cent. Considering that the 1895 figures are based on one less day, that prices of many commodities and merchandise (notwithstanding the recent advance) rule lower than in the earlier years, and that the country is still contending with the effects of last season's crop shortage, the fact that present totals come so close to those when business was in a state of full activity affords striking proof of the magnitude of the volume of trade which is being done.

The record of business failures for the June quarter and the first half of the year, as furnished by Messrs. R. G. Dun & Co., shows results just about as would be expected. The figures are interesting now chiefly as an indication of past business conditions. With trade reviving, mercantile disasters we may suppose will again be reduced to small proportions. Under the direction of Col. W. M. Grosvenor, the statistics of Messrs. Dun & Co. are being given with much greater detail than heretofore, the compilations now distinguishing between banking failures, manufacturing, trading and other commercial insolvencies, and when this method has been continued for a number of years the comparisons should be extremely useful and instructive. The failures for the June quarter are reported at 2,855 with liabilities of $41,026,261, against 3,802 in the first quarter with liabilities of $47,813,683, but against 3,734 with liabilities of $37,601,973 in the June quarter of last year. In 1893, however, the failures in the June quarter numbered 3,199 and the liabilities then aggregated $121,541,239. For the half-year the failures number 6,657 in 1895 with liabilities of $88,839,944, against 7,039 with liabilities of $101,739,306 in the same six months of 1894, and 6,401 with liabilities of $168,879,539 in the six months of 1893. In this form the record is one of

improvement. If the amounts for 1895 look large nevertheless, it should be remembered that in the early part of 1895 all mercantile and financial interests were disturbed by the critical condition of the United States Treasury, that though the Syndicate contract removed the occasion for further fear on that score, yet business revival did not get under full headway until the last two months, and that, moreover, through the whole six months business had to be conducted on a very narrow margin of profit.

FAILURES.	First Quarter.		Second Quarter.	
Years—	Number Failures.	Amount of Liabilities.	Number Failures.	Amount of Liabilities.
1893	5,658	$46,121,951	2,346	$25,691,304
1886	3,203	29,681,726	1,993	20,792,734
1887	3,007	32,161,762	1,905	22,976,330
1888	2,915	38,884,789	2,241	29,229,470
1889	3,311	42,072,516	2,292	22,856,337
1890	3,223	37,852,968	2,162	27,166,416
1891	4,345	42,167,681	2,529	30,218,036
1892	3,884	30,284,349	2,119	22,989,631
1893	3,202	47,884,809	3,199	121,541,239
1894	4,394	64,137,333	2,735	37,891,973
1895	3,892	47,818,683	2,855	41,026,261

No one needs to be told that very little new road was added to our railroad mileage in the first six months of 1895. But as the indications now favor greater activity even in this branch of industrial work, it is well to note how very small the totals really were. According to the "Railroad Gazette" of this city only 547 miles of new track were laid in the six months. The "Railway Age" of Chicago makes the total somewhat larger, and yet finds only 641 miles. Of course these figures furnish no guide to the probable addition the current six months. In the first half of the year new track-laying is always light on account of the winter weather, and the present year we know the winter was more severe than usual. Railroad business is by no means in a state of prosperity as yet, but trade is reviving, and should the crops fulfill their present promise railroad building is sure to partake of the general improvement.

The low rates for money which have been ruling at this centre have attracted hither municipal and State borrowers from very many of the near-by localities. Rochester, Buffalo and other cities in this State, also cities in Massachusetts and Rhode Island, have borrowed here for periods running to November, and even December in some cases. These loans have been placed at very low rates and will not be paid off until the taxes are collected, in anticipation of which the money was borrowed. This practically fixes for definite periods many millions of dollars, and it is an important factor entering into calculations as to the future course of the money market. The surplus reserve of the banks was last week reported at $34,225,925. Though the movement of currency toward this centre continues, it will probably soon cease, and then the outflow will begin, and it may be important by the end of July.

Money on call, representing bankers' balances, has this week loaned generally at 1½ per cent; some transactions towards the middle of the week were at 1 per cent, while others, considerable in amount, were at 2 to 2½ per cent, with a few transactions at 3 early in the week; the higher rates were demanded for an ordinary grade of collateral. The average for the week has been about 2 per cent. Banks and trust companies quote 1½ per cent as the minimum for new loans, and very little has been done by them for the reason that they have been engaged in disbursing July interest, and this has kept them out of the market with offerings. Rates remain, however, at 1½@2 per cent for thirty to sixty days, 2 per cent for ninety days to four months, and 2½@3 per cent for five to seven months on good Stock Exchange collateral, and no exceptionally low loans are reported. Re-discounting for Southern correspondents is slow, but some fairly large amounts have been placed in the extreme Northwest, and there is a little inquiry from the West. The supply of new commercial paper does not materially increase, but the lighter demand tends to cause an accumulation in the hands of the brokers, and therefore the market has the appearance of being better supplied. The inclination among banks and other buyers to accept nothing below 3 per cent has tended to reduce the inquiry. Quotations are firmly held at 2¾ per cent for sixty to ninety day endorsed bills receivable, 3 per cent for four months' commission house names, 3@3½ per cent for prime four months and 3½@3¾ per cent for prime six months and 4@4½ per cent for good four to six months' single names. Some Eastern mill paper having four months to run has this week been placed at 2¾ per cent against 2½ per cent last week for the same names.

The Bank of England minimum rate of discount remains unchanged at 2 per cent. The cable reports discounts of sixty to ninety day bank bills in London ½ @ 9-16 of 1 per cent. The open market rate at Paris is 1½ per cent and at Berlin and Frankfort it is 1¾ per cent. According to our special cable from London the Bank of England lost £64,627 bullion during the week and held at the close of the week £37,933,838. Our correspondent further advises us that the loss was due to the shipment to the interior of Great Britain of £511,000 and to imports of £446,000, of which £199,000 were bought, £177,000 came from Australia, and £70,000 from other countries.

The foreign exchange market has been firm this week without the least change in nominal rates for sterling and no change in those for actual business until yesterday. The conditions remain the same as those reported last week, a very limited supply of commercial bills, some offerings of security drafts by Speyer & Co. and Kuhn, Loeb & Co., and the deficiency made good by bills drawn by the Syndicate. In connection with the sales by these bankers complaint has been made that while some bills have sold direct others have gone into the hands of brokers to the disadvantage of those bankers who were in need of drafts for remittance. This, it is promised, will be rectified in future. There was a report on Wednesday that gold would be shipped this week, and it was said that arrangements had then been made for the export of a round amount. It was thought probable that this rumor originated from the possible export of Spanish gold by one of the bankers. The principal drawers of exchange positively asserted that not only would no American gold be shipped, but that there was no necessity for such shipment, and it was said that the disinclination to export gold is so great that there would be little risk of shipments, even though the rates of exchange should be advanced one cent per pound sterling, for there is nothing in the situation which calls for gold shipments, as the Syndicate and other leading bankers are ready to supply all the exchange needed. The market opened firm on Monday with rates for actual business in sterling at 4 88½@4 88¾ for sixty day, 4 89½@4 89¾ for sight and 4 89¾@4 90 for cable transfers. There was no change on the following day and the market

closed firm on Wednesday at the above-mentioned rates, though some bankers were bidding 4 90 for cable transfers. Yesterday the feature was an advance in the actual rates for long sterling to 4 88¼@4 89—the highest of the year—and this caused an advance in the rates for prime commercial to the unprecedentedly high figures of 4 88¼@4 88½ and in documentary commercial to 4 87¾@4 88. The following table shows the daily posted rates of exchange by leading drawers:

		Fri., June 28.	Mon., July 1.	Tues., July 2	Wed., July 3.	Thurs., July 4.	Fri., July 5.
Brown Bros	60 days	89⅛	89⅛	89⅛	89⅛	....	89⅛

	Sight	90⅛	90⅛	90⅛	90⅛	....	90⅛

The market closed very firm on Friday at 4 89@4 89½ for sixty-day and 4 90@4 90½ for sight. Rates for actual business in sterling were 4 88¼@4 89 for long, 4 89½ @4 89¾ for short and 4 89¾@4 90 for cable transfers. Prime commercial sterling was 4 88¼@4 88½ and documentary 4 87¾@4 88.

We have referred above to the favorable character of the statement of bank clearings for the month of June. We give here our usual table showing the figures for each month since the beginning of the year. We have already explained why the ratio of gain for the country as a whole is a little less for June than for May. In the earlier months of course the gains were quite small. As against 22·1 per cent for June and 24·7 per cent for May, the ratio of increase in April was 14·3 per cent, in March 7·4 per cent, in February 6·3 per cent and in January 8·5 per cent.

With reference to the comparisons with 1893 and 1892, the following shows the clearings at the leading cities for the last four years. It will be observed that every point given except one records better results for June 1895 than for June 1894. The exception is Omaha in Nebraska, and Nebraska we know suffered more from last year's crop failure than any other State. It is rather noteworthy that at two cities—Kansas City and St. Louis—the 1895 June total is larger than that for either 1893 or 1892.

On the New York Stock Exchange business was smaller than in the month preceding but larger than a year ago. The following is a record of the monthly stock sales in the first six months of the last two years. For further figures and a review of the market for the month, we would refer our readers to our Quotation Supplement which they will receive with the Chronicle to-day.

* Figures for 1895 and 1894 given on a basis slightly different from that for the previous years.

The following statement gives the week's movements of money to and from the interior by the New York banks.

Week Ending July 5, 1895.	Received by N. Y. Banks.	Shipped by N. Y. Banks.	Net Interior Movement.
Currency	3,466,000	$2,850,000 Gain.	$616,000
Gold	420,000	304,000 Gain.	116,000
Total gold and legal tenders	$3,886,000	$3,154,000 Gain.	$732,000

With the Sub-Treasury operations the result is as follows.

Week Ending July 5, 1895.	Into Banks.	Out of Banks.	Net Change in Bank Holdings.
Banks' interior movement, as above	$3,886,000	$3,154,000 Gain.	$732,000
Sub-Treasury operations	14,100,000	11,600,000 Gain.	2,500,000
Total gold and legal tenders	$17,986,000	$14,754,000 Gain.	3,232,000

The following table indicates the amount of bullion in the principal European banks this week and at the corresponding date last year.

Bank of	July 4, 1895.			July 5, 1894.

A MARVELOUS INDUSTRIAL CONTRAST.

The Government figures for the first of July are noteworthy for several reasons. Probably the point disclosed which is most marked is the changed condition of the gold balance, bringing it up above the 100 million-dollar limit. We referred to that feature a week ago in our Financial Situation, and showed how the total had been added to by the final payment the Bond Syndicate made to the Government on Monday, June 24. It is not needful to repeat any of those facts.

There is a contrast though which this act of the Syndicate signalizes that must not be passed unnoticed. We refer to the contrast between the industrial situation the first week in July and the situation the first week in February. Never within our history have two such dissimilar epochs occurred so close together. Only five months apart, and yet the outlook of the one was dark and hopeless and of the other is bright and promising. What was chiefly conspicuous with relation to this matter was that the change from gloom to cheerfulness came suddenly. It so happened that on a certain day, yes at a certain hour of that day, as if by some sleight of hand, every unfavorable feature that had existed so long and been so disturbing became non-existent. A still more wonderful fact is that since that hour not one of those irritating influences has returned but the progress to brighter surroundings has been both rapid and uninterrupted.

There was nothing mysterious about the conditions in which affairs were involved the first week of February and out of which we were so happily and suddenly lifted. The Government credit and the standard of values dependent upon that credit were the source of our business dislocation and danger. It was only a little more than two months since the last bond sale had been effected. The bids were opened the closing week of November and as a result of that sale the gold holdings of the Treasury the first of December had been raised to $105,424,569, or about 5½ millions above the 100 million-dollar limit. This transaction was thus on its face highly successful but the details of payment disclosed and could not help to disclose the point of greatest sensitiveness in our financial arrangements. Secretary Carlisle in his December report to Congress states that the Treasury gold November 14 was only $61,878,874. On the same day the New York Clearing House banks held say 94 million dollars specie, or not far from 86 million dollars gold, so that the total available supply in sight of the metal on November 14 did not exceed 148 million dollars, and of this, as it turned out, there were to be when the bond transaction was completed 106 millions in the Treasury. Hence, with only 86 million dollars in the banks (of which eight of these institutions held 40 million dollars), the work of supplying the Government with say 44 million dollars was to be executed.

It hardly requires stating that such a movement under such circumstances would develop friction. What the Government was in need of was gold; what the would-be bond purchasers required to meet their bids (Secretary Carlisle's report gives the total number of bids at 486, amounting to $178,836,050,) was gold; what the Clearing-House institutions had to supply this demand with was, say, 86 millions of gold, distributed through all the 65 banks, of which 8 banks held about half. No surprise can be felt that under such circumstances some of the would-be purchasers brought their legal tenders to the Treasury to get the gold to protect their bids, thereby in anticipation of their bids being accepted weakening the reserve the Government by the sale was seeking to strengthen. Finally after the successful bidders had been announced and the settlements with the Government had been completed, the stock of gold in some of the banks was so far reduced that calls by them were almost immediately thereafter made on the Treasury's gold, so that its stock on the 17th of December fell again below the limit. Altogether, as a result of this experience it was manifest, and financial circles everywhere acknowledged, that another similar appeal to the banks for the purpose of fortifying the Government reserve would be a failure—that the visible stock of gold was insufficient to do the work.

The public nevertheless were not without hope. Congress had just come together and the Administration had most earnestly appealed to it to give the Treasury a bond payable in gold and authority to sell whenever needed to keep the reserve intact. It had also in a clear way made the need of the Government obvious for such an obligation. Even the possession of the power asked for would, it was felt, go far towards relieving the existing discredit; for having the authority to negotiate a security which would command gold in any market of the world would be a notification to capitalists at home and abroad of the intention of the Treasury Department and of its ability to perform every currency function the statutes had imposed upon it. But as soon as the people's representatives in the two houses of Congress began to talk this hope began to weaken, the public to be discouraged, and the situation to grow gloomier. Even in December gold was exported; in January the exports reached the phenomenal and (when compared with our small available supply) the enormous total of $24,698,000, it having become apparent that there was no use at all in looking to legislation for relief. The situation in that particular is manifest when we state that on February 6 even an effort to pass in the House a bond bill with the word "coin" substituted for "gold" failed by a decisive majority.

What followed can be briefly related. On February 1 the stock of gold in the Treasury was reported at $44,705,957, the lowest point it had ever stood up to that date, but the decline continued, the total being a few days thereafter only $41,340,181. For the week ending February 2 the actual exports of gold from New York alone were $7,282,800. Up to Thursday of that week, and also during the first half of Friday February 1, further amounts on private account and for shipment on Saturday were withdrawn, aggregating altogether during the five days beginning with Monday $14,180,000; hence were it not for the subsequent developments in that week the gold exports would have been many million dollars larger than they were. About noon on Friday a rumor of a bond sale, which had been current and gained some belief on Thursday, took a more positive form, ending in a semi-official announcement that an arrangement had been substantially completed and that New York and London bankers had agreed to furnish the Government with the gold it needed. At once foreign exchange dropped below the shipping point, orders at the Sub-Treasury for gold were canceled, even gold on ship-board was recalled, and $1,800,000 gold which had been withdrawn from the Sub-Treasury was returned.

Fridays seem to monopolize the darkest days in this country's calendar. There never was a darker Friday than the opening of February 1; but before the sun set the whole face of affairs had changed. The contract with the Syndicate was not actually executed until the next week, Friday the 8th; report said that the delay was not because the terms had not been fully settled but because the President wished to give Congress every chance to authorize a more suitable bond for the purpose. The arrangement which was entered into February 8 has proved to be a notably ingenious plan, admirably fitted to meet the exigencies of the occasion, and has been bravely—for it certainly was a bold endeavor—and most wisely carried through. For a long time the undertaking was believed by many if not most bankers to be an economic impossibility—much like damming up the Niagara River. The complete success secured without a single hitch or back-set will always be a marvel however looked at.

To the country the benefits derived from the Syndicate management have been unspeakably great. It restored the stability of our standard of values, it rescued our finances from a most critical situation and saved us from an impending disaster. But besides that, it has restored confidence, given new activity to the movement of capital, both domestic and foreign, and the highly promising industrial conditions that prevail today are evidence of the results.

GOVERNMENT FINANCES FOR THE FISCAL YEAR.

In the preceding article we have referred to the great changes which have been effected in the industrial situation since last February, when the contract with the Morgan-Belmont Syndicate was made. In the present article we purpose reviewing the Government finances for the fiscal year which ended on the 30th of June.

It has been in all respects a very remarkable year and withal a most trying one to those charged with the management of the national finances, and will always hold a noteworthy place in the financial history of the country. The previous year had been unfavorably distinguished in much the same way, but in the late year the situation got a great deal worse and reached an acute stage. The Government had to contend at once with deficient revenues and a vanishing gold reserve—either one bad enough, but both together forming a combination to check whose tendency it required all the skill and all the ingenuity of which the ablest and wisest officials might be possessed. There is of course a certain connection between the two, and yet each was at the same time controlled by, and subject to, independent influences and causes; and to make good the deficiency in revenues by no means sufficed to restore and maintain the gold reserve, as was abundantly shown after the November bond issue, when, with the Treasury overflowing with cash, gold was drawn out nevertheless, and in enormous quantities, and a suspension of gold payments was actually imminent at one time at the close of January.

As to the deficient revenues, it is needless to say that they are a novelty in our fiscal affairs. Up to within the last few years such a state of things was actually unknown to the present generation, it belonging to a past era—the period of the Civil War. At the same time the fact should not be overlooked that Government finances have not been in a satisfactory shape for the full period of four years. Even during what may be termed the last two years of the previous Administration, namely the year ending June 30 1892 and the year ending June 30 1893 (the present Administration not having taken office until March 4 1893), it was very difficult to maintain an equilibrium between receipts and disbursements. In both those years there was only a small surplus of receipts if the operations on account of the National Bank Redemption Fund be disregarded, whereas with those operations included there was actually a deficit in both years. Previous to this time we had been accustomed to seeing a very large annual surplus, running for several years above 100 million dollars per annum, but Congress in pursuance of the policy to get rid of these surpluses adopted the two-fold plan of cutting down the revenues while largely and inordinately adding to the disbursements. In 1893-4, when the panic and business depression further materially affected the revenues, the deficiency reached very large proportions—almost 70 million dollars if the Bank Note Redemption Fund be left out of the account, and about 5½ million dollars less if the excess of receipts from that source be included. In the late year the deficiency proves smaller fortunately than was at first supposed, and yet is large enough—being $42,825,049 without the Bank Note Fund and $43,837,000 with the operations of that fund incorporated in the results.

Thus the situation is that, on one basis of reckoning, there has been a deficit for four successive years, a fact of much consequence in estimating the trials and difficulties of the year, and in showing how acute was the crisis which has now happily been surmounted. These continuous deficits not only weakened the Treasury resources, but they weakened public confidence in the Treasury situation. At the same time, as we all know, the public mind had been made very apprehensive on the question of monetary standards, because of our ill-starred silver policy and the unfortunate results attending it—a state of anxiety which the large gold exports, the weakened Treasury condition and the development of the 1893 panic did much to excite and prolong. Unhappily, too, all the developments of the first seven months of the late year were of an unfavorable character. Tariff legislation was

completed much later than had been expected, nearly two months of the fiscal year having elapsed before the new law went into effect. The disturbance occasioned to business interests while the legislation was being perfected was continued to a certain extent, though in a different way, after the law was in force. In the Treasury revenue accounts it proved a deeply disturbing factor, making the receipts fitful and irregular, upsetting estimates as to the present and defying calculations as to the future. Then the cereal crops were short, depriving business recovery of the aid expected from that source. In November came the necessity for another bond issue—a necessity arising not merely out of an impaired condition of the gold reserve but also out of an exceptionally low state of the Treasury cash. In December Congress again convened; the silver agitation was renewed; ill-advised propositions on various questions were offered for discussion and consideration, and there was also a renewal of gold exports. In January confidence became completely undermined, and withdrawals of gold from the Treasury were so continuous and on such a prodigious scale that a suspension of gold payments was only averted through the prompt action of the Government in making the now famous arrangement with the Morgan-Belmont Syndicate.

All this belongs to the record of the year. If it serves to indicate the very remarkable character of the year—how full of anxiety to the Government and people alike—it also serves to point the contrast between the situation as it was and as it is. On February 12th the net gold holdings had been reduced to $41,349,181; at the close of the fiscal year they stand at $107,512,362. Even as compared with the close of the previous year the change in this respect is very decided, for on June 30 1894 the net gold amounted to only $64,873,025. But yet more striking is the improvement which has occurred in the cash balance of the Treasury—that is, the available cash after deducting the current liabilities. On the 30th of June a year ago this balance amounted to only $117,584,436, and thereafter steadily declined. At the time of the November bond issue, or more exactly, on the 27th of November, the balance was only $99,606,765. In other words, not only was the 100 millions gold reserve seriously impaired, but the Treasury actually held less than 100 millions of available cash of all kinds. The bond sale of that month and the further bond sale in February had the effect of raising the available cash, and now at the end of the year it is, according to the debt statement, $195,240,153. Hence, as compared with the low points of the year there has been an increase in the gold reserve from 41¼ million dollars to 107½ million dollars, and an increase in the cash balance from 99⅝ million dollars to 195¼ million dollars. As compared with twelve months ago the net gold is up from 64⅞ million dollars to 107½ millions, and the available cash from 117½ to 195¼ million dollars.

As would be inferred from the great increase in these items the *total* money holdings of the Treasury are also notably larger. Of silver the net amount now is $29,965,754, against $15,730,380; of Treasury notes $30,109,692, against $17,722,408, and of legal tenders $26,166,560, against $18,973,645; of bank notes the holdings were only $4,643,489, against $6,598,893, and of fractional silver $16,552,845, against $17,889,531. Altogether, counting gold, the Government held $214,950,702 of cash in its vaults June 30 1895, against only $141,787,882 on June 30, 1894, an increase in money holdings during the twelve months of over 73 million dollars. The aggregate in the depositary banks has not been greatly changed, being $15,768,941, against $16,121,589. Altogether, therefore, of cash in banks and sub-treasuries the amount is $230,719,643, against $157,909,471.

We have referred above to there having been two bond issues during the year. The first of these was made in November and consisted of $50,000,000 of 5 per cents. It was needed both to re-enforce the gold reserve and to replenish the Treasury cash. The second issue came in February and consisted of somewhat over $62,300,000 of 4 per cents. This issue was necessary solely to re-establish the gold reserve and ensure the maintenance of gold payments. The total addition to the interest-bearing debt consequently during the twelve months has been about $112,300,000. The full amount of this increase is not shown in the debt statement, which reports the interest-bearing debt June 30 1895, $716,202,060, against $635,041,890 June 30 1894, an increase of only 81 million dollars. The reason for the difference is that the foreign half (somewhat over 31 million dollars) of the last loan does not yet appear in the statement of outstanding debt, though the money in payment of the same has been received and counts in the Treasury cash.

Of course the *net* debt has not been increased by the amount of the addition to the funded debt. A part of the proceeds of the bond issues went to make good the Treasury deficiency for the year, but a still larger part went, as we have already seen, to swell the Treasury cash. We make the net debt, including the full amount of bonds issued, and after allowing for cash on hand, $932,830,667, against $899,313,380 June 30 1894, giving an increase of $33,517,287—not such a very bad record after all for a year like that under review, and certainly very much better than would have been supposed possible only six months ago, especially when we consider that the expected revenue from the Income Tax failed of realization because of the decision of the United States Supreme Court declaring the tax unconstitutional.

In the previous year the increase had been $60,343,904, making for the two years an addition to the net debt of $93,861,191. These are the only two occasions since the Civil War when the debt was increased. Previously the debt had been steadily and largely reduced. Of course the change is an unfortunate and a regrettable circumstance, but it should be clearly understood that it represents an abnormal, not a normal, situation, and that it will not be allowed to continue. The policy of this country in the payment of its debt is indicated by the reduction of the debt from $2,756,431,571 August 31 1865 to $838,969,476 June 30 1893, and public opinion will insist that any deviation from this policy shall be but temporary.

Though the net increase in the debt for the twelve months has been only $33,517,287, the actual deficiency of revenues for the year was $42,825,049, and if the operations on account of the National Bank Redemption Fund are included $43,837,000. The Government received a premium on both issues of bonds, and this operated to reduce the increase in debt to that extent. The November issue was sold at 117·077, and hence yielded a premium of about 8½ million dollars, and the February issue was disposed of at 104·49, yielding a premium of about 2¾ million dollars more. As against $42,825,049 deficiency of revenues (not counting the

Bank Redemption Fund) in the late year, the deficiency in the previous year, as already pointed out, was $69,803,261. The improvement is the result both of a decrease in expenditures and an increase in revenues. Aggregate expenditures in 1894-95 were $356,135,216, against $367,525,280 in 1893-94. The pension payments were just about the same as in the previous year, being $141,391,624; the interest account was about three million dollars larger, but the ordinary expenditures were reduced from $198,506,589 to $183,827,672. The reductions in this latter case extend all through the list, the Civil and Miscellaneous expenditures having been $93,272,591 in 1894-95, against $101,943,884 in 1893-94; the War expenditures, $51,820,305, against $54,567,930; the Navy expenditures, $28,800,335, against $31,701,294, and the expenditures for Indians, $9,934,441, against $10,293,481. It has been suggested that the Secretary may have withheld the money for some of the appropriations, but such a policy would find no warrant in the state of the Treasury cash, which, as we have seen, is of the most ample proportions.

As regards the revenues, these were disturbed all through the year by the operation of the new tariff law. In July and August the internal revenue receipts were extraordinarily large by reason of the heavy withdrawals of whiskey from bond to escape the increased tax of 20 cents a gallon. The receipts for the two months were $52,762,000, against only $25,252,000 in the same two months of the previous year. In the succeeding months of course the internal revenue was correspondingly reduced, amounting for the whole of the six months from September to February both inclusive to only $47,376,000, and for the entire year the internal revenue fell 3½ million dollars below that of 1893-4. So too, the Customs revenues furnish no indication of their normal yield. We need only mention the item of sugar in illustration. The importations of that article before the new law went into effect, and consequently when sugar was still on the free list, were pefectly enormous, supplying consumptive wants for months and thus depriving the Government of the revenues from that source. In July the imports were 766 million pounds, in August only 149 millions, and in September but 66 millions, after which the total increased, though only in a small way for a good many months. In the following table we show the Government receipts and expenditures for each year back to 1879, the results being stated exclusive of the operations of the Bank Note Fund. The receipts are divided so as to indicate the amounts derived from Customs, from internal revenue and from miscellaneous sources, while the distribution of expenses under various leading heads is also brought out.

Fiscal Years ended June 30—	Receipts from—

1893	196,856,004	.....	159,357,558	27,264,392	383,477,954	2,341,675
1894	198,506,589	.....	141,177,285	27,541,406	367,225,280	df.69,503261
1895	183,827,672	.....	141,391,624	30,915,920	356,135,216	df.42,825049

† Allowing for the premiums paid, the actual excess in 1888 is $119,612,116; in 1889, $105,053,444; in 1890, $105,341,496 and in 1891, $37,239,763.

It will be observed from the foregoing that while Customs receipts in 1894-5 were nearly 21 million dollars better than in the year preceding, they were 50 million dollars less than in 1892-3, and the smallest of any other year since 1879. Furthermore, the total receipts of all kinds, though 16 millions larger than in 1893-4, were 72 millions less than in 1892-3, and were likewise the smallest of any year, with the one exception, since 1879. There is in these facts and the revival of business activity the strongest of reasons for counting confidently upon a very material increase in the receipts in the current fiscal year. But that phase of the subject we need not discuss here.

THE SITUATION IN NORWAY AND SWEDEN.

Of all the kingdoms of Europe the most peaceful, the most contented, and the one from which any serious trouble to Europe generally was least expected, was that of Norway and Sweden. Latterly, however, Norway has been the scene of great discontent and much political excitement. Partly, however, because of the out-of-the-way position of the two States, and partly also because they have not in many generations been mixed up in any of the European complications, the troubled condition of King Oscar's dominions has commanded but little attention. When civil war is threatened—and this is really the situation—indifference must give way. We have had numerous reports during the last few weeks of quite a serious character. Our latest report is to the effect that the King, having done everything in his power to conciliate the Norwegian Radical leaders, and having failed of his purpose, has resolved to put an end to the strife, peacefully if possible, if not, then by force.

Rightly to understand the situation it is necessary to have correct notions of the relations which Sweden and Norway sustain to each other, and both to the Crown. These relations are peculiar. There is nothing anywhere else in Europe exactly like them. Some have found a resemblance between the present condition of Sweden and Norway and that of England and Ireland. There is really no such resemblance. Ireland demands Home Rule. Norway has Home Rule. The truth is that Norway so far from offering any points of resemblance to Ireland illustrates in a very striking manner the dangers of Home Rule. The nearest approach to anything like the government of Sweden and Norway is the Dual Government of Austria-Hungary. Just as there is a Cis-Leithan and a Trans-Leithan Parliament, so is there a Parliament

at Stockholm and another at Christiana. There are two Houses or Chambers in each case. The Executive is in the hands of the King, who acts under the advice of a Council of State. In Sweden the Council consists of ten members, at the head of which is the Minister of State. In Norway it is composed of at least seven Councillors and two Ministers of State. Two of the Norwegian Councillors and one of the Ministers form a delegation of the Council and reside near the King at Stockholm. The veto power belongs to the King; but a measure which thrice obtains the sanction of the Chambers becomes law in spite of the veto. There has always, and very naturally, been considerable jealousy between the two peoples in regard to public appointments; and public offices in Sweden as a rule are reserved for Swedes, and in Norway for Norwegians.

Such in brief outline is the Government machinery in the dominions of King Oscar. It is not easy to see how more could be granted to Norway without imperilling the Union—a union which has stood the test of eighty-one years, and which under the present line of kings has secured for both Norway and Sweden exceptional peace and prosperity. Prior to 1814 Norway had for some centuries been under the control of Denmark. It had latterly, however, become a mere dependency; and it was deemed advisable by the Powers assembled at Vienna to adjust the affairs of Europe, after the banishment of Napoleon to Elba, to detach that State from Denmark, and to unite it with Sweden. To the union the Norwegians at first offered resistance. It was in vain, however, to resist the will of united Europe, and under the firm, but wise and humane, policy of Bernadotte, King by popular choice, the union was consolidated, and under his son and grandson Sweden and Norway have greatly prospered, having largely enjoyed immunity from the cares and troubles more or less common to the nations of Central, Southern and southeastern Europe. But Norway is not now contented. It may not be just to say that the Norwegians as a whole are discontented. The Radical element has found its way in among them, and the Radical leaders, irreconcilable themselves, have obtained a dominant influence among the people. It does not appear that they have any well-grounded cause of complaint against the Government. The principal cause of complaint, so far as the facts are known, is connected with the diplomatic and consular service. The Norwegians demand a separate service. They demand that Norway shall have at the different courts her own ministers, and at the different consular centres her own consuls. The demand would not be unreasonable if the King and his advisers, in making appointments to such offices, discriminated against Norwegians. But it is not so. Not obtaining what they want the Norwegian Storthing or Parliament refuses to bear its share of the diplomatic and consular expenses. As a result the legislative work in Norway has been brought to a standstill. Such has been the strain that King Oscar, who has shown every disposition to conciliate compatible with the preservation of the Union, has more than once been on the point of resigning.

It is not necessary to enlarge on what seems the unreasonableness, not to say the absurdity, of the position assumed by the Norwegians. Think of Austria and Hungary both sending ambassadors to Washington and London or of both having consulates in Liverpool and New York! Think of Bavaria, Saxony and Wurtemberg ignoring the Imperial bond, and sending abroad each its ambassadors and its own consuls! Union on such terms would be a farce. It is more important to know that the King has become tired of making efforts and sacrifices to bring about a good understanding between his Government and the Norwegian Radicals. It is now confidently affirmed that, having done all that he can do to avert dissensions, having gone so far in the suppression of his personal dislikes and his personal desires as to invite into his Council men who had personally insulted him, King Oscar has made up his mind, if he cannot obtain a suitable Ministry, to seize the reins of government, and, dispensing with the services of the Storthing, give the people evidence that he is prepared to govern the country for their good, even if force should be employed. Such a resolution on the part of the King—a constitutional monarch—reveals the gravity of the situation. If this extreme course is followed there is reason to believe that Norway will offer armed resistance. This will mean civil war. The result, however, cannot be doubtful; for the King has the entire and unqualified sympathy of the Swedes, of whom there are five millions. The population of Norway is under two millions.

What gives this difference a wide interest is the possible interference of outside Powers. It is quite true that the constitutional arrangements which bind Sweden and Norway together are under the sanction of the great treaty-making Powers, and that they are in duty bound to sustain the compact. But treaties are easily gotten rid of when national or dynastic interests are at stake. It is understood that Kaiser William is in thorough sympathy with King Oscar in regard to the use of force if the Norwegians persist in their disobedience. Rumor has it that he is about to visit Sweden, and that he will be the guest of the King at Stockholm, and of his son, Crown Prince Gustave, at Tullgarn. Apart from friendship, Russia is more interested in the future of Sweden and Norway than is Germany. The United Kingdom stands between her and the North Sea; and at the present moment she is worried as to how to find something like compensation for the advantages Germany has obtained through her new canal. It is difficult to see how she could obtain any advantage by interfering with Sweden. But war brings about strange surprises. One of the latest suggestions of the Russian press is that the Kiel Canal should be made neutral; and Germany is reminded that Holstein, through which the canal is cut, was ceded by the Empress Catharine to Denmark as the guardian of the Straits and the commander of the Baltic. This suggestion is probably of no moment, but at the same time it might be wiser if Europe would stand aloof and leave King Oscar to fight his battles with his own people alone.

PHYSICAL CONDITION OF RAILROADS—II.

Two weeks ago we discussed the reports of the operating department of railroad properties as a test of their physical condition; and suggested the importance of ascertaining as far as may be whether sufficient repairs and improvements were being made from year to year to keep road and equipment in effective condition. To-day we wish to give a warning against placing too great dependence upon the ratio of operating expenses (i. e., the proportion they bear to gross earnings) in the effort to determine how thoroughly a property is being

cared for, and finally to mention a plan by which we hope to afford a better guide in this respect than any heretofore in general use by investors.

The ratio of operating expenses to gross earnings is a feature which is widely misused. Many persons in their anxiety to assure themselves that the reported net earnings are not made at the expense of the property give the ratio a significance that it does not possess. If operating expenses are as high as 75 per cent or over, they assume a liberal policy of maintenance, and if below 60 per cent imagine a dangerously small outlay for maintenance. True, these assumptions may be in many cases correct, but uncertain they are always, absolutely false not infrequently. It will help the reader to an appreciation of what our plan seeks to accomplish if he will allow us to rehearse various facts, although perhaps well known to him, that indicate the poor reliance this ratio, of which so much is made, really is.

In the first place we scarcely need say that the rates which the roads obtain for their traffic have a most essential effect upon the proportion between their operating expenses and gross earnings. Certain roads, especially bituminous coal roads, get only about five tenths of a cent for each ton of freight carried one mile. If, as is often true, four tenths of a cent or thereabouts must be deducted from this to meet the expenses of operating and maintaining the road, the net earnings which remain may be but one tenth of a cent for each ton carried a mile, the operating expenses being in this case 80 per cent. But if on the other hand a company is able to secure one cent a ton a mile—a not uncommon rate even now—and if, as might well be true in some instances, it costs no more to carry the freight and to maintain the road than in the first case (i. e., four tenths of a cent a ton a mile), the net earnings would be six tenths of a cent a ton a mile and the operating expenses only 40 per cent. When we add that there are some roads able to command far higher rates for traffic—the San Francisco & Northern Pacific for instance as high as 4·86 cents a ton a mile—the futility of taking the ratio of operating expenses for a proof of good or bad maintenance is at once apparent. A fall in the amounts obtained for transportation per unit of freight is alone sufficient to occasion, as in fact it has occasioned again and again, a great increase in the ratio of operating expenses without any corresponding increase in the sums spent for maintenance. At one time, it will be remembered, the Pennsylvania Railroad had operating expenses of only 45 per cent, but then it averaged over three cents a ton a mile on its freight.

Other causes which often greatly disturb the ratio are those which determine the size of the train-loads, for other things being equal it costs but little more to move 200 tons of freight to the train than it does to move 100 tons—possibly a few more cars and two or three more men to the train, a little more coal and a little more expense for wear and tear, but thereby the gross earnings are doubled and the average cost per ton is greatly lessened. The number of tons of freight carried per train is therefore an important element in the calculation, and one that affects wonderfully at times the capacity of a road for producing net earnings, and so necessarily affects the ratio of operating expenses.

The freight trains of a company (and to some extent the passenger trains also) carry on the average a load which is evidently determined by a number of conditions, among which the following are noteworthy: (1) The density of traffic, or the amount of business that is done, and the greater or less equality of traffic in opposite directions. (2) The character of the grades to be overcome, especially in the direction of the greatest traffic. Short and heavy grades upon which additional engines can be used profitably, hence called "pusher grades," are less serious obstacles than a number of longer and lower grades, which limit definitely the possible traffic per train. (3) The character of the road and its equipment; this was made clear last week in the citations from the Richmond Terminal reorganization plan—light rails laid with little or no ballast, frail bridges and poor equipment make impossible the doing of a large business economically. As we have already said, all our progressive companies have of late years effected great economies in operation by using consolidation engines, which can move several times as much freight as the old type, but these engines are forbidden to companies which have not heavy rails, a good road-bed and strong bridges. Those in a position to judge say that the economies of the future will be in the way of reducing curves and grades and so still further increasing the train-load possible of realization. A road like the Lake Shore that can average 270 tons of freight to a train, will, other things being equal, have a decidedly lower rate of operating expenses than a road limited to 100 or 150 tons per train.

Finally, to maintain and to operate a road which is in bad physical condition, and which it is a constant struggle to keep in a condition to do the business offering, often means an extraordinarily high rate of operating, the track and bridges absorbing the profits. And if to this is added a lack of equipment of its own, so that the road is obliged to resort largely to car trusts or to pay mileage rates to an excessive amount to foreign roads—these rates being purposely made high to induce the prompt return of cars to the owners—there may be no net earnings at all.

All these things unite to render the ratio of operating expenses an unreliable test if we wish to know with any certainty the manner in which a road is being sustained. The Inter-State Commerce Commission nevertheless makes much use of this ratio, and in its summaries of the ten groups into which it divides the railroads of the country it goes one step further and calculates the percentage of that part of the operating expenses which is represented severally by the expenditures for maintenance of way and structures, for maintenance of equipment, for conducting transportation, etc. Percentages of such a variable quantity may have their place, but to the ordinary mind they are bewildering. They are also likely to leave wrong impressions, for when we are told by the Commission that in 1893 group II. (comprising the States of New York, Pennsylvania, New Jersey, Delaware and Maryland) devoted only 17·83 per cent of the operating expenses to maintenance, contrasting with as high as 23 per cent in some other groups, we may be excused if we overlook the truth of the matter, which is that the amount so spent was equivalent to over $1,900 per mile in group II., as against $650 to $850 per mile in these other groups.

In practice we need something tangible on which to base conclusions regarding the character of a road, and the manner in which it is being maintained physically. A few companies in their annual reports are explicit in this respect, and more will be when the public signify their desire for fuller information. The Missouri Pacific has recently taken a commendable step in giving in its report the data with regard to

rails and ballast. The Lake Erie & Western has gone further, and issued a complete description of its property. A few of the State Railroad Commissions require statements as to road-bed, bridges, etc., and we may hope the practice will become general. The protection of the investing public requires that it should. To further the movement we have prepared a little table intended to give as clearly as possible the physical characteristics of a property and the changes they are undergoing. So far as we can secure the facts for this table we propose to incorporate them into the abstracts of railroad reports which we publish from week to week in the CHRONICLE. If meagre at first they will be improved as time goes on.

The table referred to is given next below. To make it clear, we have filled in the facts relating to the New York Ontario & Western—one of the smaller companies, but one that has been conspicuously active in improving its property. The years mentioned are for the fiscal years ending June 30.

Road owned—	1894.	1893.
Main line and br'ches owned	319	319
Weight of Rails—	*Miles.*	
75 lbs., main line	97	...
67 lbs., do	61	...
56 lbs., do	150	...
50 lbs., branches	11	...
Ballast—	*Miles.*	
Stone	5	...
Cinder	30	...
Gravel	184	...
Natural soil etc.	100	...
Total leased lines	105	105
Trackage	53	53
Total operated	477	477
Sidings	100	98
Bridges etc (feet)—		
Iron bridges	16,907	16,303
Wooden bridges	3,007	3,557
Trestles	21,7 0	22,322

Total Equipment—	1894.	1893
Locomotives	143	134
Passenger cars	123	123
Freight, etc., cars	4,755	4,752
No. under car trusts	1,350	1,350
Special statistics—		
Gross earnings p. m.	$4,039	$7,7 6
Op. per train mile	1,314	1,289
Train loads'—		
Freight (cars loads)	170	157
Pass. (train pass'r)	37	41
Maintenance & renewals of track and bridges—		
Permanent renewed and leased 1234 m.	$1,156	$1,097
Rails laid (tons) p. m.	9½	9
Ties laid (No.) p. m.	749	505
Av. per car spent out of earns for maintenance & renewals of all cars	$47	$52

* Per train mile.

Let the reader notice what a picture of the property he has before him in this table. The rails, originally iron and later light steel, are being replaced by new steel weighing 76 pounds to the yard, of which 3,194 tons were laid in 1894-95. Its ballast consists chiefly of gravel, but stone is also being laid. The bridges are mostly iron, the iron bridges aggregating 16,907 feet, as opposed to 3,007 feet of wood, and the wooden bridges are on the decrease, a reduction of 600 feet having been made in the fiscal year 1893-94. The road has about four miles of trestles, but the roadway at those points is being gradually filled in, the trestles being reduced by 550 feet in 1893-94. Such structures are expensive to keep in repair, and well-conducted companies make a point of dispensing with them as fast as possible. Any road containing a large amount, like the St. Louis Southwestern, with its 49 miles of trestles, is necessarily expensive to operate.

The figures pertaining to rolling stock uncover the fact that there has been during the year no change of moment in its amount—no increase and no loss through failure to replace cars dismantled. Such is the description, with its record of improvements, made of course in part through capital expenditures and in part through the application thereto of the earnings of the road.

But it may be asked, how about the amount of earning applied to "maintenance of way and structures?" Improvements have, as we have seen, been carried on, but what proof have we that a proper amount of the renewals has been charged to operating expenses? For this we must turn to the items furnished under the heading "special statistics," and among these particularly to the amount per mile spent for maintenance of way and structures. Subject to variations though this item is, according to the class of road and weight of traffic, it is nevertheless free from disturbance by the rates received for traffic, and when intelligently used it is, within certain limits, a most valuable guide, enabling one to make comparisons between a road whose management is in question with one of established reputation, that is similarly situated as regards character of property and class of business. Engineers and practical men have long recognized its value, but investors generally have not awakened to its importance. We shall devote another article to its consideration.

THE NEW YORK CENTRAL STATEMENT.

In studying the results of the New York Central for the fiscal year ending June 30 it should be remembered that the last two years have been such as to test the stanchest of railroad properties. There can be no question that the exhibit is disappointing, but there is nothing singular or surprising in that. Many other companies have also presented disappointing exhibits—the Chicago & North Western for instance, which like the New York Central is well managed and which has an enviable record of prosperity. The fact is, the conditions have been unfavorable, and a poor outcome could not be avoided in the face of those conditions.

Perhaps what makes the exhibit wear an especially unsatisfactory look in the Central case is that the company at the previous quarterly date had reduced its dividend from the basis of 5 per cent per annum to a 4 per cent basis, and that there is now a large deficiency even after the reduction. But that fact is significant chiefly in showing that the cut in the dividend rate was a wise step. As a matter of fact the company paid more than 4 per cent during the twelve months—it paid 4¼ per cent. Still the earnings fell over a million dollars short (actually $1,071,200) of meeting this 4¼ per cent. In the previous year, which is recognized as having been an extraordinarily poor year, there was a deficit of only $786,340 after paying 5 per cent dividends. But though the aggregate of the dividends in 1894-5 was ¼ per cent less than the aggregate in the previous year, the sum paid out in dividends came within $249,000 of that paid in 1893-94. The explanation is that the amount of the stock has been increased, so that it now requires a larger sum to pay a given dividend. With the total of the dividends 4 per cent instead of 4¼ per cent, the deficit, calculated upon the average amount of stock outstanding, would have been only $589,000 instead of $1,071,200.

This matter of the increase in the stock also has a bearing upon the future, for it shows that the call for dividends at any given rate will be correspondingly larger than it has been before. The stock is now just 100 million dollars, and to pay 4 per cent this requires four million dollars. The surplus above charges in the late year, according to the present preliminary return, was $3,268,800. Hence in this very exceptional year the property is able to show over 3¼ per cent earned on the full amount of stock now outstanding.

That the year was exceptional—that the conditions and influences generally were unfavorable—is not open to doubt. But some persons seem to have expected better results than in the year preceding in view of the revival of business activity. Instead there has been a further decrease in both gross and net. Gross, which in the previous year had decreased from $46,936,693 to $43,678,200, has declined further to $42,591,000, and net, after dropping from $14,644,816 to $14,169,794, is now down to $13,834,700. But if we examine the

results by quarters. we find that the further decline in the late year, at least in the gross, is due entirely to losses in the six months from July to December; that in the six months from January to June the earnings were better than in the corresponding period of 1894, and that the last quarter of the year made on the whole the best showing of all. In the September quarter gross earnings decreased $1,371,026 and net earnings $217,695; in the December quarter gross fell off $509,683, while net gained $160,689; in the March quarter there was an increase of $112,964 in gross, with a decrease of $426,619 in net; while in the June quarter gross gained as much as $680,613, though the addition to net (on account of increased operating expenses) was only $148,607. By combining the last two quarters we find that for the half-year gross earnings have increased $793,577, while net has diminished $278,012. That this is a good showing, all things considered, will appear when we say that in the same six months the gross of the Lake Shore & Michigan Southern, as was shown last week, increased only $140,076 and the gross of the Michigan Central but $31,000. As to the Central's loss in net in face of the larger gross, it is in part to be ascribed to the severe winter weather, which occasioned heavy outlays for removing snow and keeping the lines open.

But it may be said the Pennsylvania is now showing very striking gains; why should not the Central record a like degree of improvement? The answer is that the Pennsylvania suffered very much heavier losses than the Central a year ago, and furthermore that the Central is not in a position to gain from the revival in trade to the same extent as the Pennsylvania. The Pennsylvania is very largely dependent upon the condition of the iron and steel industries, and upon the demand for coal, of which latter commodity it is the largest carrier in the country. Both these industries were extraordinarily depressed last year; first by reason of the general prostration of business and still more by reason of the strike of the bituminous coal miners; in the month of May that year the Pennsylvania also suffered from the tremendous floods in the State of Pennsylvania. The present year the iron and steel trades are buoyant beyond all others, while the shipments of coal are again on a large scale; and both inure to the special advantage of the Pennsylvania, just as the reverse conditions a year ago operated to its detriment.

It is to be borne in mind, too, as regards the revival in business, that it is only within the last two months that it has reached large proportions. During the early months of the year the recuperative process was retarded by the critical condition of the United States Treasury, and even after the contract with the Syndicate the uneasy feeling was not altogether removed until it was seen how thoroughly and effectively the Syndicate was doing its work. Then the Central, like the Western roads, suffered from the contraction in the grain tonnage and the other adverse effects resulting from last season's short cereal crops. We showed a week ago that the receipts of grain at the Atlantic seaboard for the period from January 1 to June 22 in 1895 had been only 52,436,536 bushels, against 63,463,584 bushels in the corresponding period of 1894, 80,174,272 bushels in 1893 and 137,424,198 bushels in 1892.

Furthermore, what little grain tonnage there was had to be carried at very low rates. As we have repeatedly pointed out in these columns, the rate situation among the trunk lines has for a long time been very unsatisfactory, and steadily growing worse. On the grain tonnage especially rates were utterly demorolized. How bad the state of things in this particular was, and also the urgency and need felt for a remedy, was shown in the calling together of the trunk-line presidents last week, and their action in deciding to restore and maintain rates.

Altogether, bearing these various considerations in mind, it is not surprising that the Central for the late year should not have been able to make more satisfactory results. The following carries the yearly totals of the Central back to 1872.

Fiscal Years *	Gross Earnings.	Net Earnings.	Interest and Rentals.	Net Profit.	Dividends.		Surplus or Deficit.
	$	$	$	$	P. Ct.	$	$
1872....	25,580,672	9,134,239	1,162,368	7,971,871	(8)	7,244,832	+727,039

* For 1895, 1894, 1893, 1892, 1891 and 1890 fiscal year covers the twelve months ending June 30; for all the years preceding, the twelve months ending September 30. Operations of the Rome Watertown & Ogdensburg are included since March 14, 1891.

† In this year 10 per cent altogether was paid. As, however, there was no increase in the *rate* of dividend, the aggregate distribution being larger simply because of a change in the dividend periods from semi-annual to quarterly, we have allowed only for the ordinary 8 per cent.

‡ In this year the method of charging dividends was changed, the October, 1884, dividend of 1½ per cent, which under the old arrangement would have come out of the 1884-85 earnings, being charged to accumulated income, and the next four quarterly dividends, aggregating 3½ per cent, charged to the 1884-85 earnings, this plan having since then been regularly pursued.

§ Partly estimated.

It will be interesting to compare the figures of the Central with those of the other trunk lines—the Pennsylvania, the Erie and the Baltimore & Ohio. We cannot make up the earnings of these latter for the full twelve months, as the returns for June are not yet available, but we can give the totals for the eleven months to May 31. The comparison is found to be unfavorable to the Central. While the latter's gross earnings diminished $1,087,133 or 2·49 per cent, those of the Baltimore & Ohio fell off only $148,050 or but 0·71 per cent, and those of the Pennsylvania increased $2,450,882 or 4·49 per cent. The Erie sustained a decrease of $1,062,283 or 4·36 per cent. Apparently, therefore, the Central fared worse than the others with the exception of the Erie. But, as already said, these other roads all suffered very much heavier losses in the previous year. To bring out that fact we have added a column in the following table to show both the amount and ratio of decrease for each of the roads in this previous year.

Name of road—		1894-95. $	1893-94. $	—Decrease.— $	P. C.	—Decrease previous years— $	P. C.
Erie (11 Months)	Gross.	23,297,585	24,359,868	1,062,283	4·36	3,941,073	13·72
	Net...	6,593,497	6,999,671	406,174	5 80	1,937,178	1·76
Baltimore & Ohio (11 Months)	Gross.	20,618,026	20,766,076	148,050	0·71	3,216,603	13·41
	Net...	6,072,121	6,295,497	223,376	3 55	134,473	2·09
Pennsylvania (11 Months)	Gross.	57,026,583	54,575,701	*2,450,882	4·49	9,673,646	15·06
	Net...	18,154,347	16,589,626	*1,544,721	9·43	1,980,979	10·67
N. Y. Central (12 Months)	Gross.	42,591,069	43,678,202	1,087,133	2·49	3,258,491	6·94
	Net...	13,884,776	14,169,795	335,019	2·33	475,021	3·24

* Increase.

The foregoing makes it very plain why the Central, by the face of the returns, has not done as well as the

other trunk lines. In its case the comparison is with less unfavorable results for the preceding year; that is to say, in 1893-4, when the gross of the Erie had fallen off $3,841,073 or 13·73 per cent, the gross of the Baltimore & Ohio $3,216,693 or 13·41 per cent, and the gross of the Pennsylvania (Eastern lines) as much as $9,673,646 or 15·06 per cent, the Central showed a loss of only $3,358,491 or 6·94 per cent. To complete the analysis and bring out this fact more strikingly, we present herewith a comparison of the earnings for 1894-5, with those of 1892-93.

Name of road—		1894-95. $	1893-94. $	Decrease. $	Decrease. P. C.
Erie (11 Months)	Gross	18,207,585	22,879,396	4,671,811	16·70
	Net	5,661,467	*5,661,467	2,301,112	25·87
Baltimore & Ohio (11 Months)	Gross	20,618,026	23,982,679	3,364,653	14·03
	Net	6,077,121	6,429,970	357,849	5·57
Pennsylvania (Eastern lines) (11 Months)	Gross	57,[illegible]263	64,[illegible]846	7,222,763	11·24
	Net	19,[illegible]47	19,[illegible]05	416,258	2·24
New York Central (12 Months)	Gross	13,[illegible]993	14,[illegible]993	1,345,624	9·26
	Net	13,854,776	14,664,816	810,040	5·53

* Figures were on a slightly different basis in this year, not including miscellaneous income.

Thus when the comparison is with two years ago the Central is seen to have done better rather than worse than the others. It shows $4,345,624 or 9·26 per cent decrease in gross for the two years, while the gross of the Pennsylvania fell off $7,222,763 or 11·24 per cent; that of the Baltimore & Ohio $3,364,653 or 14·03 per cent, and that of the Erie $4,671,811 or 16·70 per cent. The heavier losses in these latter instances may be ascribed chiefly to the fact that the roads are all large coal carriers, and that the industrial depression greatly diminished the demand for coal, while in the Central's case the coal tonnage forms a much smaller proportion of the total freight business. In the net the comparison is also quite favorable to the Central. That road has lost during the two years $810,040, or 5·53 per cent. The Pennsylvania has done still better, having but $416,258 or 2·24 per cent decrease in net. But on the other hand, the Baltimore & Ohio has $357,849 loss, or 5·57 per cent, and the Erie $2,301,112 loss, or 25·87 per cent.

Clearings by Telegraph.—Sales of Stocks, Bonds, &c.—Stock Exchange Clearing-House Transactions.—The subjoined statement, covering the clearings for the current week, usually appears on the first page of the CHRONICLE, but on account of the length of the other tables is crowded out once a month. The figures are received by telegraph from the leading cities. It will be observed that as compared with the corresponding week of 1894 there is an increase in the aggregate of 30 per cent, the total in each year embracing only five business days, in consequence of the Fourth of July holiday. So far as the individual cities are concerned New York exhibits an increase of 38 per cent, and the gains at other points are: Boston 30·3 per cent, St. Louis 17·1 per cent, Chicago 30·5 per cent, New Orleans 12·2 per cent, Philadelphia 7·8 per cent and Baltimore 6·3 per cent.

CLEARINGS. Returns by Telegraph.	Week Ending June 6. 1895.	1894.	Per Cent.
New York	$[illegible]211,934	$399,532,707	+38·0

Monetary and Commercial English News

[From our own correspondent.]

LONDON, Saturday, June 22, 1895.

Seldom has money been so cheap at the end of a half-year as it is in London at present. During this week six months bank bills were discounted at the rate of 13s. 1½d. per cent per annum and loans have been made for 7 days at ¼ per cent. The stock of coin and bullion held by the Bank of England exceeds 38 millions sterling, and the reserve exceeds 29½ millions sterling, while gold continues to come in from abroad. Evidently, therefore, money will remain abundant and cheap for a long time to come.

The silver market is for the time being under the influence of the varying rumors concerning the Chinese loan. The loan contract was signed in St. Petersburg on Thursday, according to telegrams from that city, by the representative of China, the Russian Finance Minister and the representatives of the French banks. This, however, is contradicted on good authority here, and the loan has not yet been sanctioned by the Emperor of China. It is known that the Chinese Government object to many of the conditions, especially to give some securities demanded and also, it is said, to borrow further in Paris. But it is thought hardly probable that

the Chinese Government will now withdraw from the contract, as that would give grave offence both to Russia and France. Perhaps, therefore, it will recognize the alleged act of its representative at St. Petersburg. Germany, however, is using all her influence against the arrangement. In the meantime the price of silver is fluctuating between 30⅛d. and 30½d. per ounce, with rather a weak tendency, and the Eastern exchanges are all declining. There is still a good demand for India Council bills. On Wednesday, for example, the applications were for twice the amount offered: but the price obtained was again somewhat lower. Money is becoming easier in India. The Bank of Bombay has lowered its rate to 5 per cent and the Bank of Bengal maintains its rate also at 5 per cent. But it is not thought probable that there will be much further decline, as trade is fairly good throughout the country for this season of the year, and as enterprises of all kinds, especially railway building, are being pushed forward more energetically than for some years.

The Stock Exchange has been very thinly attended all this week, owing to the absence of so many members at the Kiel festivities and at the Ascot races. Indeed there is more holiday-making going on just now than for many years so early in the season. The tone of the markets nevertheless has been strong, and the expectation is general that business is about to improve in every direction. In the American department, however, there has been more inclination this week to sell than to buy, chiefly owing to rumors that gold will be withdrawn in considerable amounts from the United States Treasury. What little basis there is for these rumors your readers of course know. Operators are afraid to make extensive short sales, as the support of the market from New York is very good, and therefore every now and then the "bears" rush in to buy back. The general public is still holding aloof from the market, but it is taking good bonds on a fair scale.

For the moment the best American bankers here are not selling fresh bonds to any extent, but they all report that where the bonds are undoubtedly good there is no difficulty in disposing of them, and that indeed the demand is rather in excess of the supply.

The reports from the South American countries are all favorable. The political outlook in Argentina is better, and trade there is undoubtedly improving. There is some improvement likewise in Uruguay. The new Brazilian Government is giving much satisfaction to its friends in London. And the Chilian Government is proceeding successfully with the resumption of specie payments. On the other hand the difficulties of Australian reconstructed banks are increasing. Four of the banks have now applied to their depositors for a reduction of the interest to 2½ per cent, and most of them state frankly that if the depositors do not agree nothing will be paid. In one case the proposal has been accepted, and it is said that the negotiations in the other cases are going on satisfactorily. The Royal Bank of Queensland is offering the British depositors 4 per cent debentures in place of the 4½ per cent deposits, the debentures to run for ten years and to be redeemable at 103 by 6 months notice at the option of the bank.

Inter Bourse securities are fairly well maintained. There has been very little activity in Paris this week, chiefly because of the uncertainty respecting the Chinese loan. If, however, China definitely sanctions the loan nobody doubts that there will be a general rise to prepare for the issue, which in that case is expected to be about the end of next week. But it is to be recollected that at the close of June holiday-making begins in Paris, and for a couple of months, therefore, the attendance on the Bourse there is likely to be very small.

In the South African department there is a very hopeful feeling. Prices have risen somewhat during the week in spite of the absence of business, owing mainly to renewed buying from Paris, and every one is looking for a great extension of business before long. The reports from the mines are most encouraging, and the extraordinary cheapness of money here, and, indeed, all over Europe, makes it reasonably certain that speculation will extend in many new directions.

Owing to the low rates consols rose in the beginning of the week to the highest quotation ever yet recorded—106⅝. It is to be borne in mind that in eight years now the interest will be reduced to 2½ p. c. During the last few days, however, there has been some decline in the price, but only very slight. All other sound securities have likewise risen, and especially there has been a great advance in Water Companies' stocks, as it is now believed in the city that the decision of the Parliamentary Committee will be favorable to the Companies.

The following return shows the position of the Bank of England, the Bank rate of discount, the price of consols, &c., compared with the last three years:

	1895 June 19.	1894 June 20	1893. June 21.	1892. June 22.

Messrs. Pixley & Abell write as follows under date of June 20:

Gold—There has been sufficient demand to absorb all arrivals, but not enough to admit of any advance in price. The Bank has received £245,000 during the week. Arrivals: Australia, £188,000; China, £26,000; India, £28,000; South Africa, £75,000; Chili, £3,000; total, £320,000. Shipments: Calcutta, £7,500; Bombay, £103,000.

Silver—With India out of the market, silver has been chiefly supported by a number of special orders. The movements have been very small, and range between 30⅜d. on the 14th, and 30⅜d. to day. Arrivals: New York, £407,000; Chili, £47,000; total, £234,000. Shipments: Calcutta, £2,500; Bombay, £122,500.

Mexican Dollars—A few parcels have changed hands during the week, and the last price was 30⅜d. Arrivals from New York, £75,000.

The quotations for bullion are reported as follows:

(a) In addition to the above there was executed at the Mint at Philadelphia $244,000 in 20 cent pieces for Ecuador.

CHANGES IN LEGAL TENDERS AND NATIONAL BANK NOTES TO JULY 1.—The Comptroller of the Currency has furnished us the following, showing the amounts of national bank notes June 1, together with the amounts outstanding July 1, and the increase or decrease during the month; also the changes in legal tenders held for the redemption of bank notes up to July 1.

National Bank Notes—		
Amount outstanding June 1, 1895..... ...		$211,388,029
Amount issued during June.....	$1,368,092	
Amount retired during June.....	1,155,423	212,669
Amount outstanding July 1, 1895*.....		$211,600,698
Legal Tender Notes—		
Amount on deposit to redeem national bank notes June 1, 1895.		$26,418,451
Amount deposited during June..	$275,572	
Amount released and bank notes retired in June	1,155,423	879,951
Amount on deposit to redeem national bank notes July 1, 1895		$25,538,600

* Circulation of National Gold Banks, not included in above, $90,337

According to the above the amount of legal tenders on deposit July 1 with the Treasurer of the United States to redeem national bank notes was $25,538,600. The portion of this deposit made (1) by banks becoming insolvent, (2) by banks going into voluntary liquidation, and (3) by banks reducing or retiring their circulation, was as follows on the first of each of the last five months:

Deposits by—	March 1.	April 1.	May 1.	June 1.	July. 1.
	$	$	$	$	$
Insolvent bks	1,085,143	1,022,020	1,021,821	949,924	1,017,913
Liquid'g bks	5,139,095	5,182,068	5,172,358	5,264,718	5,169,660
Red'c'g under act of 1874*	22,244,094	21,398,673	20,900,718	20,203,809	19,351,027
Total.....	28,467,332	27,602,761	27,094,599	26,418,451	25,538,600

* Act of June 20, 1874, and July 12, 1882.

BONDS HELD BY NATIONAL BANKS.—The following interesting statement, furnished by the Comptroller of the Currency, shows the amount of each class of bonds held against national bank circulation and to secure public moneys in national bank depositaries on June 30.

Description of Bonds.	U. S. Bonds Held June 30, 1895, to Secure—		
	Public Deposits in Banks.	Bank Circulation.	Total Held
Currency 6s, Pac. RR ..	$1,152,000	$12,378,000	$13,530,000
5 per cents, 1894	525,000	12,896,950	13,421,950
4 per cts., funded 1907..	11,993,000	149,382,100	161,375,100
4 per cents, 1895	576,000	10,465,500	11,040,500
2 per cts., funded 1891...	1,033,000	22,558,350	23,591,350
Total, ...	$15,279,000	$207,680,800	$222,958,800

IMPORTS AND EXPORTS FOR THE WEEK.—The following are the imports at New York for the week ending for dry goods June 27 and for the week ending for general merchandise June 28, also totals since the beginning of the first week in January.

FOREIGN IMPORTS AT NEW YORK.

For Week.	1892.	1893.	1894.	1895.
Dry Goods....	$1,941,439	$2,211,955	$908,489	$1,972,330
Gen'l mer'dise.	9,530,262	8,003,210	5,276,477	6,667,068
Total.....	$11,471,701	$10,215,065	$6,182,966	$8,639,398
Since Jan. 1.				
Dry Goods....	$61,313,836	$73,726,359	$41,633,047	$74,213,574
Gen'l mer'dise.	224,467,206	254,470,002	173,270,562	186,010,884
Total 26 weeks	$285,781,042	$328,212,421	$214,923,609	$260,223,458

The imports of dry goods for one week later will be found in our report of the dry goods trade.

The following is a statement of the exports (exclusive of specie) from the port of New York to foreign ports for the week ending July 2 and from January 1 to date:

EXPORTS FROM NEW YORK FOR THE WEEK.

	1892.	1893.	1894.	1895
For the week	$6,020,121	$7,188,417	$7,234,485	$6,716,315
Prev. reported	198,169,604	168,969,087	180,153,940	166,438,869
Total 26 weeks	$204,189,725	$176,157,504	$187,392,425	$173,185,184

The following table shows the exports and imports of specie at the port of New York for the week ending June 29 and since January 1, 1895, and for the corresponding periods in 1894 and 1893:

EXPORTS AND IMPORTS OF SPECIE AT NEW YORK.

Gold.	Exports.		Imports.

WALL STREET, FRIDAY, JULY 5, 1895.—5 P. M.

The Money Market and Financial Situation.—The national holiday and the first of July settlements have had their usual effect upon business in Wall Street, which has been limited in volume and largely of a professional character during the week.

There is, however, a steady but moderate demand for investment securities, especially for those dealt in in Europe, which reflects a foreign sentiment in favor of Americans. It is reported that another block of the Southern Railway bonds has been negotiated abroad.

The proposed plan for reorganizing the Northern Pacific Railroad Company, as announced by the Adams Committee, has met with a serious obstacle to its progress in the State laws of Minnesota, but whether this can be overcome or will result in the abandonment of the plan does not yet appear.

The market to-day for both bonds and stocks has been firm, and prices at the close are generally at the highest point of the week.

In the money market rates have fluctuated somewhat under the July 1st disbursements and demand.

The open market rates for call loans during the week on stock and bond collaterals have ranged from 1 to 1½ per cent. To-day's rates on call were 1 to 3 per cent. Prime commercial paper is quoted at 2¾ to 3 per cent.

The Bank of England weekly statement on Thursday showed a decrease in bullion of £64,627, and the percentage of reserve to liabilities was 59·17, against 61·25 last week; the discount rate remains unchanged at 3 per cent. The Bank of France shows a decrease of 3,125,000 francs in gold and 8,575,000 francs in silver.

The New York City Clearing-House banks in their statement of June 29 showed a decrease in the reserve held of $3,324,000 and a surplus over the required reserve of $34,225,925 against $33,544,250 the previous week.

Foreign Exchange.—There is no change to note in the foreign exchange market, which has been dull but firm, with rates at the highest point of the season.

To-day actual rates of exchange were as follows: Bankers' sixty days sterling, 4 88¼@4 89; demand, 4 89⅛@4 89⅜; cables, 4 89⅜@4 90.

The following were the rates of domestic exchange on New York at the under-mentioned cities to-day: Savannah, buying par, selling ⅛@1-10 premium; Charleston, buying par, selling ⅛ premium; New Orleans, bank, $1 50 premium, commercial 50c. premium; Chicago, 60c. per $1,000 premium; St. Louis, 75c. per $1,000 premium.

Posted rates of leading bankers are as follows:

July 5.	Sixty Days.	Demand.
Prime bankers' sterling bills on London	4 88 @4 89½	4 90 @4 90⅛
Prime commercial	4 88⅛@4 88⅝	.....
Documentary commercial	4 87⅞@4 88	.....
Paris bankers' (francs)	5 16⅛@5 15 15/16	5 14⅜@5 13 11/16
Amsterdam (guilders) bankers	40⅛@40 5/16	40⅜@40 7/16
Frankfort or Bremen (reichmarks) b'kers'	95⅛@95 9/16	95 15/16@96

United States Bonds.—Sales of Government bonds at the Board include $37,000 5s coupon, at 116⅝ to 116¾; $6,500 4s, coupon, at 112¾ to 113; $3,000 5s, registered, at 116⅞, and $1,000 4s, registered, 1907, at 112½. The following are the closing quotations:

State and Railroad Bonds.—Sales of State bonds at the Board include $12,500 Virginia fund. debt 2-3s of 1991 at 61⅛ to 62¼; $89,000 Tenn. settlement 3s at 89 to 90¼; $6,000 Alabama Class A at 108 and $4,500 Virginia 6s, def'd trust receipts, stamped, at 6

The market for railroad bonds has been dull but prices are generally well sustained. Among the most active are Sav. & Western 1st rects., which have further advanced nearly 3 points. Southern Ry. 1st 5s have been in demand, and it is reported that the company has negotiated a large block of the bonds abroad. Some of the No. Pacific issues have declined, as it is announced that there are obstacles in the way of progress of the Adams Committee's plan for reorganization. Other issues more or less conspicuous during the week include the Atchisons, Ches. & Ohio, Kan. Pac., Mo. Kan. & Tex., Mob. & Ohio, No. Pac., Phila. & Reading, Rio Gr. Western, Tex. Pac. and Wabash bonds.

Railroad and Miscellaneous Stocks.—The stock market with a few exceptions has been dull and uninteresting. The railroad list has been relatively strong on a continued favorable crop outlook and some buying for the foreign account. Efforts to depress the grangers in sympathy with the decline of industrials have not been successful. A movement is believed to be in contemplation which will put the coal business on a better paying basis, in view of which some of the leading coal stocks have advanced over 1 point. Activity in several Southwestern shares has continued and Mo. Kan. & Tex. common and preferred and Mo. Pac. are fractionally higher than last week. Southern Ry. preferred shares have advanced over 2 points and Southern Ry. common and Louisville & Nashville are also higher. New York & N. E. reflects the better conditions which the future has in store for it and has advanced 3 points.

The speculative element has been chiefly interested in the industrial list. Am. Sugar sold down to 105 on Monday but has recovered, closing at 111¾. Chicago Gas has declined 4 points on further liquidation of its shares. Col. Fuel & Iron has been a prominent feature on the funding of its floating debt and gained over 6 points. Am. Tobacco has fluctuated widely under various influences, favorable and otherwise, selling at 107⅛ on Monday and closing at 113¼ against 113¼ last week. Distilling has been active and steady. Gen. Electric has gained about a point. U. S. Rubber has regained over 2 points of the loss resulting from the bear raid of a week ago. U. S. Leather shares are again in favor and both the common and preferred are higher than last week.

NEW YORK STOCK EXCHANGE—*ACTIVE STOCKS for week ending JULY 5, and since JAN. 1, 1895.*

Investment AND Railroad Intelligence.

RAILROAD EARNINGS.

The following table shows the gross earnings of United States railroads (and also a few Mexican and Canadian roads) for the latest period reported. The statement includes every road from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the calendar year from January 1 to and including such latest week or month.

Roads.	Latest Earnings Reported.			Jan. 1 to Latest Date.	
	Week or Mo	1895.	1894.	1895.	1894.

ANNUAL REPORTS.

Pacific Mail Steamship Company.

(Report for the year ending April 30, 1895.)

The full report for the fiscal year ending April 30 was issued this week, and extracts will be found at length on subsequent pages. It contains President Huntington's remarks on the property and its operations and prospects. The surplus earnings over expenses for the late year were $712,632—an increase compared with the previous year of $287,169. Mr. Huntington points out that with the expansion in general business now in progress there should come a still further development of the company's traffic and receipts. The current liabilities were reduced during the year by $634,415, and the available assets at the end of the year exceeded liabilities by $285,053.

The comparative statement of earnings and expenses for four years has been compiled for the CHRONICLE as follows:

EARNINGS AND EXPENSES.

	1894-95.	1893-94.	1892-93	1891-92.

—V. 60, p. 994.

Westinghouse Electric & Manufacturing Company.

(For the year ending March 31, 1895.)

The report of President George Westinghouse, Jr., says in part:

General.—The all important feature of the year's business has been the creation of a magnificent works-plant, having unequaled facilities for the carrying on of the business in which your company is engaged. These new works are located at East Pittsburg, about twelve miles east of Pittsburg. As was to be expected, such extensive building operations and the removal of materials from the old to the new works reduced the output for the year to about three-quarters of what it would otherwise have been. The directors earnestly invite all holders of the company's stock who may be able and desire so to do to attend in person the annual meeting on July 17 at Pittsburg, where special railway and other arrangements will be made.

So far as ascertained there was expended directly in removing the machinery and material $911,499, after deducting which from the earnings from business and from other sources there is left a net profit of $711,999.

Light and Power Properties.—Your company has for the past six years been interested in the United Electric Light & Power Company, of New York, and the Brush Electric Company, Baltimore, Md. During the past year both of these companies, with the assistance of your company, have carried through financial plans which have put them on a prosperous business basis. Their fields of operation are unusually profitable ones and it is believed by your management that the value of their securities owned by your company will, in the near future, be equal to their par value (amounting to $2,591,100), and that the final profit thereon will be a large one.

The United Electric Light & Power Co., under the plan referred to, has acquired almost all of the stock of the Brush Illuminating Company and of the United States Illuminating Company, both of New York City, and is now completing one of the most comprehensive light and power stations in the United States. It has contracted with your company for ten complete electrical outfits of 1,000 h. p. each, and for all the converters and other needed apparatus, half of these outfits having been used for the World's Fair lighting. On the completion of the above contract your company will have in securities of the United Company: 1st mortgage bonds, $913,000; preferred stock, $550,400; common stock, $411,700.

From its old stations this company is now doing a business of about $800,000 per annum, which should be more than doubled by the revenue from the output of the new station, giving it a net revenue sufficient to pay interest on its bonds and dividends on all of its stocks, there now being a demand for light and power sufficient to absorb the entire capacities of the stations of all existing companies.

Brush Electric Company of Baltimore, Md.—In the reorganization of this company your company subscribed for $40,000 first mortgage 5 per cent bonds and took in payment for machinery $170,000 first mortgage 5 per cent bonds, making your company's total holding $210,000 first mortgage 5 per cent bonds. Your company also was the owner and now holds 5,060 ($100) shares of the common stock out of a total of 7,292 shares outstanding.

The station of the Baltimore Brush Company is new and is one of the finest to be found in the country. It has three of the World's Fair 1,000-horse power engines and generators and has been supplied with a large amount of other electrical apparatus and will be hereafter, as will also the United Company, a constant purchaser of your company's apparatus and supplies.

Collateral Trust Bonds.—Your board, under the powers conferred upon it by the company's charter, has authorized the issue of $1,250,000 ten-year 5 per cent collateral trust bonds, secured by certain bonds and stocks held by the company, provision being made in the deed of trust for the sale of a portion or all of the securities, and for the cancellation of the corresponding amount of the collateral trust bonds secured thereby. It is proposed to fund out of the proceeds of this issue of collateral trust bonds an equal amount of debt, a greater part of which has been created in the building of the new works, the purchase of new machinery and the outlays in connection with the financial plans of the United and Brush Companies.

Westinghouse Electric Company, Limited.—Your company during the past year sold additional patent rights to the above company, and with the proceeds purchased the preferred and common stock of a number of English holders, so that your company now owns $782,500 preferred and $1,307,400 common stock, together $2,089,900 out of $2,822,750 outstanding, and your company will hereafter direct all of its affairs. All apparatus sold by the London company has been purchased from your company at profitable rates, and the business of the London company last year netted nearly five per cent on a valuation of $1,000,000. It is proposed to push the business in Great Britain, Continental Europe and in the various colonies in order to increase the sales of your company's product.

Patents and Litigation.—Your company has been successful in favorably terminating the litigation in respect to incandescent lamps, the feeder and main, and other important patents, and it was especially successful in the celebrated Bate Refrigerator case before the Supreme Court, in which the life of a number of patents, which were being used to influence trade by your adversaries, was finally determined.

In the McKeesport case, argued in the Supreme Court October last, involving the ownership of the carbon burner for incandescent lamps, no decision has yet been handed down, but the long delay on the part of the Court in arriving at a conclusion is regarded as not unfavorable to the sustaining of the claims of our Sawyer Man Patent.

To-day the most important inventions are those relating to the use of alternating currents, and your management believe that, with the exclusive control of the Tesla patents its position in patent matters is more favorable than that of any or all of its competitors.

Street Railways Operated by Underground Electric Circuits.—Your company has secured the controlling interest in the stock of the Electro-Magnetic Traction Co. of West Virginia, and through it the control of valuable inventions relating to the operation of street railway cars in large cities by means of underground circuits. This system has been in continuous operation in Washington during the past year, and is now in successful operation on the tracks of your company in and about the buildings at East Pittsburg, where it is to be used for moving freight cars and for general work. This arrangement appears to be a complete solution of the problem of street car propulsion in all large cities. A model of this system is now in operation at our office at No. 120 Broadway, New York City, and will be exhibited to stockholders between the hours of 10 A. M. and 4 P. M. during July.

Tesla Power Distributing Inventions.—Your company owns the exclusive right to manufacture and sell apparatus under the patents of Nikola Tesla, covering the use of multiphase alternating currents for power distribution. The rights under these patents are of great value, for developments indicate that it is only by means of Tesla's inventions that elevated and long lines of railways can be successfully operated, and that power can be most economically distributed over wide areas, and throughout workshops. The 5,000 H. P. generators contracted for by the Niagara Cataract

Construction Company have been put in successful operation, and other important installations for power transmission under the Tesla patents have been made in various parts of the country. Recently your company has fitted a short branch of the Pennsylvania Railroad with ordinary electrical apparatus for the propulsion of standard cars, and the tests have been entirely satisfactory. Your company is, however, pushing forward the manufacture of multiphase motors under the Tesla patents for practical tests in running standard cars on elevated roads and long lines, the success of which will be of especial importance, for it will insure to your company a large amount of trade for which your rivals will have no right to compete.

Suits under the Tesla patents are pending against the Stanley Electric Manufacturing Company of Pittsfield, Mass., and the Thomson-Houston Company. In the latter case, on application made by attorneys of your Company, the defendants have been limited to the 7th of October within which to close their testimony, it being the intention of counsel to push all cases of infringement. It is estimated by experts that in the near future the bulk of the business will be done by means of alternating current multiphase apparatus, involving the use of Tesla's important inventions.

GENERAL INVESTMENT NEWS.

Alabama Great Southern—Cincinnati New Orleans & Texas Pacific—Southern Railway—The collateral securing the Cincinnati Extension bonds of the old East Tenn. Virginia & Georgia RR. was sold by a special master at Knoxville, Tenn., on Tuesday, by order of the United States Circuit Court. It consisted of $500,100 stock of the Cincinnati New Orleans & Texas Pacific and £340,000 A stock and £783,010 ordinary B stock of the Alabama Great Southern. The Southern Railway was the successful bidder, the price paid being $1,500,000. This gives the Southern Railway, under its agreement with the Cincinnati Hamilton & Dayton [see V. 60, p. 796], control of the Alabama Great Southern.—V. 60, p. 1103.

American Bell Telephone.—At Boston July 2 the Commissioner of Corporations fixed 194 as the price at which the 10,000 shares of new Bell Telephone stock shall be offered to the stockholders.—V. 60, p. 1143.

Bellaire Zanesville & Cincinnati—At Zanesville on Monday J. K. Geddes was appointed receiver of this railway—a narrow-gauge road running from Bellaire to Mill Run, 110 miles. The July, 1894, coupon on the prior lien bonds was paid in January, 1895, and no interest has since been paid.

Birmingham Sheffield & Tennessee River—A dispatch from Montgomery, Ala., July 1, says that the United States Court has ordered the sale of this road within sixty days for the benefit of its creditors.

Cape Girardeau Street—At Cape Girardeau, Mo., June 29, this street railway was sold at receiver's sale to J. A. Matteson for $2,800. Mr. Matteson represents a syndicate which intends to make an electric line of the road and extend the mileage.

Central of Georgia System—Macon & Northern.—Holders of certificates representing the deposited bonds of the Macon & Northern are requested by Alexander Brown & Sons of Baltimore to attend a meeting to be held at the office of the Baltimore Trust & Guarantee Company on July 18 for the purpose of considering some proposition looking to a sale, lease or other disposition of the railroad.—V. 60, p. 1103.

Central Pacific.—At San Francisco, Cal., on Saturday, United States Circuit Judge Ross rendered his decision on the demurrer of Mrs. Jane L. Stanford in the suit of the Federal Government to recover $15,000,000 from the estate of her late husband, Leland Stanford. The demurrer was sustained. Judge Ross allowed the Government to amend its former complaint and argue its case, if it so desired. It was intimated, however, that this step would not affect the case, the law as construed by Judge Ross not favoring the case of the United States. The sustaining of the demurrer was a surprise, attorneys generally expecting a contrary decision.—V. 60, p. 1144.

Charleston (West Va.) Street Railway, Etc.—The street car line, electric-light and gas plants in Charleston, W. Va., are reported sold to a New York syndicate. The price paid has not been made public.

Chicago & South Side Rapid Transit.—This company defaulted July 1 in the interest on the extension bonds.—V. 60, p. 656.

Citizens' Street Railway (Detroit).—This company has filed a blanket mortgage for $7,000,000 to secure bonds to the same amount, the New York Security & Trust Company being the mortgage trustee. The new bonds will be issued to retire at or before maturity the $2,665,000 bonds at present outstanding, to construct new lines, and to reconstruct and equip all the lines of the company with electricity.

Colorado Fuel & Iron Company.—The New York *Sun* on Wednesday said: "The negotiations for funding the floating indebtedness of the company have been completed. That indebtedness was about $1,000,000, and the first mortgage 5 per cent bonds pledged to secure it have finally been sold. The operation not only reduces the interest charges of the company, but also provides it with adequate working capital. Its net earnings, owing to the revival of the iron industry, are now said to be at the rate of 4 per cent per annum upon the common stock."—V. 60, p. 1144.

Columbus & Hocking Coal & Iron.—This company defaulted July 1st upon its 6 per cent first mortgage bonds. The New York *Sun* says:

That a corporation engaged in the business indicated by the title of that company should meet with misfortune at this time requires explanation. It is found in an official statement that the business of the company since the beginning of its present fiscal year has been virtually in the hands of a tyrannical miners' union, which has prevented its members from working, though they have been willing to do so. In consequence the company has been deprived of the use of its property for forty-seven days since May 1. The officers of the company assert that it is solvent and that it has no floating debt beyond what it would be able to provide for as a going concern. Work at the company's mines and furnaces has recently been resumed, but its employees are working only from day to day, and for this reason the company is unable to make time contracts with its patrons.

An abstract of the company's report for the year ending March 31, 1895, was in the CHRONICLE of June 29, p. 1143.

Columbus Sandusky & Hocking.—At Bucyrus, O., June 28, at midnight, Judge Smalley appointed James H. Stewart, of Sandusky City, receiver of the Columbus Sandusky & Hocking Railroad, on the application of Charles H. Roser, a holder of four bonds. The road was unrepresented. The Judge appointed the receiver on the representation that there were unpaid bills and a disposition to dispose of assets on hand. The bond given was for $25,000.

The action was a surprise to the company, and it is understood that the matter will come up again in a day or so and that the receivership, pending the reorganization, will be allowed to stand, but that another person will be selected as the receiver. The car trust payments have been the immediate cause of the company's embarrassment, due to loss of earnings occasioned by the miners' strikes. A plan of reorganization has been prepared, which has received the assent of a majority of each class of securities. Also $4,100,000 of income bonds.

A circular to the security-holders dated June 11, 1895, says in part:

The revival of business anticipated when the circular letter of Dec. 10, 1894, was written, requesting you to fund your coupons, has not yet materialized to the extent expected, and another protracted strike of coal miners during the last six weeks has seriously reduced the earnings of your company and increased its floating debt. Consequently, with the present earnings it will be impossible for the company to meet its monthly car trust notes during the next seven months, as contemplated.

During the last seven months, from November 1, 1894, to June 1, 189., the earnings were $426,518, or $168,482 less than estimated. The car trust notes maturing from June 1, 1895, to December 31, 1895, are $161,152. The car trust notes maturing during 1896 are $678,853, and after January 1, 1897, $270,673, a total of $1,110,678 to be provided for in the next two years.

The total cost of equipment is $2,410,047, and there has been paid in partial payments on various car trusts $1,299,368 98, leaving a balance of $1,110,677 84 yet due.

In order to preserve the cars and engines on the road so that the company can handle any business, and to avoid the loss of the large

amount already paid ($1,249,360), the monthly car trust payments will have to be met as they now mature, no further extensions being possible.

In view then of the present emergency, and of the larger amount maturing next year, your directors have thought it wise to consider a reorganization plan, which, upon a conservative estimate of earnings based upon the present business prospect, will pay to the bondholders 2½ per cent on their bonds during the next two years, and with improving business conditions hereafter will produce additional earnings sufficient to pay the increasing annual interest proposed by the plan.

REORGANIZATION PLAN.

New Company.—The Columbus Sandusky & Hocking Railroad Company is to be formed for the purpose of purchasing from individuals their holdings in the stock and bonds of the C. S. & H. Ry. Co. and for assuming the payment of floating debt and car trusts. The new company will issue for [illegible] per cent 3 year gold bonds, first coupon payable October 1, 1895, $2,000,000, and general mortgage 5-year gold bonds for $6,000,000, first coupon payable Jan. 1, 1896, interest running 1895 and 1896 to be 2½ per cent per annum, during 1897 and 1898 to be 3 per cent, in further 4 per cent. Of the general mortgage bonds $4,514,000 to be issued in trust as follows: $1,000,000 for retirement of prior lien bonds, $200,000 for real estate notes, $500,000 for coupon notes and $2,814,000 for purpose bonds to cover Accounts. And $1,514,000 of income bonds. The new securities issued [illegible] will be as follows:

Prior lien 5 per cent bonds	$2,005,000
General mortgage bonds	7,456,000
Income 6 per cent gold bonds, 50 years, non-cumulative, [illegible]	1,514,000
Preferred stock, 4 per cent, non-cumulative	4,100,000
Common stock	7,500,000

The present bonds are to be used as follows: In payment of car trusts, $1,110,877; floating debt, etc., $703,107; improvement of road and equipment, $5[illegible]

Exchange of Securities.—The old bonds and coupons will receive the following:

Old securities—	*New gen. mort.*	*New income*
Columbus Sandusky & Hocking 1st M., $1,000	$1,000	.....
do do Equipment mort., $1,000	1,000	.....
Sandusky & Cleveland Short Line Ry 1st M., $1,000	1,000	.....
do do Equipment mort., $1,000	1,000	.....
Columbus Sandusky & Hock. consol. M., $1,000	.....	$1,000
Coupons in amounts of $1,000 of any of above loans	.....	1,000

For each $100 share the present preferred stock will receive $100 in new preferred and the present common stock in new common.

Interest charge.—The interest charge of new company will be during the first and second year, $302,300; during the third and fourth year, $402,400; during fifth and thereafter, $[illegible],000 at 4 per cent, $[illegible],000 interest charge on 1,514 income bonds at 4 per cent, if earned, would add $60,560 annually.

The cost of equipment, $2,119,948 82, an average of $10,470 per mile, will be covered by new prior lien and general mortgage bonds.—V. 59, p. 1140.

Concord & Montreal—Boston & Maine—Boston & Lowell.—At Concord, N. H., June 29, the stockholders of the Concord & Montreal RR. Co., by a vote of 34,[illegible] shares to 10,947 shares, ratified the proposed lease of the road to the Boston & Maine. They also voted to increase the capital stock by $1,200,000. A formal protest against the lease was presented from owners and holders of Class 4 stock on the ground that the lease "contains an independent provision affecting only different classes of stockholders in the Concord & Montreal Railroad by which provision the rental is divided among the different classes of stockholders in the said Concord & Montreal Railroad in violation of a fundamental law of that corporation."

At Lawrence, Mass., June 29, the Boston & Maine stockholders, at a special meeting, voted in favor of the proposed lease. The vote stood 127,423 shares for to 30 shares against the lease. The Boston & Lowell stockholders also voted to assent to the lease to the Boston & Maine of the Concord & Montreal road. The Lowell road is leased by the Boston & Maine, and the assent of its stockholders is necessary to new leases.—V. 60, p. 1144.

Distilling & Cattle Feeding.—At Chicago yesterday Judge Showalter signed the order for a judicial sale. The sale will take place by auction in Cook County, and the price of $9,-500,000 offered by the Reorganization Committee it is understood will be considered an upset price.

Counsel for ex President Greenhut announce that they will contest the decree of sale of the Distilling Company's assets further in the Court of Appeals.—V. 60, p. 1144.

International Navigation Company (of New Jersey).—This company, which owns the American and Red Star lines, having in all 23 ocean steamships aggregating 127,221 tons, has sold $1,000,000 6 per cent gold bonds, part of an issue of $6,000,000 first mortgage bonds, of which $4,500,000 had previously been sold. The company has the following capitalization: Common stock, $5,000,000; preferred stock, $10,-000,000; first mortgage, $6,000,000 general mortgage, $4,-000,000.

Kansas City Fort Scott & Memphis.—This company gives notice that the Greenfield & Northern Railroad, Greenfield, Missouri, to Aurora, Missouri crossing and connecting with this road at South Greenfield), having been acquired by the K. C., F. S. & M. Company, will hereafter be operated by it as a part of its system. The road is 35 miles in length.—V. 60, p. 301.

Lake Street Elevated (Chicago).—The contract for equipping this road with motors and electric apparatus has been awarded to the General Electric Company. It is thought the total cost will be about $225,000.—V. 60, p. 1105.

Louisville & Jeffersonville Bridge.—A press despatch from Jeffersonville, Ind., says that this bridge, in which the Chesapeake & Ohio and Big Four are interested, was completed June 27. The entire length of the bridge is 10,260 feet.—V. 60, p. 942.

Manchester & Lawrence—Concord & Montreal.—As mentioned in the CHRONICLE of June 8 (p. 1007), the Supreme Court of New Hampshire recently decided in favor of the Manchester & Lawrence its long standing suit against the Concord & Montreal. A settlement of the amount awarded the Manchester & Lawrence has been made and from the proceeds a dividend of 50 per cent has been declared, payable on the Manchester & Lawrence stock, of which there is $1,000,000 in amount outstanding. In the settlement the interest in the Keene and Acton railroads was eliminated and the Concord & Montreal paid the Manchester & Lawrence a lump sum of $350,000 in cash as full payment for all claims arising out of the case. Of the sum paid, the Manchester & Lawrence turned over to the Boston & Maine $150,000 in payment of a long standing rolling stock account.—V. 60, p. 1009.

Mobile Light & Railway.—Mr. J. Howard Wilson has been appointed receiver for this company, which owns an electric line extending from Mobile (Ala.) to Spring Hill in the suburbs.—V. 60, p. 929.

New York & New England—At Boston in the United States Circuit Court on June 29 the two suits brought by Messrs. Messrs. Roberts and Hart, of New York, to restrain the foreclosure of the New York & New England Railroad section mortgage were withdrawn. It is understood that the parties will make no further effort to prevent the reorganization. Wm. H. Coolidge, counsel for the receivers of the New York & New England Railroad, has received from Judge Nelson in Boston and from Judge Carpenter in Providence authority for the receivers to pay the January coupons on the first 7s and 6s; to pay the lease of the Providence & Springfield road and to raise $100,000 on receivers' certificates, if it is found necessary, in order to make these payments.—V. 60, p. 1146.

Northern Pacific—A press dispatch from Milwaukee, Wis., July 3, says: "At a meeting of the receivers of the Northern Pacific Company a statement was submitted showing that earnings for eleven months of the current fiscal year to May inclusive amounted in gross to $16,160,622, an increase over the earnings for a like period of the previous year of $670,027. For the same period the operating expenses were reduced $411,649, giving a total increase in the net earnings for the period mentioned or $1,081,676. The General Manager estimates that the net earnings for the month of June, the last of the fiscal year, will swell the increase of net earnings to an amount in excess of $1,300,000. This will make the net earnings for the fiscal year in excess of $6,000,000. These net earnings do not include earnings from miscellaneous sources, which in 1894 amounted to $963,000, nor do the expenses include the taxes, amounting to $465,000, or rentals, amounting to about $1,188,000. It is stated that the taxes and rentals for the current year will be no greater than last year."—V. 60, p. 1146.

Northern Pacific—Great Northern.—The Reorganization Committee of the Northern Pacific found there were serious difficulties in the way of carrying out the proposition for the Great Northern guarantee, and while they are seeking some other way to bring about the alliance between the two companies it was deemed proper that Northern Pacific security holders should be promptly advised as to the present status. All interests are working harmoniously, but more or less delay in announcing a plan seems unavoidable.—V. 60, p. 836, 1146.

Ohio River & Charleston.—The security holders have voted to issue new bonds, not to exceed $15,000 a mile, to be a first mortgage on the line already completed, as well as on the extension to be built. When constructed, this road will extend from Camden, S. C., where it has direct connections for Charleston, through Blacksburg, where it crosses the Southern Railway to Johnson City, Tenn., and thence through Virginia to the Breaks of the Sandy, in Kentucky. It will traverse a rich coal, iron and timber territory, and in South Carolina a general cotton-manufacturing and agricultural district.—V. 60, p. 1146.

Ohio Southern—A *first mortgage* bondholders' committee has been formed, consisting of W. A. Read, of Vermilye & Co., Chairman; Simon Borg, Henry Sanford, ex-president of the Adams Express Company; Edwin S. Hooley, of Rolston & Bass, and Thomas Denny, of Thomas Denny & Co.

A committee, consisting of Messrs. John L. Waterbury, President Manhattan Trust Company, No. 1 Nassau Street, New York, James D. Smith, of James D. Smith & Co., No. 43 Broad Street, New York, and Jules S. Bache, of J. S. Bache & Co., No. 47 Exchange Place, New York, has been formed in the interest of the *second mortgage* 4 per cent bonds and stock to formulate a plan for reorganization. This committee request the holders of said second mortgage bonds and stock to send their addresses and amounts of their holdings to any member of the committee, in order that they may receive copies of said plan as soon as prepared.—V. 60, p. 1010.

Oregon Improvement.—Elijah Smith has been elected President of this company.—V. 60, p. 1102.

Oregon Short Line & Utah Northern.—It is announced that foreclosure proceedings have been instituted under the consolidated mortgage, the bondholders having decided not to accept the conditions imposed by the Utah court as regards separate receivers.—V. 60, p. 1106.

Pennsylvania Railroad.—At Philadelphia, July 2, C. Stuart Patterson was unanimously elected a director of this company to fill the vacancy caused by the death of H. H. Houston. The new director is Dean of the University of Pennsylvania Law School, and is one of the best-known lawyers in Philadelphia.—V. 60, p. 872.

Philadelphia & Reading—For the fifth consecutive time this company, on July 1, defaulted upon the interest due upon the general mortgage bonds, but paid all prior liens, the only other default being upon the principal of $19,000 Schuylkill Navigation bonds. Those of the general mortgage bondholders who deposited their securities under the Earle-Olcott plan of reorganization have this week received payment of the July coupon, but those who did not accept the terms of the plan until after the time limit expired, on January last, were not paid. The committee also paid interest upon what are known as equitable certificates issued to parties who advanced the money to pay the general mortgage coupons.—V 60, p 1147.

Pittsburg Virginia & Charleston.—This company is reported to have recorded a consolidated mortgage for $6,000,000, of which part is to pay for constructing its line from West Brownsville, Pa., up the Monongahela Valley into West Virginia.

Railroad Rates.—A dispatch from Chicago to the St. Louis *Globe-Democrat* says:

The Eastern railroad officials were quite prompt in carrying out the instructions of the presidents. The Chicago and St. Louis lines in the Central Traffic Association held a meeting and made arrangements for the restoration of west bound freight rates July 5. Rates on grain and its products will be restored to the basis of 20c. per 100 pounds, Chicago to New York; provisions and live hogs to 30c per 100 pounds; sixth class freight to 25c per 100 pounds; fifth class to 30c. per 100 pounds, and bulk meats to 35c. per 100 pounds. These are the only articles on which open reductions in rates have been made. Under the instructions received all secret rate-cutting must cease at once.

The committee of ten is still at work on the proposed division of traffic agreement to be entered into by the east-bound roads. This is not to be a money pool. The idea of evening up the percentages by cash payments has been abandoned. The evening up is to be done by diversion of traffic from roads which have carried more than their allotted percentages to roads which have run short.

The resolution which was adopted at the meeting last week Thursday by the chief executives of the roads operating between New York and Chicago, under which the above-mentioned changes are made, was as follows:

"That from July 8, 1895, the presidents or chief executive officers of the companies represented at this meeting pledge themselves to absolutely maintain the full published tariffs of the east bound and west-bound freight rates on all classes of traffic as now authorized by joint committee, until ten days after written notice is given the Commissioner of the Trunk Line or Central Traffic Association by any member of its withdrawal from the agreement; and, further, any contracts at rates below the authorized tariff shall be, on or before July 1, filed with said Commissioners.

"This resolution to be continued in effect so long as it is observed by all lines hereto and which question of observance shall be determined promptly by the Commissioners on complaint made.

"That we also pledge ourselves that no contracts shall be made by our lines which will prevent the operation of the foregoing resolution, and we hereby agree to place our signatures to this resolution as a further evidence of our intent to faithfully observe its conditions."

Another resolution, proposed by Mr. Depew, was adopted, providing that the power of fixing rates on east-bound freight traffic shall be vested in a permanent commission to be appointed by President Roberts. This step, it is stated, will do away with soliciting agents, who have in times past been largely responsible for the cutting of rates.

Reorganization Plans, etc.—The following is an index to all defaults, foreclosure sales, reorganization plans, the names of all reorganization committees, and all statements respecting the payment of overdue coupons, that have been published in the CHRONICLE *since* the April edition of the INVESTORS' SUPPLEMENT was issued, all earlier facts of this nature being set forth in that publication. It does *not*, however, include matter in to-day's CHRONICLE.

The following abbreviations are used: *Plan* for reorganization or readjustment plan; *coup.* for coupon payments; *def.* for default; *Com* for committee.

Savannah & Western—Central of Georgia.—It is understood that the Borg Committee, representing the Savannah & Western bondholders, have agreed to the Central of Georgia reorganization plan as modified, and which has been the subject of negotiation during the week.—V. 60, p. 1057.

Southern Central—Lehigh Valley.—At Oswego, N. Y., last week, Supreme Court Justice Charles E. Parker entered a judgment in favor of the Metropolitan Trust Company, of New York City, against the Southern Central RR. Co., the Lehigh Valley RR. Co. and Donald Mackay, directing F. C. Hill, referee, to sell the Southern Central.

A reorganization committee consisting of Simon Borg, of Simon Borg & Co.; Garret A. Hobart, Paterson, New Jersey, and Henry S. Drinker, No. 228 S. Third Street, Philadelphia, Pa., with W. A. Read, of Vermilye & Co., No. 16 Nassau Street, New York City, as consulting committeeman, has prepared the following plan (see advertising columns in to-day's CHRONICLE):

New Securities—A new company shall become the purchaser of the property at foreclosure sale and issue the following securities: *Common stock*, $749,980; *preferred stock*, 5 per cent non-cumulative, $3,432,208; *first mortgage*, 4 per cent 50-year gold bonds, $2,000,000. These bonds are to be *guaranteed* unconditionally as to principal and interest in gold by the Lehigh Valley RR. Co. by indorsement on each bond. It is contemplated to sell to a syndicate the entire issue at 85 per cent and interest less one-half per cent commission, the proceeds to be used for equipment, to pay prior liens ($990,000), for court, etc., expenses, and for immediate requirements.

Exchange of Securities—Holders of "baby" bonds (those secured by consol. mortgage coupons) will not be entitled to make separate deposit of said bonds. In making deposit, each holder of a consolidated mortgage bond must not only deposit his bond but also the corresponding "baby" bond, and all unpaid coupons of both bonds. The holders of *present consolidated mortgage* 5 per cent bonds, with "baby" bonds and all unpaid coupons of both bonds, will receive for each $1,000 bond:

Cash, after receipt by the committee of the proceeds of bonds if sold as aforesaid	$346 45
New preferred stock	1,040 00

If the sale of the said bonds shall for any reason not be effected, then in place of said $346 45 cash the holder of each consolidated bond with unpaid coupons and "baby" bonds and coupons as aforesaid, will be entitled to $410 in said new first mortgage 4 per cent gold bonds.

Holders of *present common* stock may, on application within six months after the organization of the new corporation, receive new stock at the rate of one share of new common stock for each two and one-half shares of their old stock surrendered.

The committee is authorized to declare the plan operative whenever 65 per cent of said bonds (unless in their discretion a larger percentage is desirable) shall have been deposited.

Southern Pacific.—The suit of the United States Government against the Southern Pacific Railroad Company to obtain possession of 700,000 acres of land in Ventura and Los Angeles counties was decided against the railroad company in San Francisco last Monday by the United States Circuit Court of Appeals. This decision affirms that rendered by United States Judge Ross about a year ago. The contention is whether the lands in question, which would have gone to the Atlantic & Pacific had it completed its road as projected, revert to the Government or to the Southern Pacific Co., which built a line running north and south through the same lands. The case will be carried by the railroad company to the Supreme Court.—V. 60, p. 1103.

Toledo Ann Arbor & North Michigan.—At Toledo, Ohio, July 2, the several properties constituting the Toledo Ann Arbor & North Michigan Railroad were sold a second time, under a decree of the Federal Court, to R. C. Martin, of New York, representing the first mortgage bondholders, the purchase price being $2,627,000.

The property was sold in seven parcels, according to the decree, as follows: The Grand Trunk Division, for $750,000; North Michigan, for $800,000; the Mount Pleasant Division, for $150,000; the Cadillac Division, for $500,000, and the Lake Michigan Division, for $295,000, all to Mr. Martin. Of the transfer boats, No. 1 sold for $50,000 and No. 2 for $76,000. The interest of the company in the remaining property not covered by the mortgages under which the foregoing were sold and the equity of redemption in the Frankfort & Southeastern Railroad, which is to be determined by the Court, brought $5,000. These amounts aggregate $2,626,000. To procure the entire property it was necessary for Mr. Martin to bid more than that amount. He therefore bid an additional $1,000, and, there being no other bidders, the property was knocked down to him.

The sale is expected to be confirmed within the next 30 days. After the accounts are made up the receiver will be discharged and the road taken in charge by the owners. This will be within the next 60 or 90 days. Articles of incorporation and the new mortgage have been drawn. The new company is to be known as the Ann Arbor RR. Co.—V. 60, p. 1106.

Welsbach Commercial.—This company was incorporated at Albany July 3 with a capital of $7,000,000, of which $3,500,000 is in preferred stock. The company proposes to manufacture and deal in all kinds of devices for the production of light, heat and power. The directors are: S. H. G. Stewart, Emerson McMillen, Jr., W. F. Douthirt, J. H. Scoville, Francis Eldridge, A. L. Page, J. C. Havemeyer, Robert Murray, Charles D. Lithgow, E. J. Graetz, Edison Pearsall, J. L. Nisbet and A. M. Pool.—V. 60, p. 1148.

West Jersey.—This railroad company gives notice to holders of its first mortgage 6 per cent bonds, loan of $1,000,000, maturing January 1, 1896, that on demand, in addition to the payment of the coupon maturing July 1, and until August 1, 1895, the said bonds may at the option of their holders be redeemed at $1,015 each with the unmatured coupon due January 1, 1896, attached.—V. 60, p. 793.

—The municipalities below named have recently awarded W. J. Hayes & Sons, of Cleveland, the following bonds: City of Buffalo, N. Y., $80,000 3½ per cents; Bay City, Mich., $50,000 4 per cents; City of South Bend, Ind., $20,000 4 per cents. These bonds, along with other issues, are advertised for sale in another column by Messrs. W. J. Hayes & Sons, Cleveland, and Boston.

Reports and Documents.

PACIFIC MAIL STEAMSHIP COMPANY.

EXTRACTS FROM ANNUAL REPORT FOR THE YEAR ENDING APRIL 30, 1895.

NEW-YORK, May 1, 1895.

The President and Directors submit herewith their report of the operations for the year ending April 30th, 1895, and statements showing the financial condition of the Company at the close of the year.

I.—EARNINGS AND EXPENSES.

The earnings and expenses have been as follows:

	This Year.	Last Year.	Inc. or Dec.
Gross Earnings—	$	$	$
Earnings—Atlantic Line	223,828 74	170,838 66	I 52,990 08

Earnings over expenses	712,631 97	475,661 91	I 237,170 06

* Includes $141,932 25 for lighterage at Panama.

Comparing the general results with those of the previous year, there is an increase in gross earnings of $253,779 50, an increase in expenses of $16,809 34, leaving earnings over expenses $712,631 97, an increase of $237,170 16 over the previous year.

The agreement with the Panama R. R. Co., under which this Company withdrew its line of steamers between New York and Colon, was terminated in June, 1894. The three steamers chartered to them were returned and the Company employed them in reestablishing again its line between New York and Colon. Although the low rates which prevailed during the entire year on the business between these ports practically left no return upon the capital represented in this part of the Company's plant, there remained a balance of $30,488 44 after payment of operating expenses.

The earnings of the Atlantic line increased $52,970 08. There was an increase in passenger earnings of $29,285 75; in freight earnings, $98,141 84, and $411 56 in miscellaneous earnings—a total increase of $128,839 15. But there was a decrease in mail earnings of $65,879 02, resulting largely from there having been included in the report for 1894 collections for mail service rendered prior to that year.

The earnings of the Panama line increased $38,697 39 in passengers, and $349,260 97 in freight. There was, however, a decrease in mail earnings of $6,340 45, and in miscellaneous earnings of $7,328 27, leaving a gain of $374,789 64. This gain resulted mainly from the large coffee crops in the Central American States, good crops in Mexico, and the improvement in general business which resulted therefrom.

The earnings of the Trans-Pacific line show a decrease of $135,973 64, which is, however, only comparative, and not real, as between two periods of twelve months each. As stated in the last annual report, a change in the system of accounting operated to include in that year's report one additional month's transactions of the agencies at San Francisco, Yokohama and Hong Kong. We are therefore comparing in the above statement twelve months' business in 1895 with thirteen months' business of this line in 1894. The termination of the company's contract in respect to mail service, for the reason stated in the last annual report, resulted in decreasing the mail earnings $97,782 94. Taking into the calculation, therefore, this decrease in mail earnings, the additional month's business included in the report for 1894, and the decrease in travel and interchange of commodities between the Pacific coast and China and Japan during the war between those two nations, the earnings of this line have been quite gratifying, and illustrate the steady progress of imports and exports between the countries served by this part of the company's line. * * * *

In accordance with the practice established in the last annual report to deduct from the earnings annually a sum which it was estimated would meet the general and extraordinary repairs of steamers, as such repairs became necessary, so that the year's earnings over expenses could reasonably be assumed as the sum remaining after taking into the calculation the average condition attending the operations of the several lines, there was deducted from the year's earnings the sum of $150,000 00. No expenditures for this account, however, have been made during the year, and there remains to the credit of this fund on April 30, 1895, the sum of $245,088 99, which has been deducted from the earnings in the year 1894 and 1895.

II.—ASSETS AND LIABILITIES.

The following statements will show, comparatively, the assets and liabilities of the Company at the close of the years 1894 and 1895 and the changes which have taken place therein during the year just closed:

ASSETS.

	Apr. 30, 1895.	Apr. 30, 1894.	Inc. or Dec.

Total property and assets	9,763,704 66	9,717,879 16	I. 45,825 50

To meet the steadily increasing demands for tonnage at the Mexican and Central American ports, the Company purchased, at a cost of $171,259 23, the English steamer "Canterbury," and changed its name to "Aztec." This steamer was built in 1894, has steel hull, triple expansion engines, gross tonnage 3,508·43 tons, and was purchased at an exceptionally low price, as will be seen by comparing her capacity and dimentions with those of the other steamers owned by the Company, and their cost. The cost of this steamer was charged to the property account of the Company, and there was deducted from the same account the sum of $159,793 43 for an estimated depreciation in the value of the Company's other steamers. * * * *

The increase in coal and other supplies on hand for current operations consists of $31,745 40 in coal and $7,477 21 in other supplies. There were sold during the year 27 of the St. L. I. M. & S. Ry. Co. 5 per cent bonds for $31,12000, and proceeds applied to the reduction of the Company's indebtedness.

LIABILITIES.

	April 30, 1895.	April 30, 1894.	Inc. or Dec.
	$	$	$

Assets	9,763,704 66	9,717,879 16	I. 45,825 50
Capital stock and liabilities in excess of assets	10,827,283 75	11,323,567 53	D. 496,283 78

The current liabilities have been reduced $643,414 90, and the excess of liabilities over available assets existing at the close of last year's report has been entirely liquidated. The current liabilities remaining at the close of this year are in amount only such as grow out of the last month's transac-

tions, and the assets available therefrom exceed nearly twice that amount. Eliminating the coal and other supplies on hand for current operations, and estimating at one-half the amounts due from the Mexican and Central American Governments, which are payable in silver, the changes which have taken place in the current assets and liabilities during the year are summarized as follows:

	1895.	1894.	Inc. or Dec.
	$	$	$
Current liabilities	250,858 89	894,273 79	D. 643,414 90
Current assets, including amounts due from Mexican and Central American Governments	485,911 61	449,836 92	1,36,074 72
Assets in excess of liabilities	235,052 75		
Liabilities in excess of assets		444,436 87	

Making a gain of $679,489 62 for the year.

III.—PROFIT AND LOSS.

The credits and charges to this account have been as follows:

Balance Apr. 30, '94	$11,323,567 53	Earnings over expenses for the year	$712,631 97
Estimated depreci'n in value of steam'rs	159,792 43	Balance Apr. 30, '95	10,827,283 75
Gen. over expenses pertain'g to operations of previous years charged off	52,962 01		
Adjustm't in inventories of material on hand	401 22		
Uncoll'ctible acc'nts charged off	3,192 53		
	$11,539,915 72		$11,539,915 72

* * * * * * * *

There was added to the Company's fleet during the year the steamer "Aztec" costing $171,289 28, which was charged to the property account of the Company, and the decrease in the value of steamers, as estimated on April 30, 1895, and the values reported for April 30, 1894, amounting to $159,792 43, was credited to this account and charged against profit and loss. Exclusive of the $150,000 charged against the year's earnings for general and extraordinary repairs of steamers, there was expended in making current repairs on the Company's steamers—that is, repairs while the steamers are in service—the sum of $280,018 52. This is about $85,000 more than was expended on repairs during the previous year; but the Company's fleet has been materially improved by this expenditure, and the steamers are all in excellent physical condition. * * * *

VI.—GENERAL REMARKS.

During the year the existing mail contracts with the Republics of Costa Rica, Nicaragua, Honduras, Salvador and Guatemala were extended, and all arrears due for mail services satisfactorily adjusted.

The expectation expressed in the last annual report, that the then existing floating debt would be liquidated from the earnings of the ensuing year, has been fully realized. This debt has been discharged, a new steamer has been paid for, the excellent physical condition of the Company's fleet and other property has been fully maintained, and the available assets exceed the current liabilities at the close of the year by $235,052 75.

All indications point to an improvement in business at all ports served by the Company's steamers over that of the year just closed. There is an improvement in the general commercial situation which will be eventually reflected in increased earnings of the steamers, and we may therefore reasonably look forward to still better results in the ensuing year than were obtained in the year just closed.

The need of additional tonnage was greatly felt during the coffee season, and the Company temporarily chartered two steamers to relieve the congested situation at the Central American and Mexican ports. The purchase of the steamer "Azteo" will this year greatly relieve the situation there.

The Board of Directors desires to acknowledge its indebtedness to the Officers, Agents and Employees of the Company for the faithful performance of their duties.

Respectfully,

C. P. HUNTINGTON,

President.

—The Central Trust Company gives notice that it is prepared to make immediate payment of the first mortgage bonds of the New York Elevated Railroad Company, which have been called for redemption on January 1 next, at the rate of $1.085 per bond, less interest at the rate of 3 per cent on that amount from the date of presentation to January 1. The Trust Company reserves the right to withdraw this offer without notice or to increase the rate of discount.

—The Reorganization Committee of the Milwaukee Street Railway Co. gives notice to bondholders, couponholders and stockholders to exchange their holdings against negotiable certificates of deposit at the Central Trust Co., where a large majority of all classes of securities have already been deposited under the plan. Deposits will not be received after July 15th, except in the discretion of the committee, and subject to such penalties as may be prescribed.

—Indiana Illinois & Iowa RR. 5 per cent gold bonds of 1948 are offered for sale by Messrs. Taintor & Holt. See advertisement.

The Commercial Times.

COMMERCIAL EPITOME.

Friday Night, July 5, 1895.

The national holiday falling at mid-week has served as a quieting influence upon general business and in many instances induced temporary postponement of negotiations. Nevertheless the month has opened with numerous promising indications of an early revival of trade in all seasonable lines of merchandise, and there is a noticeable feeling of cheerfulness among operators. Values are as a rule well sustained and another advance has taken place in cost of pig-iron. Speculation in staple commodities is of moderate character at the moment. Continued rains in the Southwest give rise to a feeling that growing cotton will suffer from excess of moisture. Reports regarding grain crop conditions are generally favorable.

The following is a comparative statement of stocks of leading articles of merchandise at dates given:

	June 1, 1895.	*July* 1, 1895.	*July* 1, 1894

For lard on the spot the demand has been slow and prices have weakened slightly, closing at 6·65c. for prime Western, 6·15c. for prime City and 7·10c. for refined for the Continent. The speculation in lard for future delivery at this market has been slow, and prices have eased off a trifle in response to weaker advices from the West.

DAILY CLOSING PRICES OF LARD FUTURES

	Sat.	*Mon.*	*Tues.*	*Wed.*	*Thurs.*	*Fri.*
July.....c.	6·80	6·80	6 70	6·70	....	6·70
September.....c.	7·00	7·00	6·90	6·90	....	6·90

Pork has sold slowly and prices have weakened a trifle, closing at $13 25 @ $14 00 for mess. Cut meats have continued in good demand for pickled bellies and prices have further advanced, closing firm at 7c. for pickled bellies, 12 lbs. average. Tallow has been in fair demand, closing firm at 4⅜c. bid. Butter has been moderately active and steady. Cheese has been quiet and easier. Fresh eggs have been in fair demand and fairly steady.

Raw sugars were more active, and the increased business served to strengthen prices. Centrifugals quoted 3¼c. for 96-deg. test, and Muscovado 2 13-16c. for 89-deg. test. Refined sugars sold with increasing freedom and at advancing prices for soft grades; granulated quoted at 4⅝c. Teas a shade firmer.

Coffee remained generally dull and prices weak on all grades. Rio No. 7 quoted 15¾c. for flat bean; good Cucuta 19c. and standard Java 27@27½c. Speculation for future delivery was slow and irregular, with average tone weak and close dull.

The following were the final asking prices:

July	14·35c.	Oct	14·60c.
Aug	14·50c	Nov	14·55c.
Sept	14·55c.	Dec	14·50c.
Jan	14·40c.		
Feb	14·35c.		
March	14·35c.		

For Kentucky tobacco the demand has been slow, but prices have held steady. Sales 150 hhds. Seed leaf tobacco has had only a very limited call, but prices have been without change. Sales for the week were 1,275 cases, including: 200 cases 1892 crop, New England Havana, 18@35c.; 50 cases 1893 crop, New England seed, 12@18c.; 150 cases 1894 crop, New England Havana, 15@17½c; also 550 bales Havana, 65c.@$1 05, and 300 bales Sumatra, 60c.@$3 25, in bond.

The speculation in the market for Straits tin has continued quiet, but prices have advanced in response to stronger foreign advices, closing firm at 14·20@14 30c. Ingot copper has advanced a trifle and the close was firm at 10·60@10·65c for Lake. Lead has also advanced and closed firm at 3 30@3·32½c. for domestic. Spelter has been quiet but steady, closing at 3·60@3 62½c. for domestic. Pig iron has been in demand at advancing prices, closing firm at $11 50@$14 for domestic.

Refined petroleum has further declined, closing dull at 7 80c. in bbls., 5c. in bulk and 8c. in cases; crude in bbls. has been nominal; naphtha, 9·25c. Crude certificates have also declined, closing at $1 42 asked. Spirits turpentine has weakened a trifle, closing dull at 28¾@29¼c. Rosins have been quiet but steady, closing at $1 55@$1 60 for common to good strained. Wool has been in fair demand and firm. Hops have been dull and without change.

COTTON.

FRIDAY NIGHT, July 5, 1895.

THE MOVEMENT OF THE CROP, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening the total receipts have reached 3,795 bales, against 6,223 bales last week and 15,514 bales the previous week, making the total receipts since the 1st of Sept., 1894, 7,844,950 bales, against 5,893,774 bales for the same period of 1893-4, showing an increase since Sep. 1, 1894, of 1,951,174 bales.

Speculation in cotton for future delivery at this market has been of fair volume, but under a feverish, irregular tone. The business was largely confined to the circle of local operators and their movements were guided in the main by weather reports from the South and the views entertained in regard to condition of growing crop. Saturday's market was firm and made 5 points net advance, stimulated by unfavorable construction placed upon crop progress and getting some aid through improved foreign advices. The Monday morning advices brought report of heavy rainfall in Texas during the previous day, which incited quick and liberal covering and left the market at 12 @ 18 points net advance. Tuesday opened 5 points lower, but a renewal of poor crop accounts promptly stimulated demand again, under which prices recovered, until 1 point net gain was shown for the day. Wednesday was given over largely to liquidating by both "longs" and "shorts," the opening showing 7 @ 8 points loss, followed by recovery and reaction again, closing at 2 points net decline. Yesterday business was suspended in observance of the national holiday. To-day business has been light and the tone easy, with prices lower under more promising crop reports and tameness in Liverpool. Cotton on the spot has continued to attract attention from spinners seeking special selections, and prices advanced, closing at 7⅛c. for middling uplands.

The total sales for forward delivery for the week are 608,600 bales. For immediate delivery the total sales foot up this week 4,069 bales, including 1,201 for export, 2,468 for consumption, — for speculation and 400 on contract. The following are the official quotations for each day of the past week—June 29 to July 5.

Rates on and off middling, as established Nov. 23, 1893, by the Revision Committee, at which grades other than middling may be delivered on contract:

Fair	c. 1 1/4 on.	Good Ordinary	c. 1 1/8 off.
Middling Fair	7/8 on.	Good Middling Tinged	Even.
Strict Good Middling	1/8 on.	Strict Middling Stained	1/32 off.
Good Middling	5/16 on.	Middling Stained	7/16 off.
Strict Low Middling	3/16 off.	Strict Low Mid Stained	29/32 off.
Low Middling	7/16 off.	Low Middling Stained	1 3/8 off.
Strict Good Ordinary	13/16 off.		

On this basis the prices for a few of the grades would be as follows:

UPLANDS.	Sat.	Mon	Tues	Wed	Th.	Fri.
Good Ordinary	5 7/8	6	6	6 1/8	Holiday.	6
Low Middling	6 9/16	6 11/16	6 11/16	6 3/4		6 11/16

THE VISIBLE SUPPLY OF COTTON to-night, as made up by cable and telegraph is as follows. The Continental stocks, as well as those for Great Britain and the afloat are this week's returns and consequently all the European figures are brought down to Thursday evening. But to make the totals the complete figures for to-night (July 5), we add the item of exports from the United States, including in it the exports of Friday only.

☞ The imports into Continental ports the past week have been 64,000 bales.

The above figures indicate an *increase* in the cotton in sight to-night of 518,147 bales as compared with the same date of 1894, an *increase* of 420,314 bales over the corresponding date of 1893 and a decrease of 26,833 bales from 1892.

AT THE INTERIOR TOWNS the movement—that is the receipt for the week, and since September 1, the shipments for the week and the stocks to-night, and the same items for the corresponding period of 1893-94—is set out in detail below.

Towns.	Movement to July 5, 1895				Movement to July 6, 1894.

* Louisville figures "net" in both years.
‡ This year's figures estimated.

The above totals show that the interior stocks have *decreased* during the week 3,146 bales and are now 14,662 bales *less* than at same period last year. The receipts at all the towns have been 1,585 bales *more* than same week last year and since Sept. 1 are 1,811,019 bales *more* than for same time in 1893-94.

QUOTATIONS FOR MIDDLING COTTON AT OTHER MARKETS.—Below we give closing quotations of middling cotton at Southern and other principal cotton markets for each day of the week.

Week ending July 5.	CLOSING QUOTATIONS FOR MIDDLING COTTON ON—					
	Satur.	Mon.	Tues.	Wednes.	Thurs.	Fri.

Cincinnati	7	7	7	7		7
Louisville	7⅛	7	7	7		7

The closing quotations to-day (Friday) at other important Southern markets were as follows.

Atlanta	6⅛	Little Rock	6	Newberry	6⅛
Columbus, Ga.	6⅛	Montgomery	6⅜	Raleigh	7⅛
Columbus, Miss	6	Nashville	6⅞	Selma	6⅜
Eufaula	6⅛	Natchez	6 7/8	Shreveport	6 5/16

RECEIPTS FROM THE PLANTATIONS.—The following table indicates the actual movement each week from the plantations. The figures do not include overland receipts nor Southern consumption; they are simply a statement of the weekly movement from the plantations of that part of the crop which finally reaches the market through the outports.

Week Ending—	Receipts at the Ports.			Stk at Interior Towns.			Rec'pts from Plant'ns		
	1895.	1894.	1893.	1895.	1894.	1893.	1895.	1894.	1893.
May 31	25,586	12,278	29,220	101,585	123,264	151,695	13,564	1,676	15,786
June 7	21,396	18,457	19,529	107,500	114,111	96,121	11,488	6,866	4,483
" 14	20,536	18,813	15,237	102,902	99,282	78,753		6,054	5,261
" 21	23,695	12,562	15,314	104,164	92,317	71,538	6,956	4,464	11,997
" 28	12,858	14,866	6,228	103,393	86,886	67,850	4,000	6,344	2,195
July 5	19,354	10,119	3,795	126,180	79,296	61,124	6,171	3,149	649

The above statement shows: 1.—That the total receipts from the plantations since Sept. 1, 1894, are 7,849,679 bales; in 1893-94 were 5,496,936 bales; in 1892-93 were 5,607,542 bales.

2.—That although the receipts at the outports the past week were 3,795 bales, the actual movement from plantations was only 649 bales, the balance being taken from the stocks at the interior towns. Last year the receipts from the plantations for the week were 3,949 bales and for 1893 they were 6,771 bales.

OVERLAND MOVEMENT FOR THE WEEK AND SINCE SEPT. 1.—We give below a statement showing the overland movement for the week and since September 1. As the returns reach us by telegraph late Friday night it is impossible to enter as largely into detail as in our regular monthly report, but all the principal matters of interest are given. This weekly publication is of course supplementary to the more extended monthly statements. The results for the week ending July 5 and since Sept. 1 in the last two years are as follows:

July 5.	1894-95.		1893-94	
	Week.	Since Sept. 1.	Week.	Since Sept.

* Decrease during week.

It will be seen by the above that there has come into sight during the week 15,034 bales, against 15,949 bales for the same week of 1894, and that the increase in amount in sight to-night as compared with last year is 2,297,006 bales.

WEATHER REPORTS BY TELEGRAPH.—Our telegraphic advices this evening indicate that the weather has been less favorable the past week over a large portion of the South. Rain has fallen in almost all localities, and at a number of points in the Gulf States the precipitation has been excessive. A number of our correspondents state that damage to the crop is claimed as a result of too much rain. In Northern Texas also there has been too much moisture, but in the remainder of the State cotton has improved somewhat.

Galveston, Texas.—It has been showery on three days of the week, the rainfall reaching fifty-eight hundredths of an inch. The thermometer has averaged 83, the highest being 88 and the lowest 78. Rainfall for June one inch and ninety-nine hundredths.

Palestine, Texas.—There has been rain on three days of the past week, to the extent of one inch and thirty-five hundredths. The thermometer has ranged from 68 to 90, averaging 79. June rainfall five inches and twenty-nine hundredths.

Huntsville, Texas.—We have had rain on four days of the week, the precipitation being one inch and twenty-two hundredths. Average thermometer 82, highest 94 and lowest 70. During the month of June the rainfall reached seven inches and sixty-four hundredths.

Dallas, Texas.—There has been some improvement in the weather during the week. Cotton looks better except over the northern portions of the State, where heavy rains have damaged the crop. Early plantings are fruiting generally. It has rained here on three days of the week, the rainfall being five inches and thirty-three hundredths. The thermometer has averaged 80, ranging from 66 to 94. June rainfall eight inches.

San Antonio, Texas.—It has been dry all the week. The thermometer has averaged 83, the highest being 94 and the lowest 72. June rainfall two inches and nine hundredths.

Luling, Texas.—We have had rain on one day during the week, to the extent of three hundredths of an inch. The thermometer has averaged 85, ranging from 74 to 96. Month's rainfall eight inches and fifty-one hundredths.

Columbia, Texas.—It has been showery on one day of the week, the precipitation being ten hundredths of an inch. The thermometer has ranged from 72 to 92, averaging 82. During the month of June the rainfall was six inches and eighty-eight hundredths.

Cuero, Texas.—There has been rain on two days of the past week, the rainfall reaching sixteen hundredths of an inch. Average thermometer 82, highest 94 and lowest 70. June rainfall eight inches and sixty hundredths.

Brenham, Texas.—We have had showers on two days of the week, the precipitation reaching twenty six hundredths of an inch. The thermometer has averaged 86, the highest being 98 and the lowest 74. June rainfall seven inches and seven hundredths.

Belton, Texas.—There has been one shower the past week, the rainfall being forty-eight hundredths of an inch. The thermometer has averaged 79 ranging from 60 to 98. During the month of June the rainfall reached five inches and ninety-five hundredths.

Fort Worth, Texas.—We have had rain on four days of the week, the precipitation reaching three inches and thirty hundredths. The thermometer has ranged from 66 to 93, averaging 80. Rainfall for the month eight inches and sixty-eight hundredths.

Weatherford, Texas.—Rain has fallen on five days of the week to the extent of three inches and thirty-one hundredths. Average thermometer 79, highest 92 and lowest 66. During June rain fell to the extent of seven inches and twenty-three hundredths.

New Orleans, Louisiana.—It has rained on five days of the week, the rainfall being two inches and thirteen hundredths. The thermometer has averaged 82. Rainfall during the month of June nine inches and seventy-four hundredths.

Shreveport, Louisiana.—We have had rain on six days of the week, the rainfall reaching one inch and twenty-four hundredths. The thermometer has averaged 79, ranging from 69 to 94. During the month of June the rainfall reached five inches and seventy hundredths.

Columbus, Mississippi.—There has been rain on four days of the week, the precipitation being eighty-five hundredths of an inch. Too much rain is said to have damaged the crop. The thermometer has ranged from 68 to 95, averaging 82. June rainfall three inches and eleven hundredths.

Leland, Mississippi.—The week's rainfall has been two inches and forty hundredths. Average thermometer 76, highest 87 and lowest 65. Rainfall for the month of June seven inches and forty hundredths.

Meridian, Mississippi.—With rain falling daily there is a foot or more of water in bottom lands. Crops have been damaged. The prospect is said to be the poorest for ten years.

Little Rock, Arkansas.—There has been rain on five days of the past week, the precipitation being two inches and forty-five hundredths. The thermometer has averaged 77, ranging from 66 to 90. June rainfall nine inches and twenty-six hundredths.

Helena, Arkansas.—Crops are fine, especially corn, but grassy. Rains have been local; in some sections too much, in others just enough. We have had showers on five days of the week, the rainfall reaching two inches, and there are indications of more. The thermometer has ranged from 67 to 91, averaging 78 3 June rainfall four inches and seventy-three hundredths.

Memphis, Tennessee.—We have had more rain than necessary, but crops are in fine condition. Rain has fallen the past four days, the rainfall reaching three inches and seventy-four hundredths. Average thermometer 78·9, highest 93·3 and lowest 67·3. During the month of June the rainfall was two inches and thirty-one hundredths on ten days.

Nashville, Tennessee.—We have had rain during the week to the extent of seventy-six hundredths of an inch. The thermometer has averaged 76, the highest being 92 and the lowest 63. During the month of June the rainfall reached two inches and ninety hundredths.

Mobile, Alabama.—Crop reports are unfavorable. There are complaints that the continuous and heavy rains have caused damage. The week's rainfall has been three inches and fourteen hundredths, on five days. The thermometer has averaged 79, ranging from 69 to 88. Rainfall for the month of June six inches and ninety-nine hundredths.

Montgomery, Alabama.—There has been rain on five days of the past week, to the extent of three inches and eighty-nine hundredths, and it still continues. The rain is adversely affecting all crops, especially cotton. The thermometer has ranged from 71 to 87, averaging 79. June rainfall one inch and forty-five hundredths.

Selma, Alabama.—Crop has been damaged by excessive moisture. We have had rain on six days of the week, the precipitation reaching three inches and forty hundredths. Average thermometer 80, highest 91 and lowest 69.

Madison, Florida.—There has been rain on five days of the week, the precipitation reaching five inches and ninety hundredths. The thermometer has averaged 79, the highest being 88 and the lowest 68.

Columbus, Georgia.—We have had rain on two days of the week, the precipitation reaching ninety-three hundredths of an inch. The thermometer has averaged 79, ranging from 68 to 93.

Savannah, Georgia.—The rainfall has reached eighty-two hundredths of an inch on five days of the week. The thermometer has ranged from 68 to 93, averaging 80. June rainfall six inches and eight hundredths.

Augusta, Georgia.—We have had rain on six days of the past week, the rainfall reaching three inches and fifty-two hundredths. Average thermometer 78, highest 92 and lowest 65. June rainfall three inches and ninety-eight hundredths.

Albany, Georgia.—Crops are improving. It has rained on four days during the week, the rainfall being one inch and twenty hundredths. The thermometer has averaged 82, the highest being 92 and the lowest 73.

Stateburg, South Carolina.—There has been light rain on two days during the week, the precipitation being thirty hundredths of an inch. Rainfall has been poorly distributed, being heavy at some points and at others nearby very little or none at all. The thermometer has averaged 77·6, ranging from 68 to 88. Rainfall for the month of June four inches and ninety hundredths.

Charleston, South Carolina.—The week's rainfall has been two inches and twenty-seven hundredths, on six days. The thermometer has ranged from 67 to 90, averaging 80. June rainfall four inches and twenty-five hundredths.

Greenwood, South Carolina.—Rain has improved the condition of cotton, and it is now growing and fruiting well. There has been rain on four days of the week, to the extent of two inches and eighteen hundredths. Average thermometer 77, highest 89, lowest 66. During the month of June the rainfall reached one inch and eighty-eight hundredths.

Wilson, North Carolina.—Telegram not received.

The following statement we have also received by telegraph, showing the height of the rivers at the points named at 8 o'clock July 4, 1895, and July 5, 1894.

Total.....	.....	.....	.....	34,992	5,650	40,642	13	34,892
Total 1893-4	8	115	123	32,558	4,642	37,200	114	22,390

A considerable portion of the Sea Island cotton shipped to foreign ports goes via New York, and some small amounts via Boston and Baltimore, Instead of including this cotton for the week in which it leaves the Southern outports, we follow the same plan as in our regular table of including it when actually exported from New York, &c. The details of the shipments of Sea Island cotton for the week will be found under the head "Shipping News," on a subsequent page.

Quotations July 5 at Savannah, for Floridas, nominal. Charleston, Carolinas, nominal.

JUTE BUTTS, BAGGING &C.—There has been but little inquiry for bagging during the week under review, but prices have been pretty well maintained. The close to-night is at 4⅛c. for 1¾ lbs., 4½c. for 2 lbs. and 5c. for standard grades in a jobbing way. Car-load lots of standard brands are quoted at 4¼c. for 1¾ lbs., 4⅝c. for 2 lbs. and 5¼c. for 2¼ lbs. f. o. b. at New York. Jute butts have been dull at 1⅛c. for paper quality, 1⅛c. for mixing and 1¾c. for bagging quality. The deliveries of jute butts and rejections at New York and Boston during June were 31,011 bales, against 26,961 bales for the same month last year, and since January 1 the deliveries reach 318,539 bales, against 142,381 bales in 1894. The aggregate stock in the hands of importers and speculators at New York and Boston on June 30 was *nil*, against 2,900 bales at the corresponding date in 1894, and the amount afloat for the United States reaches 86,601 bales, against 74,446 bales last year.

COTTON CONSUMPTION AND OVERLAND MOVEMENT TO JULY 1.

Below we present a synopsis of our overland movement, receipts, exports, spinners' takings, &c., for the month of June and for ten months of the season to July 1, for the years 1892-93, 1893-94 and 1894-95.

BREADSTUFFS.

FRIDAY, July 5, 1895.

It has been an exceedingly slow week in the market for wheat flour. Buyers have been very indifferent operators and prices have been weaker, particularly for "spring patents," on which holders have attempted to force sales, owing to free arrivals. Rye flour has sold slowly but prices have been without change. Only a very limited business has been transacted in corn meal, but prices have held steady. To-day the market for wheat flour was dull and easy.

The speculation in the market for wheat futures has been quiet and prices have weakened a trifle under favorable crop prospects at the West and dull and weaker foreign advices. In the spot market business was quiet, but supplies held here were only moderate and prices have ruled a trifle steadier. The sales Wednesday included No. 2 red winter at 1c. over September f. o. b. afloat. To-day the market opened higher in response to firmer foreign advices and on less favorable weather conditions at the West, but subsequently declined under selling by professional traders. The sales market was dull. No. 2 red winter was quoted at 1c. over September f. o. b. afloat.

December delivery	c. 77 3/8	77 1/4	77 5/8	77 3/8		76 3/8

In the market for Indian corn futures the speculation has been quiet, but prices have steadily declined under favorable crop advices from the West and in response to weaker foreign advices. In the spot market shippers have been good

buyers but at declining prices. The sales Wednesday included No. 2 mixed at 50c. in elevator, 50⅝c. delivered and ⅜@⅝c. over September f. o. b. afloat; also No. 2 white at 1c. over September f. o. b. afloat. To-day the market opened firmer on stronger foreign advices, but later declined with wheat. The spot market was fairly active. Shippers were buying. The sales included No. 2 mixed at 50⅛c. in elevator and ⅛@⅝c. over September f. o. b. afloat.

DAILY CLOSING PRICES OF NO. 2 MIXED CORN.

	Sat.	Mon.	Tues.	Wed.	Thurs	Fri.

August delivery	52⅜	51⅜	50¼	50⅜	....	49⅞
September delivery	51⅞	51⅞	50¾	50¾	....	50⅜

The speculation in the market for oats for future delivery has been fairly active, but at declining prices under free selling for Western account, prompted by the favorable crop prospects. In the spot market business has been fairly active, but at a further decline in prices. The sale Wednesday included No. 2 mixed at 27½@28c. in elevator and in store and No. 2 white at 31@32c. in elevator. To-day the market was dull but steady. The spot market was fairly active and firmer. The sales included No. 2 mixed at 28⅛c. in elevator and No. 2 white at 33c. in elevator.

THE DRY GOODS TRADE.

NEW YORK, FRIDAY, P. M., July 5, 1895.

The business of the week ended to a considerable extent with Wednesday evening, yesterday being a holiday, the influence of which has been distinctly noticeable in a very attenuated trade to-day. Even the early days of the week disclosed much quieter conditions in the cotton goods department than had ruled for a considerable time past. There was a slim attendance of buyers and store trade was slack, whilst business coming in from the road was much below late average. Such conditions are, however, too much a matter of course for the time of year to cause sellers any disquietude. They are peculiar to the time being and have no significance in relation to even the immediate future. This is shown by the fact that sellers have in nowise modified their attitude, and are no more anxious to meet a slow demand than an active one, holding firmly to whatever gains they have made in both plain and colored staple goods. They are not oppressed by carrying unsold stocks of any volume, are comfortably situated with regard to production for some time to come, and in a position to await developments, which they believe will be in their favor. In fancy cotton fabrics dark prints have made a good start and promise well for fall. The woolen and worsted goods situation for spring is still uncertain, and until more of the leading lines are opened up this will continue a feature.

DOMESTIC COTTON GOODS.—The exports of cotton goods from this port for the week ending July 1 were 3,901 packages, valued at $206,098 their destination being to the points specified in the table below:

NEW YORK TO JULY 1.	1895. Week.	1895. Since Jan. 1.	1894 Week.	1894 Since Jan. 1.
Great Britain	33	2,835	71	3,213

Total	3,901	99,734	2,411	106,628
China, via Vancouver*	....	11,700	....	10,788
Total	3,901	111,434	2,411	117,416

* From New England mill points direct.

The value of the New York exports for the year has been $4,446,818 in 1895 against $5,797,858 in 1894.

There have been very few price changes in brown goods during the past week. An odd advance in fine brown sheetings and in gray ducks of ⅛c. to ¼c. has been reported, but as a rule sellers have contented themselves with filling a light demand at previous prices. Ready supplies are still scanty. Sales of bleached cottons have been limited in volume in both muslins and cambrics, but good deliveries have been made on old orders and prices are firm throughout. Wide sheetings also are very firm, although the demand continues light. Cotton flannels are firm, with moderate re-orders. Cotton blankets scarce and agents asking higher prices. Denims are firm, particularly for nine-ounce blues, with light sales. Other coarse colored cottons are without change in any respect. Kid-finished cambrics dull but firm. Silesias, sateens, percalines, twills, and other linings, quietly firm. Dark fancy prints have been in fair request, with opening prices well maintained. Other regular prints have moved quietly, with an occasional upward tendency. Ginghams have been dull, without change in prices. Print cloths have advanced to 2⅞c. for extras, with small sales, and close with bids thereat declined. Wide goods strong.

Stock of Print Cloths—	1895. June 29.	1894. June 30.	1893. July 1.
At Providence, 64 squares	187,000	292,000	121,000
At Fall River, 64 squares	52,000	539,000	46,000
At Fall River, odd sizes	92,000	203,000	
Total stock (pieces)	331,000	1,054,000	167,000

WOOLEN GOODS.—Considering incomplete display of new woolen and worsted men's fabrics for spring and the uncertainty regarding the price situation, there has been a fair amount of business done for the coming season. Some agents report good orders coming to hand in Clay worsteds in medium grades and in low-priced cassimeres, while cheviots and serges have been in irregular request. The opening of further lines of standard goods is awaited with much interest. So far prices, compared with a year ago, show some makes opened at 2½ to 5 per cent advance, others a decline of 2½ to 5 per cent, and others again without alteration. The upward tendency of the market for raw material may have a stiffening influence on prices yet to be named. The re-order demand for heavy weights has been of fair proportions, with buyers still paying more attention to plain staples in medium and low grades than to higher-priced fancies of any kind. Overcoatings have developed no new feature, and business in cloakings is still restricted. Woolen and worsted dress goods are very firm, with some sellers asking advances on re-orders, which come forward slowly as yet. Flannels and blankets are in moderate demand at firm prices.

FOREIGN DRY GOODS.—There has been but a light business reported in foreign merchandise this week in either seasonable or fall lines. In the latter woolen and worsted and mohair dress goods are firm, with the latter still tending upwards. Silks also are firm under foreign advices. Linens are unchanged in price. Woolens and worsteds for spring are well sold and firm, as are fine cotton dress fabrics.

Importations and Warehouse Withdrawals of Dry Goods

The importations and warehouse withdrawals of dry goods at this port for the week ending July 4, and since January 1, 1895, and for the corresponding periods of last year are as follows:

IMPORTS ENTERED FOR CONSUMPTION FOR THE WEEK AND SINCE JANUARY 1, 1895 AND 1894.	Week Ending July 5, 1894.		Since Jan. 1, 1894.		Week Ending July 4, 1895.		Since Jan. 1, 1895.

WAREHOUSE WITHDRAWALS THROWN UPON THE MARKET.

STATE AND CITY DEPARTMENT.

TERMS OF SUBSCRIPTION.

THE INVESTORS' SUPPLEMENT will be furnished *without extra charge* to every annual subscriber of the COMMERCIAL AND FINANCIAL CHRONICLE.

THE STATE AND CITY SUPPLEMENT will also be furnished *without extra charge* to every subscriber of the CHRONICLE.

THE STREET RAILWAY SUPPLEMENT will likewise be furnished *without extra charge* to every subscriber of the CHRONICLE.

THE QUOTATION SUPPLEMENT, issued monthly, will also be furnished *without extra charge* to every subscriber of the CHRONICLE.

TERMS for the CHRONICLE with the four Supplements above named are Ten Dollars within the United States and Twelve Dollars in Europe, which in both cases includes postage.

Terms of Advertising—(Per inch space.)

One time	$3 50	Three Months (13 times)	$25 00
One Month (4 times)	11 00	Six Months (26 times)	43 00
Two Months (8 times)	18 00	Twelve Months (52 times)	58 00

(The above terms for one month and upward are for standing cards.)

The purpose of this State and City Department is to furnish our subscribers with a weekly addition to and continuation of the STATE AND CITY SUPPLEMENT. In other words, with the new facts we shall give, the amplifications and corrections we shall publish, and the municipal laws we shall analyze in the "State and City Department," we expect to bring down weekly the information contained in the STATE AND CITY SUPPLEMENT to as near the current date as possible. Hence every Subscriber will at all times possess a complete and fresh cyclopedia of information respecting Municipal Debts.

Bond Proposals and Negotiations.—We have received through the week the following notices of bonds recently negotiated and bonds offered and to be offered for sale.

Allegheny, Pa.—It is reported that on July 2, 1895, the city of Allegheny sold $500,000 of 4 per cent bonds to the Fidelity Title & Trust Company of Pittsburg, Brewster, Cobb & Estabrook, and Blodget, Merritt & Co., jointly, at 106 54. A description of the bonds is given below:

Interest will be payable at the City Comptroller's office or will be mailed by check.

Ansonia, Conn.—On June 27, 1895, the city of Ansonia sold $150,000 of 4 per cent gold funding bonds to Cushman, Fisher & Co., of Boston, Mass., at 103·333 and accrued interest. The securities are dated May 1, 1895, the principal will mature in 20 years. Nine bids were received for the loan as follows:

	Bid.
Cushman, Fisher & Co., Boston	103·033
Wilson & Stephenson, New York	101·15
Savings Bank of Ansonia, Ansonia, Conn	102·57
E. H. Gay & Co.	102·027
New York Life Insurance Company	102·79
Julia E. Emmett, guardian, for $20,000	102·50
Conn. Mutual Life Ins. Co., Hartford, Conn.	102·00
E. H. Rollins & Sons, Boston, Mass.	101·67
Middletown Savings Bank, Middletown, Conn.	102·00

Auburn, Me.—On July 1, 1895, the city of Auburn sold $200,000 of 4 per cent water bonds to E. H. Rollins & Sons at 101·555. Six other bids were received for the loan. The securities are dated July 1, 1895, and $50,000 of the amount will mature July 1, 1905, $45,000 July 1, 1910, $55,000 July 1, 1915, and $50,000 July 1, 1919.

Aurora, Ill.—Proposals will be received until July 10 for the purchase of $26,000 of water works bonds. The securities will bear interest at the rate of 5 per cent and run 10 years.

Austin, Tex.—John McDonald, Mayor, reports to the CHRONICLE that $200,000 of water and light bonds of Austin, voted June 24, will bear interest at the rate of 6 per cent, payable semi-annually in New York, and will mature in forty years with an option of call in ten years. They will be offered for sale at an early date.

Belmont, Wis.—A proposition to issue $8,000 of bonds for water-works will be submitted to a vote of the people July 10.

Deerfield, Wis.—Bonds to the amount of $5,000 have been voted for water-works.

Doon, Iowa.—The people of this municipality will vote on issuing bonds for water works.

East Brady, Pa.—Proposals will be received by R. R. McGregor, clerk of the Council, for the purchase of $10,000 of water works bonds.

Elizabethtown, Ky.—A vote taken June 22 on issuing $13,500 of water-works bonds resulted in favor of the proposition.

Evanston, Ohio.—Proposals will be received until July 29, 1895, by Wm. H. Krapp, clerk, for the purchase of two 6 per cent water bonds of the village of Evanston of the denomination of $500 each. The securities will be dated August 1, 1895, interest will be payable semi-annually, and the principal will mature August 1, 1905, both principal and interest being payable at the Atlas National Bank, Cincinnati.

Everett, Wash.—H. D. Walling, Mayor, reports to the CHRONICLE that an election held June 15 on issuing $85,000 of bonds resulted in favor of the proposition. The loan will soon be offered for sale.

Fairfield, Me.—It is reported that 4 per cent refunding bonds of Fairfield to the amount of $30,000 have been sold to J. W. Longstreet & Co. at 103 53. The loan matures at the rate of $2,000 yearly after ten years.

Gila County, Ariz.—Proposals will be received until July 20, 1895, by G. M. Allison, Clerk of the Board of Supervisors, for the purchase of $40,000 of 5 per cent 47 year Territorial gold funding bonds. Interest will be payable semi-annually at the office of the New York Guaranty and Indemnity Company, or at the office of the Territorial Treasurer, at the option of the purchaser. These bonds are issued in pursuance of an act of the Legislative Assembly of the Territory of Arizona entitled: "An act for the relief of Gila County, and authorizing the Territorial Treasurer to exchange Territorial funding bonds for certain warrants."

Hamilton, Ohio.—Water-works bonds of this city to the amount of $65,000 have been voted.

Hornellsville, N. Y.—H. L. Nash, City Clerk, reports to the CHRONICLE that Hornellsville will issue no bonds until at least another year. A vote recently taken and which resulted in favor of the proposition was simply to get the expression of the tax-payers. The question will now be submitted to the Legislature at its next session.

Hudson, N. Y.—On July 1, 1895, the city of Hudson sold $25,000 of 4 per cent bonds to the Hudson City Savings Institution at 104¾. Other bidders were: Storrs & Smith Whann & Schlesinger, Benwell & Everitt and Walter Stanton & Co. Additional bonds to the amount of $20,000 will be issued.

Ironwood Fractional School District No. 1, Mich.—P. E. Swanson, Director, reports to the CHRONICLE that the Fractional School District No. 1 will issue a $14,000 bond instead of a $25,000 security recently advertised. The bond will be issued on or about July 10, and sealed proposals will be received by the Director after July 8.

Jackson, Mich.—A vote will be taken July 8 on issuing bonds to the amount of $50,000.

Johnson, Vt.—Water-works bonds of this village to the amount of $9,000 have been voted.

Kasson, Minn.—Proposals will be received until July 22, 1895, by B. A. Shaver, Village Recorder, for the purchase of $6,000 of water-works bonds, maturing at the rate of $1,000 yearly from August 1, 1898, to August 1, 1903. Interest "at the lowest rate" will be payable annually at Kasson. The village has at present no indebtedness of any kind. Its assessed valuation (which is ⅓ of actual value) for 1894 was $330,000; total tax (per $1,000), $20 10.

Kissimee, Fla.—A vote taken June 25 on issuing $20,000 of bonds resulted in the defeat of the proposition.

Lake County, S. Dak.—This county has sold $30,000 of 5 per cent 10-20 year funding bonds to N. W. Harris & Co., of Chicago, Ill., for $30,035.

A call has been made for the payment of court-house and jail bonds of Lake County, numbered from one to thirty, inclusive, for $500 each. They are dated July 1, 1884, and due July 1, 1904, subject to redemption after ten years. The securities are payable to C. Livingston at the city of St. Paul. Interest on the loan will cease August 1, 1895.

Lansing, Mich.—An election held June 18 on issuing $25,000 of 4 per cent bridge bonds resulted in favor of the proposition by a vote of 79 to 1.

Lexington, Mo.—Bonds of this municipality will probably be issued for an electric-light plant.

Lorain, Ohio.—The people of Lorain will vote July 10 on issuing $125,000 of water-works improvement bonds.

Manchester, Va.—The City of Manchester has sold $65,000 of 5 per cent 10-30 year bonds for the construction of sewers and for the payment of the floating debt, to the Maryland Trust Company, of Baltimore. The loan is dated May 1, 1895, and interest is payable semi-annually in May and November. The city's total bonded debt, including this issue, is $492,000. Its assessed valuation for 1894 was $3,311,278 88. The population, according to local figures, is 12,000.

Marysville, Cal.—The people of Marysville voted June 18 in favor of issuing $40,000 of drainage bonds.

McKeesport, Pa.—On June 28, 1895, the city of McKeesport offered for sale $300,000 of 4 per cent serial funding bonds, dated July 1, 1895, one series to become due each year from July 1, 1896, to July 1, 1914, the city reserving the right to hold the first three series due in 1896, 1897 and 1898, amounting to $32,000 for its sinking fund. A list of the bids which were received for the securities is as follows:

	Bid.
Z. T. Lewis, Dayton, Ohio	$101 10
E. H. Rollins & Sons, Boston	101·10
W. R. Thompson & Co., Pittsburg	100·912
N. W. Harris & Co., N.Y.	100·68
W. J. Hayes & Sons, Cleveland, Ohio	100·50

	Premium.
P. F. Kelly, Philadelphia	$6,750
Street, Wykes & Co., N. Y.	515
Seymour, Barto & Co., N. Y.	375
Seasongood & Mayer, Cincinnati, Ohio	220

The loan was awarded to Z. T. Lewis, of Dayton, Ohio.

Methuen, Mass.—The people of this town have voted in favor of issuing water-works bonds to the amount of $25,000.

Milford, Mich.—The people of this village have voted in favor of issuing $18,000 of water-works bonds.

Moberly, Mo.—Five per cent coupon renewal funding bonds of Moberly to the amount of $75,000 were recently sold to Messrs. Gaylord, Blessing & Co. at 104, the city reserving the right to allow holders of outstanding 6 per cent bonds to be redeemed by this issue the privilege of exchanging their old bonds at par and interest for the new 5 per cent bonds at 104 and interest. The bonds called were to be paid June 15, 1895, on which date interest ceased. The new bonds bear date of July 1, 1895, and mature July 1, 1905. Interest is payable in January and July, both principal and interest being payable at the Third National Bank of St. Louis, Mo.

Montgomery, N. Y.—On July 1, 1895, the village of Montgomery sold $23,000 of 4 per cent coupon water bonds to Benwell & Everitt, New York, at 102·29. Interest is payable semi-annually on January 1 and July 1, and the principal will mature July 1, 1915.

Seven bids in all were received for the loan as follows:

	Bid.
Benwell & Everitt, New York	102·29
Isaac W. Sherrill, Poughkeepsie	101·25
Parson, Leach & Co., New York	100·79
Geo. M. Hahn, New York	100·27
Walter Stanton & Co., New York	100·76
Jas. W. Longstreet & Co., Boston	102·07
Storrs & Smith, New York	102·03

New Britain, Conn.—The Board of Water Commissioners will receive bids for the whole or any number of fifty coupon bonds of the city, called "Water Fund of the City of New Britain, Sixth Series Four Per Cent Bonds," of the denomination of one thousand dollars each. Twenty-five thousand dollars of said bonds will be ready on July 20, 1895, and twenty-five thousand dollars of said bonds will be ready Aug. 1, 1895. Bonds are dated Aug. 1, 1893, and payable 25 years from date, with the option on the part of the city to pay the principal any time after 15 years from date; interest at 4 per cent, payable in February and August at New Britain.

Proposals should be addressed Thomas S. Hall, Chairman Board of Water Commissioners at New Britain, Conn., not later than July 15, 1895.

New York City.—Following are the bids which were received on July 8 by Comptroller Fitch for the purchase of $2,746,310 24 of gold bonds and stocks of the city of New York:

PAYABLE IN 1914.	*Amount.*	*Bid.*

BOND CALL.

Lewis & Clarke County, Mont.

OFFICE OF COUNTY CLERK AND RECORDER, LEWIS AND CLARKE COUNTY.

TO WHOM IT MAY CONCERN:

The Board of County Commissioners of Lewis and Clarke County, in the State of Montana, by virtue of a resolution duly adopted, do hereby give notice that on the first day of July, 1895, they will redeem and pay off, together with the accrued interest due on that date, the outstanding bonds of said county known as Court House Bonds, to the amount of $190,000, at the Third National Bank, in the City of New York. Said Court House Bonds being of two issues, the first of $150,000, due July 1st, 1905, optional after July 1st, 1891, and the second of $40,000, due May 1st, 1907, optional after May 1st, 1893; both issues bearing interest at the rate of six per centum per annum, payable semi annually on the first days of January and July, and both series being issued for the purpose of paying for the erection of a Court House in said county, under authority of the laws of Montana.

The said Court House Bonds being now due and payable at the pleasure of Lewis and Clarke County, the holders thereof are notified that interest on these bonds will cease on and after July 1st, 1895, but that the County Treasurer will at all times thereafter be ready to redeem the same on presentation, at their face value, and accrued interest to July 1st, 1895.

By order of the Board of County Commissioners.
Attest, J. S. TOOKER, County Clerk.

HELENA, MONTANA, June 1st, 1895.

"Principal and interest of above bonds will be paid on said date at either the Third National Bank as per above advertisement or at Kountze Bros. at the option of the holder."

By order of the Board of County Commissioners.
Attest, J. S. TOOKER, County Clerk.

The loans are exempt from city and county tax but not from State taxation.

Northampton, Mass.—On June 29, 1895, the city of Northampton sold $50,000 of 4 per cent coupon high school bonds to the Northampton Institution for Savings at 107·15. The securities are dated July 1, 1895, interest is payable semi-annually on January 1 and July 1 at the Hampshire County National Bank of Northampton, or at the office of the City Treasurer, and the principal will mature July 1, 1915. Principal and interest are payable in United States currency.

North Knoxville, Tenn.—Sewer bonds to the amount of $50,000 and street improvement bonds to the amount of $25,000 have been authorized by the Council.

Oneonta, N. Y.—Bridge bonds of this municipality from $15,000 to $30,000 are under consideration.

Philmont, N. Y.—The people of Philmont have voted to construct water works at a cost of $40,000, for which bonds will probably be issued.

Port Clinton, Ohio.—On July 2, 1895, the village of Port Clinton sold $7,000 of additional water bonds to Messrs. Spitzer & Co. for $7,091 and accrued interest. Other bids received were as follows:

S. A. Kean, Chicago, Ill., bid $7,017 50 and accrued interest from May 1, 1895. The bid contained another condition.

W. J. Hayes & Sons, Cleveland, Ohio, bid $7,017 50 and accrued interest from May 1, 1895. They also wanted $80 allowed them for expenses of placing bonds, and the bid had other conditions.

Seasongood & Mayer, Cincinnati, O., bid $7,104 05 net.

Portland, Ore.—On June 24, 1895, the City of Portland sold $200,000 of 5 per cent bridge bonds to Cushman, Fisher & Co., of Boston, at 115·65 and accrued interest. The securities are dated April 1, 1895, interest will be payable semi-annually on April 1 and October 1, and the principal will mature April 1, 1925, both principal and interest to be payable in gold coin at the office of the City Treasurer.

Six bids were received for the loan as follows: W. J. Hayes & Sons, bid par, interest and premium of $28,847; First National Bank of Portland bid for $25,000 of the bonds $112 65 and accrued interest; Cashman, Fisher & Co., of Boston, bid par and a premium ($31,300) and accrued interest; Commercial National Bank of Portland bid $226,600 and interest; E. H. Rollins & Son, of Boston, bid $113 and accrued interest; N. W. Harris & Co., of Chicago, bid $230,648 and accrued interest.

Pulaski City, Va.—Geo. M. Holstein, chairman of the Finance Committee, gives notice that this town will issue $25,000 of coupon bonds payable in gold or its equivalent. The securities are to be dated July 1, 1895, will bear interest at the rate of 6 per cent, payable semi-annually in January and July at the Chase National Bank, New York, and will become due in 25 years.

St. Charles, Minn.—Proposals will be received until July 15, 1895, by N. D. Gould, City Recorder, for the purchase of $17,000 of 5 per cent water works bonds. The securities will be dated July 1, 1895, interest will be payable semi-annually at the Continental National Bank, Chicago, and the principal will mature at the rate of $1,000 yearly from July 1, 1909, to July 1, 1925. Both principal and interest will be payable in gold and the payment of any or all unpaid bonds will be optional with the city after fifteen years.

St. John's, Mich.—The people of this village will vote July 8 on issuing electric-light and sewerage bonds to the amount of $35,000.

St. Paul, Minn.—Proposals will be received until July 13, 1895, by J. J. McCardy, City Comptroller, for the purchase of 100 certificates of indebtedness of the denomination of $500 each, issued in anticipation of the collection of taxes. The securities will be dated July 15, 1895, interest at the rate of 5

E. R. Street	C,000	100 53
J. B. Garnett	5,000	100 75

The securities are dated July 1, 1895, interest will be payable semi-annually, and the principal will mature July 1, 1910, with privilege of redemption by lot after July 1, 1897.

Warren, Ill.—Bonds of this municipality have been voted for water-works.

Waterbury, Conn.—Proposals will be received until July 15, 1895, by Richard F. Grady, City Clerk, for the purchase of $200,000 of 4 or 3½ per cent water bonds. The securities will be dated July 1, 1895, interest will be payable semi-annually on January 1 and July 1, the principal will mature July 1, 1910. Principal and interest will be payable by New York draft, if desired. One hundred and fifty thousand dollars of the bonds are to be delivered August 1, 1895, and the remaining $50,000 October 1, 1895.

Wheeling, W. Va.—It is reported that this city will issue $125,000 of bonds for an electric-light plant, etc.

Williamsville, N. Y.—This village will issue bonds for the construction of water works, estimated to cost $20,000.

Windom, Minn.—Proposals will be received until July 19, 1895, by F. W. Force, Village Recorder, for the purchase of $33,000 of water-works, electric-light and sewer bonds. Interest at a rate not to exceed 5 per cent will be payable semi-annually at St. Paul, Chicago or New York, at the option of the purchaser, and the principal will mature in 20 years. The village has at present no indebtedness, and its assessed valuation for 1894 was $340,000.

Yonkers, N. Y.—It is reported that this city has sold $5,800 of 10-year street bonds at 101·18, $45,000 of 3-year refunding bonds at 101·06 and $60,000 of 2 to 3 year assessment bonds at 101·20. The securities were all awarded to Messrs. Blake Brothers.

STATE AND CITY DEBT CHANGES.

We subjoin reports as to municipal debts received since the last publication of our STATE AND CITY SUPPLEMENT. Some of these reports are wholly new and others cover items of information additional to those given in the SUPPLEMENT and of interest to investors.

Albuquerque, N. M.—Following is a statement regarding the financial condition of the town of Albuquerque in April, 1895:

Albuquerque is in Bernalillo County.

Total debt April, 1895	$91,000	Population in 1890 was	5,518
Tax valuation 1894	2,117,969	Population in 1880 was	2,315
Estimated real valuation	6,000,000	Population 1895 (estimated)	7,000

Coleman, Tex.—A statement of the financial condition of this city is as follows:

Coleman is in Coleman County.

Total debt June, 1895	$15,000	Real valuation	$1,000,000
Sinking fund	1,300	Population in 1890 was	996
Tax valuation 1894	635,393	Population 1895 (estimated)	1,800

East Dubuque, Ill.—The financial condition of this city in April, 1895, was as follows:

East Dubuque is in Jo Daviess County.

Total debt April, 1895	$14,000	Population in 1890 was	1,069
Tax valuation, 1894	280,003	Population in 1880 was	1,037
Real valuation (est.)	1,000,000	Population 1895 (estimated)	1,200

CLEARING HOUSE RETURNS.

The following table, made up by telegraph, etc., indicates that the total bank clearings of all the clearing houses of the United States for the week ending to-day, July 13, have been $1,067,998,543, against $1,147,556,825 last week and $954,243,249 the corresponding week of last year.

CLEARINGS, Returns by Telegraph.	Week Ending July 13.		
	1895.	1894.	Per Cent.
New York	$482,649,495	$378,540,403	+27·6
Boston	86,240,683	69,999,886	+20·3
Philadelphia	58,934,254	50,021,029	+13·8
Baltimore	12,342,846	12,923,657	-4·5
Chicago	85,788,089	61,697,437	+39·0
St. Louis	22,659,500	18,553,440	+22·3
New Orleans	6,058,150	5,630,480	+7·0
Seven cities, 5 days	$750,674,786	$597,346,732	+25·7
Other cities, 5 days	117,923,418	121,278,791	-13·7
Total all cities, 5 days	$868,598,204	$718,625,493	+23·8
All cities, 1 day	178,400,339	135,617,756	+30·1
Total all cities for week	$1,046,998,543	$954,243,249	+24·7

The full details of clearings for the week covered by the above statement will be given next Saturday. We cannot, of course, furnish them to-day, bank clearings being made up by the various clearing houses at noon on Saturday, and hence in the above the last twenty-four hours of the week have to be **in all cases estimated, as we go to press Friday night.**

Our usual detailed figures for the previous week, covering the returns for the period ending with Saturday noon, July 6, are given below, and we also present the results for the corresponding week in 1894, 1893 and 1892. In comparison with the preceding week there is an increase in the aggregate exchanges of nearly one hundred and fifteen million **dollars, and at New York the gain is seventy-five millions.** Contrasted with the week of 1894 the total for the whole country shows an increase of 30·5 per cent. Compared with the week of 1893 the current returns record an excess of 16·2 per cent and the gain over 1892 is 9·1 per cent. Outside of New York the increase over 1894 is 18·3 per cent. The excess over 1893 reaches 11·2 per cent, and making comparison with 1892 the gain is seen to be 4·9 per cent

Clearings at—	Week ending July 6.

THE FINANCIAL SITUATION.

The industrial conditions all continue to show progress. A fact of importance has been the foreclosure sale of the New York & New England Railroad and the purchase of the property by the Reorganization Committee. Common report says that the road has been bought for Mr. J. Pierpont Morgan and friends. This transaction gives promise that the road will soon be out of receivers' hands and encourages the hope that it will be in such control as to be operated in harmony with other railroad interests occupying in some measure the same field as the New York & New England does. Rumors connecting the purchase with a combination including the Reading and divers other properties have been a source of amusement in Wall Street—probably gotten up as a kind of diversion these quiet summer days. At the same time the evidence would seem to point to a settlement in the near future of coal road differences and of progress in Reading's affairs.

If any further evidence were needed of the great activity in the iron trade and in our industries generally (for the iron trade simply reflects the state of general business), it would be found in the monthly statement of pig iron production given this week by the "Iron Age" of this city. We pointed out a month ago that though there had been very little increase in the output during May, and though iron makers seemed to be pursuing a very conservative policy, yet it was likely that during June there would be a very material increase in the active furnace capacity. This is what the figures now show to have happened. As against 172 furnaces producing 157,224 gross tons per week June 1, the "Age" reports for July 185 active furnaces with a weekly capacity of 171,194 tons—that is, there has been an increase during the month of 13 in the number of active furnaces and of 13,970 tons in the weekly product. To see how different this is from a year ago, we have only to observe that on July 1 1894, when the trade was just beginning to recover from the effects of the strike of the bituminous coal miners, there were only 107 furnaces in blast, with a weekly product of 85,950 tons, as against the product now of 171,194 tons. Perhaps, however, a better idea of the existing activity is furnished when we say that to find a product as large as the present we would have to go back fully two years, to June 1 1893, when the output was reported 174,029 tons per week. It is not alone, however, that the production is expanding; at the same time accumulated stocks are being rapidly and materially drawn down, the aggregate of these stocks (sold and unsold) being given as 543,382 tons July 1, against 648,132 tons June 1, 780,729 tons May 1, and a still larger total the month preceding.

But if the trade situation at present is satisfactory, the promise for the future is no less assuring. The prospect for succeeding months will depend very largely upon the outcome of the growing cereal crops. And in that particular the reports could hardly be more flattering. The Agricultural Department has this week issued its statement on the condition of the crops the first of July. It is somewhat surprising to find that the Department reports a further lowering of the condition of winter wheat (this being in conflict with advices from other quarters which have indicated an improvement), and now makes the average only 65·8, against 71·1 on the 1st of June and 83·9 on the 1st of July last year. But with that exception, the report is exceedingly encouraging. For spring wheat the general average is given as high as 102·2; a year ago the condition was reported only 68·4. The contrast between the two years not only suggests that the Northwestern grain-carrying roads are going to have a very much larger tonnage in wheat the coming twelve months (barring mishaps between now and harvest time in August) but that the increased yield here will in the production of the country as a whole serve to offset the loss in winter wheat. The following table furnishes a survey of the general crop situation for a series of years.

	1895.	1894.	1893.	1892.	1891.	1890.	1889.
Corn	99·3	95·0	81·2	81·1	92·8	93·1	90·3
Winter wheat	65·8	83·9	77·7	89·6	96·2	76·2	92·0
Spring wheat	102·2	68·4	74·1	90·9	94·1	94·4	83·3
Oats	83·2	77·7	88·8	87·2	87·6	81·6	94·1
Rye	80·7	87·0	85·3	92·8	93·9	92·4	96·6
Barley	91·9	76·8	88·8	92·0	90·9	88·3	91·9
Potatoes	91·5	92·3	94·8	90·0	95·3	91·7	95·1
Cotton	82·3	89·6	82·7	86·9	88·6	91·1	87·6
Tobacco	85·9	81·0	93·0	92·7	91·1	88·2	89·9

We would particularly direct the attention of the reader to the figures for corn. That crop transcends in importance any other which the country produces. The Agricultural Department makes its condition almost perfect, that is, 99·3. We would have to go back a great many years to find an average equally high. For many of the leading producing States the averages are reported above 100—Iowa 105, Missouri 109, Kansas 104—and not a single large producing State has what might be called a low average. At the same time the acreage has been increased. The Department makes the increase 6 million acres compared with the area *planted* in 1894. But nearly 14 million acres had to be abandoned before harvest time last year, so that when comparison is with the area harvested the increase is almost 20 million acres, as shown by the following:

ACREAGE AND CONDITION OF CORN ON JULY 1.

States.	1895.		1894.		1893.		1892.		1891.

☞ Three ciphers (000) omitted from acreage figures

Based on the foregoing figures of acreage and condition, estimates make this season's probable corn crop over 2,300 million bushels. For 1894 the yield was only 1,212 million bushels. A thousand million bushels more corn, what an immense difference this will make in the industrial situation! Of course, it is a long time yet to harvest, and unfavorable weather may entirely change the outlook, just as it did last year and the year before. But in any event it seems likely that the yield will be better than in 1894, whatever happens. Last year the hot winds had already done considerable damage by the middle of July; now there is not even a suggestion to that effect. Moreover, should hot winds come later on the crop is better prepared to withstand

their effect, since there is a reserve of moisture in the ground which did not exist a year ago.

The avidity with which the reports of the proceedings of the New York State Bankers' Association at Saratoga this week have been read attests the interest felt in the deliberations of that body. We give a brief account of the doings of the Convention in another part of this issue. It was of course a foregone conclusion that the Association should come out strongly in favor of sound money, but the resolutions adopted on that subject are so clear and positive that we like them much. What could be more expressive and emphatic, or compass the subject more completely, than this declaration—"We favor a currency, sound, elastic, and good as gold—good everywhere, good by the standard of the world, and good in the marts of the world; as good in the hands of labor as in the hands of capital." As to the supplementary resolution adopted, favoring the appointment of a commission, under authority of Congress, composed of experts and business men, whose duty it shall be to report to Congress for its consideration a comprehensive currency system, we can not say that that appeals very strongly to us. We have never yet known of a commission of that kind which proved of any practical utility, and unfortunately there is no reason to think that Congress would pay any special heed to their recommendations. The present was the second annual meeting of the State Bankers' Association, and there is reason for congratulation in the fact that the place of the retiring President, Mr. William C. Cornwell, of Buffalo, who has so ably attended to the duties of the position, has been well filled in the election as his successor of Mr. James G. Cannon of the Fourth National Bank of this city.

The money market furnishes some features of general interest. Money has apparently passed the point of greatest depression. We do not mean there is as yet any marked increase in activity but there is a firmer feeling for money on time and for commercial paper. Bank managers anticipate better rates in the near future, and, as one bank officer expressed it to us, they hope to have a good 5 per cent market before long. Currency is now moving to the interior a little more freely; business has begun to improve almost everywhere and crops are nearing the period when harvesting will be under way, so this movement is expected soon to increase materially. The Treasury Department will not require from the banks the deposit of gold for the transfer of currency. The banks will be supplied at the sub-treasuries with small notes in exchange not only for gold and gold certificates, but also in exchange for large denominations of currency. At the same time the Treasury will keep out of the express business and will not transfer the notes at the cheap rates which were granted previous to last fall; nor will it act as agent for the banks in any particular, but the notes will be supplied for paper as well as gold freely to all applicants, and those who receive them can retain them for home use or send them to their correspondents on such terms as they can make with the express companies. This is the same system which prevailed a year ago.

Treasury officials continue to be satisfied with the outlook thus far in the fiscal year. The heaviest payments for July are now nearly over. Of course the interest payments (reaching about 7½ million dollars in July) are all made in the first half of the month. It is expected that the month's pension disbursements will be substantially reached by the 15th instant. Columbus, Ohio, which is the largest disbursing centre, does not pay in July. The change in the method of pension payments which was recommended by Secretary Windom in his annual report for 1890 has been in every way advantageous. Previously disbursements were concentrated in the beginning of each quarter of the year, and the result was that large amounts of money were practically locked up until the distribution was over. Now the eighteen pension agencies are divided into three groups, the first paying one month, the second the next and the third the following month, and in this way payments are more equally distributed.

Money on call, representing bankers' balances, loans at 1 and at 1½ per cent, averaging about 1⅝ per cent on good Stock Exchange collateral, while on ordinary security the rate is 2 per cent. Banks and trust companies are making no new loans below 1½ per cent, and none appear to be pressing their offerings. A few of the large banks are entirely out of the market as lenders on time and as buyers of commercial paper unless the latter is very choice. Interest-paying banks are expecting withdrawals of money by their correspondents and therefore they are not doing much on time, and are insisting upon rates for commercial paper which are generally above the views of the brokers, some of these banks holding off for 3½ and others for 4 per cent as the lowest. Trust companies are willing to loan upon time for periods extending into the new year, but banks as a rule hesitate to make such engagements. The demand for time contracts is fairly good and the offerings moderately large, but rates are firmly held and quotations are 2 per cent for thirty to sixty days, 2½ per cent for ninety days to four months, and 2¾@3 per cent for five to seven months on good marketable collateral. Banks with extended correspondence report re-discounting somewhat limited and confined to the West and Northwest, but there are numerous inquiries from the Southwest, indicating a good business later on, especially in Texas, where the trade outlook is very encouraging, promising active employment for money. As noted above, the demand for commercial paper is somewhat restricted because of the wide divergence of views between buyers and sellers and this results in an accumulation of old names in the hands of brokers, and not much new paper is being made. Quotations are firm at 3 per cent for sixty to ninety day endorsed bills receivable, 3@3½ per cent for four months' commission house and prime four months, 3½@3¾ per cent for prime six months and 4@4½ for good four to six months single names.

There was no feature of importance in the European markets this week. The Bank of England minimum rate of discount remains unchanged at 2 per cent. The cable reports discounts of sixty to ninety-day bank bills in London 9-16 of 1 per cent. The open market rate at Paris is 1½ per cent, at Berlin it is 1½ per cent and at Frankfort 1⅝ per cent. According to our special cable from London the Bank of England lost £463,632 bullion during the week and held at the close of the week £37,470,206. Our correspondent further advises us that the loss was due to the import of £343,000 (of which £133,000 were bought and £110,000 were imported from Australia), to shipments to the interior of Great Britain of £407,000 and to exports of £300,000, of which £200,000 were to the Cape and £100,000 to Turkey.

The foreign exchange market has been strong this week at the highest points of the year for nominal rates, while those for actual business in long and short sterling have been the highest on record. Prime commercial sterling is quoted at higher rates than sixty day bankers' bills ruled at during the latter part of April when exchange was at the highest points. There are so few bills that they are eagerly sought and promptly taken when offered, and they are chiefly confined to drafts against provisions. As soon as grain begins to move early shippers will probably obtain better figures for their bills than were ever known in the market. The supply of security bills has been moderate this week, but it is likely that large amounts will soon be drawn. It was announced on Tuesday that the Pennsylvania Railroad Company had arranged with Speyer & Co. to sell in London £1,000,000 sterling 3½ per cent fifty-year bonds of the consolidated mortgage. The subscription books were opened in London yesterday July 12 at 10 A. M. and closed at 10:30 A. M., the loan having been very largely over-subscribed. There was a report early in the week that Messrs. J. P. Morgan & Co. had placed in Europe another large block of Southern Railway stock, and later a well sustained advance in Louisville & Nashville gave color to a report that the European holdings of this property had recently been largely increased. Bankers in a position to be well informed say that the offerings of bills this week have been mainly Syndicate bills, and this statement is confirmed by other bankers who have been able to locate the source of supply. These drafts have not been freely offered, but only in such amounts as would satisfy the most urgent inquiries. Of course the advance in rates for actual business in sterling could scarcely fail to revive reports of intended gold shipments, but there have not been the slightest indications that such were ever contemplated. Messrs. Nesslage, Colgate & Co. will send out, it is true, $250,000 gold by the Campania to-day, but this is made without reference to market conditions, as a supply of bills could easily have been obtained. The demand for remittance has been good, with an abatement in the inquiry to remit for coupons. On Monday the market opened strong, and Lazard Freres and Baring, Magoun & Co. advanced their rates for both long and short half a cent. Rates for actual business in short sterling were raised to 4 89¾@4 90, while cable transfers were 4 90@4 90¼. Prime commercial bills were quoted at 4 88½@4 88½ and documentary at 4 87¾@4 88. There was also an advance of about ⅛ of 1 per cent in francs, of 1-16 in long marks and of the same in guilders. On the following day actual rates for sixty-day sterling were advanced to 4 89@4 89¼; for short to 4 90@4 90¼ and for cable transfers to 4 90¼@4 90½, while prime commercial bills were quoted at 4 88½@4 88¾ and documentary at 4 88@4 88¼ and the tone was firm with a good demand to remit by the mid-week steamer. The market was firm again on Wednesday without any change in rates. On Thursday the tone was dull and steady and the Bank of Montreal advanced posted rates half a cent for both long and short, so that rates by all the drawers were uniformly quoted at 4 89½ for sixty day and 4 90½ for sight; but yesterday the Bank of Montreal advanced half a cent more to 4 90 for long and 4 91 for short. The following table shows daily posted rates for sterling by the leading drawers.

		Fri., July 5.	Mon., July 8.	Tues., July 9.	Wed., July 10.	Thurs., July 11.	Fri., July 12.

The market closed firm on Friday at 4 89½@4 90 for sixty day and 4 90½@4 91 for sight. Rates for actual business in sterling were 4 89@4 89¼ for long, 4 90@4 90¼ for short and 4 90½ for cable transfers. Prime commercial sterling was 4 88½@4 88¾ and documentary was 4 88@4 88¼.

The returns of earnings now coming in for the first week of July show in many cases very striking gains. For instance the St. Paul reports earnings of $512,901 the present year in that week, against only $312,317 last year, the Wabash $224,199, against $45,267, the Denver & Rio Grande $135,100, against $49,400, &c. The explanation, of course, is that we are comparing with the period of the great railroad strike last year, when a large part of the mileage of the country was completely tied up for a time. Only 47 roads have yet furnished returns for that week, and for these aggregate earnings the present year are $4,315,316 against $3,124,183 last year, an increase of $1,191,133, or 38·12 per cent. The exhibits have been making better comparisons each month recently, as shown in our article on another page reviewing the figures for June and the half-year.

The Illinois Central statement of gross and net for May has been issued this week and reports $223,962 increase in gross and $203,771 increase in net. The Atchison also has a good exhibit, showing $168,691 increase in gross and $150,256 increase in net. The Union Pacific Denver & Gulf for the same month reports gross of $295,219 against $236,613 and net of $51,106 against $53,799; the Mexican National gross of $369,506, against $378,533, and net of $169,878, against $169,571; the Pacific Mail $462,315, against $454,706, and net of $113,917, against $148,009, and the Philadelphia & Erie gross of $379,387, against $309,608, and net of $125,514, against 80,553. The Ohio River has net of $18,111, against $18,843; the Indiana Decatur & Western $16,441, against $757; the Mexican Northern $31,891, against $31,820; the Chicago & West Michigan $20,874, against $22,195, and the Detroit Lansing & Northern $22,821, against $16,125.

A SURE WAY TO DEFEAT FREE SILVER.

An amusing instance of over-acting has been the part performed by some of the silver newspapers in the South during the past fortnight or more in denunciation of our article of three weeks ago entitled "A Sure Way to Defeat Free Silver." Nothing a man who hugs an error is so sensitive about or resents so quickly as a plan for educating himself and his followers. Just now, too, the thought had got to be a peculiarly distasteful one. These Southern "Silverites" had well-nigh made themselves think their numbers equaled their noise. A few public meetings held in Kentucky and a few capital addresses for educational purposes served quickly to undeceive them. So when we proposed, as the way to defeat free silver, more meetings, more addresses, and more education, it is perhaps hardly to be wondered at that these Ishmaelites should in their rage wrap their cloak of self-righteousness about them and, like a strolling company of barn-stormers, "tear a passion to tatters" in protesting against this "bold and brazen" effort to corrupt their few remaining disciples.

But we have no wish to measure words with that class of people; their views they will of course support in the way most congenial to themselves so long as they can muster into their service a profitable number of readers who love misstatement better than truth. There is though another body of men our article has brought to our notice for whose errors we have a somewhat different feeling; for they have written us that they have been constant readers of the CHRONICLE for a quarter of a century, or more or less, and yet some of them still seem to be groping in the dark or at least in the twilight. What is worse too, they have a notion, gathered we must presume from the false assertions of certain of the newspapers referred to above, that they see something like a squint towards corruption in what we wrote. Here is a sample letter—not precisely a sample either, because this correspondent puts his words in a much broader form, and we have selected his communication on that account. He makes the direct and open charge that the CHRONICLE in the article mentioned "advocates the lavish use of money for the thinly veiled purpose of corrupting Southern papers and politicians." Since this assertion follows the claim that the author of it has been a constant reader of the CHRONICLE for twenty-five years, we assume that he means to state the truth and is a fair enough man to wish to withdraw his charge if, on examination, it cannot be supported.

GALVESTON, TEXAS, July 1, 1895.

Ed. Financial and Commercial Chronicle, New York:

DEAR SIR—As a constant reader of your paper for twenty-five years, I cannot but confess to a feeling of shame and humiliation which overcame me in reading your article, "A Sure Way To Defeat Free Silver."

Is it possible that a hitherto clean and conservative paper like the CHRONICLE advocates the lavish use of money for the thinly-veiled purpose of corrupting Southern papers and politicians?

Is this what the Reform Club and Wall Street call a campaign of education?

Already the flooding of the country with patent Reform Club literature has acted as an irritant on the South and West, and knowing as I do the Southern character I fear that your ill-advised course will have a most unfortunate and contrary effect. Yours truly,

ROB'T BORNEFELD.

It will be observed that our correspondent, as stated, plainly charges duplicity and corruption—that is to say, a corrupt object thinly concealed. The most charitable excuse we can give for him is that he has not read the article in question except in part and very carelessly. A curious coincidence is that what the writer says bears a strong resemblance to what a newspaper said before him. That fact, taken in connection with the irrelevant character of the criticism, favors the presumption that the letter was written without any real knowledge of the contents of the article. Our proposal is wholly free from disguise or concealment. No excuse but ignorance can be offered for misunderstanding a single statement—not a word or sentence permits of a doubtful interpretation. The purpose too for which the money was to be used is set out distinctly and placed beyond misconception. After having at considerable length described how much already had been done toward freeing men's minds in the South from error on the subject in controversy, and how at the moment all the facts and disclosures tended to disprove the claims of the free silver advocates, we asked that money be given so that the work "of educating the people," which had thus been so successfully begun, "could be continued." Even if we had stopped there no one would have the right to impugn our motive or misstate our purpose. But to bring the proposal within the scope of the least active "silverite" mind and prevent any one's stumbling over our words, we went on to explain what work was meant by adding—"a work that is most effectually done in that section" [that is in the South] "by public speaking and public meetings." Certainly it does not require a high degree of intelligence to understand that sentence; nothing in it admits of a double meaning; the object referred to and the channels specified for communicating with the people are as well known to the writer of the above letter as his own name. It is consequently necessary to actually add to and distort the words and the intent of the article to draw from any part of it an implied suggestion to raise money for corrupting "Southern papers and politicians."

Moreover there is another proposal in what we wrote which forecloses any low interpretation of the sort given in the above letter. The article suggested that the money to be raised should be disbursed through the New York Chamber of Commerce Committee. What we sought was to put the funds in the hands of men absolutely beyond a suspicion of corruption, and

that aim and end could not have been attained in any way more effectually. The object was national in importance and in our view sacred in character. It sought to help save the country from a great disaster and the poorer sections of it from irreparable loss. One needs no concealment under such circumstances. Hence we said in substance or in effect—place the money which is to be collected in the hands of men whose names are an assurance that every cent disbursed will be for an honest purpose, and the character and direction of the disbursement be made public if required. In these ways we not only stated plainly the object to which the contributions were to be dedicated, but we provided, if our suggestion was followed, that the money should be so guarded as to be placed beyond the power of any man to misuse it. The writer of the article might have been as corrupt as the imagination of the author of the above letter describes and yet the fund would be safe.

We think we have said enough to show our correspondent that his words are libelous and not correct. But we would ask, is he correct in his estimate of Southern character? His method of stating his position as a judge on that point has quite an ex cathedra air. It requires us to believe that politicians in the South as a body and the newspapers there are purchasable. Of course we cannot assume to know as much as the writer of the letter does about "Southern Character." And yet we have a wide acquaintance in the South, and our experience has been very favorable indeed. All the Southern men we have ever met have appeared to be highly honorable people. We have, too, some close friends in that section of long standing whom we do not believe any man would dare approach with a corrupt suggestion—as true men as live on the earth. Through our experience thus obtained we had become of the opinion that the residents of the Southern section of our country were as a class peculiarly clean, and that those who had any influence worth considering, both men and newspapers, could not be bought. Even had we been in the corruption business, the last section of the country we should have chosen for our operations would have been the South. We are inclined still to think that judgment is correct.

One single thought more. Our correspondent speaks of feeling "a sense of shame and humiliation" at the suggestion of New York contributing towards the necessary expenses of conducting a canvass in the Southern States. We have seen the same pious horror expressed recently in a Southern silver newspaper, and it is such a remarkable assumption of virtue or exhibition of ignorance, we do not care which it is called, that we cannot help referring to it. We do not believe that an election in any Southern State ever occurs having a national importance attaching to it in the course of which some of the candidates do not receive from other States contributions of money to meet some portion of the expenses. That there is anything "humiliating" in such an application or wrong in responding to it favorably is a novel idea. The obtaining of money is some times accomplished privately as a personal matter, but every Congressional year it is done openly through campaign committees. In the latter case a committee of each party exists at Washington for the purpose of forwarding the elections. Not only are documents sent but all the money the committees can raise in New York and elsewhere is distributed to help pay expenses—putting the money where most needed and where it is believed it will be most effective. In a Presidential year this kind of work is also done by a general committee not only for the purpose of helping to elect the President but also of helping to secure the election of all the other candidates of the party.

In brief, as every one knows, the workers in a party on occasions when an election affects questions of national importance invariably look to the richer men belonging to the same organization in their own and other States for assistance. So far as the money received is spent properly neither the suggestion nor the transaction has ever given rise to "a sense of shame or humiliation" to any recipient of such funds or any one else, but rather to a feeling of satisfaction and friendliness. Certainly if as a party measure this may be done, how much more desirable is it when the question concerns a vital principle, rising to such proportions as to affect every industry and every value in the land? Conducting a canvass is an expensive matter—a single public meeting costs money. When the desire is to educate States on the subject of finance and to hold numerous and attractive meetings in every school district, attractive enough to bring out the people, it costs a large amount of money. Remember too that a public meeting to propagate sound money views is a very different affair from a free silver gathering. About all the "free-silverite" needs is an "orator" with a loud voice and free action, capable of saying "gold-bug," "Wall Street," "Vanderbilt," and now, with special emphasis, "Pierpont Morgan, the Prince of Gold-bugs;" added to that, if this orator can get off a round lot of figures glibly that have no truth, but nevertheless cited as coming from a Government report, and tell his hearers that they prove black is white, he draws a crowd and fills the bill completely. These gatherings and speeches, in the absence of the truth intelligently and simply presented, have an inspiring effect among the class addressed, and carry the day.

Under these circumstances we were of the opinion when we wrote, and are still of the opinion, that men of wealth do not live up to their duty if they fail to help in every legitimate way to rid our Senate Chamber of those men who have destroyed business during the past year talking and voting for free silver and obstructing all sound money legislation, and who are only waiting now for another opportunity to begin and pursue their congenial work of disturbing it again.

UTILIZING THE POWER OF NIAGARA.

The Nineteenth Century has been distinguished by many wonderful inventions, discoveries and achievements. Its closing years are now being marked by an achievement which will certainly not rank as the least among its great events—the utilization of the power of the Falls of Niagara.

There is nothing novel or striking in the mere use of water power, which is as old as history. We may note as a matter of fact, though, that that form of power has within recent periods given place largely to other forms of power—steam, &c.—which were found to be more ecomical, more serviceable, and of greater availability. But when we speak of using the power of Niagara, we do not have in mind an ordinary employment of water power. The scale upon which the work is being carried on at Niagara would alone place the undertaking on a totally different plane, requiring the solution of many new and difficult problems in hydraulics. But in addition it is con-

templated to convey the power long distances, and in this particular the project has been a peculiarly daring one and has involved engineering problems which have attracted the attention of the whole world.

While from a scientific and engineering standpoint the work possesses distinctions which stamp it as one of the great undertakings of the century, the event is no less noteworthy or important in the industrial possibilities which it opens up. The discharge of water over the falls has been estimated by Government engineers at 275,000 cubic feet per second, giving with a fall of 216 feet the equivalent of 6¾ million horse-power. The figures are so large that it is difficult to grasp them. Consider the benefits that must flow to mankind if but a portion of this vast energy can be turned to practical uses. Only a few years ago it seemed as if all but a very small fraction of it must continue to go to waste, as it has for ages, for it appeared like an idle dream to think of using the power anywhere except within a limited distance of the Falls. But now Nikola Tesla, that greatest of electricians, talks of placing 100,000-horse power on a wire and sending it 450 miles in one direction to New York and 500 miles in the other direction to Chicago. And who will venture to say that this promise will not be realized? In truth, the promise seems nearer realization already than the most sanguine dared to hope but a short while since.

That power can be transmitted for long distances in the way proposed has not yet actually been demonstrated, and therefore can not be counted among the assured facts. Nevertheless, the experiments connected with the recent installation of the 5,000-horse power dynamo at Niagara Falls would appear to leave little room for doubt on that point. These experiments were conducted on the 28th of June, and they were pronounced in every way an unqualified success. The test in this case involved the transmission of power from the central power station on the inlet canal to the works of the Pittsburg Reduction Company, manufacturers of aluminum. These works are on the land of the Niagara Falls Power Company (which is the corporate name of the enterprise) and are 2,500 feet distant from the power-house, which is reached by an underground conduit for electrical transmission. The dynamo—said to be the largest in the world—was built by the Westinghouse Company at Pittsburg, while the works for the transmission of the electrical power to the manufacturing establishment were constructed by the General Electric Company. When the trial was made the whole apparatus was found to work in a faultless manner, and the Reduction Company has been using the power ever since. The Carborundum Company, about one-third of a mile distant from the power-house, is also using power from the dynamo. The Westinghouse Company has the contract for two more 5,000 horse-power dynamos, which will be erected alongside the first one on the canal that has been built on the margin of the Niagara River.

The advanced stage of the work and the success attending it thus far makes very timely the number of *Cassier's Magazine*, just issued, devoted entirely to a description of it. The story, as here told, is one of exceptional interest and no one can read the series of papers or articles of which it is made up without being impressed both with the magnitude and the daring of the undertaking. The articles have been written by those identified with the enterprise in various capacities, and they give one a comprehensive idea of the nature and scope of the work and the great progress already made in bringing to completion the plans and ideas of the projectors. Francis Lynde Stetson, the First Vice-President of the Cataract Construction Company, furnishes a general survey and outline of the project, and briefly recounts some of the trials and difficulties which have had to be overcome, and the very many novel and perplexing questions and problems that confronted those charged with the preparation and execution of the plans. Prof. W. Cawthorne Unwin, one of the International Niagara Falls Commissioners, furnishes a paper on "Mechanical Energy and Industrial Progress"; Albert H. Porter, late Resident Engineer of the Cataract Company, selects for his theme "Some Details of the Niagara Tunnel"; George B. Burbank, late Chief Engineer of the Cataract Company, writes on the "Construction of the Niagara Tunnel, Wheel-Pit and Canal"; Clemens Herschel, Consulting Hydraulic Engineer, tells of the "Niagara Mill Sites, Water Connections and Turbines"; Lewis Buckley Stillwell, Assistant Manager of the Westinghouse Electric Company, describes "Electric Power Generation at Niagara"; John Bogart gives a description of the "Industrial Village of Echota at Niagara"; Col. Th. Turrettini, Director of Public Works, Geneva, Switzerland, writes on "Notable European Water Power Installations"; S. Dana Greene, Assistant Manager of the General Electric Company, on the "Distribution of the Electric Energy from Niagara Falls," and Peter A. Porter, on "The Niagara Region in History." The whole forms a collection of articles not only of absorbing interest but exceedingly useful and instructive.

The inception of the undertaking may be said to date from the organization of the Niagara Falls Power Company in 1886, incorporated by act of the Legislature of the State of New York. For three years, as Mr. Stetson says in his paper, the originators of the project were engaged in convincing capitalists that it would be commercially profitable to undertake and complete the development of the plan proposed. The enterprise encountered the experience with which all novel or untried propositions have always met. There were the usual number of persons ready to prove that the thing could not be done, or that it would be of no practical use if it could be done. The plans had been prepared by Mr. Thomas Evershed, who by reason of his training and experience possessed special fitness for the task. Referring to the objections raised to it, Mr. Stetson with fine sarcasm says: "But of course the publication of this plan invited and encountered the demonstration of its absolute impracticability, as well as the improbability of the use of the power if developed." Mr. Edward Atkinson had strong doubts which found expression in a public letter in October 1886, and others also gave utterance to their misgivings. The promoters of the scheme were not disturbed by all this. The practicability of the tunnel had been called in question, but Mr. Stetson says it was shown that the capacity of the original tunnel, about 120,000 horse power, would exceed the combined theoretical horse power of Lawrence, Lowell, Holyoke, Turner's Falls, Manchester, Windsor Locks, Bellows Falls and Cohoes, and would very largely exceed the actually developed power of all these places, and Augusta, Paterson and Minneapolis in addition. "Considering the further right to construct an additional tunnel of 100,000 horse power on the American side, and to develop at least 250,000 horse power on the Canadian side, it was readily recognized how vastly

this local development promised, in extent, to surpass the combined water powers of almost any American State or section." But the question still remained whether water power could be furnished successfully in competition with steam—an important question, since in the vicinity of Buffalo good steaming coal can be obtained at less than $1·50 per ton. Of course the promoters satisfied themselves fully on that point before proceeding with their venture.

Finally in 1889 the Cataract Construction Company was organized by those interested in the Niagara Falls Power Company and was given the construction contract. It follows that work has been in progress for a period of six years. The plan comprises a surface canal, 250 feet in width at its mouth, on the margin of the Niagara River, 1¼ miles above the Falls, extending inwardly 1,700 feet, with an average depth of about 12 feet, serving water sufficient for the development of about 100,000 horse power. The walls of the canal are of solid masonry and are pierced at intervals with ten inlets, guarded by gates which permit the delivery of water to the wheel pit in the power house at the side of the canal. The wheel pit is 178 feet in depth and is connected by a lateral tunnel with the main tunnel, serving the purpose of a tail-race, 7,000 feet in length, with an average hydraulic slope of six feet in 1,000, the tunnel having a maximum height of 21 feet and width of 18 feet 10 inches, its net section being 386 square feet. The tunnel was first used in January of last year, and in constructing it 1,000 men were continuously engaged for three years. During the process of construction 300,000 tons of rock were removed and more than sixteen million bricks were used for lining the tunnel.

Mr. Stillwell, the electical engineer, in his article makes the statement that no enterprise of modern times involving special and extraordinary engineering problems has been more carefully, more patiently, more systematically or more intelligently studied than has this one of the utilization of the water power at Niagara. And as we read Mr. Stetson's account of the work we are forcibly impressed with the truth of the statement. Each step in the process had to be carefully thought out. The experience of others in the same line served only as a partial help, since the present project was in many essential particulars totally different from previous similar undertakings. Take the matter of the turbines, for instance. Water wheels of considerable excellence are readily enough obtained, but it was not easy to find wheels suitable for the special requirements of the Niagara Falls Company. And so in securing the other contrivances necessary to the operation of the works many novel and untried problems came up. Mr. Edward D. Adams, the President of the Construction Company, happily conceived the idea of offering a series of prizes, and an International Niagara Commission, composed of leading scientists in Europe and America, was constituted for the purpose, with power to award $22,000 in that way. The first result we are told was the selection of Messrs. [illegible] Faesch & Piccard, of Geneva, as designers of the turbines.

done The next step was to determine upon the mode of lattenansmitting the power to be developed from the turingtones. [illegible]r. Stetson says that in 1890 four different [illegible] of transmission were seriously considered, [illegible] manila or wire rope, by hydraulic pipes, by [illegible]d air, and by electricity. A tour of inspection [illegible]pe was made by Mr. Stetson and Mr. Bogart to study the different systems. It was finally determined to adopt electricity as the means of transmission, and in December 1891 the Niagara Company invited competitive plans and estimates for the development of electrical power and of its transmission both locally and at Buffalo. As the result of that competition "a two-phase alternating generator of 5,000 horse power, developing about 2,000 volts, with a frequency of 25," was decided upon as the best practicable unit and method for the development of electricity for power purposes, and the Westinghouse Company was given the contract to build three dynamos of this type.

As stated above, one of these dynamos was put up along the canal two weeks ago, and is now delivering power locally. The company will be prepared shortly to proceed with the construction and operation of a plant for the transmission of power to Buffalo, eighteen miles distant. How much further the power can be carried at a commercial profit, Mr. Stetson says, remains to be seen. Electrical engineers have reached the opinion that the power can be delivered even at Albany, 330 miles distant, cheaper than it can be produced by triple-expansion steam engines. The Niagara Company will rest for the success of its undertaking chiefly upon the delivery of power within near distances, but the promoters at the same time have definitely determined to furnish power to distant consumers, though how distant they are not yet prepared to say.

A word as to the men who have risked their money in the enterprise, and to whose faith and courage it owes its progress. They are William B. Rankine, Francis Lynde Stetson, J. Pierpont Morgan, Hamilton McK. Twombly, Edward A. Wickes, Morris K. Jesup, Darius Ogden Mills, Charles F. Clark, Edward D. Adams, Charles Lanier, A. J. Forbes-Leith, Walter Howe, John Crosby Brown, Fredrick W. Whitridge, William K. Vanderbilt, George S. Bowdoin, Joseph Larocque, Charles A. Sweet of Buffalo, and John Jacob Astor. These are all notable people, and Mr. Stetson says that most of them have served as officers and directors of the Construction Company, giving freely of their time and experience to the conduct of the enterprise. Mr. Stetson also pays a well-deserved tribute to the zeal and ability of Mr. E. D. Adams. He says: "Among all these names it may seem invidious to select any for special comment, but, after the early and continuing interest of Mr. Morgan and Mr. Mills, and the later accession of Mr. Astor, it was, as it continues to be, a matter of congratulation to the Cataract Construction Company that the origination, the development and the guidance of its affairs have, from the first, received the intelligent and continuous attention of its President, Mr. Edward D. Adams."

PHYSICAL CONDITION OF RAILROADS.—III.

At the close of the last article we were speaking of the value of the amount of earnings spent per mile of road for maintenance of way and structures as a guide to the investor. Every one familiar with railroad reports knows that the operating expenses of a company are customarily separated into several heads, one of which represents the cost of "conducting transportaion," another the "maintenance of way and structures," this being the part of earnings applied to repairs and renewals, another the "maintenance of equipment," etc. If we divide the item "maintenance

of way and structures" by the average number of miles of road operated during the year, we have as a result the average sum per mile spent out of earnings to keep the road in good condition. It is an item the meaning of which is easily comprehended but which must be used with discrimination.

No one can furnish the investor with a fixed financial measure for determining in every case the sufficiency or insufficiency of the expenditure of the amount spent for maintenance. The safest method, as we said last week, is to compare the amount so spent with the amount used for the same purpose by other companies similarly situated as regards traffic, country traversed and age and character of road. For normal cases, as we shall show below, railroad experts have figured out the sum of money required to maintain a road; but one does not need to be told to keep in mind the conditions that cause considerable variations in particular instances, among which are—very many or very few trains, very poor physical condition of property demanding heavy outlays, or very high degrees of excellence requiring smaller sums, exceedingly low or exceedingly high grades, old properties needing modern appliances or new properties already equipped for economical operation and demanding but slight repairs, etc. Appreciating the exceptions which he may meet, the reader will be helped by studying the following table compiled from the report of the Inter-State Commerce Commission for the year ending June 30, 1893, a period during which railroad expenses were still uncurtailed by the economies subsequently put in force. The table is as follows:

	Miles of road.	Gross earnings per mile.	Average trains per mile per day.	Maintenance of way and structures per mile.
UNITED STATES: TOTAL ROADS REPRESENTED.	169,790	$7,190	13·4	$997
U. S. Group I.	7,420	11,711	22·2	1,669
" " II	19,271	16,240	29·4	1,907
" " III.....	21,756	8,612	17·9	1,212
" " IV.....	10,561	4,151	9·3	608
" " V	17,005	4,796	10·0	755

" " VII.....	10,424	4,547	7·7	655
" " VIII.	21,214	5,344	9·7	772
" " IX.....	10,200	4,119	8·0	726
" " X.....	11,953	5,501	8·0	939

FOOT NOTE.—The groups above mentioned include the following States:

Group I.
New England States.
Group II.
New York,
Pennsylvania,
New Jersey,
Delaware,
Maryland.
Group III.
Ohio,
Indiana,
Part of Michigan.
Group IV.
Virginia,
West Virginia,
North Carolina,
South Carolina.
Group V.
Kentucky,
Tennessee,
Florida,
Georgia,
Alabama,
Mississippi.
Group VI.
Wisconsin,
Illinois,
Iowa,
Minnesota,
Part of Michigan,
Do Missouri,
Do No Dakota,
Do So. Dakota.
Group VII.
Montana,
Wyoming,
Nebraska,
Part of North Dakota,
Do South Dakota,
Do Colorado.
Group VIII.
Kansas,
Arkansas,
Oklahoma,
Indian Territory,
Parts of Missouri,
Do Colorado,
Do New Mexico,
Do Texas.
Group IX.
Most of Texas,
Part of New Mexico.
Group X.
Washington,
Oregon,
Idaho,
California,
Nevada,
Utah,
Arizona,
Part of New Mexico.

The table above given shows the average expenditure in the United States per mile of road for maintenance of way and structures to have been in the year named $997, but this average is higher than it would be were it not for the large average of Groups I. and II. These have an average of $1,669 and $1,907 respectively per mile, which is extraordinarily large. This is accounted for by two facts, namely, heavy traffic, as witnessed by the gross earnings of $11,711 and $16,240 per mile of road, and the large amount of double track, which of course necessitates heavier outlays for renewals than single track, though by no means double the amount. Excluding these two groups the average per mile for Group III., which includes the States of Ohio, Indiana and part of Michigan, is $1,212, while in all the other groups the amount varies between $608 and $846 per mile. A writer* in the "Railroad Gazette" expresses the opinion, which we would be slow to accept in its entirety, that these sums are inadequate, and that $1,000 per mile would be more nearly correct for roads earning $5,000 gross per mile. Some notable exceptions there have been and doubtless some still exist to the rule of good management, but we believe the great majority of American railroad managers are keenly alive to the necessity for supplying their roads with all modern appliances, and that in very many instances the yearly outlay for maintenance is rather above than below what will be the proper average when the solid road-beds, heavy rails and heavy bridges, etc., have been secured.

At the same time we recognize that never has the need of liberal expenditures for renewals and improvements been more pressing than it has become of late years. The weight of the trains run has been increased so enormously—the Evansville & Terre Haute for instance carrying in the fiscal year ending June 30 1894 no less than 287 tons of freight per train mile contrasting with 105 tons in 1889—that under the heavy loads the road bed unless carefully preserved and strengthened goes rapidly to pieces. Moreover we agree perfectly with the writer referred to above in deprecating a "policy of ignoring the deterioration from year to year until it requires so-called extraordinary expenditures and betterments to again put the road into good condition."

Mr. Wellington, recently deceased, in his standard book on Railway Location, a book still highly valuable, though to some extent antiquated as regards its statistics, gives a table that we think it worth while to reproduce, notwithstanding the development that has taken place since the table was first published [1887] has, as already said, raised somewhat the requirements for renewals. Mr. Wellington says: "The total cost of maintenance of way for single-track railways of moderate traffic may be safely estimated as follows for those items only which are practically independent of volume of traffic:

Cross-ties	$150	to	$225	Per mile of main track not including mileage of sidings. Common track labor, $1 25 per day.
Do for side tracks	10	to	40	
Labor on track	150	to	200	
Track walking	50	to	100	
Snow and ice	00	to	50	
Ballast.	50	to	100	
Fences and miscellaneous.	25	to	50	
Cattle guards, open culverts and crossings	25	to	50	
Total.....	$460	to	$815	
Steel rails	$20	to	$100	

"To this estimate must be added certain allowances for maintenance of structures, for the maintenance of large yards and terminal facilities, and for extraordinary damages and repairs, and also for the wear of steel and other expenses, according to traffic. The amount of necessary expenditures which can with any propriety be assumed to vary directly with the tonnage will be—

Steel rails, (including all expenses for relaying spikes, etc., connected therewith).	1c. per train mile.
Track labor, etc.,	1¼ cents per train mile.
Track watchman	¾
Total	3 cents per train mile.

"This amount will vary almost exactly with the number of trains independent of their weight and length. The present rate of expenditure for rail renewals in all parts of the United States is much higher than the above, or about $200 per mile, but this can hardly continue to be permanently the case." The 3 cents a train mile is equivalent approximately to $11 for a

*Joseph O. Osgood, Railroad Gazette, Feb. 22, 1895.

train run over the mile daily for 365 days (3c. × 365=$10 95), consequently this variable quantity in maintenance may be ascertained by multiplying the average number of trains daily per mile of road by eleven. It makes necessary an addition to the preceding table, for a road averaging twelve trains daily over its entire length, of $132—the total requirements for maintenance ranging from $612 to $1,047 on roads of moderate traffic, exclusive of amounts for maintenance of structures and terminal yards. Mr. Wellington was a highly conservative practical man, and much importance deservedly attaches to his deductions.

In connection with the expenditure per mile of road for maintenance, considerable light may be gained as to the way a property is being managed by considering the number of new ties and the number of tons of rails placed each year on an average to each mile of track. While the annual expenditure on account of new ties and rails is not usually by itself a very great item, it is a good indication of whether the condition of a road is being permitted to run down. During such a period of extreme depression as we have recently passed through the average outlay may properly enough be disregarded and a far less sum be spent, but experience teaches that as a rule failure during a number of years to renew ties and rails at a reasonable rate is the precursor of financial collapse. The number of ties to the mile varies from 2,464 to 3,000. The average life of a tie is generally estimated at eight years, so that one-eighth the entire number, 300 or 400, costing from 35 to 50 cents each, should be replaced yearly in each mile of track—that is after a road has been long enough in operation to require renewals. If less than 250 per mile are laid for several years in succession by any but a new road, there is good reason to suspect a neglect of proper maintenance.

Steel rails are assumed by the engineer who examined the Atchison system recently to have a life on heavy traffic lines of 15 years and on light traffic lines of 25 years, an average life of about 20 years. The New York Central reports the average life of its rails at 12 to 20 years. Of rails weighing 70 pounds to the yard 110 tons* are required for each mile of road, hence at least 1-20 of this amount, or about 5·5 tons, must on the average be renewed each year. Most new roads may indeed be safely operated for a long time with small expenditures on account of rails, but then the renewals become all the heavier later on, either swelling operating expenses or resulting, improperly we think, in new security issues—unless the conservative method of establishing a depreciation fund has been followed. In any case, however, there is an advantage in knowing what amount of rails is being laid and whether the new rails are being charged in whole or in part to the cost of operating.

At some other time we hope to show what various companies have been spending on their properties by way of renewals, and to point out in the case of certain companies that become embarrassed in what respects their reports had previously indicated approaching disaster.

* Some of our readers may find it useful to have in mind the fact, known to every railroad engineer, that if we divide the weight of the rail per yard (in the above case 70) by 7 and multiply the product by 11 we obtain at once the total number of tons required to lay a mile of road. This simple ratio is derived by multiplying x, the weight of the rail per yard, by 1,760, the number of yards to the mile, and then by 2 to get the number of pounds for a road with two rails. We then divide the result by 2,240, the number of pounds to the ton, and so obtain the number of tons to the mile expressed as

$$\frac{176}{112}x, \text{ which is equal to } \frac{11}{7}x$$

RAILROAD GROSS EARNINGS FOR JUNE AND THE HALF-YEAR.

In reviewing the gross earnings of United States railroads for the half-year ending June 30, the fact which stands out prominently is that on the whole it was a period of better results than the corresponding six months of last year. At the same time the circumstance that the gain in earnings is comparatively small, after a tremendous loss last year, is evidence that the improvement has been by no means general and that the conditions have not all been favorable. In truth many of the conditions have been decidedly adverse, and according as any particular road or section has been subject in small part or in large part to their influence have the returns of earnings been satisfactory or the reverse.

Our statement is compiled within twelve days after the close of the half-year, and therefore the exhibit is necessarily somewhat incomplete. We have returns for the full half-year from 126 roads, operating a little over 100,000 miles—101,473 miles. On these roads the net gain in gross earnings for the six months has been $7,100,663. As in other years, we have brought together in a separate table the roads which have as yet furnished returns only for the five months to May 31. There are 63 of these, with a mileage of 45,469 miles, and it will take from four to six weeks for the figures for the month of June to complete the half-year to come in for such roads. For the five months these roads show a gain in earnings of $5,131,873. Altogether therefore we have returns for either the five or the six months from 189 roads operating 146,942 miles, and the aggregate gain in gross receipts on this mileage is $12,232,536, or 3·23 per cent. The combined results are shown in the following table:

	Gross Earnings.			Miles of Road End of Period.	
	1895.	1894.	Increase.	1895.	1894.
	$	$	$		
126 roads 6 months....	236,553,676	229,453,013	7,100,663	101,473	101,387
63 roads 5 months....	155,064,461	149,932,588	5,131,873	45,469	45,400
Grand tot. (189 r'ds).	391,618,137	379,385,601	12,232,536	146,942	146,787

The foregoing deserves to be contrasted with the exhibit for the corresponding period last year. In September last we estimated the loss in gross earnings by United States railroads for the first six months of 1894 at 100 million dollars. But for our present purpose a better basis of comparison will be with the statement published by us on July 14 1894, and prepared in the same way as the figures in the above statement—that is, embracing the earnings for some roads for only five months. The statement then covered 148,772 miles of road, and showed a loss in gross earnings of $74,506,653. Hence we may sum up by saying that on the roads making regular reports and embracing about 85 per cent of the entire mileage of the country, there has been a recovery of 12½ million dollars in 1895, after a loss in 1894 of 74½ million dollars.

Last year all the leading conditions were unfavorable, and the railroads had to contend with a combination of adverse influences, factors, agencies and events without a parallel in their history. Business was still suffering from the effects of the 1893 panic, and the depression was intensified by the continued uncertainty regarding tariff legislation, by the large gold exports, by the apprehensions regarding the condition of the United States Treasury and its ability to maintain gold

payments, and by the large deficiency in Government revenues. Then also there was the great strike of the bituminous coal miners lasting from April 21 to June 18th, which not only cut off the shipments of coal, but brought the iron trade almost to a standstill, and compelled various other manufacturing establishments to close up for the lack of fuel. In those six months too the strike of the employees of the Great Northern occurred, and we likewise had the Coxey troubles. The half-year closed with the general strike of railway employees inaugurated by the American Railway Union in full blast. There were also great floods, both here in the East and on the Pacific Coast.

As compared with this very exceptional state of things last year, the situation the present year of course was greatly improved. And yet, as already said, there were many unfavorable factors, thus preventing the recovery of any but a small portion of last year's very heavy falling off in earnings. The crop shortage of last season was a very serious adverse factor. It operated to diminish the grain traffic of the roads for one thing, and it curtailed the purchasing and consuming capacity of large sections of the population. In special districts the crop failure was so complete that the people found themselves in a destitute condition, and had to have assistance.

In the early part of the year all business interests were deeply disturbed by the critical state of the United States Treasury and the possibility that as a result the Government might be forced to suspend gold payments. This trouble was overcome by the contract with the Belmont-Morgan Syndicate, but business recovery made only slow progress for some time thereafter, and it was not until the last two months, when it was seen how completely the Syndicate arrangement had fulfilled the requirements, that the revival developed strength. Then, however, business became very active, manufacturing establishments started up all over the country, advances in wages were announced from all sections and in all industries, and the iron industry particularly experienced a boom.

The severe winter was also quite a drawback to the railroads. We had a blizzard here in the East in February, blockading the railroad lines and seriously interrupting transportation work for a number of days, while in the West snow and severe weather generally were likewise disturbing factors. The cold extended over large areas, and involved sections of the country usually exempt from that kind of influences. The South was visited by extremely cold weather several times, and in Florida frosts occurred which did great damage to the orange crop. Some of the roads have suffered very heavy losses in earnings as the result of the diminution in the shipments of oranges. The cotton movement was in excess of that for 1894, but planters realized such a low price for the greater part of the crop that they were left in poor circumstances, and were not in position to purchase supplies freely. One effect was to curtail the use, and consequently the shipments, of fertilizers.

Railroad rates were pretty badly demoralized at different times in various parts of the country. Whether the situation as a whole in this respect was any worse than it was in the same period of last year it is difficult to say. On the east-and-west trunk lines between Chicago and the seaboard things certainly got into a pretty bad state, and a number of attempts were made to check the demoralization. Finally, towards the close of the half-year the trunk-line presidents took action (spurred on, it is believed, by Mr. J. Pierpont Morgan) which it is thought will prove effective. In the South there was a dispute between the Seaboard Air Line and the Southern Railway which led to a sharp reduction in passenger rates to Atlanta and other points. The difficulty was adjusted before the close of the half-year.

There were no great or general labor troubles like those of last year, but there were some minor disturbances; for instance, the Norfolk & Western, which almost alone was not involved in the miners' strike of the previous year, had a strike of its own the present year. Some of the Ohio roads also had difficulties with the miners.

We have spoken of the contraction in the grain movement. At the Atlantic seaboard the receipts of grain from January 1 to June 29 were only 54,640,773 bushels in 1895 against 65,958,766 bushels in 1894, 86,599,043 bushels in 1893 and 141,307,007 bushels in 1892; and there was besides a falling off in the shipments of flour. At the Western primary markets the receipts of wheat, corn, oats, barley and rye for the same period were 134,908,781 bushels in 1895 against 177,687,194 bushels in 1894—a loss of nearly 43 million bushels. We show the latter movement in detail in the following.

It will be observed from the foregoing that the falling off has been quite general, but that a considerable portion of the whole occurred at Chicago. In the subjoined statement we give the receipts at Chicago for the even half-year, and it will be noted that the aggregate for the six months in 1895 stands at only 60,808,862 bushels, against 82,972,481 bushels in 1894 and 89,584,198 bushels in 1893. The same table also shows the grain receipts for June and likewise the provisions movement at the same point for the month and half-year.

RECEIPTS AT CHICAGO DURING JUNE AND SINCE JANUARY 1.

	June.			Since January 1.		
	1895.	1894.	1893.	1895.	1894.	1893.
Wheat, bush.	[illegible]	481,744	1,246,021	2,618,316	5,065,857	19,232,740
Corn, bush.	4,821,747	5,892,727	10,390,578	23,103,972	39,417,582	29,929,879
Oats, bush.	[illegible]	4,923,491	9,423,448	30,205,278	33,353,065	34,384,342
Rye, bush.	[illegible]	79,906	81,921	771,858	682,180	722,075
Barley, bush.	201,[illegible]	145,[illegible]	273,080	4,104,928	4,139,869	5,928,153
Total grain	11,182,272	11,624,148	21,351,37[illegible]	60,805,852	82,972,181	89,[illegible]4,198
Flour, bbls.	139,067	288,960	363,082	1,403,155	2,136,702	2,416,281

Cut meats, lbs.	14,[illegible]	15,[illegible]	14,[illegible]	84,[illegible]	98,[illegible]	90,[illegible]
Lard, lbs.	6,[illegible]	7,[illegible]	5,[illegible]	28,582,209	37,316,[illegible]	26,[illegible]
Live hogs, No.	[illegible]	692,76[illegible]	746,148	4,096,986	3,765,602	2,790,794

It deserves to be pointed out that the grain movement over the different roads entering Chicago varied a great deal—that not all shared in the falling off, some actually having delivered more grain than in the preceding year. In the Middle Western States—more particularly Ohio, Indiana and Illinois—the crops last year had been quite fair. Hence the roads traversing this section pretty generally are able to report enlarged receipts. On the other hand, in the Northwest and the Southwest the crop failure was quite pronounced and the roads into those sections clearly reflect the effects of that failure. The distinction appears very clearly in the following table, which we have made up from the figures given by the Chicago correspondent of the "Evening Post" of this city.

DELIVERIES OF FLOUR AND GRAIN AT CHICAGO, JANUARY 1 TO JUNE 30.

	Grain.		Flour.	
	1895. Bush.	1894. Bush.	1895. Bbls.	1894. Bbls.
Chicago & North W'n..	6,337,000	19,260,000	388,639	401,176
Illinois Central	13,790,000	10,038,000	6,597	13,950
Chic. Rock Is. & Pacific	5,313,000	9,578,000	218,575	334,798
Chic. Burl. & Quincy...	10,412,000	16,385,000	98,213	247,294
Chicago & Alton	4,912,000	3,184,000	4,500	86,156
Chicago & E. Illinois...	2,903,000	1,181,000	9,150	8,800
Chic. Mil. & St. Paul...	5,805,000	12,062,000	512,250	535,950
Wabash	4,007,000	3,359,000	45,580	20,027
Chic. Great Western ...	2,367,000	2,931,000	25,477	457,305
Atch. Top. & Santa Fe.	2,843,000	3,454,000	150	955
Louisv. N. Alb. & Chic.	346,000	173,000	133	....
Total.....	59,035,000	81,905,000	1,309,264	2,106,411

Thus we see that the receipts by the Chicago & North Western were only 6,337,000 bushels in 1895 against 19,260,000 bushels in 1894, and that the Rock Island, the Burlington & Quincy, the St. Paul, the Chicago Great Western and the Atchison also have sustained considerable losses, but that the Illinois Central on the other hand made deliveries of 13,790,000 bushels, against 10,038,000 bushels, and that the Chicago & Alton, the Chicago & Eastern Illinois, the Wabash and the Louisville New Albany & Chicago likewise brought in increased amounts.

With reference to the provisions and live-stock movement at the same point it will be noticed from the table further above that the receipts of hogs were 4,096,986 head in 1895 against only 3,765,602 head in 1894. The live-stock movement as a whole, however, was less than a year ago, the deliveries having aggregated only 128,289 car-loads against 143,697 car-loads. Several of the roads which suffered most from the falling off in the grain movement likewise sustained heavy losses in their live-stock tonnage, as will appear from the following, also taken from the "Evening Post."

DELIVERIES OF LIVE STOCK AT CHICAGO, JANUARY 1 TO JUNE 30.

	1895. Cars.	1894. Cars.	1893. Cars.	1892. Cars.
Atch. Topeka & Santa Fe..	5,825	6,151	5,042	6,713
Chicago & Alton.	8,535	8,705	12,077	9,259
Chic. Burlington & Quincy.	28,843	33,578	27,171	33,398
Chicago & Eastern Illinois..	3,021	2,155	2,131	2,003
Chic. Mil. & St. Paul.	14,371	21,402	18,507	22,430

Other roads.....	2,810	1,880	2,052	1,886
Total cars. 128,289		143,697	129,525	154,960

As regards the cotton movement in the South, which, as already said, was considerably in excess of a year ago, the receipts at the Southern outports were, roughly, 2¼ million bales in the six months of 1895, against only 1½ million bales in the six months of 1894. The gross shipments overland in the same period were 694,757 bales, against 473,738 bales.

RECEIPTS OF COTTON AT SOUTHERN PORTS IN JUNE, AND FROM JANUARY 1 TO JUNE 30, IN 1895, 1894 AND 1893.

In 1894 our monthly returns of earnings showed a worse result with each succeeding month, culminating with a loss of 21·48 per cent in June. The present year the showing has been just the reverse of this, and the comparisons have been growing steadily better, though the improvement has been small alongside of last year's losses. In the first three months the changes were comparatively trifling, in April there was a gain of 4·65 per cent, in May a gain of 6·38 per cent, while now for June we have an increase of $2,843,513, or 8·29 per cent.

Period.	Mileage.		Earnings.		Inc. or Dec.	P. C.

We have alluded above to the fact that in 1895 there has been an increase of only 12¼ million dollars for the half-year, after a loss in 1894 of 74½ million dollars. The following carries the comparisons a few years farther back; the table is given in our usual form, so as to show both the latest month and the year to date.

The absence of a general coal strike like that of last year and the revival of industrial activity have led to a great increase in the coal shipments in the mining and manufacturing districts. The Pennsylvania is the largest coal carrier in the country, and last year its coal shipments in the six months had fallen off 3,727,606 tons. The present year the coal and coke shipments over the system are reported by the Philadelphia "Ledger" at 10,844,973 tons, against only 6,582,730 tons in 1894, an increase of over 4¼ million tons, and making the total larger even than in 1893.

Generally speaking the roads in the manufacturing districts have the best returns, and those running through the grain districts which suffered most from

the crop failure the poorest. In view of the falling off in both the grain and live-stock traffic, it is no surprise to find that the Rock Island has fallen $1,261,124 behind in its earnings for the six months and the St. Paul $1,138,018 behind, while for the five months the Burlington & Quincy has lost $1,287,383, the Chicago & North Western $951,171, the Omaha $515,570, &c. But the large gains greatly outnumber the losses. The Pennsylvania leads with an increase of $3,813,654 for the five months (last year the road had a loss for this period of $9,474,871), and the Reading for the same period has $1,851,848 increase, while for the full half-year the Great Northern has $1,270,639 increase, the Missouri Kansas & Texas $1,041,774 increase, the New York Central $793,577 increase, &c. The following is a full list of all changes above $100,000 in amount.

* Figures for four months to April 30.
† Earnings on Eastern lines increased $2,484,582 and on Western lines $1,329,072.

As regards the exhibit for June, we have already stated that the gain is $2,843,513, or 8·28 per cent. This is the more noteworthy as the month in 1895 had an extra Sunday and therefore contained one less business day. Still comparison is with a month in 1894 which had shown no less than $9,056,927 loss or 21·48 per cent. There is a very extensive list of large gains, the Atchison reporting $421,376 increase, the Great Northern $362,684, the Missouri Kansas & Texas $247,428, the Northern Pacific $206,631, etc. The list of decreases exceeding $30,000 in amount comprises simply the Norfolk & Western with $282,956, the St. Paul with $120,078, the Rock Island with $90,376 the Ontario & Western with $69,373, and the Fort Scott & Memphis with $56,602.

PRINCIPAL CHANGES IN GROSS EARNINGS IN JUNE.

Increases.		Increases.	
At. Top. & S. Fe (3 rds.)	$421,376	Ches. Ohio & So. western	$42,542

Grand Trunk	42,764		

* For three weeks only.

In the South the cotton movement during the month was smaller than in 1894, and quite a number of the roads in that section are obliged to report losses in earnings, the Louisville & Nashville and the Georgia among others, besides the Norfolk & Western, which continues to suffer from the strike of its coal miners.

EARNINGS OF SOUTHERN GROUP.

a Figures here for 1895 and 1894 are simply the totals of the earnings for the four weeks of the month as reported in the weekly returns; the month's earnings, as shown by the weekly estimates quite considerably.
b Including Scioto Valley & New England and Shenandoah Valley for all the years.
c Figures for month not reported; taken same as last year.
* Figures for fourth week not reported; taken same as last year.
† Includes Lexington & Big Sandy road in this and previous years.
‡ Figures are approximate, same as for this year; actual earnings were larger.

In the Southwest we have large amounts of gain by most of the roads, but losses by a few companies like the Texas & Pacific, the Kansas City Fort Scott & Memphis and the St. Joseph & Grand Island. Both the Missouri Kansas & Texas and the St. Louis Southwestern show larger earnings than in any preceding year.

b Includes Toledo Columbus & Cincinnati for all the years.
a Figures here for 1895 and 1894 are simply the totals of the earnings for the four weeks of the month as reported in the weekly returns; the month's earnings usually exceed the weekly estimates quite considerably.
* Figures for fourth week not reported; taken same as last year.
c Figures for month not reported; taken same as last year.

Among the Pacific roads the Northern Pacific now seems to be on the up grade again and the Canadian Pacific likewise shows improving receipts.

THE NEW YORK STATE BANKERS' ASSOCIATION.

The second annual convention of the New York State Bankers' Association, which was organized a year ago, assembled in Saratoga on Wednesday. The report of the Treasurer, Mr. James G. Cannon, Vice-President of the Fourth National Bank showed a membership of 389 in nine groups, and a balance of cash on hand of $1,242 68.

The President, Mr. William C. Cornwell, in his annual address, said that among the important results accomplished by the Association was the adoption in nearly every group of a uniform statement for borrowers by which the banker is enabled to ascertain the condition of applicants for accommodation and to guard against losses from bad debts, which are the most dangerous of all those things which tend to sap the surplus and dividends of banks. The establishment of confidential relations between the banker and his client enables the former to become the adviser of the latter, and the banker's knowledge of credit may and should make him invaluable to the business man in checking inflation and unwise ventures. The suggestion was made that the collection of country checks be so systematized as to facilitate the business, through clearing houses, and that uniform schedules of rates be established with pro rata participation in profits. The principal part of the President's address was devoted to the question of the currency, and he was of the opinion that the group meetings should hereafter include discussions of the currency and the public events affecting commerce, to which meetings the public may be invited. Bankers handle to an enormous amount and by far the largest part of the currency; they come daily in contact with commerce as related to currency, and are students of its effects and the consequences of its character. If the currency is sound the commerce of the country has a sure basis for healthy growth and the bankers are in daily touch with its wholesome influence. If the currency is debased or unscientific, commerce feels at once its unsatisfactory and baleful influence, and the banker, first of all, is cognizant of the danger from which he can himself escape but which falls upon the merchant, stunning and stupefying trade and working the greatest hardship to him whose family are dependent for their daily bread upon daily wages. In conclusion the President claimed that the bankers of New York State are in favor of honest money. "They maintain," he said, "that sound money is one hundred cents on the dollar of the world, with gold as the standard — a dollar which paid for in honest labor will buy for the laborer a value of honest labor exactly equal to that which he gave for it, not only in these United States from the pine trees to the Gulf, but anywhere throughout the broad world where God's sunshine blesses the honest toil of man."

Addresses were made by Mr Brayton Ives, President of the Western National Bank, who briefly sketched the Bond Syndicate operations, and by Mr. B. E. Walker, General Manager of the Canadian Bank of Commerce, who gave a Canadian view of the financial situation in the United States. On Thursday speeches were made by Mr. W. P. St. John, President of the Mercantile National Bank; Ex-Congressman M. D. Harter, of Ohio; H. W. Yates, President of the Nebraska National Bank and James G. Cannon, Vice-President of the Fourth National Bank. The latter, in the course of his remarks, emphasized the necessity of requiring uniform statements from borrowers, and said that from January 1, 1894, *to*

June 30, 1894, there were recorded in New York County judgments in favor of New York banks against insolvent debtors amounting to $772,000 and in favor of banks outside the city amounting to $362,000, or a grand total of over $1,134,000. In one of the largest institutions in N. Y. City during the past four and a-half years there were made 2,164 requests for statements, and out of that number there were only fifty-one refusals. Based upon these statements and the facts contained therein, besides making all their loans and discounts to their customers, this institution purchased in the open market $71,700,000 of commercial paper at a net loss to the bank of only $37,000.

The following resolution was adopted:

Resolved, That the Bankers' Association of the State of New York favor the appointment of a commission, under authority of Congress, composed of experts and business men, whose duty it shall be to report to Congress for its consideration a comprehensive currency system adapted to the commercial needs and interests of this nation.

The following report of the Sound Money Committee was also adopted:

We, the bankers of the State of New York, in convention assembled, being indebted to the people to the extent of $890,000,000 in the form of deposits and $193,000,000 in the form of capital and surplus, declare ourselves in favor of honest money. We are opposed to inflation. We are opposed to a debasement of the currency. We are opposed to the free coinage of silver at the ratio of sixteen to one. We are opposed to two qualities of money, knowing full well that the less valuable would inevitably drive out of circulation the more valuable. We favor a currency sound, elastic and good as good—good everywhere, good by the standard of the world and good in the marts of the world; as good in the hands of labor as in the hands of capital. We demand a currency good and stable, based upon the highest standard known to the sisterhood of nations, worthy of the wealth and dignity of our glorious country, and which shall prove a firm and lasting basis to a restored and continued prosperity.

The following officers were elected and the convention adjourned to meet in Niagara Falls next year: James G. Cannon, of New York, President; George Sloan, of Oswego, Vice-President; A. D. Bissell, of Buffalo, Treasurer, and Ledyard Cogswell, of Albany, Secretary.

DEBT STATEMENT JUNE 29, 1895.

The following is the official statement of the United States public debt and of the cash in the Treasury at the close of business June 29, 1895.

CASH IN THE TREASURY.

Monetary and Commercial English News

[From our own correspondent.]

LONDON, Saturday, June 29, 1895.

Although this is the last week of the half-year, and the Stock Exchange fortnightly settlement has been going on, money continues exceptionally cheap and abundant. There has been of course, as usual, a considerable outflow of coin and notes from the Bank of England, but it has made exceedingly little impression. Call loans remain at ½ per cent; the rate of discount is barely over ½ per cent, and on the Stock Exchange all the money required has been easily obtained at from 1¼ to 1⅝ per cent.

The news regarding the Chinese loan is conflicting. It has been frequently stated in this correspondence that the Chinese Government had become alarmed by the demands made both by Russia and France, and that the German and the British governments had pointed out to the Chinese ministers that a Russian guarantee would give Russia a dangerously great influence over the Empire. For a while it was asserted both at St. Petersburg and Paris that although difficulties were experienced the influence of Russia and France would prevail. But now there are rumors that Japan and China are drawing closer; that the Japanese have offered to mitigate their terms if China will forget old grievances and will combine to keep Russia and France in check. From St. Petersburg it is reported that earnest efforts are being made throughout Russia to strengthen the army in Siberia and to increase the Russian fleet in the Pacific. At the moment therefore it is difficult to say just what the outcome of the loan negotiations will be.

Naturally under these circumstances the silver market has given way somewhat, the price fluctuating during the week around 30¾d. per ounce. But the hope that in some way or other a large Chinese loan will be raised has prevented a serious break. The Eastern exchanges are all lower; but the India Council continues to sell its drafts fairly well. On Wednesday it disposed of the whole 60 lakhs offered at 1s. 1 3-32d. per rupee.

The feature of the stock markets this week has been a further great rise in all first-class securities. Consols have at one time been as high as 107⅜. The securities of our municipalities, of our leading colonies and the preference and de-

benture stocks of the great railway companies have all risen also; so have water and gas shares. These prices are now so exceptionally high that the impression on the Stock Exchange is almost universal that investment must spread from the higher to the lower classes of securities, and that therefore a great broadening of business is about to begin. The ordinary stocks of British railways have likewise advanced, partly under the influence of the extraordinary cheapness of money, partly in the belief that trade is improving and partly because it is expected that traffics will benefit from the coming General Election.

In the American department, especially the department for shares, there has not been much doing during the week. The announcement that the loan syndicate has completed its payments to the Treasury has awakened some anxiety lest the support of the Syndicate should be withdrawn from the New York money market, and gold withdrawals, therefore, from the Treasury should begin again. But the belief is that such apprehensions are groundless, and therefore there is a fair investment in sound bonds. And there is even little inclination to sell shares. Were it not for uncertainty respecting currency legislation, there would undoubtedly be a great investment in American securities now, for people here are at their wits' ends to find securities which are at once reasonably safe and give a satisfactory return.

In the inter-bourse department little has been done. In Paris the market for both Italian and Spanish securities has been rather weak, and the reported defeat of the loan negotiations has cast somewhat of a damper over the market, while it has given rise to a fear that political difficulties may arise with both China and Japan. That war will be avoided is the general belief, but that a critical state of things may arise is apprehended. There is some uneasiness, too, respecting the Armenian and the Macedonian questions, the change of ministry here encouraging the Turkish Government to hope that it will be treated more leniently by the new Cabinet than by the outgoing ministers. Still, nobody fears war. All the great governments are interested in maintaining peace and every one, therefore, concludes that peace will be preserved.

In the South African department a fair amount of business has been done during the week. There is not the wild speculation of a couple of months ago, but there is very steady buying, especially from the Continent. French buying is not quite so large perhaps, but German and Austrian buying is decidedly larger, and there is a considerable amount of buying likewise in this country. The result is a steady rise in almost all prices. That the General Election may somewhat check business is very likely, as it will take away great numbers of people from the city; and especially now that the holiday season is upon us is it the more reasonable to expect quiet markets for a while. But throughout the Stock Exchange and in Paris and Berlin there is a very confident opinion expressed that about the end of the summer business will grow more active even than it has been as yet, and that there will be a still further and more remarkable rise in prices.

The following return shows the position of the Bank of England, the Bank rate of discount, the price of consols, &c. compared with the last three years:

Commercial and Miscellaneous News

IMPORTS AND EXPORTS FOR THE WEEK.—The following are the imports at New York for the week ending for dry goods July 4 and for the week ending for general merchandise July 5; also totals since the beginning of the first week in January.

FOREIGN IMPORTS AT NEW YORK.

For Week.	1892.	1893.	1894.	1895.
Dry Goods	$2,585,156	$2,812,947	$1,121,097	$2,283,453
Gen'l mer'dise	9,537,967	10,249,403	6,718,338	5,239,284
Total	$12,123,523	$12,962,350	$7,839,435	$7,522,737
Since Jan. 1.				
Dry Goods	$83,905,392	$76,339,506	$42,774,144	$76,497,027
Gen'l mer'dise	234,004,173	265,125,465	179,988,900	191,249,168
Total 27 weeks	$297,909,565	$341,464,971	$222,763,044	$267,746,195

The imports of dry goods for one week later will be found in our report of the dry goods trade.

The following is a statement of the exports (exclusive of specie) from the port of New York to foreign ports for the week ending July 9 and from January 1 to date:

EXPORTS FROM NEW YORK FOR THE WEEK.

	1892.	1893.	1894.	1895.
For the week	$7,792,489	$8,791,342	$6,388,536	$4,899,937
Prev. reported	204,489,725	176,157,504	187,392,425	173,185,184
Total 27 weeks	$212,282,214	$184,948,846	$193,780,961	$178,095,121

The following table shows the exports and imports of specie at the port of New York for the week ending July 6 and since January 1, 1895, and for the corresponding periods in 1894 and 1893:

EXPORTS AND IMPORTS OF SPECIE AT NEW YORK.

Gold	Exports. Week.	Exports. Since Jan. 1.	Imports. Week.	Imports. Since Jan. 1
Great Britain	$	$8,099,748	$	$14,780,139
France	116,400	12,032,800		4,603,988
Germany		5,775,000		1,527,191
West Indies	9,900	7,509,046	120,647	283,627
Mexico			817	33,021
South America	10,000	962,454	2,176	221,676
All other countries		261,484	1,360	60,810
Total 1895	$136,300	$34,580,542	$125,000	$21,510,452
Total 1894	2,211,500	69,797,674	1,121,536	10,665,215
Total 1893	2,000	68,674,475	1,151,515	7,098,988

Silver	Exports. Week.	Exports. Since Jan. 1.	Imports. Week.	Imports. Since Jan. 1.
Great Britain	$892,100	$17,264,228		$49,246
France				3,364
Germany		13,485		3,809
West Indies	22,000	122,406	$3,118	174,721
Mexico		399	1,615	305,579
South America	49,000	642,142	62,345	367,687
All other countries		18,542	1,811	17,366
Total 1895	$963,325	$18,061,202	$68,879	$922,072
Total 1894	469,700	18,281,469	2,970	826,673
Total 1893	1,061,070	15,730,123	29,984	2,130,814

Of the above imports for the week in 1895 $1,800 were American gold coin and $71 American silver coin. Of the exports during the same time $19,900 were American gold coin.

Breadstuffs Figures Brought From Page 79.—The statements below are prepared by us from the figures of the New York Produce Exchange. We first give the receipts at Western lake and river ports, arranged so as to present the comparative movement for the week ending July 6, 1895, and since August 1, for each of the last three years:

Receipts at—	Flour.	Wheat.	Corn.	Oats.	Barley.	Rye.
	Bbls. 196lbs	Bush. 60 lbs	Bush. 56 lbs	Bush. 32 lbs	Bush. 48 lbs	Bu. 56 lbs.
Chicago	32,662	50,256	505,375	1,393,867	52,600	3,742
Milwaukee	33,750	99,970	11,590	166,000	21,600	13,960
Duluth	53,960	348,063	....	4,969	.....	.....
Minneapolis	....	275,070	17,340	....	.....	....
Toledo	757	7,700	31,600	4,000	3,000	1,960
Detroit	1,750	5,520	12,172	37,045	1,200	.....
Cleveland	431	32,127	3,240	16,891	.....	
St. Louis	9,356	160,802	59,230	168,600	.....	2,966
Peoria	2,250	8,400	143,050	391,550	700	1,200
Kansas City	....	2,128	.....	....	....	....
Tot. wk. 95	134,245	980,785	782,037	2,182,975	79,100	23,768
Same wk. '94	119,191	969,114	585,188	519,552	41,500	8,353
Same wk. '93	201,157	2,498,513	2,650,509	1,796,630	24,899	16,225
Since Aug. 1						
1894-95	11,408,382	141,349,700	77,059,957	94,652,306	31,273,981	2,606,165
1893-94	13,092,483	140,721,749	145,461,146	114,754,771	28,388,330	3,358 098
1892-93	12,640,419	233,420,937	121,657,025	113,099,869	29,333,427	7,103,490

The receipts of flour and grain at the seaboard ports for the week ended July 6, 1895, follow:

Receipts at—	Flour, bbls.	Wheat, bush.	Corn, bush.	Oats, bush.	Barley, bush.	Rye bush.
New York	101,136	3,700	475,775	145,100	.....	.....
Boston	28,750	71,702	263 849	180,000	.....	.....
Montreal	16,529	275,969	80,000	15 348	7,151	.....
Philadelphia	32,290	12,472	11,712	54,702	.....	.....
Baltimore	49,505	27,709	49,790	100,928	.....	885
Richmond	2,000	14,120	1,070	2,666	.....	.....
New Orleans	5,631	1,800	13,263	19,200	.....	.....
Total week	266,341	407,112	895,399	528,004	7,151	885
Week 1894	275,476	1,267,329	767,946	789,159	2,400	28,155

The total receipts at ports named in last table from Jan. 1 to July 6 compare as follows for four years:

Receipts at—	1895.	1894.	1893.	1892
Flour.....bbls.	8,088,272	10,317,606	9,390,799	9,476,489
Wheat.....bush.	15,418,919	15,873 193	38 900,895	50,574,623
Corn	19,746,8 5	32,625,069	26,886,910	61 916,248

—The Northern Pacific & Montana RR. Co. Bondholders' Committee, George R. Sheldon, Chairman, announces that out of the $5,631,000 first mortgage bonds listed on the New York Stock Exchange, $2,978,000 have been deposited with the Knickerbocker Trust Co. under the agreement of November 26, 1894, and the Trust Company's certificates of deposit for the same amount have also been listed, with power to add to the list as issued. Outstanding bonds will be received by the Trust Company without penalty until August 1, after which $10 a bond will be required for the privilege of depositing.

—Mr. F. J. Lisman, 10 Wall Street, has just issued his July list of quotations for unlisted and inactive railroad bonds and receivers' certificates, and has added to this issue a table of railroad bridge securities. Mr. Lisman offers to quote any railroad bond possible to quote, and invites inquiries and correspondence.

WALL STREET, FRIDAY, JULY 12, 1895.—5 P. M.

The Money Market and Financial Situation.—The developments of the week so far as they affect commercial and financial interests are generally of a favorable character.

The meeting of the Reading Reorganization Committee on Monday, at which Mr. J. P. Morgan was present, encourages the hope that the long-desired settlement of the anthracite coal difficulties is soon to be realized.

There has been nothing further heard about gold exports since the announcement on Tuesday by leading members of the Bond Syndicate that no gold will be shipped to Europe on exchange account before October 1.

The sale on Tuesday of the New York & New England RR. under foreclosure proceedings to the Reorganization Committee is the final act, except some matters of detail, in the rehabilitation of that company, and future developments in regard to it will be looked for with interest.

The earnings of some railroads which have been slowest to respond to the improved conditions are now reported more favorable, and if the present crop prospects are realized will soon reach the normal amount.

The open market rates for call loans during the week on stock and bond collaterals have ranged from 1 to 1¼ per cent. To-day's rates on call were 1 to 1¼ per cent. Prime commercial paper is quoted at 3 to 3½ per cent.

The Bank of England weekly statement on Thursday showed a decrease in bullion of £403,642, and the percentage of reserve to liabilities was 59·09 against 59·47, last week; the discount rate remains unchanged at 2 per cent. The Bank of France shows a decrease of 8,275,000 francs in gold and an increase of 575,000 francs in silver.

The New York City Clearing House banks in their statement of July 6 showed a decrease in the reserve held of $2,193,000 and a surplus over the required reserve of $33,178,700 against $34,225,925 the previous week.

Foreign Exchange.—There are no new features in the foreign exchange market. The demand has been met largely by bills drawn by Syndicate bankers and rates have ruled the highest of the season.

To-day actual rates of exchange were as follows: Bankers' sixty days sterling, 4 89@4 89¼; demand, 4 90@4 90¼; cables, 4 90½.

Posted rates of leading bankers are as follows:

July 12.	Sixty Days.	Demand.
Prime bankers' sterling bills on London	4 89½@4 90	4 90½@4 91
Prime commercial	4 88½@4 88¾	———
Documentary commercial	4 88 @4 88¼	———
Paris bankers' (francs)	5 15 16@5 15 8	5 13 16@5 13 1 16
Amsterdam (guilders) bankers	40 5 8@40 3 4	40 7 16@40 1 2
Frankfort or Bremen (reichmarks) b'kers'	95 5 16@95 7 16	95 1 2@96

The following were the rates of domestic exchange on New York at the under-mentioned cities to-day: Savannah, buying par, selling ¼@1-10 premium; Charleston, buying par, selling ⅛ premium; New Orleans, bank, $1 50 premium, commercial 50c. premium; Chicago, par; St. Louis, 60@75c. per $1,000 premium.

United States Bonds.—Sales of Government bonds at the Board include $5,000 4s, coup., 1925, at 124 to 124⅛; $12,000 4s, coup. 1907 at 113 (s. 3); $6,300 4s, registered, 1907, at 112½; $20,000 5s, coupon, at 116¾, and $10,000 5s, registered, at 116¾. The following are the closing quotations:

State and Railroad Bonds.—Sales of State bonds at the Board include $25,300 Tenn. Settlement 3s at 88¼ to 91; $10,000 So. Carolina 6s, non-fundable, at 1¾; $10,000 Virginia State Riddlebergers at 75; $90,000 Virginia 6s, defd., trust rects., stamped, at 6⅛; $1,000 Virginia fund. debt 2-3s of 1991, at 62. $12,000 ditto registered at 62⅛ to 62½, and $37,000 Arkansas 7s, L. R. P. B. & N. O., at 8 to 9.

The characteristics of the railroad bond market have been those natural to a mid-summer holiday season.

The Reading issues, in sympathy with the stock, have been the most active on the list, but changes in quotations are unimportant except some advance in the gen. 4s trust rects. There has been a notable movement of the Atchisons, following an announcement made by the reorganization committee and the Government crop report, and the 2ds have advanced over a point. Oregon Imp. con. 5s are nearly two points higher than last week on liberal sales.

Rio Gr. Western 1sts and St. Louis So. West. 1sts have advanced from 1 to 2 points, presumably on the increased earnings and better prospects of the companies. Sav. & West. 1st trust certificates have advanced to-day 2½ points to 63, on the announcement of an agreement with the Central of Georgia.

Other active issues include Southern Ry., Tex. & Pac., S. A. & A. Pass., Or. Short Line 6s, Mo. Kan & Tex., Col. Midland 4s and Ches. & Ohio bonds.

Railroad and Miscellaneous Stocks.—The stock market has been somewhat irregular and in some cases unsatisfactory. There has been a demand for railroad shares whose market value is not affected by the manipulation of room-traders, and such stocks have been strong.

Reading has been most active of the railroad list, stimulated no doubt by the possibility of a speedy reorganization and some prospect of a settlement of the anthracite coal difficulties; it sold on Tuesday at 20 and at 17¼ on Wednesday, closing to-day at 18⅜. Cent. of N. J. sold at 104¾ on Monday, the highest point reached since last October, and closes at 102, while Del. & Hud. Canal and Lackawanna have been steady on limited offerings. The grangers have been generally steady and firm on the favorable condition of the growing crops. Both St. Paul and Burlington & Quincy touched the highest quotation of the year on Wednesday. Southwestern shares have also been strong, Mo. Kan. & Tex. pfd. selling up to 39, the highest point it has reached during the past four years, and Mo. Pac at 83¾ on Wednesday was higher than it has been since June, 1893. New York & N. E. sold at 56 on Tuesday, an advance of nearly 6 points since our last quotation, but has since declined to 49½. Southern Railway shares have continued in favor at home and abroad. The pfd. sold a fraction above 44 on Tuesday, the highest figure it has reached this year, and the common has remained steady above 14.

The industrial list has been generally weak, under various conditions. Chicago Gas has exceeded in volume of business, and declined from 60⅛ at the close last week to 53¾ on Wednesday, closing at 56¾ to-day. Am. Sugar sold at 114 on Monday and at 107⅛ to-day. Tenn. Coal & Iron has declined about 3 points. Distilling was strong during the early part of the week, but has declined to 20¼. American Tobacco has lost about a point. U. S. Leather has been a weak feature, the pfd. closing at 86¼, a loss of 7¼ points.

Investment AND Railroad Intelligence.

RAILROAD EARNINGS.

The following table shows the gross earnings of United States railroads (and also a few Mexican and Canadian roads) for the latest period reported. The statement includes every road from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the calendar year from January 1 to and including such latest week or month.

ROADS.	Latest Earnings Reported.			Jan. 1 to Latest Date.	
	Week or Mo	1895.	1894.	1895.	1894.

Net Earnings Monthly to Latest Dates.—The table following shows the net earnings reported this week. A full detailed statement, including all roads from which monthly returns can be obtained, is given once a month in these columns, and the latest statement of this kind will be found in the CHRONICLE of June 22, 1895. The next will appear in the issue of July 20, 1895.

a Net earnings here given are after deducting taxes

b Net earnings here given are before deducting taxes

† After deducting other expenditures for repairs, replacements and general expenses, net income applicable to interest on bonds in May was $93,1[illegible]2, against $84,930 last year, and for five months to May 31 $418,65[illegible], against $376,523; after adding earnings received from Federal Government net from January 1 to May 31, 1895, was $4[illegible]8,650, against $4[illegible],91[illegible]. This is the result in Mexican dollars treated (according to the company's method of keeping its accounts) as equivalent to 50 cents in United States money—that is, all depreciation beyond 20 per cent has already been allowed for.

ANNUAL REPORTS.

Southern Pacific Railroad of California.

(Report for the year ending Dec. 31, 1894.)

The annual report of this company—the most important of the proprietary companies in the Southern Pacific system—is given at much length on subsequent pages. The company has extended its lines as California has become better settled, until it now owns 1,434 miles of road, which in the years 1893 and 1892 had gross earnings of over $15,000,000. The year 1894 naturally showed a considerable falling off in receipts, but the report states that all the indications for the year 1895 point to a material improvement in the company's business. Although, says the report, wheat, barley and other grains will continue to be the great staple products of the State—the wheat crop in 1894 was only 30,376,705 bushels while it has been as great as 44,320,000 bushels—there has been a rapid development in other industries. A table from the statistics of the California State Board of Trade shows the extraordinary increase in the State's fruit culture, the output of fruit in 1895 aggregating nearly 607 million pounds, contrasting with only 324 million pounds in 1890.

A feature of all the reports of the Southern Pacific system prepared by Mr. William Mahl, of which this is one, is the careful recital of all the expenditures on capital account, items which by many companies are so combined as to afford one no certainty that they do not embrace expenditures that ought properly to be charged to operating expenses.

The comparative statements prepared for the CHRONICLE are as follows:

V. 59, p. 374.

The H. B. Claflin Company.

(For the half year ending June 30, 1895.)

This industrial corporation makes its report for the first half of 1895. Mr. John Claflin, the President, remarks:

"During January and February trade conditions were unfavorable in the extreme, and the lowest prices ever recorded were made on the principal lines of our merchandise. In March and April there was a better tone to the market, but no material improvement in selling prices became established until May, when the business of the season was already nearly at an end. Our merchandise is now worth more than the figures at which it is inventoried, collections are approaching a normal standard, and the outlook for autumn is decidedly encouraging." The company earned for common stock in the spring season of 1895 2·94 per cent, against 2·63 per cent last year.

GENERAL INVESTMENT NEWS.

Alabama Great Southern—Cincinnati New Orleans & Texas Pacific—Southern Railway.—At Knoxville, Tenn., July 8, the sale of collateral securing the Cincinnati extension bonds of the old East Tennessee Virginia & Georgia Railroad to Samuel Spencer, President of the Southern Railroad Company, was confirmed. The collateral included a controlling interest in the stock of the Alabama Great Southern.—V. 61, p. 36.

American Tobacco—P. Lorillard Company.—Negotiations are pending with a view to the absorption of the P. Lorillard Company by the American Tobacco Company. At present the two interests are said to be far apart in the value they place on the Lorillard property; consequently no immediate agreement is thought likely.—V. 60, p. 838.

Anthracite Coal Roads.—The Sales Agents of the anthracite coal roads on Tuesday ratified the proposition to mine 75 per cent of the June output in July. Adjournment was taken until July 30. The president of one of the leading anthracite coal railroads is quoted as saying: "I believe that coal trade matters are at last really on the mend and that sufficient financial influence will soon be brought to bear upon Reading and some smaller disturbers of the peace to force them to mend their ways. Mr. Morgan's evident interest in Reading affairs may very possibly bear early fruit in connection with coal trade negotiations."—V. 60, p. 1143.

Atchison System—St. Louis & San Francisco.—With regard to the exceptions filed by the Mercantile Trust Company to the report of the Master in the case of the non-paying leased lines of the St. Louis & San Francisco, the St. Louis *Globe-Democrat* says in part:

The Mercantile Trust Company, trustee for the Frisco bondholders, has filed its exceptions to the report of Major Reynolds, Master in Chancery, who recommended that the receivers ought not to disaffirm the leases with the St. Louis Salem & Arkansas Branch, the Kansas City & Southwestern Branch, the Kansas & Southwestern Branch and the Kansas Midland Line. Master Reynolds' conclusion was that these lines are necessary to the integrity of the system, and that since a sale of the property under the foreclosure proceedings is likely soon to take place, it is better to keep these lines as a part of the system, since a much better price is likely to be realized if the sale carries with it the right to the leases unencumbered and unembarrassed by a forfeiture of them.

The Mercantile Trust Company excepts to the report generally on the ground that it deals with the leased lines together and not apart or separately, while the fact is that the evidence shows that the earning capacity and value or lack of value of each of the branches differs in many material respects from the others. The Trust Company excepts to the finding because the master's report is based on incorrect conclusions concerning the net earnings of the system. The master finds that the receivers have earned over and above operating expenses and other necessary charges the interest on the first mortgage bonds and enough money to pay the rentals of the several lines involved in this hearing; but the exceptions allege that this is not so; that there will not be left enough to pay the interest on the first mortgage bonds, there being left on December 31, 1894, only $1,558,116 applicable to the payment of interest of all kinds. Should, therefore, the master's report be approved the receivers would have to borrow money. The master figured the net earnings at $2,120,848, but this, the objectors say, is not the evidence.—V. 60, p. 1103.

Atchison Topeka & Santa Fe.—The Joint Executive Reorganization Committee of the Atchison Topeka & Santa Fe Railroad Co. gives notice that the time for the deposit of bonds and stock, without payment of a penalty, has expired. Deposits will be received only on payment of a penalty of one per cent on the par amount of the bonds and stock deposited, the committee reserving the right at any time to decline to receive further deposits. The deposits to July 8, on which day the right to make deposits expired, were: General mortgage 4s, $125 718,000 out of $ 29,320,776; second mortgage "A" and income bonds, $77,528,000 out of $79,191,107; do "B," $4,939,000 out of $5,000,000; stock, $97,653,800 out of $102,000,000, these including deposits in Boston, London and Amsterdam as well as New York.—V. 60, p. 1103.

Belt Railroad & Union Stock Yards of Indianapolis.—At the meeting of stockholders on Tuesday the usual 1½ per cent dividend was passed. The other business transacted was not given out. The officials say that they are satisfied with the business that has been done.

Brooklyn City.—This street railroad company has declared a dividend of 2½ per cent out of the proceeds of certain notes amounting to $620,000, which were made to the company by its lessee, the Brooklyn Heights Railroad Company and which have recently been paid.—Vol. 60, p. 1103.

Central of Georgia.—Savannah & Western.—The Central of Georgia reorganization plan has been declared operative. The Savannah & Western bondholders will be asked to assent to the agreement made with the Borg Committee, under which the proposed issue of $4,000,000 4 per cent bonds on the Savannah & Western property has been abandoned. The $13,000,000 consolidated mortgage on Georgia Central is increased to $16,500,000.

Of this latter mortgage the holders of Savannah & Western bonds will receive 55 per cent of their face value. They are also to receive 35 per cent in the first preferred income bonds, instead of 25 per cent as originally proposed under the plan; also receiving 25 per cent in second preferred incomes, the same as heretofore offered. The Chattanooga Rome & Columbus and Macon & Northern do not come in. See notice in our advertising columns to-day.—V. 61, p. 28.

Chattanooga Southern.—A charter has been granted in Georgia for the Chattanooga Southern *Railroad* Company on the application of Henry A. O. Post, Russell Sage, Thomas H. Hubbard, Newman Erb, Henry L. Lamb, E. A. C. Altman and Frank H. Davis. The capital stock is fixed at $3,000,000. The Chattanooga Southern *Railway* was sold in foreclosure Feb. 14.—V. 60, p. 561.

Chattanooga Union—Chattanooga Belt—Southern Railway.—At Chattanooga, Tenn., July 7, United States Judge Hammond filed a decree confirming the foreclosure sale of the Chattanooga Union Railway, June 14th, for $110,000, to the Alabama Great Southern of the Southern Railway system. The new company organized to succeed to the property of the Chattanooga Union is the Chattanooga Belt Railroad, a Tennessee corporation.—V. 60, p. 1103.

Chesapeake & Ohio Canal.—By consent of the parties interested, including the State of Maryland, Judge Cole on Thursday directed a foreclosure of the mortgage given by the Chesapeake & Ohio Canal Company May 15, 1878, for $817,584 17, and the sale of the real estate held by the company east of Rock Creek at public auction. For the two parcels of land leased by the Washington Gaslight Company the company has offered $100,000, and the Court directs that the bid be accepted if no greater sum is offered at the public sale, the two parcels to be sold for no less amount.

Chicago Gas.—With reference to the dividend, about which there has been much talk recently, the company's officials say that no reason exists for the discussion since no dividend will de due until October. As stated in the CHRONICLE of April 13, the dividend period was changed last spring from quarterly to semi-annually. This was done to avoid paying dividends in January and July, when the company's heaviest interest payments are made. At present there is an injunction which forbids the payment of the dividend, but by October this difficulty, it is hoped, will be removed.—V. 60, p. 1151.

Chicago & Northern Pacific.—Judge Jenkins has granted at Chicago an order directing Receiver A. L. Hopkins to enter into possession and operation of this road, and he has accordingly [on July 1st] taken possession of the property heretofore operated by the Wisconsin Central Company. The receiver from now on will collect rentals from all tenants, make all disbursements and manage all the affairs of the company. The bondholders' committee of which J. Edward Simmons is Chairman and Wm. Allen Butler, Jr., Secretary, 54 Wall St., call attention to the above facts and say that thus freed from the control of any other corporation the property will, for the first time, be able to show its actual earning capacity, and can be developed without regard to conflicting interests. This will, it is hoped, enable the bondholders' committee to put forth in the near future a detailed plan for the reorganization of the property.—V. 60, p. 1103.

Chicago Peoria & St. Louis—St. Louis Alton & Terre Haute.—At Springfield, Ill., July 10, Judge Allen entered a decree in the United States Court ordering a sale of the Chicago Peoria & St. Louis Railroad within four weeks from date of publication. The sale is to be made under foreclosures by the Mercantile, Central and Metropolitan trust companies of New York, and is preparatory to the carrying out of the plan by which it is expected the road will become part of the St. Louis Alton & Terre Haute system.—V. 60, p. 1147.

Choctaw Oklahoma & Gulf.—A Philadelphia paper says:

Track-laying has been completed on about 80 miles out of the 120 miles to be built to complete the road, which will be finished in every part by the middle of August. The prospect for business is reported by the officers to be exceptionally good. Traffic arrangements have been entered into with the Chicago Rock Island & Pacific Road that secure to the company a good share of the coal business of Kansas and at points on the Rock Island Road.—V. 60, p. 1057.

Cincinnati Hamilton & Dayton.—The proposed consolidation of the Cincinnati Hamilton & Dayton, the Cincinnati Dayton & Ironton and the Cincinnati Dayton & Chicago railroad, has been ratified by the stockholders of each of the companies.—V. 60, p. 1104.

Cleveland Canton & Southern.—Mr. H. A. Blood, formerly President of this company, died last week at Fitchburg, Mass. He was president of the road from 1885 until the appointment of a receiver.—V. 60, p. 1144.

Columbus Sandusky & Hocking.—At Columbus, O., July 5, the Metropolitan Trust Company of New York filed a petition to foreclose the mortgages of this company of which it is trustee. Under this petition, and because of the objections from interested parties to J. H. Stewart, who was appointed receiver last week, the Court accepted his resignation and appointed Nicholas Monsarrat, of Cleveland, who was formerly President of the Cleveland Akron & Columbus Railway Company, in his stead. It was claimed by one of the attorneys addressing the Court that $250,000 bonds had been illegally issued. Judge Thomas Beer was appointed referee to hear evidence and determine priorities of liens. S. W. Bennett was appointed commissioner to sell the road under the decree of foreclosure.

The receiver has applied to the Court for permission to issue $250,000 one-year receiver's certificates to pay labor claims and taxes.—V. 61, p. 26.

Concord & Montreal—Boston & Maine.—The Boston & Maine took possession of the Concord & Montreal on Saturday night.—V. 61, p. 27.

Denver & Rio Grande—Rio Grande & Santa Fe.—This latter company has been organized to operate the Santa Fe Southern Road in New Mexico, recently purchased at foreclosure in the interest of the Denver & Rio Grande, whose officers are named as directors of the new company. The present line is about 34 miles long, giving the Denver & Rio Grande a connection with the town of Santa Fe from Espanola to the North. Important extensions of the road are said to be contemplated.—V. 60, p. 928.

Distilling & Cattle Feeding.—At Indianapolis on Wednesday, Judge Baker confirmed the decree of sales as far as Indiana is concerned. At Cincinnati Judge Taft has given until next Monday for due notice to creditors when, it is understood, he also will order the sale. The United States Court of Appeals at Chicago adjourned on Wednesday without having been asked to take any steps toward securing an appeal for the Greenhut-Morris interests. The next session of the Court will be held in October. The property, it is expected, will be formally turned over to the reorganization committee August 9.

Counsel for Messrs. Greenhut and Morris, in Chicago on Tuesday, served notices on the directors and the receiver of the company that, under the recent decision of the Supreme Court of Illinois declaring the present Trust illegal, they would, as trustees of the Great Western and Woolner distilleries of Peoria, respectively ask for cancellation of the leases of these properties now held by the Trust.—V. 61, p. 27.

Galveston La Porte & Houston.—The Texas Railroad Commission has authorized this company to make an issue of $700,000 bonds, of which $150,000 must be held until a like amount of bonds of the Houston La Porte & Northern (consolidated with the Galveston La Porte & Houston) shall be retired.—V. 60, p. 928.

Grand Rapids & Indiana.—The Pennsylvania Railroad Company gives special notice to holders of Grand Rapids & Indiana 7 per cent land grant bonds, maturing October 1st, 1899, that as guarantor of the above bonds it is prepared to purchase the same until October 1st, 1895, inclusive. Holders desiring to sell will communicate with Robt. W. Smith, Treasurer.—V. 60, p. 1104.

Humeston & Shenandoah.—Mr. E. C. Murphy has been appointed receiver of this road, which has been owned and operated jointly by Burlington and Wabash. The receivership is preliminary to a readjustment of the ownership. The road is 110 miles in length, is bonded for $2,684,000, and has failed to earn its interest.

Kingston & Pembroke.—The Railway Committee at Ottawa has authorized this company to reduce its common stock from $5,000,000 to $2,000,000 and to issue preference bonds.—V. 59, p. 1141.

Laclede Gas.—The St. Louis *Globe-Democrat* says:

Attorney Henry Hitchcock has almost completed preparations for the bringing of the case of the Laclede Gas Light Company to the Supreme Court of the United States. The Court will not convene before the other, so that the appeal can not be heard till that time. The present city, however, that it will not be heard till many months later, while it is possible that even a couple of years may elapse before the questions involved are decided. City Counselor Marshall will file the case both and out in the interest of the city. The Laclede Company, in the meantime, will exercise the rights of its franchises as heretofore. It can not lay underground wires and can not extend its overhead where the extension requires application for a permit, which the city does not see fit to grant.—V. 60, p. 1145.

Lehigh & New England.—At Philadelphia, July 8, the stockholders of this company voted to issue the $1,500,000 stock and $1,000,000 bonds provided for in the reorganization plan of the old Pennsylvania Poughkeepsie & Boston.—V. 60, p. 845.

Listings on the New York Stock Exchange.—There have been listed on the New York Stock Exchange $133,000 first mortgage 5 per cent bonds of the Brooklyn City Railroad and $6,942,000 Mercantile Trust Company engraved certificates of deposit for Kansas Pacific Railway consols.—V. 60, p. 1144.

Long Island Traction.—Of the 300,000 shares of stock 8,280 shares have thus far been deposited under the reorganization plan.—V. 60, p. 1145.

Lancaster & Quarryville.—A press dispatch from Lancaster, Pa., says that the proceeds of foreclosure sale will be distributed just as soon as the checks can be made out, the bondholders realizing about 82 per cent of the face value of their holdings.

Louisville & Nashville.—This railroad company furnishes the following statement of operations for the year ended June 30, 1895, compared with the previous year, June, 1895, being estimated:

	1894-95 (Estimated.)	1893-94 (Actual.)	Increase.	Decrease.
Source—	$	$	$	$
*Gross earnings	19,253,677	18,974,537	279,140	.....
*Operating expenses	12,229,119	11,853,385	375,734	.....
Per ct. of exp to earns	(63.50 %)	(62.53 %)		
Net earnings from traffic	7,024,558	7,120,552	.....	96,394

Surplus	733,494	1,552,491	.....	818,997

* Offices for 11 months, June 1895 estimated.

† The sinking fund payments in 1894-95 aggregated $587,205, from which is deducted $412,205 for the market value of securities received for a part thereof, leaving a balance as here of $175,000.—V. 60, p. 1145.

Metropolitan Traction.—The underground trolley line on Lenox Avenue was placed in operation on Tuesday.—V. 59, p. 1146.

Metropolitan West Side Elevated (Chicago).—At Chicago on Saturday, the 6th inst., the stockholders of this company voted to authorize the proposed issue of 6 per cent non-cumulative preferred stock to the amount of $15,000,000. As a result of this action the $5,000,000 of bonds in the treasury of the company which were to be issued on the Douglas Park branch will be canceled, preferred stock being issued in their stead. Some of the bonds already issued may also, very likely, be exchanged for preferred stock, although such an exchange can hardly be expected to be general.—V. 60, p. 846.

Minneapolis & St. Louis.—John E. Searles Jr., Treasurer of the American Sugar Refining Company, has been elected a member of the Board of Directors of this company in the place of Edward S. Isham, of Chicago, who was elected a director only temporarily. President Bull says: "The new company is doing very well. Crop reports from all over the system are most encouraging."—V. 60, p. 1059.

Mobile & Birmingham Railroad.—This *Railroad* company on July 2 took over the property of the Mobile & Birmingham *Railway* company which was sold in foreclosure April 27. Mr. T. G. Bush has been elected President and J. W. Spratley Auditor. In about thirty days there will be a meeting for the purpose of bonding the road to the extent of $2,200,000, and the proceeds of these bonds will be used for betterments.—Vol. 60, p. 795.

New Orleans & Southern.—The application of Joseph Price for the appointment of a receiver for the New Orleans & Southern Railroad Company, which was filed in the U. S. Circuit Court on June 8th, resulted in the appointment of Geo. S. Taylor as receiver for the company. The interest upon the company's bonds due April 1st was paid. The application for a receiver was made upon the general insolvency of the company.—V. 60, p. 1059.

New York & New England.—This road was sold under foreclosure of the second mortgage at Hartford on Tuesday and bought in by J. W. Simpson, representing the reorganization committee, for $5,000,000. Mr. Simpson was the only bidder.

Mr. Henry W. Cannon, President Chase National Bank and member of the reorganization committee, said:

"The sale of property of the old company completes the work of the committees. A new corporation will be organized immediately to take charge of the property, the committee having obtained during the past six months necessary legislation in Massachusetts, Connecticut, Rhode Island and New York. The new company will carry out reorganization plan and issue new securities as provided by it and close up the affairs of the committee as rapidly as possible."—V. 61, p. 27.

Niagara Falls Power.—This company's great dynamo was tested last week. The Baltimore *American* says:

"Dr. Louis Duncan, the chief consulting electrical engineer of the Baltimore Belt Line, witnessed the tests of the great 5,000 horse-power dynamo which is drawing its power from the Niagara Falls. The test of this mammoth dynamo—the greatest in the world—was an unqualified success. The machine was tested to its full capacity, and every part worked faithfully. The company is now constructing a second dynamo of the same capacity, and when it is completed, three more, similar in size to the other two, will be built along the canal which has been dug from the Niagara River and upon which the works of the company are situated. Space has been made by this canal for dynamos to generate 100,000 horse-power, and machines will be built for that purpose as soon as the demand warrants it. At present the single dynamo is generating electric power for the Pittsburg Reduction Company, the works of which are about one-half a mile from the power company, and for the Carborundum Company, one third mile distant. It is estimated that 20,000 horse-power from the five dynamos can be sent into Buffalo. This remains to be demonstrated, although the engineers of the power company feel confident that a test will demonstrate its practicability."—V. 58, p. 1035.

Oregon Short Line & Utah Northern.—At Salt Lake City, Utah, July 10, Judge Merritt appointed Oliver Ames, 2d, and Erwin F. Atkins of Massachusetts trustees under the *first mortgage* of the *Utah Central* in place of the original trustees, now dead.

Holders of *Oregon Short Line first mortgage* 6 per cent bonds are notified by the committee of which R. C. Martin is Chairman that the delay in the payment of interest by the Union Pacific receivers and the attitude of the committee representing the consolidated bonds have placed the future disposition of the property and the protection of the bondholders in the hands of that committee. Deposits under their agreement may be made without penalty until Aug. 1, 1895. See advertisement in to-day's CHRONICLE.

Holders of the *Utah Southern general mortgage* and *extension mortgage* bonds at a meeting in New York on Thursday appointed Peter B. Wycoff, Samuel Carr, Alexander H. Stevens and Isaac H. Bromley a committee to examine the property and its relations to the Union Pacific, and report at a meeting to be called by them at an early date.—V. 61, p. 27.

Negotiations between the two Oregon Short Line committees have been going on, but thus far without success. The Consolidated Committee have offered to give the firsts priority of lien on the 140 miles of road on which the consols are now a first lien if they will agree to a reduction in interest to 5 per cent. The scheme involves a reorganization which would take in the Oregon Railway & Navigation. The firsts are disposed to stand out for better terms.—V. 61, p. 27.

Paducah Tennessee & Alabama—Tennessee Midland.—United States Circuit Judge Lurton recently appointed J. H. Watson and J. B. Clough special commissioners to conduct the sale of the Tennessee Midland, the upset price being fixed at $1,000,000. Sixty days are given in which to discharge the road's obligations, after which the special commissioners will set a day for the sale. Foreclosure proceedings are also in progress against the Paducah Tennessee & Alabama, the two roads having been closely allied.—V. 60, p. 712.

Pennsylvania Railroad.—This company has arranged with Speyer & Co. to sell in London £1,000,000 sterling 3½ per cent 50-year bonds of the consolidated mortgage. The proceeds, it is learned, will be applied in part as follows: A new bridge across the Delaware River, to cost nearly $1,500,000; third and fourth track construction on the main line; abolition of grade crossings on the New York division and elsewhere; in all, east of Pittsburg, about $2,500,000. West of Pittsburg the construction of the bridge at Cincinnati; reduction of grades on the Cleveland & Marietta Railroad; the company's share of the new station at Dayton, Ohio, $250,000; grade crossings in Columbus, $250,000; widening the tunnels on the Pan Handle divisions to accommodate a two-track road, and the building of 1,500 cars for lake iron and ore and coal traffic.—V. 61, p. 28.

Pennsylvania Steel.—Application has been made for a charter for "The Pennsylvania Steel Company," and as soon as it is granted the Court will be asked to discharge the receivers, the reorganization having been completed. Effingham B. Morris has been elected President of the new company; Eben F. Barker, Secretary, and Edward Smith, Treasurer. The directors will be Effingham B. Morris, N. Parker Shortlidge, John B. Gest, George Philler, Howland Davis,

Alfred Barnshaw and Luther S. Bent. It is said the company has all the orders it can fill and there is a possibility of it starting up some of its furnaces that have been idle for some time.—V. 60, p. 1106.

Philadelphia & Reading.—The argument upon the general mortgage foreclosure took place in the United States Circuit Court on Tuesday, the foreclosure being opposed by various interests, and at the conclusion the Court took the matter under advisement for future decision. A meeting was held in New York on Monday afternoon between the Olcott Reading Reorganization Committee and Mr. J. Pierpont Morgan, and various reports were circulated about the latter soon undertaking a reorganization. It is understood that very little was done at the meeting, and beyond a statement of the progress recently made in arranging certain fixed charges of the Reading with which the public is familiar, the proceedings of the meeting were chiefly perfunctory. —V. 61, p. 28.

Pittsburg Cleveland & Toledo.—The stockholders of this company have authorized the proposed consolidated mortgage for $4,000,000.—V. 60, p. 1010.

Postal Telegraph & Cable.—A. B. Chandler, President, has sent out the following:

"The recent publication of specific statements to the effect that the property of the Postal Telegraph & Cable Company has been sold to the Standard Telephone Company makes it necessary to say that no such sale has been made or contemplated, and no motive for the making of such a story is known either to the stockholders or the management of the Postal Company."—V. 60, p. 563.

Reorganization Plans, etc.—The following is an index to all defaults, foreclosure sales, reorganization plans, the names of all reorganization committees, and all statements respecting the payment of overdue coupons, that have been published in the CHRONICLE *since* the April edition of the INVESTORS' SUPPLEMENT was issued, all earlier facts of this nature being set forth in that publication. It does *not*, however, include matter in to day's CHRONICLE.

The following abbreviations are used: *Plan* for reorganization or readjustment plan; *coup.* for coupon payments; *def.* for default; *Com* for committee.

San Diego Pacific & Eastern.—Circulars have been sent out describing the project for building this road from San Diego, Cal., to Salt Lake City: also an eastward line from San Diego, and affording the Pacific Coast connection with coal fields in Utah. The stock is $1,000,000, in shares of $10 each.

Syracuse Consolidated Street.—A decree of foreclosure having been granted, deposits of bonds under the plan will be received by the Central Trust Company only to and including July 20.

Toledo Ann Arbor & North Michigan.—The Reorganization Committee have no advices as to the motion reported to have been filed at Toledo to set aside the recent sale, and do not believe confirmation of sale will be delayed, as all the judges before whom the matter can be brought have already decided all questions involved. As soon as the sale is confirmed the old stock will be given an opportunity to exchange their holdings, two shares of old for one of new, on payment of $10 per share for the latter. There were $181,500 of the several classes of bonds which did not come into the reorganization. The holders of these bonds will receive their share from the proceeds of the sale of the respective divisions.—V. 61, p. 28.

Union Pacific.—Receiver S. H. H. Clark expresses himself as follows regarding the Union Pacific situation: "It would be a great mistake to further dismember the system, and the best interests of the Oregon Short Line & Utah Northern are bound up with the Union Pacific system as a whole. With improved conditions generally and a settlement of some of the Union Pacific debt problems the property is in a fair way to see better times, and it will assuredly share liberally in the revenue to be derived from the movement of the crops this fall. The Union Pacific Denver & Gulf line should ultimately be taken back into the system, and if good counsels prevail it will."—V. 60, p. 1106.

Union Pacific—Kansas Pacific.—The Kansas Pacific Consolidated Mortgage Protective Committee, of which Frederick D. Tappen is chairman, has listed on the New York Stock Exchange, $6,043,000 Mercantile Trust Company Engraved Certificates of Deposit for the consols. The total issue of consols is $11,725,000.—V. 60, p. 1106.

United States Cordage.—At a meeting of the Bondholders' Protective Committee of the United States Cordage Company on Tuesday, Dumont Clarke, president of the American Exchange National Bank, withdrew from the committee, having disagreed with the other members in regard to the advisability of further opposing the reorganization of the company on the lines proposed by the Reorganization Committee. The remaining members of the committee, after a further investigation of the company's affairs, issued a statement strongly advising the bondholders against giving their assent to the reorganization plan promulgated in the interest of the old management.

The reorganization plan received a decided impetus in the announcement that Messrs. J. P. Morgan & Co. had formally approved of the plan of reorganization and had deposited the securities held by them, of an approximate value of $1,000,000, with the Manhattan Trust Company, under the plan prepared by Mr. John L. Waterbury and his associates. The Chemical Bank and Bank of Commerce also made deposits of bonds.

The time for depositing securities under the plan, which expired to-day, was extended to July 26.—V. 60, p. 1151.

Universal Gas (Chicago).—A call has been made for 30 per cent of the stock subscription of this company, which has a subscribed capital of $1,500,000. Other calls will be made from time to time as the money is needed. After the $1,500,000 is fully paid up the directors have power to further increase the stock at will to $5,000,000.—V. 60, p. 1105.

Utah Hot Springs & Ogden.—W. A. Paxten, of Omaha, was the only bidder in Ogden for this railway, which was sold last Wednesday in Ogden at Sheriff's sale.

Valley (Ohio)—Baltimore & Ohio.—The two bondholders' committees have come to an agreement and the Baltimore & Ohio plan is to be carried out. The 4 per cent 100-year guaranteed bonds are to be increased from $5,500,000 to $8,000,000. A trackage agreement has been made with the Wheeling & Lake Erie.—V. 60, p. 799.

Washington & Columbia River.—This railway company has listed on the Philadelphia Stock Exchange $2,500,000 first mortgage 4 per cent gold bonds, due July 1, 1935 (first coupon dated January 1, 1896), both principal and interest payable in gold coin at the Farmers' Loan & Trust Company, of New York City, which company is trustee under the mortgage. The statement of the railway company to the Stock Exchange is as follows:

The Washington & Columbia River Railway Company was incorporated in July, 1892, under the laws of the State of Washington, to build and operate lines of railroad, telegraph, steamboats—also warehouses, etc., in Washington and Oregon. The route of the railroad is as follows:

	Miles.
Dayton, Washington, to Pendleton, Oregon	$128^{410}/_{1000}$
Eureka Junction to Pleasant View, Washington	$19^{732}/_{1000}$
Killian Junction to Athena, Oregon	$14^{580}/_{1000}$
Total length of side tracks $17^{67}/_{100}$	$162^{732}/_{1000}$

Gauge, 4 feet 8½ inches, all laid with 56-pound steel rail.

Equipment: 7 locomotives, 2 passenger cars, 1 baggage and express car, 75 box cars, 40 flat cars, 7 cabooses, 2 tank cars.

The amount outstanding of the above-described first mortgage bonds is $2,500,000, of which amount $50 000 were issued to be used by the company in settling for rolling stock and other matters, and the remainder, $2,450,000, divided *pro rata* among the holders of $1,175,000 of first mortgage 5 per cent bonds, issued by the company October 24, 1892, upon which first mortgage the earnings of the company were not sufficient to pay the interest. The difference between the $2,450,000 and $1,175,000 being settled by giving income mortgage bonds (non-cumulative) for the amount of such difference.

By resolution of the board of trustees of the company *additional* bonds, at a rate not exceeding $20,000 per mile, may be issued under and secured by the said first mortgage, bearing interest at the rate of 4 per cent per annum, as the same shall be required for the purpose of aiding in the construction and equipment or purchase of additional road, including all extensions, branches, etc.

The payment of the principal and interest is secured by a mortgage dated March 1, 1895, to the Farmers' Loan & Trust Company, trustees, conveying to the said trustees the company's railway, equipment and franchises, as described in said mortgage. The funded debt of the company consists of $2,500,000 first mort. 4 p. c. gold bonds, due July 1, 1935; $2,500,000 income mortgage 4 per cent bonds (non-cumulative), due July 1, 1935; authorized capital stock $3,000,000, par value of shares $100, full paid, all issued; no floating debt.

West End & River Side Electric (Montgomery, Ala.)—This road has been sold to Alexander Troy and associates, who propose to reorganize it.

—The Monetary Trust is a new financial institution, incorporated under the laws of this State, and embodies principles not heretofore incorporated. Under its legal constitution it cannot acquire ownership of securities or transact business for its own account. It will act as trustee for banks and private individuals in financial transactions.

—A line of desirable investments is offered by Messrs. Redmond, Kerr & Co., in our advertising columns, to which attention is directed. On application at their offices in New York or Philadelphia circulars can be obtained giving details and prices.

—The Edward C. Jones Co., 80 Broadway, offer in another column Trenton fours, Tennessee settlement threes and Long Island 4½ per cent improvement bonds.

Reports and Documents.

SOUTHERN PACIFIC RAILROAD COMPANY OF CALIFORNIA.

ANNUAL REPORT FOR THE YEAR ENDING DECEMBER 31, 1894.

NEW YORK, May 3, 1895.

MR. C. P. HUNTINGTON,
President Southern Pacific Co.

SIR: As requested, I submit, herewith report showing the property owned and the financial condition of the Southern Pacific Railroad Company of California, a constituent Company of the Southern Pacific Co., for the year ending December 31, 1894.

The mileage at the close of the year was as follows:

Miles of road owned, incl. line from Mojave to the Needles*.	1,863·170
Leased: San Bernardino to Motor Junction	7·170
Total	1,870·340
Sidings	379·990
	2,250·330

*The line between Mojave, Cal., and the Needles, 242·31 miles in length, is leased, and contract delivered for its sale to the Atlantic & Pacific Railroad Company, that Company paying, as rental, an amount equal to the interest on the bonds which were issued in respect of said line. This rental amounts to the annual sum of $436,266, and is treated as rental received for account of Southern Pacific Railroad of California, in the accounting between it and the Southern Pacific Company.

On May 5, the extension of the Coast Division from Santa Margarita to San Luis Obispo, 16·90 miles, was opened for business. At this date, track has been laid 27 miles south thereof, and work on the extension toward Elwood, a distance of about 80 miles, is steadily progressing.

CAPITAL STOCK.

The capital stock outstanding at the close of the year consisted of 684,029 shares, of $100 each, amounting to $68,402,900, of which $67,875,500 is owned by the Southern Pacific Company. There was issued during the year capital stock to the amount of $507,000 00, in payment for construction of line from Santa Margarita to San Luis Obispo.

FUNDED DEBT.

The bonded debt outstanding at the close of the year is shown in Table No. 1—Assets and Liabilities.

The changes in bonded debt during the year have been as follows:

First mtge five per cent bonds of 1893, issued for construction of 16·90 miles of road, from Santa Margarita to San Luis Obispo	$585,000 00
First mtge six per cent bonds of 1875 purchased and canceled	364,000 00
Increase during the year	$221,000 00

There were exchanged also at par $11,461,000 00 of the five per cent bonds of 1893 for five per cent bonds of 1888.

The first mortgage gold bonds of 1893 are also a lien upon all the Company's lines of railroad and land grants, and are subject only to the lien of outstanding bonds of the other classes above mentioned, for exchange against which, dollar for dollar, sufficient bonds of 1893 have been reserved; so that the bonds of 1893 will finally replace all other outstanding bonds of the Company except such as shall have been theretofore redeemed and canceled from the proceeds of land sales or sinking funds, or from the proceeds of the sale of the Mojave Branch.

EARNINGS AND EXPENSES.

The Company's lines of railroad are operated by the Southern Pacific Company, under a lease for ninety-nine years. The lessee, under said lease, agrees to pay the operating expenses, taxes and the interest on the bonded indebtedness; and to pay over to the lessor, at the end of each year, 41 per cent of the net profits which remain from the operation of the following railroads, leased by the same instrument to the Southern Pacific Company, viz.:

Southern Pacific Railroad of California,
Southern Pacific Railroad of New Mexico,
Southern Pacific Railroad of Arizona,
Louisiana Western Railroad,
Morgan's Louisiana & Texas RR. & SS. Co. properties.

This Company's proportion of the net profits, under the above lease, for the year ending December 31st, 1894, amounted to $526,329 36.

The earnings and expenses of the properties of the Southern Pacific Railroad of California leased to the Southern Pacific Company, for the year ending December 31st, 1894, have been as follows:

Receipts—		
Gross earnings		$8,999,235 50
Rental from Atlantic & Pacific, for road from Mojave to the Needles		436,266 00
Miscellaneous rentals		177 00
Total		$9,435,678 50
Operating expenses		5,655,341 56
Receipts over operating expenses		$3,780,336 94
Brought forward		$3,780,336 94
Other Charges and Expenditures—		
Taxes	$266,873 89	
Interest on bonded debt	2,895,458 32	
Interest on other debt	7,975 23	
Rental for San Bernardino & Redlands RR.	6,000 00	
Rental for terminal facilities, San Francisco	46,500 00	
Rental for shop facilities, Sacramento	6,673 20	
Miscellaneous rentals	4,805 00	
Total		3,234,285 64
Surplus from operations		$546,051 30

The year 1894 may, in the history of this Company's operations, be considered as one during which an unusual combination of unfavorable conditions prevailed, and which operated to exceptionally reduce the earnings of the Company for the year. The drought reduced the wheat crop so that it was the smallest crop since the year 1877, the price for wheat was lower than in any previous period, and all the branches of trade were unfavorably affected by the general business depression existing throughout the entire United States. From these causes resulted a decrease in passenger earnings of $242,074 91; in freight earnings of $1,389,458 92, and in mail, express and other earnings of $38,458 28, making a total decrease of $1,669,987 06. Operating expenses decreased $410,778 68, leaving a decrease in earnings over operating expenses of $1,259,208 43.

Of the decrease in operating expenses, $176,955 81 was in maintenance of way and structures, resulting mainly from the large charges in the year 1893 for reconstruction of line in Southern California and filling in Wilmington trestle; $204,633 68 was in conducting transportation, resulting from the decrease in train mileage and tonnage, and $34,003 35 was in general expenses, mainly in salaries of officers and clerks and legal expenses. In expenses for maintenance of equipment there was a slight increase. Although the earnings had decreased largely there was no reduction in expenditures by which the physical condition of the property would be impaired.

For the general information of all interested, the following statement of the operations of the company since March 1st, 1885, when its properties were leased to the Southern Pacific Company, is submitted:

Years.	Miles of road operated*	Gross earnings.	Earnings over operating expenses.	Fixed charges.	Surplus.
		$	$	$	$
1894.	1,634 68	8,999,235 50	3,343,593 94	2,797,842 64	546,051 30
1893	1,634·62	10,669,222 56	4,303,102 37	2,704,890 96	1,898,211 41
1892.	1,546 37	10,231,184 30	4,341,665 16	2,659,289 60	1,682,375 56
1891.	1,474·54	9,579,822 50	3,851,547 85	2,594,813 85	1,256,734 00
1890	1,246 41	8,606,470 15	3,251,039 21	2,561,800 22	689,239 01
1889	1,244 01	8,269,091 23	2,674,956 61	2,575,576 13	99,380 48
1888	1,034 51	9,576,658 33	2,970,580 61	2,571,321 49	696,259 15
1887..	983 57	5,977,218 18	1,971,372 64	1,801,301 29	170,071 35
1886	842 07	4,943,956 32	1,879,939 40	1,700,584 64	179,354 76
1885	755 57	3,706,462 78	1,672,891 84	1,523,909 82	148,982 02

*The 242·31 miles, Mojave to the Needles, are not included in this mileage.

BETTERMENTS AND ADDITIONS.

There was expended during the year for betterments and additions, and charged to capital account, the sum of $328,756 68. These expenditures were principally for: ballasting 7 37 miles of track between Castroville and Salinas, ·96 miles between Wilmington and San Pedro, 1·55 miles in Los Angeles and 1·68 miles at the Palms, a total of 11·51 miles, $12,778 21; additional guard rails on bridges, $2,335 73; signs and electrical signals at highway crossings, $5,096 56; ash pits in engine houses at Mojave, Beaumont and Santa Ana, $383 69; fencing 14·40 miles right of way, $3,587 08; new station buildings at Compton, Burlingame and Redlands, passenger station at Studebaker, addition to station buildings at Bakersfield, Banning, Wanda and San Jose, track scales at Chino, interlocking plant at Colton, eight new cottages and addition to hotel at Indio, stevedores' cottages at Port Los Angeles and stock pens at Hilldale, $25,634 28; section and tool houses at Indio and fencing section buildings, $1,508 56; for 15 70 miles of additional sidings (less 2 65 miles taken up) and double track in Alameda Street, Los Angeles, $73,9.0 52; additional guard rails on timber trestles and extension of trestles for water ways, $7,492 97; new turn-table at Los Angeles, $3,504 73; new water tanks at Hilldale and Indio, $673 07. For steam tug "Collis," $45 515 41, and for right of way and other lands at Santa Monica, land on east side of Los Angeles River and station grounds at Redlands and San Jose, $40,164 25.

The total expenditures for betterments and additions from April 1st, 1885, to December 31st, 1894 amount to $3,211,730 71. This sum has gone into the appreciation of the property without increasing the bonded debt therefor.

NO. 1.—ASSETS AND LIABILITIES.

The assets consist of:

Cost of road and franchises (excluding land grant)		$126,970,534 27
Expended for betterments and additions from Mar. 1st, 1885, to Dec. 31st, 1894		3,211,730 71
Total		$130,182,264 98
Cash on hand	$75,077 36	
Bills receivable	500 00	
Notes for principal of deferred payments on lands sold	3,504,019 15	
Company's sinking fund, as per statement No. 4	1,097,137 35	
Land grant sinking fund, unapplied	343,690 57	
Unadjusted accounts	39 28	5,020,463 71
Total		$135,202,728 69

The liabilities are:

Capital stock		$68,402,900 00
S. P. RR. Co. 1st mtge. six per cent bonds of 1875, due April 1st, 1905	$17,664,500 00	
S. P. RR. Co. 1st mtge. bonds of 1875, due Oct. 1st, 1896	8,111,000 00	
S. P. RR. Co. 1st mtge. bonds of 1875, due April 1st, 1912	5,154,000 00	
Southern Pacific Branch Railway 1st mtge. six per cent bonds	3,578,000 00	
Stockton & Copperopolis Railroad 1st mtge. five per cent bonds	500,000 00	
S. P. RR. Co. 1st mtge. five per cent bonds of 1888	1,471,000 00	
S. P. RR. Co. 1st mtge. five per cent bonds of 1893	14,445,000 00	50,923,500 00
Accounts payable	$16,961 55	
Unclaimed dividends	103 50	
Due Company's sinking fund	135,437 35	
Due Trustees of Land Grant Mortgage	343,690 57	
Due Southern Pacific Company	107,412 36	
Unadjusted accounts	7,674 16	611,279 49
Total		$119,937,679 49
Balance, assets over liabilities and capital stock		$15,265,049 20

No. 2.—PROFIT AND LOSS.

This account stands as follows:

Cr.		
Income from operations under lease to Southern Pacific Co. for the year ending Dec. 31, 1894		$526,322 26
Income from land sales as per table No. 3		79,571 06
Income from bonds owned by Company's sinking fund		42,832 50
Total		$648,725 82
Dr.		
General expenses		$29,523 34
Expenses and taxes for account of land grant		57,902 92
Premium paid on six per cent bonds of 1875 bought and canceled		26,944 16
Income applicable to redemption of six per cent bonds of 1875, viz.:		
Net proceeds from land sales	$52,626 90	
Interest from investments owned by Company's sinking fund	42,832 50	
Annual contribution to Company's sinking fund	100,000 00	195,459 40
Total		$309,829 82
Balance, surplus for the year		$338,896 00
Balance, surplus Jan. 1, 1894	$1,759,190 33	
Less adjustments of taxes, 1880-1887	218,384 20	1,540,806 13
Surplus Dec. 31, 1894		$1,879,702 13

NO. 3.—INCOME FROM LAND SALES.

(For Redemption of Six P. C. Bonds under Mort. of April 1st, 1875.)

Total amount of sales during the year, cash and deferred payments	$19,415 98
Interest collected on notes representing deferred payments on prior sales	60,155 08
Total	$79,571 06
Less premium paid on bonds redeemed	26,944 16
Balance for the year	$52,626 90
Balance January 1st, 1894	11,866,906 41
Total	$11,919,533 31
Less balance due on contracts surrendered during the year	128,323 59
Balance	$11,791,209 72
Applied as follows:	
Six per cent bonds of 1875 redeemed and canceled (face value)	$7,943,500 00
Due Trustees Land Grant Mortgage	343,690 57
Notes for principal of deferred payments on lands sold	3,504,019 15
Total	$11,791,209 72

The amount due the Trustees Land Grant Fund is secured by collateral.

No. 4.—INCOME FROM COMPANY'S SINKING FUND.

(For Redemption of 6 Per Cent Bonds under Mortgage of April 1, 1875.)

Annual requirements of mortgage of April 1, 1875		$100,000 00
Interest collected on investments		42,832 50
Total		$142,832 50
Balance January 1, 1894		1,451,304 85
Total		$1,594,137 35
Applied as follows:		
For redemption of bonds (at face value)		$497,000 00
For the purchase of bonds held as an investment, viz.:		
375 S. P. RR. of Cal. 5 per cent bonds	$362,800 00	
202 S. P. Branch Ry. 6 per cent bonds	202,000 00	
117 Northern Ry. 5 per cent bonds	117,000 00	
180 C. T. & N. W. Ry. 6 per cent bonds	180,000 00	
111 G. H. & S. A. Ry. 5 per cent bonds	99,900 00	
Total	$961,700 00	
Cash	135,437 35	1,097,137 35
		$1,594,137 35

Since the close of the year the cash has been invested in $150,000 face value First Mortgage Five Per Cent Bonds of the Galveston Harrisburg & San Antonio Railway Company.

NO. 5.—INCOME FROM ALL SOURCES.

Surplus from Profit and Loss (statement No. 2)	$1,879,702 13
Income from land sales for redemption of six per cent bonds of 1875 (statement No. 3)	11,791,209 72
Income from Company's sinking fund (statement No. 4)	1,594,137 35
Total (representing the balance of assets over liabilities, on statement No. 1)	$15,265,049 20

NO. 6.—RECEIPTS FROM SALES OF U. S. GRANTED LANDS.

(During year ending December 31st, 1894.)

Number of acres sold	5,895·63
Surrendered and canceled	50,801·65
Total amount of sales	$19,415 98
Cash receipts on sales made	$6,280 12
Cash collected for account of principal of notes given for deferred payments	129,408 44
Cash collected for account of interest on notes given for deferred payments	60,602 94
	$196,291 50
Less interest refunded	447 86
Total cash receipts for trust land account	$195,843 64
Cash receipts from leases and stumpage, which is applied towards expenses of land department	16,538 76
Total cash receipts	$212,382 40

Under the stress of the general business depression a larger number of acres were surrendered and canceled during the year than were sold. With an improvement in the general business situation the lands which have thus reverted to the Company will probably be the first to be sold.

NO. 7.—ROLLING STOCK OWNED.

Locomotives	173
Baggage, mail and express cars	55
Combination baggage and passenger cars	11
Passenger cars, 1st class	159
" " 2d class	30
Parlor cars	1
Tourist cars (three-fourths interest)	13
Pullman sleeping cars (three-fourths interest)	50
Dining cars	2
Business cars	3
Total passenger equipment	324
Box cars (all classes)	2,575
Gondola cars	134

GENERAL REMARKS.

The business depression in the State of California during the years 1893 and 1894 was such as has never before been known in the history of the State. The financial depression throughout the entire United States had narrowed transactions in every channel of trade, and checked the steadily progressing development of the great natural resources of the State. The already unsatisfactory condition of trade was further augmented by the low prices for grain and the short grain crop of 1894, all of which combined to diminish exceptionally the earnings for the year 1894.

However, all the indications for the year 1895 point to a material improvement in the Company's earnings. From all sections of the State come reports of large crops and a revival of general business. The citizens of the State of California are beginning to recognize that the breaking-up of the large tracts of lands into small farms, and inducing immigration, is of vital importance to the welfare of the State, and they now propose to take active measures looking towards this desirable end. As an illustration of the possibilities in that direction, increasing alike the material prosperity of the State and the earnings of the railroads, the San Joaquin Valley, which produces largely wheat, raisins and fruit, is reported to have an area of about 6,850,000 acres, but has a population of only 123,000 persons. Although wheat, barley and other grains will continue to be the great staple products of the State—the wheat crop in 1894 was only 30,376,705 bushels, while it has been as great as 44,320,000 bushels—there has been a rapid development in other industries. This has been particularly so in fruit-culture, in which there has been a remarkable increase, as will be seen by the following statement for the past five years, as published by the California State Board of Trade:

Years.	*Pounds.*
1894	606,994,600
1893	537,950,200
1892	374,324,000
1891	354,778,210
1890	323,915,185

In 1885 the entire output of California green fruit had been only 23,000,000 pounds. It is estimated that there are now about 401,145 acres of fruit lands under cultivation in the State, of which only about one-half is at present bearing.

The output of beet sugar, an industry of recent date, reached 35,088,969 pounds in 1894, and constituted about 80 per cent of the total output of the United States. The cultivation of olives is rapidly extending, and considerable area has been planted with canaigre, from which tanning extract is manufactured. The large extent of the mining and wine industries is too well known to require reference to them here. Mention of the above particular and of recently developed industries has been made merely to illustrate the great and varied resources of the State of California, and point to the excellent location and earning power of this Company's lines of railroad, as these resources are developed.

Respectfully,

WM. MAHL,

Second Assistant to President.

The Commercial Times.

COMMERCIAL EPITOME.

FRIDAY NIGHT, July 12, 1895.

General business conditions have continued cheerful and promising. Mid-summer influences have a momentary quieting effect upon negotiations for some leading articles of merchandise, but the average movement of staple commodities is greatly in excess of the corresponding period last year and the volume of trade appears to be steadily growing. The manufacturers are now quite generally fully employed, in some instances upon contracts running until end of year, and further advances in wages have been accorded workers in metals and textile fabrics. Latest advices regarding grain crops are considered promising, corn in particular looking well, oats steadily gaining and spring-sown wheat in most localities reported as showing greatly improved prospects, but excess of rain reported in winter wheat sections. Too much moisture also reported from principal cotton States, but with some modification at the close.

Lard on the spot during the early part of the week was dull and easier, but subsequently an increased demand from both the local trade and shippers caused an advance, closing steady at 6 65c. for prime Western, 6 10c. for prime City and 7·05c for refined for the Continent. The speculation in the local market for lard futures has been at a standstill and during the first half of the week prices declined, but subsequently there was a rally in sympathy with the advance in grain and part of the loss was recovered, closing steady.

DAILY CLOSING PRICES OF LARD FUTURES

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
July ..... c.	6·70	...	...	...	...	...
September ..... c.	6·80	6·82	6·75	6·65	6·75	6·72

Pork has declined and at the lower prices a good export business has been done to the West Indies, closing at $13 25@$14 for mess, $13@$15 for short clear and $13 for family. Cut-meats have had only a moderate call, but prices have ruled strong, closing at 7@7¼c. for pickled bellies, 12@10 lbs. average, 6c. for pickled shoulders and 9½@10c. for pickled hams. Beef has been quiet but steady, closing at $8 for mess, $9@11 for packet, $11@$13 for family and $17 a 18 50 for extra India mess. Beef hams have declined, closing at $18. Tallow has declined, closing with sales at 4¼c. Oleo stearine has also declined, closing at 6¼c. Lard stearine has weakened, closing at 8¼c. Cot on-seed oil has declined for yellow, closing at 26c. for prime yellow and 23@24c. for prime crude. Butter has been fairly active at lower prices, closing steady at 12@17c. for creamery. Cheese has been quiet and prices have declined, closing easy at 6@8½c. for State factory full cream. Fresh eggs have been quiet but steady, closing at 13@13½c. for choice Western.

Coffee further eased off somewhat in price without attracting much additional demand and the tone generally is unsettled. Rio quoted at 15¼c. for No. 7 flat bean; good Cucuta at 19c. and standard Java 27@27½c. For future delivery the bullish element has supported prices, but there was very little new investment demand, and at the close the tone is easy.

The following were the final asking prices:

July	14 50c.	Oct.	14 90c.
Aug	14 70c.	Nov	14 80c.
Sept	14 75c.	Dec	14 75c.
Jan	14·65c.		
Feb	14 60c.		
March	14·60c.		

Raw sugars have been available at former rates, but were taken up with much freedom and supported in healthy tone. Centrifugals quoted at 3½c. for 96-deg. test and muscovado at 2¾c. for 89-deg test. Refined sugars were disappointingly slow in movement but firmly held; granulated quoted at 4⅝c. Teas slow and easy.

For Kentucky tobacco the demand was slow but prices were steadily held; sales 175 hhds. Seed leaf tobacco has had only a limited call but prices were unchanged and steady; sales for the week were 1,300 cases, as follows: 100 cases 1892 crop, New England Havana, 18@30c.; 100 cases 1893 crop, New England Havana, 13@15½c.; 150 cases 1894 crop, New England Havana, 15@18c.; 200 cases 1893 crop, Zimmer's, 11½@13½c.; 450 cases 1894 crop, Zimmer's, private terms; 150 cases 1893 crop, Wisconsin Havana, 10@11½c.; 50 cases 1892 crop, Pennsylvania Havana, private terms and 50 cases cut rips, 5@25c; also 1,000 bales Havana, 65c.@$1 05, and 300 bales Sumatra, 90c @$3 20 in bond.

In the market for Straits tin the speculation has continued quiet and prices have weakened a trifle, closing quiet at 14 10c. Ingot copper has further advanced and the close was firm at 10·90@11c. for Lake. Lead has been quiet but steady, closing at 3 35@3 37½c. for domestic. Spelter has declined a trifle and the close was flat at 3 57½@3 60c. for domestic. Pig iron has been in fair demand and firm at $11 50@$14 for domestic.

Refined petroleum has again declined, closing quiet at 7 65c. in bbls., 5·15c. in bulk and 8c. in cases; crude in bbls. has been nominal; naphtha, 9 25c. Crude certificates have advanced, closing at $1 55 bid. Spirits turpentine has declined and the close was easy at 28@28½c. Rosins have weakened slightly, closing at $1 55@$1 57½ for common and good strained. Wool has been in fair demand and firm. Hops have been quiet but steady.

COTTON.

FRIDAY NIGHT, July 12, 1895.

THE MOVEMENT OF THE CROP, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening the total receipts have reached 5,866 bales, against 3,795 bales last week and 6,223 bales the previous week, making the total receipts since the 1st of Sept., 1894, 7,850,816 bales, against 5,899,686 bales for the same period of 1893-4, showing an increase since Sep. 1, 1894, of 1,951,130 bales.

Speculation in cotton for future delivery at this market has embodied very few strictly new ventures. Much animation, however, has been shown in handling old engagements for liquidation or change of position, and at times trading was of an exciting character. Impressions regarding crop probabilities served as a guide for most operations. Saturday's market made 4 points net gain on poor weather reports and covering orders. Monday brought steadier foreign advices and continued wet weather reports from the South, and 7 points additional advance took place. On Tuesday there was a break of 10 points under free selling to close long engagements and draw profits. Wednesday opened with an advance of 6@7 points, but upon appearance of crop condition report from Agricultural Bureau, showing 1 3-10 gain during June instead of loss, as had been expected, holders of long engagements sold freely, forcing a decline of 17 points from highest and showing 10@11 points net loss for the day. Yesterday, on cable advices indicating that Liverpool had not become seriously depressed by the Bureau report, there was a quick recovery here of 10 points; the firmness increased by a renewal of rain reports from the South. To-day, however, the foreign news was tame and weather reports better, causing a weaker tone and lower rates. Cotton on the spot dull at 7⅛c. for middling uplands.

The total sales for forward delivery for the week are 723,100 bales. For immediate delivery the total sales foot up this week 4,020 bales, including 1,000 for export, 2,920 for consumption — for speculation and 100 on contract. The following are the official quotations for each day of the past week—July 6 to July 12.

Rates on and off middling, as established Nov. 22, 1893, by the Revision Committee, at which grades other than middling may be delivered on contract:

Fair	c. 1¼ on.	Good Ordinary.....	c. 1⅜ off.
Middling Fair.	7/8 on.	Good Middling Tinged...	Even.
Strict Good Middling.....	1/8 on.	Strict Middling Stained..	7/32 off.
Good Middling.....	5/16 on.	Middling Stained.....	7/16 off.
Strict Low Middling.....	3/16 off.	Strict Low Mid. Stained..	29/32 off.
Low Middling	7/16 off.	Low Middling Stained....	1⅜ off.
Strict Good Ordinary.....	13/16 off.		

On this basis the prices for a few of the grades would be as follows:

THE VISIBLE SUPPLY OF COTTON to-night, as made up by cable and telegraph is as follows. The Continental stocks, as well as those for Great Britain and the afloat are this week's returns and consequently all the European figures are brought down to Thursday evening. But to make the totals the complete figures for to-night (July 13), we add the item of exports from the United States, including in it the exports of Friday only.

	1895	1894.	1893.	1892
Stock at Liverpool.....bales.	1,518,000	1,331,000	1,376,000	1,549,000

☞ The imports into Continental ports the past week have been 42,000 bales.

The above figures indicate an *increase* in the cotton in sight to-night of 534,857 bales as compared with the same date of 1894, an *increase* of 383,974 bales over the corresponding date of 1893 and a decrease of 14,761 bales from 1892.

AT THE INTERIOR TOWNS the movement—that is the receipts for the week, and since September 1, the shipments for the week and the stocks to-night, and the same items for the corresponding period of 1893-94—is set out in detail below.

Towns.	Movement to July 12, 1895.				Movement to July 13, 1894.

* Louisville figures "net" in both years.

The above totals show that the interior stocks have *decreased* during the week 5,962 bales and are now 17,915 bales *less* than at same period last year. The receipts at all the towns have been 2,177 bales *less* than same week last year and since Sept. 1 are 1,268,850 bales *more* than for same time in 1893-94.

QUOTATIONS FOR MIDDLING COTTON AT OTHER MARKETS.—Below we give closing quotations of middling cotton at Southern and other principal cotton markets for each day of the week.

The closing quotations to-day (Friday) at other important Southern markets were as follows.

Atlanta.....	6 3/4	Little Rock....	6	Newberry.....	.....
Columbus, Ga.	6 3/4	Montgomery...	6 3/4	Raleigh	7 1/8
Columbus, Miss	6	Nashville	6 7/8	Selma.....	6 3/4
Eufaula	6 1/4	Natchez.....	6 1/4	Shreveport.....	6 1/4

RECEIPTS FROM THE PLANTATIONS.—The following table indicates the actual movement each week from the plantations. The figures do not include overland receipts nor Southern consumption; they are simply a statement of the weekly movement from the plantations of that part of the crop which finally reaches the market through the outports.

Week Ending—	*Receipts at the Ports.*			*Stk at Interior Towns.*			*Rec'pts from Plant'ns*		
	1895.	1894.	1895.	1893.	1894.	1895.	1893.	1894.	1895.
June 7.....	22,395	18,697	19,829	187,899	112,131	86,421	11,348	6,885	4,622
" 14 ...	20,276	18,813	15,547	166,902	99,992	76,155	.....	6,664	5,261
" 21 ..	23,396	12,999	15,514	150,762	92,347	71,898	6,656	4,434	11,357
" 28. ..	19,668	12,995	6,223	135,393	83,495	67,870	4,569	6,044	2,195
July 5.....	16,894	10,179	3,795	125,580	79,366	64,724	6 771	3,520	649
" 12	15,282	5,910	5,366	120,466	76,577	58,782	10,448	3,101	.. ..

The above statement shows: 1.—That the total receipts from the plantations since Sept. 1, 1894, are 7,852,243 bales; in 1893-94 were 5,980,097 bales; in 1892-93 were 5,018,290 bales.

2.—That although the receipts at the outports the past week were 5,366 bales, the actual movement from plantations was only —— bales, the balance being taken from the stocks at the interior towns. Last year the receipts from the plantations for the week were 3,101 bales and for 1893 they were 10,448 bales.

OVERLAND MOVEMENT FOR THE WEEK AND SINCE SEPT. 1.—We give below a statement showing the overland movement for the week and since September 1. As the returns reach us by telegraph late Friday night it is impossible to enter so largely into detail as in our regular monthly report, but all the principal matters of interest are given. This weekly publication is of course supplementary to the more extended monthly statements. The results for the week ending July 12 and since Sept. 1 in the last two years are as follows:

July 12.	1894-95.		1893-94	
	Week.	*Since Sept. 1.*	*Week.*	*Since Sept. 1.*

Leaving total net overland*.	1,554	1,096,792	1,332	799,917

* Including movement by rail to Canada.

The foregoing shows that the week's net overland movement this year has been 1,554 bales, against 1,332 bales for the week in 1894, and that for the season to date the aggregate net overland exhibits an excess over a year ago of 296,875 bales.

In Sight and Spinners' Takings.	1894-95		1893-94	
	Week.	*Since Sept. 1.*	*Week*	*Since Sept. 1.*
Receipts at ports to July 12	5,366	7,852,243	5,910	5,980,686

North'n spinners tak'gs to July 12	4,383	1,991,494	4,896	1,523,382

* Decrease during week.

It will be seen by the above that there has come into sight during the week 12,458 bales, against 14,433 bales for the same week of 1894, and that the increase in amount in sight to-night as compared with last year is 2,304,021 bales.

Weather Reports by Telegraph.—Advices to us by telegraph this evening from the South are generally of a somewhat more favorable character. Rain has fallen in almost all localities during the week, but as a rule the rainfall has been light. In some sections of Florida, however, there has been too much moisture. Reports from Texas are more satisfactory, good progress having been made with cultivation, and over the Southern portion of the State cotton is opening.

Galveston, Texas.—The weather has been dry all the week. The thermometer has averaged 84, ranging from 80 to 88.

Palestine, Texas.—We have had rain on one day of the week, the rainfall reaching thirty-eight hundredths of an inch. The thermometer has ranged from 70 to 90, averaging 80.

Huntsville, Texas.—There has been rain on one day of the week, the precipitation reaching ten hundredths of an inch. Average thermometer 82, highest 94 and lowest 70.

Dallas, Texas.—The weather during the week has been favorable for farming operations over pretty much all the State and good progress has been made in cleaning the crop. The rains of the tenth and eleventh in Northwestern Texas have, however, retarded work in some localities. Cotton is fruiting generally and is opening in Southern Texas. Prospects are improving notwithstanding the fact that the plant has been injured by excessive rains in some places. The corn crop is virtually made and is excellent. It has rained on one day of the week, the rainfall reaching fifty-four hundredths of an inch. The thermometer has averaged 80, the highest being 96 and the lowest 64.

San Antonio, Texas.—Dry weather has prevailed all the week. The thermometer has averaged 84, ranging from 72 to 96.

Luling, Texas.—There has been no rain during the week. The thermometer has ranged from 74 to 98, averaging 86.

Columbia, Texas.—It has been dry all the week. Average thermometer 83, highest 94 and lowest 72.

Cuero, Texas.—We have had no rain the past week. The thermometer has averaged 82, the highest being 96 and the lowest 68.

Brenham, Texas.—It has been showery on one day of the week, the precipitation being seven hundredths of an inch. The thermometer has averaged 85, ranging from 74 to 96.

Belton, Texas.—There has been rain on one day of the week, the rainfall being ten hundredths of an inch. The thermometer has ranged from 66 to 100, averaging 83.

Fort Worth, Texas.—We have had rain on one day of the week, the rainfall reaching twenty-two hundredths of an inch. Average thermometer 80, highest 96, lowest 64.

Weatherford, Texas.—It has rained on four days of the week, the rainfall being eighteen hundredths of an inch. The thermometer has averaged 80, the highest being 96 and the lowest 64

New Orleans, Louisiana.—Rain has fallen on three days of the week, to the extent of forty-seven hundredths of an inch. The thermometer has averaged 83.

Shreveport, Louisiana.—We have had rain on three days of the week, the rainfall reaching seventeen hundredths of an inch. The thermometer has ranged from 68 to 92, averaging 81.

Columbus, Mississippi.—An improvement in the condition of the crop is to be noted. We have had rain on two days of the week, the precipitation reaching five hundredths of an inch. Average thermometer 81, highest 93, lowest 63.

Leland, Mississippi.—We have had rain during the week to the extent of ten hundredths of an inch. The thermometer has averaged 79, the highest being 87 and the lowest 70.

Meridian, Mississippi.—Telegram not received.

Little Rock, Arkansas.—Rain has fallen on two days of the week, the precipitation reaching sixty-eight hundredths of an inch. The thermometer has ranged from 66 to 90, averaging 76.

Helena, Arkansas.—Crops are growing well but are grassy. Some blight is reported. Rain has fallen lightly on five days of the week, the rainfall reaching thirty-five hundredths of an inch. Average thermometer 77, highest 91 and lowest 64.

Memphis, Tennessee.—The latter part of the week has been rather cool. Crops are generally in good condition, but dry weather is desirable. There has been light rain on four days of the week, the precipitation reaching thirty-three hundredths of an inch, and more is now threatened. The thermometer has averaged 76, the highest being 91·8 and the lowest 63 8.

Nashville, Tennessee.—Rain has fallen during the week, the rainfall reaching two inches and seventy-five hundredths. The thermometer has averaged 75 and has ranged from 62 to 87.

Mobile, Alabama.—The weather has been more favorable the past week, but there are complaints of an excess of grass and weeds. We have had rain on two days of the week, to the extent of fifty-nine hundredths of an inch. The thermometer has ranged from 68 to 92, averaging 81.

Montgomery, Alabama.—Crops are improving. We had rain on three days in the early part of the week, the rainfall reaching twenty-three hundredths of an inch, but latterly the weather has been hot and dry. Average thermometer 81, highest 89 and lowest 73.

Selma, Alabama.—Crops on low lands are claimed to be unpromising, the plant being large but with little fruit. Fields are very grassy, but are now being cleaned. Prospects fair on uplands. There has been rain on three days during the week, the precipitation reaching fourteen hundredths of an inch. The thermometer has averaged 78, the highest being 90 and the lowest 66.

Madison, Florida.—Fields are getting grassy as a result of too much moisture. Rain has fallen on every day of the past week, the rainfall being one inch and seventy hundredths. The thermometer has averaged 80, ranging from 68 to 89.

Columbus, Georgia.—It has rained on two days of the week, the precipitation reaching one inch and thirty hundredths. The thermometer has ranged from 70 to 87, averaging 80.

Savannah, Georgia.—There has been rain on six days during the week, to the extent of one inch and forty-seven hundredths. Average thermometer 81, highest 96 and lowest 65.

Augusta, Georgia.—There has been rain on four days of the week, the precipitation reaching one inch and eighty-six hundredths. The thermometer has averaged 78, the highest being 92 and the lowest 65.

Albany, Georgia.—We have had rain on one day of the week, the precipitation being two hundredths of an inch. The thermometer has averaged 83·2, ranging from 73 to 94.

Charleston, South Carolina.—Rain has fallen on four days of the week, to the extent of seventeen hundredths of an inch. The thermometer has ranged from 73 to 95, averaging 82.

Greenwood, South Carolina.—Telegram not received.

Stateburg, South Carolina.—Crops are progressing finely. There has been rain on two days of the past week, the precipitation reaching eighty-six hundredths of an inch. Average thermometer 78·1, highest 89, lowest 67.

Wilson, North Carolina.—The week's rainfall has been seventy-seven hundredths of an inch, on two days. The thermometer has averaged 80, ranging from 60 to 90.

The following statement we have also received by telegraph, showing the height of the rivers at the points named at 8 o'clock July 11, 1895, and July 12, 1894.

SEA ISLAND COTTON MOVEMENT.—We have received this (Friday) evening by telegraph from the various ports the details of the Sea Island cotton movement for the week. The receipts for the week ending to-night (July 12) and since Sept. 1, 1894, the stocks to-night, and the same items for the corresponding periods of 1893-94, are as follows.

Receipts to July 12.	1894-95.		1893-94.		Stock	
	This week.	Since Sept. 1.	This week.	Since Sept. 1.	1895.	1894
Savannah	....	64,251	2	54,175	407	984
Charleston	....	5,359	....	2,212	58	358
Florida, &c.	....	5,139	10	3,571	....	808
Total	....	74,749	12	59,958	465	2,149

The exports for the week ending this evening reach a total of 16 bales, of which 16 bales were to Great Britain, — to France and — to Reval, and the amount forwarded to Northern mills has been 20 bales. Below are the exports for the week and since September 1 in 1894-95 and 1893-94.

Exports from—	Week Ending July 12.			Since Sept. 1, 1894.			North'n Mills	
	Great Brit'n.	Fr'nce &c.	Total.	Great Brit'n	Fr'nce &c.	Total.	Week	Since Sept. 1

Total 1893-4	26	.....	26	32,584	4,642	37,226	35	22,425

A considerable portion of the Sea Island cotton shipped to foreign ports goes via New York, and some small amounts via Boston and Baltimore. Instead of including this cotton for the week in which it leaves the Southern outports, we follow the same plan as in our regular table of including it when actually exported from New York, &c. The details of the shipments of Sea Island cotton for the week will be found under the head "Shipping News," on a subsequent page.

Quotations July 12 at Savannah, for Floridas, nominal. Charleston, Carolinas, nominal.

EXCHANGES.—The following exchanges have been made during the week:

THE AGRICULTURAL DEPARTMENT'S JULY REPORT.—The following statement showing the condition of cotton was issued by the Department of agriculture July 10:

The July returns for cotton make the average condition 82·3 against 91 in June, an improvement of 1·3 points. The condition July 1, 1894, was 89·6 and same date 1893, 82·7 per cent.

The averages of the States are as follows: Virginia, 100; North Carolina, 74; South Carolina, 84; Georgia, 88; Florida, 93; Alabama, 83; Mississippi, 86; Louisiana, 77; Texas, 76; Arkansas, 93; Tennessee, 92.

The June and July averages, compared with the June and July figures of previous years, are as follows:

States.	1895.		1894.		1893.		1892.		1891.		1890.	
	June.	July.	June.	July.	June.	July.	June.	July.	June.	July.	June.	July.
North Carolina	91	74	84	91	83	81	88	91	85	77	98	95
South Carolina	72	84	81	88	88	91	94	80	90	97	97	95
Georgia	84	88	76	74	81	86	87	88	80	85	94	95
Florida	92	93	92	93	88	98	80	86	90	94	92	91
Alabama	91	83	88	87	82	80	91	90	89	87	93	95
Mississippi	87	86	91	84	86	80	94	87	88	91	85	89
Louisiana	86	77	95	94	87	84	82	81	88	90	81	86
Texas	79	76	91	90	82	84	81	87	91	95	84	89
Arkansas	89	93	9	97	80	80	75	77	90	93	85	89
Tennessee	87	92	74	75	92	85	90	87	73	82	87	93
Average	81·0	82·3	85·3	85·6	85·6	85·2	85·7	85·3	85·7	88·6	88·8	91·4

The average given above for all the States is the average as given by the Department.

EUROPEAN COTTON CONSUMPTION TO JULY 1.—We have received to-day by cable Mr. Ellison's cotton figures brought down to July 1. The revised totals for last year have also been received and we give them for comparison. Spinners takings in *actual* bales and pounds have been as follows:

October 1 to July 1.	Great Britain.	Continent.	Total.
For 1894-95.			
Takings by spinners...bales	2,642,000	3,564,000	6,206,000
Average weight of bales.lbs	502	481	490
Takings in pounds	1,326,284,000	1,714,284,000	3,040,568,000
For 1893-94.			
Takings by spinners...bales	2,638,000	3,471,000	6,109,000
Average weight of bales.lbs.	478	464	470·2
Takings in pounds	1,261,403,000	1,610,924,000	2,872,327,000

According to the above, the average weight of the deliveries in Great Britain is 502 pounds per bale this season, against 478 pounds during the same time last season. The Continental deliveries average 481 pounds against 464 pounds last year, and for the whole of Europe the deliveries average 490 pounds per bale against 470·2 pounds last season. Our dispatch also gives the full movement for this year and last year in bales of 400 pounds.

Oct. 1 to July 1. Bales of 400 lbs. each, 000s omitted.	1894-95.			1893-94.		
	Great Britain	Continent.	Total.	Great Britain	Continent.	Total.
Spinners' stock Oct. 1.	50.	348.	398.	68	258	326.
Takings to July 1	3,316	4,285	7,601	3.153	4.027.	7,180.
Supply	3,366.	4,633.	7,999.	3,221.	4,285	7,506.
Consumpt'n 39 weeks.	3,198	3,822	7,020	3.120.	3.575.	6.695.
Spinners' stock July 1	168	811.	979	101	710	811.
Weekly Consumption, 000s omitted.						
In October	82,0	98,0	180,0	89,0	89,0	169,0
In November	82,0	98,0	180,0	89,0	89,0	169 0
In December	82,0	98,0	180,0	89,0	89,0	169,0
In January	82,0	99,0	180,0	80,0	93,0	174,0
In February	82,0	98,0	180,0	80,0	93,0	173,0
In March	82,0	98,0	180,0	80,0	93,0	173,0
In April	82,0	98,0	180,0	80,0	93,0	173,0
In May	82,0	98,0	180,0	80,0	93,0	173,0
In June	82,0	98,0	180,0	80,0	93,0	173,0

The foregoing shows that the weekly consumption is now 180,000 bales of 400 pounds each, against 173,000 bales of like weights at the corresponding time last year. The total spinners' stocks in Great Britain and on the Continent have decreased 48,000 bales during the month and are now 168,000 bales greater than at the same date last year.

FIRST BALE OF NEW COTTON.—The first bale of cotton of the crop of 1895-96 was received at Galveston, Texas, on Thursday, July 11, or fifteen days later than in 1894. Last year the first new bale reached Houston on June 26. In 1893 the earliest arrival was on June 30 and in 1892 on July 11, both also at Houston.

JUTE BUTTS, BAGGING, &C.—Business in jute bagging has been with animation during the week just closed, but at unchanged prices. The quotations this evening are 4½c. for 1¾ lbs., 4¾c. for 2 lbs. and 5c for standard grades in a jobbing way. Car-load lots of standard brands are quoted at 4¼c. for 1¾ lbs., 4½c. for 2 lbs. and 5¼c. for 2¼ lbs. f. o. b. at New York. The market for jute butts has been quiet at 1⅞c. for paper quality, 1¾c. for mixing and 1⅝c. for bagging quality.

SHIPPING NEWS.—The exports of cotton from the United States the past week, as per *latest mail* returns, have reached 19,476 bales. So far as the Southern ports are concerned, these are the same exports reported by telegraph and published in the CHRONICLE last Friday. With regard to New York we include the manifests of all vessels cleared up to Thursday.

	Total bales.
NEW YORK—To Liverpool, per steamer Cevic, 285 upland and 16 Sea Island	301
To Antwerp, per steamer Westerniand, 2,125	2,125
To Genoa, per steamer Olympia, 1,860	1,860
To Naples, per steamer Olympia, 810	810
To Venice, per steamer Olympia, 200	200
NEW ORLEANS—To Liverpool, per steamers Lassell, 600 ... Mexican, 4,883	5,483
To Havre, per steamer Lancastrian Prince, 997	997
To Bremen, per steamer Helvetia, 898	898
To Antwerp, per steamer Lancastrian Prince, 238	238
To Genoa, per steamer British Prince, 1,600	1,600
SAVANNAH—To Genoa, per steamer Manilton, 3,550	3,550
NORFOLK—To Hamburg, per steamer ———, 200	200
BOSTON—To Liverpool, per steamers Angloman, 257 .. Cephalonia, 117 ...Saxamora, 664	1,038
PHILADELPHIA—To Liverpool, per steamer Ohio, 176	176
Total	19,476

The particulars of these shipments, arranged in our usual form, are as follows:

	Liverpool.	Havre.	Bremen & Hamburg.	Antwerp.	Naples and Venice.	Genoa.	Total.
New York	301	.....	.....	2,125	1,010	1,860	5,296

BREADSTUFFS.

Friday, July 12, 1895.

During the first half of the week the market for wheat flour was dull and prices dropped about ten cents per barrel, owing to a sharp decline in the grain. Subsequently, however, an advance in wheat gave a steadier tone to the market, but business continued quiet. Rye flour has sold slowly, but prices have held fairly steady. Corn meal has been in slow request and prices have made an irregular decline. To-day the market for wheat flour was fairly active at steady prices.

Early in the week the market for wheat futures broke badly under free selling by tired "longs," prompted by dull and depressed foreign advices and favorable crop accounts from the Northwest. Subsequently a stronger turn to European advices, particularly from the Continent, accompanied with buying orders, fear of crop damage in the Northwest by frosts and a small movement of the new winter-wheat crop, stimulated a brisk demand from "shorts" to cover contracts, and part of the loss was recovered. In the local market the export demand for spot wheat has been quiet, but during the latter part of the week a large export business was reported as having been done at Duluth. To-day the market was fairly active and higher on continued buying by "shorts" to cover contracts, stimulated by stronger foreign advices, less favorable crop accounts from the Northwest and small receipts. The spot market was quiet; the sales included No. 2 red winter at 3/4c. under September in store, quoted at 1 3/8c. over September f. o. b. afloat; No. 1 hard quoted at 5c. over September f. o. b. afloat.

The speculation in the market for Indian corn futures has been fairly active, but during the first half of the week prices declined sharply under general selling, prompted by favorable crop prospects and weak foreign advices, but subsequently the improvement in wheat and fear that the market had been oversold stimulated a demand from "shorts" to cover contracts, and prices advanced. In the spot market shippers have been limited buyers and prices have followed futures. The sales yesterday included No. 2 mixed at 1 1/4c. over Sept. f. o. b. afloat. To-day the market continued to advance in sympathy with the rise in wheat and on buying by "shorts" to cover contracts. The spot market was firmer but quiet. The sales included No. 2 mixed at 49 3/4c.@50c. in elevator and 1 1/4c. over September f. o. b. afloat.

September delivery....c.	50	47 1/2	47 1/8	48	49 1/8	50 1/2

Oats for future delivery have been moderately active and during the first few days of the week general selling under the favorable crop prospects caused a decline, but later there was an improvement in sympathy with the rise in wheat and corn. The spot market has been moderately active. Yesterday the sales included No. 2 mixed at 27 1/4@27 1/2c. in elevator and No. 2 white at 33 1/4c. in elevator. To-day the market was without decided change. The spot market was firm, owing to light offerings. The sales included No. 2 mixed at 27 1/2c. in elevator and No. 2 white at 33 1/4c. in elevator.

Agricultural Department's Report on Cereal Crops July 1.—The Agricultural Department issued on the 10th inst. its report on the cereal crops for the month of June, as follows:

The July returns to the Statistician of the Department of Agriculture by the correspondents thereof make the following averages of condition: Corn 99·3, winter wheat 65·4, spring wheat 102·2, oats 83·2, winter rye 82·2, spring rye 77, all rye 80·7, barley 91·9, rice 84·4, potatoes 91·5, tobacco 85·9; acreage of potatoes compared with 1894 107·9, and of tobacco 84·8 per cent.

The report on acreage of corn, which is preliminary, shows 107·8, as compared with the area planted in 1894, which was a little over 76,000,000 acres, being an increase of 6,000,000 acres, and aggregating in round numbers 82,000,000 acres.

The averages for the principal corn States are: Ohio 104, Michigan 106, Indiana 104, Illinois 105, Wisconsin 105, Minnesota 112, Iowa 106, Missouri 107, Kansas 117, Nebraska 107, Texas 115, Tennessee

107, Kentucky 102. The average condition of corn is 99·3, against 95 in July last year and 93·2 in 1894.

The averages of condition in the principal States are as follows: Ohio 91, Michigan 90, Indiana 95, Illinois 92, Iowa 105, Missouri 109, Kansas 104, Nebraska 95, Texas 118, Kentucky 96, Tennessee 98.

The condition of winter wheat is 65·8, against 71·1 in June and 83·2 last July.

The percentages of the principal States are: New York 78, Pennsylvania 88, Kentucky 85, Ohio 60, Michigan 69, Indiana 52, Illinois 50, Missouri 58, Kansas 42, California 82, Oregon 93 and Washington 93.

The condition of spring wheat is 102·2, against 97·8 in June and 68·4 in July, 1894.

State averages are: Minnesota 112, Wisconsin 98, Iowa 101, Kansas 46, Nebraska 80, South Dakota 112, North Dakota 102, Washington 94, Oregon 90. The average condition of all wheat for the country is 78·2. The condition of oats is 83·2, against 84·5 June 1 and 77·7 July 1, 1894.

The condition of winter rye is 82·2, of spring rye 77·0 and all rye 80·7. The average condition of barley is 91·9, against 90·3 in June, an increase of 1·6 points.

EXPORTS OF BREADSTUFFS, PROVISIONS, COTTON AND PETROLEUM.—The exports of these articles during the month of June, and the twelve months, for the past three years have been as follows:

* Including cattle and hogs in all months and years.

NOTE.—All the above figures are based on the monthly preliminary returns issued by the Bureau of Statistics, and cover about 98 per cent of the total exports of breadstuffs, oil and provisions, and nearly 100 per cent of cotton.

☞ For other tables usually given here see page 58.

THE DRY GOODS TRADE.

NEW YORK, FRIDAY, P. M., July 12, 1895.

There has been a better attendance of buyers this week in both the cotton and woolen goods departments than for some time past and business has been more general. In cotton goods, however, it has hardly come up to expectations, although in some measure this is due to the firmness of sellers in rejecting bids for quantities where the price offered does not come up to their limits, a feature noticeable chiefly in brown staples. Some large buyers are renewing bids which were ineffectual some time ago, evidently under the impression that sellers may be easier to deal with after passing through the recent quiet period. They have not been successful to any appreciable extent, but have served rather to demonstrate the continued strength of the staple goods market. A good demand ought to materialize between now and the end of the month with the market already in a lightly stocked condition. Sales of low and medium grade woolens and worsteds for spring have been liberal, but new lines are still opening at irregular prices. There is, however, a better feeling prevailing, and the tendency is towards improvement. The H. B. Claflin Company's statement for the first half of the year, issued this week, is more encouraging than generally expected. It shows profits for the six months of $454,697 net, which is a gain of nearly $12,000 over the first six months of 1894, while fall prospects are described as decidedly favorable.

DOMESTIC COTTON GOODS.—The exports of cotton goods from this port for the week ending July 8 were 3,209 packages, valued at $143,559 their destination being to the points specified in the table below:

NEW YORK TO JULY 8.	1895.		1894	
	Week.	Since Jan. 1.	Week.	Since Jan. 1.
Great Britain	103	2,938	24	3,237

Total	3,209	114,643	6,391	123,807

* From New England mill points direct.

The value of the New York exports for the year has been $4,594,377 in 1895 against $6,082,703 in 1894.

The only change reported in brown goods during the week is an advance in a prominent make of Southern 4-yard sheetings to 4½c. per yard. Heavy sheetings and drills are still heavily sold ahead and continue firm in face of moderate actual business. Brown ducks and osnabugs quiet but firm. Low-grade bleached cottons of the 64 square order are moving against buyers; medium and fine grades are firm, with moderate sales. A quiet business is reported in wide sheetings, with an advance of 2½ per cent in Boston ticket. Cotton flannels and blankets are very firm, with supplies well controlled. Denims hold late improvement in prices, with some demand from cutters, while the market for ticks, plaids and other coarse colored cottons is firm, with a quiet business doing. Kid-finished cambrics and other linings are without change in prices and in moderate current request. Dark fancy prints firm, with moderate demand. Hamilton fancies advanced 2½ per cent. Staple prints also firm and Hamilton staples advanced ¼c. Indigo blues, shirtings, mournings and grays, etc., quiet at previous prices. There has been no change in dress or staple ginghams or other woven pattern fabrics. Buyers have been bidding 2⅞c. for extras all week, but sellers are not in the market at that price, and no sales reported. Odd goods in fair request and firm.

	1895.	1894.	1893.
Stock of Print Cloths—	*July 6.*	*July 7.*	*July 8.*
At Providence, 64 squares	179,000	294,000	139,000
At Fall River, 64 squares	36,000	590,000	105,000
At Fall River, odd sizes	96,000	206,000	
Total stock (pieces)	311,000	1,090,000	244,000

WOOLEN GOODS.—A number of new lines of light woolens and worsteds have been put on the market during the past week with much the same irregularity as previously noted, advances and declines of 2½c. per yard being variously quoted, with the majority unchanged from last season. Buyers have operated with some freedom in low and medium grade staples, such as Clays, cheviots and cassimeres, and the tendency of the market is towards improvement, an occasional advance of 2½ per cent being reported on opening prices recently made. Fine grade goods will be generally on the market with the coming week and are quiet meanwhile. Heavy weights in fair supplementary demand without material change in prices. Overcoatings sold more freely in light weights at steady prices. Cookings re-ordered in moderate quantities. Woolen and worsted dress goods firm in both staples and fancies, with more doing in the way of re-orders. Flannels and blankets quiet but firm and the former occasionally 2½c. per yard higher. Carpets in fair request, but somewhat unsettled by the strike at Philadelphia among the carpet weavers.

FOREIGN DRY GOODS.—The attendance of buyers has been fair and more business reported generally in fall lines of foreign merchandise. Dress goods firm in woolen and worsteds and silk fabrics, and strong for all mohair varieties, which are difficult to secure except from stocks here. Ribbons firm, laces dull, linens quiet but steady, and hosiery and underwear in moderate request at firm prices.

Importations and Warehouse Withdrawals of Dry Goods

The importations and warehouse withdrawals of dry goods at this port for the week ending July 11, and since January 1, 1895, and for the corresponding periods of last year are as follows:

IMPORTS ENTERED FOR CONSUMPTION FOR THE WEEK AND SINCE JANUARY 1, 1895 AND 1894.	Week Ending July 12, 1894.		Since Jan. 1, 1894		Week Ending July 11, 1895.		Since Jan. 1, 1895.

State and City Department.

TERMS OF SUBSCRIPTION.

The Investors' Supplement will be furnished *without extra charge* to every annual subscriber of the Commercial and Financial Chronicle.

The State and City Supplement will also be furnished *without extra charge* to every subscriber of the Chronicle.

The Street Railway Supplement will likewise be furnished *without extra charge* to every subscriber of the Chronicle.

The Quotation Supplement, issued monthly, will also be furnished *without extra charge* to every subscriber of the Chronicle.

TERMS for the Chronicle with the four Supplements above named are Ten Dollars within the United States and Twelve Dollars in Europe, which in both cases includes postage.

Terms of Advertising—(Per inch space.)

One time	$3 50	Three Months (13 times)	$25 00
One Month (4 times)	11 00	Six Months (26 times)	43 00
Two Months (8 times)	18 00	Twelve Months (52 times)	58 00

(The above terms for one month and upward are for standing cards.)

The purpose of this State and City Department is to furnish our subscribers with a weekly addition to and continuation of the State and City Supplement. In other words, with the new facts we shall give, the amplifications and corrections we shall publish, and the municipal laws we shall analyze in the "State and City Department," we expect to bring down weekly the information contained in the State and City Supplement to as near the current date as possible. Hence every Subscriber will at all times possess a complete and fresh cyclopædia of information respecting Municipal Debts.

MUNICIPAL BOND SALES IN JUNE.

The total amount of State and municipal bonds which we have reported as issued and sold during the month of June is $15,907,441. This is an advance of nearly four million dollars on the amount marketed in May, and is considerably heavier than the sales have been for any previous month of 1895. The securities have continued to bring good prices and the bids have been numerous for all the most desirable issues.

In the following table we give the prices which were paid for June loans to the amount of $14,576,441, issued by 67 municipalities. The aggregate of sales for which no price was reported is $1,331,000 and the total sales for the month $15,907,441. In the case of each loan reference is made to the page of the Chronicle where a full account of the sale is given.

Forged Bonds.—Reports from various points in Ohio state that about $120,000 of town and county bonds which have been put upon the market by Z. T. Lewis of Dayton have been discovered to be forgeries.

Kansas City.—The demand for a change of venue in the case in which application was made in the name of W. W. Payne for an injunction to prevent the city from issuing the three million dollar water-works bonds came up for hearing before Judge Slover in the State Court at Kansas City on the 9th inst. Attorneys W. C. Scarritt and R. H. Field, nominally representing Mr. Payne, though really acting in the interests of the water-works company, had asked for a change of venue outside of the county.

The attorneys for the city were prepared to surprise their opponents and read an application for a transfer of the case to the United States Circuit Court. The application set forth that the case was one involving the provision in the United States Constitution prohibiting the States from impairing the obligations of contracts; that the issue of the bonds involves matters of which the United States courts are now in charge, and that the question was one which should be heard in the United States courts. Judge Slover later ordered the case transferred to the United States Court.

The sale of the bonds, made last winter to a Boston and Chicago syndicate, failed to go through on account of the uncertainty regarding the validity of the issue.

Pittsburg, Pa.—A decision in the Pittsburg bond suit was handed down in the United States Circuit Court this week. It was in the city's favor, sustaining in full the demurrer of the city officers and James Carothers, purchaser of the bonds, against the bill of complaint filed by the attorneys for the Dupont Powder Company. The bond issue in question amounts to $5,625,000 and was sold by the city on the 23d of last May.

Bond Proposals and Negotiations.—We have received through the week the following notices of bonds recently negotiated and bonds offered and to be offered for sale.

Amboy, Minn.—L. E. Cross, Village Recorder, reports to the Chronicle that bids will be received until July 15, 1895, for the purchase of $4,000 of water-works bonds. The loan will be dated August 1, 1895, will bear interest at the rate of 6 per cent, payable semi-annually in February and August, at Amboy, and will mature in five years. The village has no

other indebtedness, and its assessed valuation (which is about one-third of actual value) for 1894 of real estate was 440,000; personal property, $220,000; total, $660,000; total tax rate (per $1,000) $45·30. The population, according to local figures, is 600.

Aroostook County, Me.—Proposals will be received until July 23, 1895, by L. O. Ludwig, County Treasurer, for the purchase of $28,000 of 4½ per cent bonds. The securities are dated July 1, 1895, interest is payable semi annually in January and July, at Boston, and the principal will mature in twenty years.

Ashland County, Wis.—Railroad-aid bonds of Ashland County to the amount of $125,000 have been voted.

Aurora, Ill.—It is reported that $26,000 of 5 per cent 10-year water-works bonds were sold on July 10 to W. J. Hayes & Sons.

Battle Creek, Mich.—Proposals will be received until August 12, 1895, by J. H. Mykins, Mayor, for the purchase of $32,000 of 5 per cent water extension bonds. Interest will be payable semi annually in New York and the principal will mature at the rate of $10,000 yearly on September 1, 1915, 1916 and 1917. The city's debt consists of $100,000 of 4½ per cent water-works bonds, $30,000 of sewer bonds and $9,000 of railroad aid bonds. Its assessed valuation for 1894, as equalized by the County Board of Supervisors, was $4,929,318; actual valuation $12,000,000. The population according to local figures is 16,000.

Bolivar, Mo.—Water-works and electric-light bonds to the amount of $8 000 have been voted.

Boone County, W. Va.—The citizens of Boone County will vote this month on issuing $50,000 of railroad-aid bonds.

Bond Hill, Ohio.—Proposals will be received until July 25, 1895, by W. H. Bockel, Jr., Village Clerk, for the purchase of $5 400 20 of 6 per cent Forest Avenue improvement bonds. Interest will be payable annually and the principal will mature part yearly in from one to ten years.

Bradford, Mass.—Four per cent school bonds to the amount of $15,000 have been sold to E. H. Gay & Co. at 102 33. The bonds average 8½ years. Three other bids were received as follows: E. H. Rollins & Sons, 102 17; J. W. Longstreet & Co., 102·16; City Five Cents Savings Bank, Haverhill, 102·01.

Brattleboro, Vt.—Proposals will be received until July 20 for the purchase of $35,000 of town-hall bonds running from 1 to 25 years, and $2,500 of bonds, $1,000 maturing in 5 years, $1,000 in 6 years and $500 in 7 years. The securities bear interest at the rate of 4 per cent.

Brooklyn, N. Y.—Fifteen bids, aggregating over $7,000,000, were received on July 8 for $400,000 of Gravesend local improvement bonds, maturing at the rate of $100,000 yearly on July 10, 1932, 1933 and 1934, and $270,000 of New York & Brooklyn Bridge bonds, $100,000 maturing July 10, 1925, $100,000 July 10, 1928, and $70,000 July 10, 1929. The securities were all awarded to Messrs. Vermilye & Co. at 104·81. Interest at the rate of 3½ per cent is payable semi-annually on January 1 and July 1, both principal and interest to be payable in gold coin. The bonds are exempt from all taxation except for State purposes.

Cambridge, Ill.—Bonds to the amount of $25,000 have been voted for water-works.

Cayuga County, N. Y.—Proposals will be received until July 23, 1895, by Horace T. Cook, Treasurer, for the purchase of $9,191 75 of 5 per cent county bonds. The securities will be dated July 23, 1895, interest will be payable annually on February 1. $1,191 75 of the amount to mature February 1, 1896, and $2,000 yearly thereafter.

Cincinnati, Ohio.—Proposals will be received until August 12, 1895, by Daniel W. Brown, Secretary of the Board of Trustees of the Sinking Fund, for the purchase of $3,973,000 of 3·65 per cent refunding bonds. The securities will be dated August 1, 1895, interest will be payable semi-annually on February 1 and August 1, and the principal will mature August 1, 1945, with an option of call after August 1, 1925, both principal and interest to be payable in gold coin in New York.

The bonds are to be issued to refund outstanding loans for $926 000, $227,000, $500,000 and $2 000,000, and no award will be made unless the aggregate of the successful bids makes one or more of the above-mentioned sums.

Cleveland, Ohio.—Proposals will be received until August 15, 1895, by H. L. Ressiter, City Auditor, for the purchase of $200,000 of 4 per cent city of Cleveland water-works coupon bonds. The securities will be dated October 1, 1895, interest will be payable semi-annually, and the principal will mature October 1, 1905, both principal and interest to be payable at the American Exchange National Bank, New York. The city's total debt on July 1, 1895, was $10,573,006, of which $1,805,874 was water debt; sinking funds $3,470,909; net debts, $9,102,797.

College Point, N. Y.—The people of this village will vote July 29 on issuing $20,000 of water-works bonds.

Duquesne, Pa.—An election to vote on issuing $75,000 of water-works bonds resulted in favor of the proposition by almost a unanimous vote. Only ten votes were cast against the proposition.

East St. Louis, Ill.—Public improvement bonds of East St. Louis to the amount of $1,500,000 have been authorized by the Council, the bonds to be issued in five annual instalments.

Elkhorn, Wis.—Proposals will be received until August 15, 1895, by Jay F. Lyon, village clerk, for the purchase of $18,000 of 5 per cent water-works bonds. The securities will be dated July 15, 1895, interest will be payable on Jan. 15, 1896, and annually thereafter, and the principal will mature at the rate of $2,000 yearly from January 15, 1899, to January 15, 1908. Both principal and interest will be payable at the Union National Bank of Chicago.

Essex County, N. J.—Proposals will be received until July 30th by the Finance Committee of the Board of Chosen Freeholders of Essex County, N. J., for $3,500,000 of county park bonds. The securities are to bear interest at the rate of 3·65 per cent. They are to be dated August 1, 1895, and will mature at the rate of $500,000 every fifth year from August 1, 1915, to August 1, 1935. Interest and principal will be payable in gold. Coupon bonds will be issued with the option to the holders to have them registered or exchanged for registered bonds. An annual tax levy sufficient to meet the principal and interest when due is required by law.

The present county debt is $766,859; assessed valuation, $178,165,000; population, 300,000.

An advertisement elsewhere in this Department gives further particulars regarding the securities and the required nature of the bids.

Etiwanda, Cal.—The people of this municipality will soon vote on issuing $50,000 of water-works bonds.

Fairfield, Me.—It is reported that this municipality has sold $3,000 of 4 per cent refunding bonds to James W. Longstreet & Co. at 103·52. The loan will mature at the rate of $3,000 yearly after 10 years.

Grand Rapids, Mich.—On July 8, 1895, the city of Grand Rapids sold $150,000 of 4 per cent coupon bonds to W. I. Quintard of New York for a premium of $5,085. Twenty-four bids in all were received. The securities are dated July 1, 1895, interest is payable semi-annually at the Fourth National Bank, New York City, and the principal will mature July 1, 1905. The bonds are issued to repay the overdrawn funds and to pay the floating indebtedness.

Hellertown, Pa.—Bonds of this municipality will probably be issued for water-works.

Independence, Kans.—An election held June 26 on issuing $35,000 of water-works bonds resulted in the defeat of the proposition.

Ithaca, N. Y.—Proposals will be received until July 20, 1895, by the Board of Sewer Commissioners for the purchase of $150,000 of 4 per cent coupon sewer bonds. The securities will be dated July 1, 1895, interest will be payable semi-annually on January 1 and July 1, and the principal will mature at the rate of $7,500 yearly from July 1, 1906, to July 1, 1926, both principal and interest to be payable in gold coin in New York. Proposals must state the interest basis offered, and the successful bidder will be expected to take the bonds in monthly instalments, or as the money is needed, with accrued interest from the latest interest period.

Jackson, Mich.—City Treasurer Theo. W. Chapin reports to the CHRONICLE that an election held July 8 on issuing $50,000 of bonds resulted in the defeat of the proposition by a majority of 240 votes.

Jamaica, N. Y.—Bonds to the amount of $300,000 are under consideration for water-works, electric light and street purposes.

Jasper, Ind.—The citizens of Jasper have voted to issue $15,000 of water-works bonds.

Kings County, N. Y.—On June 29, 1895, the County of Kings sold $1,500,000 of 4 per cent public park fund bonds to the United States Mortgage and Trust Company at 111·39. Interest is payable semi-annually on May 1 and November 1, and the loan matures at the rate of $37,500 yearly from May 1, 1935, to May 1, 1944. Other bids were as follows: New York Life Insurance Company (total issue), 110·05; Farson, Leach & Co., 110·01; J. W. Seligman & Co., 107·698; R. L. Day & Co., 107·179, and D. A. Moran & Co., 105.

S. A. Kean of Chicago, Ill., bid for $150,000 worth on a 3⅞ per cent basis.

Kings County, N. Y.—Proposals will be received until July 23, 1895, by Henry H. Adams, County Treasurer, for the purchase of a $1,500,000 4 per cent registered Kings County public park fund loan. The securities are to be dated May 1, 1895, interest will be payable semi-annually on May 1 and November 1, and the principal will mature at the rate of $37,500 yearly from May 1, 1905, to May 1, 1944.

Lewis, Iowa.—Additional water bonds of this municipality have been voted down.

Lincoln County, W. Va.—The proposition to issue $50,000 of railroad aid bonds will be voted on this month.

Logan County, W. Va.—A vote will be taken this month on issuing $50,000 of railroad-aid bonds.

Lowell, Mass.—Sewer bonds to the amount of $75,000 and paving bonds to the amount of $25,000 have been authorized by the council.

Lynn, Mass.—Water-works bonds to the amount of $165,000 have been authorized by the Board of Aldermen, the securities to bear interest at the rate of 4 per cent and to become due in 1925.

Marlborough, Mass.—Four per cent water bonds to the amount of $22,000 have been sold to Messrs. Brewster, Cobb & Estabrook at 107·14. Six bids in all were received for the loan.

Marysville, Cal.—Proposals will be received until August 5, 1895, by F. E. Smith, City Clerk, for the purchase of $40,000 of 5 per cent drainage bonds. The securities will be dated November 4, 1895, interest will be payable annually, and the principal will mature at the rate of $4,000 yearly from November, 1896, to November, 1905, both principal and interest to be payable in gold coin.

McDonald, Pa.—On July 1, 1895, this borough sold $25,000 of 5 per cent street improvement bonds dated June 1, 1895. A list of bids received is given below:

	Premium.
N. W. Harris & Co., Chicago	$1,458
Trowbridge & Co., Chicago	455
Robinson & Co., Pittsburg	400
W. M. Bell, Pittsburg	250

Milford, Mich.—George P. McCoy, village clerk, reports to the CHRONICLE that water-works bonds of Milford to the amount of $18,000, recently voted, will bear interest at the rate of 5 per cent, payable semi-annually at Milford, and will mature in from five to twenty years from date of issue. The village has at present no debt of any kind. Its assessed valuation (two-thirds of actual value) is $390,000; total tax rate (per $1,000) for 1895 $5·20. The population according to local figures is about 1,800.

Monroe County, Wis.—On July 1, 1895, the county of Monroe sold $50,000 of 5 per cent court house bonds to Messrs. Farson, Leach & Co. for $51,792. The securities are to be dated July 15, 1895, and $5,000 of the principal will mature yearly from March 1, 1896, to March 1, 1905. Interest will be payable in Sparta, Wis.

Twelve other bids were received for the loan as follows:

The loans are exempt from city and county tax, but not from State taxation.

Oneida County, N. Y.—County bonds to the amount of $5,000 running nine months have been sold to the Holland Patent Bank at 100⅜.

Pasadena City School District, Cal.—Proposals will be received until July 18, 1895, by the Board of Supervisors of Los Angeles County for the purchase of $40,000 of 6 per cent Pasadena City school district bonds. Interest will be payable annually at the County Treasurer's office and the principal will mature at the rate of $5,000 yearly from September 1, 1898, to September 1, 1905. These bonds were previously offered for sale on June 26, at which time all bids were rejected.

Philadelphia, Pa.—Bids for only $235,000 of the $1,200,000 3 per cent serial loan of the city of Philadelphia offered for sale July 8 were received, and the award was reported as follows:

F. W. Scott, $30,000 series A to H inclusive and $3,000 series I at 3 per cent and par; L. A. Scott, $10,000 series A, 3 per cent and par; Dick Bros. & Co., $60,000 series T, 3 per cent plus 103 and accrued interest; Geo. H. Walbert, $2,500 series F, 3 per cent, par and interest, and $2,500 par and interest, series F to P.

Interest is payable semi-annually on January 1 and July 1, and the principal matures at the rate of $60,000 yearly from December 31, 1905, to December 31, 1924. The securities are free from all taxes.

It has been decided to re-advertise the remainder of the issue, and bids will be received until June 22.

Philmont, N. Y.—The citizens of this village voted a short time since in favor of constructing water works at a cost of $40,000. Charles N. Hardin, Treasurer, reports to the CHRONICLE that bonds for this purpose will not be issued for some time, as only preliminary steps are being taken to see if the village can afford the same.

Princeton, Minn.—On July 5, 1895, the village of Princeton sold $19,000 of 5 per cent water-works, sewer and electric-light bonds, to Fairbanks, Man & Co. at par, the village taking work in payment for same. Only two bids were received. The securities are dated July 5, 1895, interest is payable annually at St. Paul, Minn., and the principal will mature in twenty years

Reading, Mass.—Four per cent school bonds to the amount of $40,000 have been sold to Brewster, Cobb & Estabrook at 103·61. The average time of the securities is 13 years.

Richmond County, N. Y.—On July 8, 1895, the county of Richmond sold $100,000 of 4 per cent gold bonds to G. M. Hahn at 109 97. The securities are to be dated August 1, 1895, interest will be payable semi-annually, and the principal will mature August 1, 1920. Thirteen bids in all were received for the loan.

Rockport, Mass.—At an election held July 1, the people voted to issue $25 000 of water-works extension bonds.

Saginaw, Mich.—On June 28, 1895, the city of Saginaw sold $15,000 of 4 per cent refunding sewer bonds, $8,000 due July 1, 1899, and $7,000 July 1, 1900, for $15,157 50, and $12,500 of 5 per cent sewer bonds, maturing at the rate of $2,500 yearly from August 1, 1896, to August 1, 1900, for $13,922 50. Both loans were awarded to the Lamprecht Bros. Co. The bids received for the securities were as follows:

For 4 Per Cent Bonds.	*Amount Bid.*
Lamprecht Bros. Co., Cleveland	$15,157 50
E. H. Rollins & Son, Boston	15,153 00

NEW LOANS.

$2,500,000

ESSEX COUNTY, N. J.,

PARK BONDS.

The Board of Chosen Freeholders of the County of Essex, N. J., proposes to issue bonds to the aggregate amount of $2,500,000, pursuant to the provisions of Chapter XCI. of the Acts of 1895, which act has been approved by a vote of the people of said county for the purpose of establishing a system of Parks and Parkways for said county.

These bonds will be dated August 1, 1895, payable as follows:

$500,000 August 1, 1915.
$500,000 August 1, 1920.
$500,000 August 1, 1925.
$500,000 August 1, 1930.
$500,000 August 1, 1935.

They will be of the denomination of $1,000 each, will bear interest at three and sixty-five one-hundredths (3 65-100) per cent per annum payable semi-annually, will be coupon bonds with the option to the holders to have them registered or exchanged for registered bonds, will be executed by the county officers, and the whole issue duly countersigned, principal and interest payable in gold coin.

The proceeds will be required for use by the Park Commission from time to time during a period of not less than two nor more than three years. At least $500,000 will be required during the present year.

The County of Essex has a population of 260,000, and an assessed valuation of $158,156,000. Its present total indebtedness is $700,000 or less than one-half of one per cent of the assessed valuation.

The act under which the bonds are issued requires the annual levy of a county tax sufficient to meet interest and principal when due. A county tax for any purpose is entitled to priority in payment over local taxes for municipal purposes.

Sealed proposals will be received by the Finance Committee of the Board of Chosen Freeholders at a meeting to be held by said Committee, at the Freeholders' rooms in the Court House at Newark, N. J., on Tuesday, July 23, 1895, at 8 o'clock P. M., which meeting will remain open until 10 P. M. Proposals should be

1. For the whole of said bonds to be issued at once.
2. For $1,000 each of said bonds.
3. For the whole amount to be issued in instalments of not less than $500,000 each during a period not exceeding three years.
4. For any part of said bonds.

The purchaser to pay the interest accrued on said bonds to the time of delivery.

Deposits must accompany the bids and can be received at any time previous to the meeting.

The Committee reserves the right to reject any and all proposals if it is its judgment the interest of the taxpayers requires such action.

By order of the Finance Committee.

D. H. JOHNSON, Chairman.

PROPOSALS FOR

$60,000

MONTCLAIR, N. J.,

SEWER BONDS.

Pursuant to ordinances adopted by the township committee of Montclair, N. J., February 6th, 1895, and February 12, 1895, and to an ordinance adopted by the Council of the Town of Montclair June 24, 1895, to provide for the construction of a system of drainage and sewerage in said township, sealed proposals are invited for the purchase of the whole or any part of an issue of bonds to the amount of Sixty Thousand Dollars. These bonds to be for $1,000 each, to have ten years to run from August 1st, 1895, and to bear interest at not to exceed 5 per annum. No bid at less than par will be considered.

Such proposals will be received by the Town Clerk at his office until 8 P. M. July 25th, 1895. Further particulars may be obtained by applying to the Treasurer of the town.

The right is reserved to reject any or all bids. By order of the Town Council.

JOHN WILSON, Chairman.

$30,000

City of Montgomery, Ala.,

20-Year 5 P. C. Paving Bonds.

Sealed bids will be received until July 25th, 1895, 12 M., for the purchase of Thirty Thousand Dollars City of Montgomery, Alabama, 20 Year 5% bonds, denomination one Hundred Dollars each, one twentieth of the principal and the interest payable annually. The interest and one-twentieth the principal is embraced in the coupons, payable annually at the American Exchange National Bank, New York, also at the office of the City Treasurer, Montgomery, Ala. The city reserves the right to reject any and all bids.

R. H. SOUMERVILLE,
Treasurer.

CLEARING HOUSE RETURNS.

The following table, made up by telegraph, etc., indicates that the total bank clearings of all the clearing houses of the United States for the week ending to-day, July 20, have been $1,014,548,469, against $1,083,857,929 last week and $802,967,239 the corresponding week of last year.

CLEARINGS. *Returns by Telegraph.*	*Week Ending July 20.* 1895.	1894.	*Per Cent.*
New York	$445,378,011	$330,275,101	+34·8
Boston	83,849,443	63,317,252	+31·1
Philadelphia	52,149,791	48,629,617	+13·4
Baltimore	11,302,602	11,374,983	- 0·6
Chicago	71,871,220	61,266,219	+17·3
St. Louis	19,788,436	16,283,911	+21·7
New Orleans	5,784,997	5,176,300	+11·6
Seven cities, 5 days	$707,531,280	$556,374,403	+27·1
Other cities, 5 days	134,843,694	112,090,468	+20·3
Total all cities, 5 days	$842,374,974	$668,720,776	+26·0
All cities, 1 day	172,073,486	134,246,463	+28·2
Total all cities for week	$1,014,548,460	$802,967,239	+26·3

The full details of clearings for the week covered by the above statement will be given next Saturday. We cannot, of course, furnish them to-day, bank clearings being made up by the various clearing houses at noon on Saturday, and hence in the above the last twenty-four hours of the week have to be in all cases estimated, as we go to press Friday night.

Our usual detailed figures for the previous week, covering the returns for the period ending with Saturday noon, July 15, are given below, and we also present the results for the corresponding week in 1894, 1893 and 1892. In comparison with the preceding week there is a decrease in the aggregate exchanges of a little less than eighty-four million dollars, and at New York the loss is seventy-eight and a half millions. Contrasted with the week of 1894 the total for the whole country shows an increase of 24·5 per cent. Compared with the week of 1893 the current returns record an excess of 7·4 per cent and the loss from 1892 is 3·7 per cent. Outside of New York the gain over 1894 is 16·1 per cent. The excess over 1893 reaches 13 per cent, but making comparison with 1892 the decrease is seen to be 3·2 per cent.

Clearings at—	*Week ending July 13.* 1895.	1894.	1895. *P. Cent.*	1893.	1892.

REPORTS OF TRUST COMPANIES IN NEW YORK AND BROOKLYN.

On pages 114 to 116 will be found complete reports of the condition of the trust companies in New York City and Brooklyn on June 30, 1895, as compared with the corresponding dates in 1894 and 1893. The returns for December 31 for three years were given in the Chronicle of February 2, pages 220 to 223.

THE FINANCIAL SITUATION.

Foreign exchange rates have been the conspicuous feature of the last three weeks. There never was an occasion when they ruled so high because never before was the par of exchange so high. A small amount of gold, $250,000, went to London last week; other small lots reaching in the aggregate a somewhat larger sum have been shipped this week; also certain amounts were sent to Canada during the last two weeks or more. Yesterday $1,000,000 were withdrawn by a firm of coffee importers for shipment to London to-day. In some quarters these transactions, put in connection with the trade condition and the high rates for exchange, have been misinterpreted and given undue importance, the claim being made that they indicate a large outflow of gold to be in prospect. The truth is, the shipments referred to are all except the last special matters of no significance whatever and might occur under any conditions of exchange, the Canada affair being a need to fortify the reserves of Montreal banks, a precautionary measure owing to the failure of the Banque du Peuple, while all the amounts sent to London other than the shipment of to-day were, in some manner, not quite apparent, connected with the scarcity and high price of and the urgent demand for English sovereigns; furthermore, no considerable amount of American gold could be marketed now in London at rates which would pay for its export.

Nevertheless it should be understood that we have reached a period of the year when the balance of trade no doubt is for the time being against the United States. This condition is made evident by the monthly Government figures of imports and exports, reenforced by the unusually large demands the country has to meet in July for interest, and also for travelers' credits. The Chronicle readers are aware that our estimate for these latter and other like unrecorded items of current debt is an average of about 11 million dollars a month over and above the official trade result. Of course this invisible debt falls below the average in most months; but at some seasons of the year, especially in June and July, it is materially above it. Consequently, with the trade balance, the large July interest payments, and these travelers' credits against us, a gold movement to Europe would be we might say not only the normal condition but to-day the inevitable condition were there not offsets to be taken into the account. To indicate the average situation we add that in the 16 years beginning with 1879 down to, but of course not including, 1895 there were 10 years in which there was a net gold export in July and only 6 years in which there was a net import.

The foregoing shows clearly enough that the Syndicate is not making the prices for foreign exchange high. Under the circumstances it is more reasonable to inquire why the rates do not further advance, so that gold may be exported at a profit. The answer to this latter suggestion is that a constant movement of securities to Europe is in progress through our banking houses; not a mail arrives we are told that does not bring orders. Besides this movement there are every week announcements of special loans placed in Great Britain and on the Continent; the most conspicuous this week was the Lehigh Coal Company bonds of over $6,000,000, taken by Brown, Shipley & Company—which shows the trend of the capital movement is unchanged, though we do not suppose that this special transaction will furnish exchange to the amount of the loan, the proceeds going in part to pay a previous indebtedness. Still security bills growing out of this European demand are a constant source of supply which, with the bills drawn against future shipments of produce, especially of cotton, are together proving sufficient to keep exchange below the gold shipping point, and will, we are told, continue to keep it there. We would add that no exporter of gold can know whether he has made a profit or a loss on the operation until he has withdrawn his gold from the Sub-Treasury and knows its weight, and then not until he has sold it in London.

While prices of anthracite coal remain extremely low, no improvement in the condition of the trade having occurred in that particular, the policy of restricting the output, judging by the latest returns, appears to be more closely observed than heretofore. The statement for the month of June, issued this week, shows that the shipments from the mines during the month in 1895 were only 3,777,644 tons, against 5,116,844 tons in June 1894, a decrease of over 1¼ million tons. Of course this falling off from last year's product is not conclusive on the point whether restriction is being practiced, for in June 1894 the companies were taking full advantage of the strike in the bituminous region and increased their production a whole million tons, 5¼ million tons having been mined in that month—much the largest amount for any month in the history of the trade. A better indication is furnished by comparing with June of the previous years, and here we find that the 1895 output is 337,988 tons less than in 1893 and even 44,163 tons less than in 1892. Moreover the sales agents at their meeting the latter part of May had fixed on 3,700,000 to 3,800,000 tons as about the proper amount to be mined, and the product at 3,777,644 tons thus comes within the mark. It appears that tidewater stocks increased notwithstanding the smaller production, and at the end of the month were 872,672 tons against only 726,996 tons at the beginning. The stocks are now larger than at the corresponding date of other recent years, as will appear by the following table in our usual form.

Anthracite Coal.	*June.*			*January 1 to June 30.*		
	1895.	1894.	1893.	1895.	1894.	1893.
Stock beginning..	*Tons.*	*Tons.*	*Tons.*	*Tons.*	*Tons.*	*Tons*
of period	726,996	664,180	877,014	780,913	728,878	657,869
Production	3,777,644	5,116,644	4,115,632	20,674,906	19,398,021	21,022,853
Total supply ..	4,504,640	5,781,024	4,992,646	21,455,819	20,126,899	21,680,721
St'k end of period	872,672	745,162	808,854	872,672	745,162	808,854
Disposed of....	3,631,968	5,035,862	4,183,792	20,583,147	19,381,737	20,871,867

A question of interest is as regards the output of the different regions, in view of Reading's demand for a larger percentage of the total. We find that of the decrease of 1,339,200 tons from last year 991,054 tons fell on the Wyoming region, but only 249,928 tons on the Schuylkill region (whence comes the Reading coal)

and only 98,217 tons on the Lehigh region. But this does not indicate the full measure of the change in the relative proportions of the different regions. Comparing with 1893, we see that there is a decrease of 381,336 tons in the output of the Wyoming region and a decrease of 22,269 tons in that of the Lehigh region, but an increase of 65,618 tons in the output of the Schuylkill regions. Stated in another way, the Schuylkill region has 31·67 per cent of the total in 1895 against only 28·27 per cent in June 1894 and but 27·48 per cent in June 1893. The Reading is not the only producer in the Schuylkill region, but it is the principal producer, and these figures show that it must be gaining the point for which it is contending, namely a larger share of the joint product.

Money on call, representing bankers' balances, has been freely offered this week at 1 per cent; the bulk of the business has been done at this figure, though considerable amounts have been placed at 1½ per cent, making an average of about 1¼ per cent. Banks and trust companies quote 1 per cent as the minimum, though new loans are generally at 1½ per cent. The demand for time money is improving and offerings are liberal for short dates, while they are only fair for long periods. Some of the foreign bankers have been loaning at 1½ per cent for sixty days and a few of the trust companies have obtained 3 per cent for ninety days and 3½ per cent for periods extending beyond the new year. Quotations for loans are 2 per cent for thirty to sixty days, 2½ per cent for ninety days and 3 per cent for four to six months. Commercial paper is in better demand, due to the advance in rates by brokers who have been carrying a supply of names which they have until recently held at lower figures, and during the week there have been fairly liberal offerings of new names. Quotations are 3 per cent for sixty to ninety day bills receivable, 3½@4 per cent for four months' commission house and prime four months' single names, 3½@4 per cent for prime six months' and 4½@5 for good four to six months' single names. Re-discounting by New York banks for their correspondents in the West continues good and the demand is improving in the Southwest.

The London market was slightly disturbed on Thursday by the fear of complications arising out of the assassination of M. Stambouloff, ex-Premier of Bulgaria, and the New York grain markets were affected in the afternoon by reports that war in Bulgaria was imminent. The Bank of England minimum rate of discount remains unchanged at 2 per cent. The cable reports discounts of sixty to ninety day bank bills in London 9-16 of 1 per cent. The open market rate at Paris is 1½ per cent and at Berlin and Frankfort it is 1½ per cent. According to our special London cable the Bank of England gained £53,533 bullion during the week and held at the close of the week £37,523,739. Our correspondent further advises us that the gain was due to £17,000 sent to the interior of Great Britain, and to an import of £71,000, of which £63,000 were from Australia and £8,000 were bought.

The foreign exchange market has been very dull and generally steady this week. The demand for remittance has been light and the supply has chiefly come from the Syndicate bankers, there being few security bills. There have been some drafts against cotton futures and a little speculative selling of long bills was noticed during the middle of the week. On Monday the Merchants' Bank of Canada advanced posted rates to 4 90 for long and 4 91 for short, the rates for actual business justifying such a movement. Rates for actual business in sterling were 4 89@4 89¼ for sixty day, 4 90@4 90¼ for sight and 4 90¼@4 90½ for cable transfers. There was no change on the following day and it was then announced that the Merchants' Bank of Canada would ship $100,000 gold to Canada, this being, as was subsequently explained, in anticipation of possible derangements as the result of the failure of the Banque du Peuple at Montreal. On Wednesday the market continued dull and steady, and the only incident was the shipment of the $100,000 gold to Europe by Messrs. Nesslage, Colgate & Co., which was followed on Thursday by $180,000 more by the same house, and yesterday by $150,000 engaged for shipment to-day, which transactions were, as stated by them, strictly in the way of business, and part of these consignments consisted of smelters' bars. Thursday afternoon the Canadian Bank of Commerce withdrew from the Treasury $75,000 gold for shipment to Canada and the mercantile house of W. H. Crossman & Co. gave notice at the Sub-Treasury of the intended withdrawal of between $750,000 and $1,000,000 for shipment to Europe on Saturday, the amount being contingent upon their ability to procure bills instead. The tone of the market was quoted a shade easier at the close of that day. Yesterday it was announced that Messrs. Crossman & Co. would ship $1,000,000 to-day, and the close was steady. The following table shows the daily posted rates of exchange by the leading drawers.

		Fri., July 12	Mon., July 15	Tues., July 16	Wed., July 17.	Thurs., July 18.	Fri., July 19.
Brown Bros	60 days	89½	89½	89½	89½	89½	89½

Merchants' Bk. of Canada	60 days	89½	90	90	90	90	90
	Sight	90½	91	91	91	91	91

The market closed steady on Friday at 4 89½@4 90 for sixty-day and 4 90½@4 91 for sight. Rates for actual business in sterling were 4 89@4 89½ for long; 4 90@4 90½ for short, and 4 90½@4 90½ for cable transfers. Prime commercial bills were 4 88½@4 88¾ and documentary 4 88@4 88½. The Bureau of Statistics at Washington has this week issued the foreign commerce figures for the month of June and the following is a summary in our usual form:

FOREIGN TRADE MOVEMENT OF THE UNITED STATES.
In the following tables three ciphers (000) are in all cases omitted.

	1894-5.			1893-4.

* Excess of imports.

June completes the fiscal year, and the results for that period are analyzed to-day on a subsequent page.

We review the gross and net earnings of United States railroads for the month of May in another article. The statements thus far received for June are quite favorable as a rule. The Baltimore & Ohio (Eastern and Western lines combined) reports for that month $153,970 increase in gross and $96,860 increase in net; the Pittsburg Cincinnati Chicago & St. Louis, one of the properties in the Pennsylvania system, $141,546 increase in gross, $105,568 increase in net, and the San Francisco & North Pacific $3,855 increase in gross and $4,661 increase in net. Two of the smaller Southern roads have also furnished their returns for June, and these both show a decrease; the Nashville Chattanooga & St. Louis reports gross of $342,570 against $350,289, and net of $128,706 against $129,363, and the Georgia Railroad gross of $77,258 against $78,102, and net of $115 against $20,767.

The following statement gives the week's movement of money to and from the interior by the New York banks.

Week Ending July 19, 1895.	Received by N. Y. Banks.	Shipped by N. Y. Banks	Net Interior Movement.
Currency	4,523,000	$2,331,000	Gain. $2,192,000
Gold	522,000	600,000	Loss. 78,000
Total gold and legal tenders	$5,045,000	$2,931,000	Gain. $2,114,000

With the Sub-Treasury operations and gold exports the result is as follows.

Week Ending July 19, 1895.	Into Banks.	Out of Banks.	Net Change in Bank Holdings.
Banks' interior movement, as above	$5,045,000	$2,931,000	Gain. $2,114,000
Sub-Treas. oper. and gold expts	14,300,000	12,280,000	Gain. 2,020,000
Total gold and legal tenders	$19,345,000	$15,211,000	Gain. 4,134,000

The following table indicates the amount of bullion in the principal European banks this week and at the corresponding date last year.

Bank of	July 18, 1895.			July 19, 1894.

THE "INDUSTRIAL" EPISODE.

The dull period which always intervenes after a general recovery in securities has been enlivened this year by a rather remarkable movement in the industrial stocks. An observer who had noticed market quotations of these stocks alone during the last four weeks might very logically suppose that some grave general disaster had occurred. Taking the prices no later than at last week's close, he would discover that Sugar certificates since the early weeks of June had fallen 14½ points; United States Rubber Stock, 9; United States Leather preferred, 13½, and Chicago Gas Trust, 23; and others in smaller ratio.

It would probably astonish such an observer to learn that nothing whatever had happened in the financial outlook to cause such a collapse; that the business of each of these companies, so far as anybody was acquainted with it, had changed in no respect for the worse within the month; that their dividends continued at the previous rate; and, finally, that nearly all other securities on the Stock Exchange had treated the episode with indifference, often advancing slowly while the "industrials" were collapsing. Such an examination would convince a careful student, as it has convinced many others before him, that a different set of rules must be applied in passing judgment on "industrial" fluctuations from what is applied in the standard securities of the market.

It is our purpose in this article to examine the history and present status of the industrial stocks, and see what principles really govern their fluctuations. For advances and declines within a brief period of 10 to 25 points cannot be meaningless, even in so comparatively isolated a group of securities as this. He who dismisses the industrial fluctuations as wholly without significance may presently apply the same rule to the highest grade of market securities.

The first reason for the wide fluctuations in these stocks undoubtedly is that the real value and earning capacity of the companies are not yet determined. All of the industrial companies, properly so-called, are the creations of the movement between 1886 and 1890 to restrict competition in various lines of industry through the amalgamation of separate concerns into national "trusts." Few of these companies, therefore, have yet enjoyed more than five or six years of corporate life. Their finances have been subject to general public inquiry during a still shorter period. The American Sugar Refining Company dates back to 1891; the Cordage Company appeared upon the Stock Exchange in 1891; the American Tobacco Company was organized in 1890; the Distilling & Cattle-Feeding Company in 1893, and the other stocks of the group arose contemporaneously.

Now under the best of circumstances, and with the most prudent management of capital and debt, five or six years is a short period in which to determine a corporation's profit-making capacity. It needed much more

time than this to ascertain the earning power of our best-conducted railway combinations. In the course of years the conditions, opportunities and limitations of railway business as an investment have been so closely studied and analyzed as to become a fairly exact science. Before such results had been obtained railway securities moved with much the same apparently senseless violence as the industrials move to-day. Some railway shares whose conditions are peculiar continue the old-fashioned movement up to the present time. New England stock is one example.

But not only were the trade possibilities pure and simple in these companies a matter of conjecture, but the question of capitalization added extremely to the perplexity. At best the sugar trade, the rope trade, the cigarette trade and the lead trade were problems apart from what the average investor had already mastered. But the problem how far the capital could be expanded and watered, and yet leave the companies a dividend-earning power, was infinitely more complex. This, to be sure, was in itself no novel problem. Railway capital had been watered, railway shares issued as "bonus" to bondholders who built the roads, and railway stock "merged" on an arbitrary basis into other railway stock, years before the industrials were heard of. But the industrials began their capital creation on a colossal scale. The old Sugar Refineries company entered the Stock Exchange with a share capital of $50,000,000; this capital expanded within four years to $75,000,000. The National Lead began with $89,000,000; the American Cotton Oil with $30,000,000; the American Tobacco with $25,000,000. The Leather Company set up in business two years ago, with no less than $105,000,000 stock. Even the Distilling Company, sometimes regarded as a minor enterprise, has $35,000,000 stock outstanding.

It may be seen at a single glance how entirely this state of things alters the problem. Nor was the difficulty lightened by the fact that much of this capital was assigned to rival manufacturers as the purchase-price for their plant. On the contrary, this added to the perplexity. Many of the mills thus purchased were simply and permanently shut down; the new stock being, therefore, merely a lump sum paid to buy off competition, and hence an absolutely non-productive investment for the trust. This was a problem wholly new to modern investors. In railway history precedent was naturally unobtainable. It could not even be assured that the competitors thus bought off would not, on an advance in prices, re-appear elsewhere as independent manufacturers. The Spreckels incident in the Sugar Company's history furnished an actual case in point. Therefore the outlook for indefinitely increasing profits, based on the stifling of competition through new liabilities, was always clouded by the possibility of reviving opposition at a given trade level.

That all this complexity should cause wild fluctuations in the market for the shares was as sure as any market episode could be. To begin with, nearly all the original owners of the shares in these companies were anxious to dispose of part of their burden to the general public. This was especially true of manufacturers whose business the general company had bought out. Their mills, by the nature of the case, brought a larger sum in the new stock at market value than their previously estimated trade value. When, therefore, the price of the new shares moved up in a stock market "boom," an enormous mass of stock was sold by those who were properly called "insiders." Nor were these sales inspired, by any means, through knowledge of bad trade developments. It was merely an application of the old and prudent principle that all one's eggs ought not to be kept in a single basket. Undoubtedly this principle has continued more or less actively at work up to the present time.

Another factor in the market movement developed naturally from this. The sugar, lead, rope, tobacco and leather manufacturers were able not only to watch intelligently the general course of trade, but their business insight showed them plainly how far the great company was maintaining its monopoly. For, as has been pointed out already, it might easily happen that a season of advancing prices for merchandise would be the very season when new and dangerous competition was arising. Of this the general public could know little or nothing. It was easy, therefore, for "insiders" to sell their shares when the public was buying heavily, under a false impression, and to wait, with the absolute certainty that when the truth of trade developed later, the shares would fall to a level where they might be re-purchased at a decided profit. This operation has been the most familiar among recent incidents on the market.

One point alone remains to be discussed. In the railway companies investors have more or less frequent income accounts and balance-sheets, from which they may draw their own intelligent conclusions of the outlook. The majority of important transportation companies publish at least a monthly statement of net earnings; many report their gross receipts each week. The best that investors have yet obtained from the "industrial" companies is an annual balance sheet, accompanied in rare cases with a yearly income statement. Some companies neglect to publish even the balance-sheet, and it must be admitted that even when they do the enormous and uncertain item of "good will" makes exact interpretation all but impossible. We are not concerned here with the right or wrong of this failure of the companies to publish their finances. The managers generally affirm that they would be placed by such publicity either at a disadvantage in their trade or at the mercy of attacks from the legislature. It is enough to state the fact, which has an undoubtedly important bearing upon the movement of the shares.

Our readers may ask after all this, what is our judgment as to the investment future of these properties? The question is not easy to answer. We have described the wholly novel problems with which these enterprises have to cope. The outcome of this competition question will not be the same in every "industrial" concern. No two trades are alike in their conditions of production, and a theory which works out successfully in one may be sure of failure in another. If we may judge by past experience in other shares, the excessively violent movements in these properties on the Stock Exchange will eventually subside. Still, from the nature of things there will always be a number of variable factors inherent in the business of the industrial properties, and whose effect on market values it will be difficult to gauge. Some of the concerns are obliged to carry large stocks of raw materials, and any changes in the price of such materials during the process of manufacture must necessarily always affect very materially the question of ultimate profit and loss. Then the matter of management is exceedingly important, and the possibility of changes in the methods of manufacture making old machinery

obsolete must also be considered. But it is not needful to enlarge on these points. In the end some level will be reached—through the maintenance of unchanged rates of dividends if through nothing else—which will stand as the measure of such a property's normal investment value. That the "industrials" do in the main possess some stable value is unquestioned. We shall be satisfied if we have pointed out to the average investor the peculiar conditions which he must consider in dealing in these properties.

OUR FOREIGN COMMERCE IN THE LATE FISCAL YEAR.

In studying and interpreting the foreign commerce statistics of the United States for the fiscal year ending June 30 1895, issued this week by the Bureau of Statistics at Washington, the fact of importance to remember is that, as in the previous year, there were disturbing conditions which had some effect on the final results. The change in the tariff law and the uncertainty preceding its enactment was one of these disturbing conditions, and the large gold exports and the doubt regarding the maintenance of gold payments which existed up to the time of the making of the contract for the purchase of gold and sale of bonds with the Belmont-Morgan Syndicate was another. Not less important and unsettling than either of these were the low prices ruling for all articles and commodities—the usual concomitant of periods of trade depression and lack of confidence.

As concerns the change in the tariff law, it is difficult to say to what extent this has affected the final result for the twelve months. We know that in the case of sugar, which was transferred from the free to the dutiable list, the imports were extraordinarily large in the period before the law went into effect and dropped to abnormally low figures immediately thereafter—that is, consumptive requirements had been anticipated so as to save the payment of duties, and hence imports of that commodity did not begin again on a normal scale until the lapse of a good many months. A part of the increased importations, pending the enactment of the new law, fell in the preceding fiscal year. A review of the imports of this article by months is very interesting. The imports first became large in March 1894, it being then accepted as a certainty that there would be a duty on the article; 691 million pounds of sugar came in in that month; in April the imports were 477 millions, in May 441 millions, in June 521 millions, in July 766 millions. In August, when the law went into effect, the imports were only 148 millions and in September they dropped to only 65 millions; in October the amount was 114 millions, in November 161 millions, in December 191 millions, in January 1895 189 millions, in February 235 millions, in March 396 millions, in April 377 millions and in May 538 millions; the figures for June have not yet been published.

In those cases where duties were reduced or abolished the operation of course was just the reverse of this. The effect of these changes was particularly noticeable in the monthly movement in and out of the bonded warehouses, but of course imports also were affected during and preceding the period of change. With regard to the goods held in bond, the total August 1 1894 had reached the large total of $51,292,719; by November 1 it had been reduced to $31,689,833; at the latest date (June 1) it was $37,133,752. The law went into operation at midnight on August 27, but the reduction of duties on tin plates did not become effective until October 1, and the reduction of duties on manufactures of wool not until January 1 1895; a few minor provisions likewise did not become operative until the latter date.

Speaking generally, the effect of the revival of business activity which became so marked a feature during the closing months of the year and the removal of the uncertainty regarding the tariff duties has been to bring about a decided recovery in our importations. This is clearly seen in the fact that the value of the imports for 1894 5 is 743 million dollars, against only 654 million dollars for 1893-4, and the increase is the more noteworthy in view of the large falling off which occurred in the item of sugar. We have not the space to go into an analysis of the imports by articles and commodities, and such an analysis would possess less value than usual since the movement in 1893 4, by reason of the panic and the threatening condition of the national finances, had been abnormally low. We may say though that the recovery extends quite generally through the list. Even after the increase from 654 to 743 million dollars, the 1895 imports are small alongside those for the years preceding 1894; for instance, in 1893 the total was 866 millions, in 1892 827 millions, in 1891 844 millions, as will appear by the following, in which we give both the merchandise imports and the merchandise exports, arranged in five-year periods.

VALUE OF IMPORTS AND EXPORTS OF MERCHANDISE FROM 1881 TO 1895 INCLUSIVE.

Average.	892,524,828	787,491,410	Exp. 105,033,418	1,680,016,238

It will be seen from the foregoing that while the merchandise imports thus increased, roughly, 89 million dollars, the merchandise exports on the other hand fell off from 892 million dollars to 808 million dollars. The result has been that the trade balance in our favor was only 64 million dollars in the late year, against 237 million dollars in the year preceding. To this $64,316,570 balance on the merchandise movement must be added $37,707,684 net excess of silver exports over silver imports and $30,984,449 net excess of gold, making a total of $133,008,703 paid by us on our merchandise and gold and silver movement. We need not enter here into the question of how much payment is required of us in settlement of our annual indebtedness to the outside world, as we discussed that subject quite fully only a short time since. Obviously, however, the gold exports would have been very much larger had not the Government through the arrangement with the Syndicate checked the outflow,

and at the same time restored confidence in the ability and determination of the country to maintain gold payments. Up to the time of the Syndicate contract the flow of foreign capital was distinctly away from the United States; during the last two months of the fiscal year, with the revival of confidence, the tendency was reversed and the flow was strongly in this direction.

With reference to the falling off in the merchandise exports, the unfavorable feature there has been the very low prices received for our products. We show in another article that in the case of the wheat movement the shipments have been very satisfactory in quantity—being large in themselves and much larger than had been supposed possible by many, in view of the short crop last season—but that the price dropped to the extraordinarily low figure of 57 cents per bushel, and that as a consequence of this and a falling off in the corn shipments, the aggregate value of the breadstuffs exports of all kinds was for 1895 the smallest of any year since 1875. But cotton furnishes an equally striking instance of a great decline in price, bringing about an enormous reduction in export values. To show just how our exports of cotton in quantity compare with other years, we subjoin the following table, giving the annual figures both in bales and in pounds. In the same table also we show the petroleum shipments, this being another important export commodity.

Year ending June 30.	Cotton Exports.		* Petroleum.
	Bales.	Pounds.	Gallons.

* Includes both crude and refined, but not residuum, the exports of the latter being very small.
† Figures for 1895 subject to slight corrections.

It will be observed that the cotton shipments in the late year increased over 1½ million bales, and reached the enormous and unprecedented total of 6,965,348 bales—that is almost seven million bales. Previously the very largest totals were those of 1891 and 1892, in each of which years the shipments were somewhat above 5,800,000 bales; the 1895 total is over a million bales in excess of the movement in those years. In pounds the increase in 1895 over 1894 was 834 millions, yet the value of the shipments in 1895 is found to have been actually about 6 million dollars less than in 1894, being $204,900,773, against $210,869,289. If we compare with 1891 we find export values 86 million dollars smaller than at that time, though the 1895 shipments were 1,144,569 bales larger than those for 1891. But in 1891 the exporter received an average of about 10 cents per pound, while in 1895 he received an average of less than 6 cents per pound, actually only 5·83 cents.

Petroleum forms a conspicuous exception to the rule of decline. In that commodity, as will be remembered, the falling off in production and exhaustion of some of the wells has caused an advance in prices, and this is reflected in the export movement. For the first time in a good many years the shipments of petroleum show a falling off, though not large in amount, the aggregate for 1895 being 884 million gallons against 908 million gallons in 1894. Owing to the advance in price, however, the value of the shipments in 1895 was $46,617,446 against $41,499,806 in 1894. The following shows the export values of each of the four leading staples—breadstuffs, cotton, provisions and petroleum—for each of the last twenty years.

* Figures for 1895 subject to slight corrections.
† Including both crude and refined, and also residuum.

The four leading staples, it will be seen, account for 65 million of the 84 million decrease in the total merchandise exports in the late year. The rest of the decrease is found in various articles and commodities, chiefly copper, clover, oil cake, hides, cotton manufactures and distilled spirits.

SUGGESTIVE FEATURES OF THE ELECTIONS IN GREAT BRITAIN.

It was a foregone conclusion that the elections in Great Britain would result in a combined Conservative and Unionist victory. It was hardly expected, however, that the Liberals whom Mr. Gladstone, the greatest political leader England has known in many years, has so long influenced by his teaching and example, would be so discredited at the ballot-box as the returns thus far received have shown them to be. We are scarcely permitted to doubt that the results up to date furnish a fair index of what is to follow; and Lord Salisbury and his friends are not without reason counting upon a majority bordering upon one hundred in the new House of Commons.

Not in many years has British politics passed through a similar ordeal, or has either of the great parties experienced similar disaster. Some have found a parallel in 1886, when Mr. Gladstone made his famous appeal to the people after his first defeat in the Com-

mons on the Home Rule question. A parallel has also been found in the situation which existed when he came last into power with a majority which seemed irresistible. More striking points of resemblance might be found, we think, between the situation of to-day and that which was brought about by the repeal of the Corn Laws in 1846. In that year Sir Robert Peel acknowledged his conversion to the doctrines of Cobden and Bright, and the Corn Laws were repealed. The result was that the great Tory Party was rent in twain. It was this rupture which gave birth to the Peelites—a party which, as all the world knows, under the leadership of Mr. Gladstone ultimately amalgamated with and gave its strength to the Liberals. What happened to the Tory party in those earlier days has now befallen the Liberals. The intellectual pith has gone out of the party. Nay, more. It has gone to increase the strength of the Conservatives. It was for a time doubtful whether the Whig magnates who had withdrawn their support from the party with which they were historically associated would ever join the ranks of their old antagonists. The acceptance of office by Devonshire and Landsdowne has settled the question. The influence of these two great territorial families, which represents thousands of votes, and, what is sometimes mightier than votes, wealth, is as far as we can judge permanently lost by the one party and permanently gained by the other.

It would be taking a very limited view of things to conclude that these men are alone. The feeling which has led them away from the ranks of Liberalism is more or less common among the men of their class, and prevails not only among the ranks of the aristocracy, but among property holders, manufacturers, and moneyed people generally. If the Duke of Devonshire and the Marquis of Landsdowne represent one section of the community, Mr. Goschen represents another, and Mr. Chamberlain yet another. The people have risen up against so-called Liberalism. The campaign amounts almost to a crusade; and one particular and peculiar feature of it is that no Peter the Hermit has been needed to arouse the voters. It has been a spontaneous uprising. We hear little of programmes or platforms. As we often see in our general elections, both State and Federal, the people in a great crisis rise above platforms and programmes and political orators. They know what they want; and they know how to assert their rights. It is an Anglo-Saxon characteristic. The voting so far, it is well worthy of noting, is a marvelous manifestation of common sense. The verdict has gone forth against all extremes. Radicalism in various forms had become offensive. It was blatant in speech, arrogant in manner, rude and vulgarly aggressive in action. Keir Hardie, who took pride and pleasure in sitting in workman's clothes in the House of Commons, has been effectually snubbed for his impudence and sent back to his friends and his proper occupation; and John Burns has narrowly escaped a similar fate. For the general good a gulf has revealed itself between Radicalism and the self-styled Labor Party; and Home Rulers, if we are to take them into account in looking at the general situation, have by their own unhappy divisions deprived themselves of the power of being a factor of any consequence in the reconstructed House of Commons.

It is no exaggeration to say that the result of the elections will amount to a revolution—such a revolution as a free people should glory in. It is difficult, however, at this stage to resist the temptation to ask the question, what has been the cause or what have been the causes of this great change? The late Liberal Parliament had barely completed half its term. Spite of the dissenters, Ministers had, as has been said already, a large and powerful majority. It seemed at first as if there was nothing too great for them to undertake and to accomplish. Home Rule, it was thought by many, would soon be an established fact. The Church in Wales was about to share the fate of the Church in Ireland; and the Church in Scotland would soon follow. Session followed session, but while there was sufficient agitation, nothing was done. Mr. Gladstone resumed the work he began in 1886. His last Home Rule bill was as objectionable as his first. The House of Lords would not have it. A Church Disestablishment bill was introduced for Wales; but it failed to please the Welsh people themselves. Meantime all outside questions were neglected. The foreign policy of the Government sank almost beneath contempt. Lord Rosebery comes into power handicapped with the policy of his predecessor, and, sharing his predecessor's feelings, breathes vengeance against the House of Lords. With this state of things at home, Ministers giving their time and attention to questions and schemes to which the great body of the people, the influential classes particularly, were either radically opposed or utterly indifferent, France becomes impertinently aggressive in Africa, the nations blame England for her neglect of Armenia, and Russia, with the aid and approval of Germany and France, robs Japan of her dearly bought but nobly earned victories. It seems as if England has ceased to be, so far as outside nations are concerned. Disgusted with the policy at home, thoroughly sick of Home Rule, and ashamed of the policy abroad, the people have risen in their might and cast off the Liberals and all their belongings.

What will the revolution mean? It will mean, if we are to judge of Lord Salisbury and the men who are with him and of the present state of the public mind, the discontinuance of all domestic legislation the tendency of which is to irritate the public mind. It will mean the enlargement and the extension of the spheres of local self-government. It will mean the carrying out of needed improvements in the Army and Navy, and of the Imperial defences generally. It will mean due and careful attention to the Colonial interests of the Empire. Above all things it will mean revived life and vigor in the Foreign Office. With Lord Salisbury at the helm, the nations may expect to see restored that fine healthful action which brought battalions of Her Majesty's native Indian troops to Malta, and which enabled Beaconsfield to boast that he had brought back from Berlin "Peace with Honor."

OUR BREADSTUFFS EXPORTS.

In a previous article we have reviewed the country's foreign commerce for the late fiscal year. The breadstuffs exports form an interesting study by themselves, and are important enough to merit a separate article.

In general the breadstuffs movement shows results about as expected. Last season's grain crops in the United States were short, exports consequently fell off, and it happened that at the same time the prices received (more particularly for wheat) were very low so that there has been a most striking contraction in the

aggregate value of the shipments. For all this the public was prepared. Nevertheless there are some noteworthy features in the results, and also at least one feature which to those who have not followed the movement during the progress of the year may come in the nature of a surprise. We are referring to the extent of the wheat shipments. With the wheat crop small, it was inevitable that the wheat exports should show a further reduction in 1894-95 after a very considerable reduction in both 1893-94 and 1892 93. But while there has been this further reduction, the total of the exports is yet quite large—much larger than had been supposed likely in view of the very confident predictions made in certain quarters a year ago that the United States (because of the deficiency in yield) would be unable to spare much wheat to the outside world.

To be sure, similar calculations and predictions had prevailed the year preceding, only to be disproved by events, but the statements in 1894 seemed to possess additional plausibility from the fact that it was the second year in succession that the crop had fallen short (the 1893 yield having been estimated even smaller than the 1894 crop), and that it was everywhere admitted that at least the spring-wheat crop had been very greatly cut short by the adverse conditions which had ruled. There was no question that surplus stocks left over from previous crops were large, but notwithstanding that fact some persons argued that our exports for the fiscal year now closed could not exceed 75 to 80 million bushels at the outside. When later, by reason of the great disaster to the corn crop, the price of corn advanced above that of wheat, and farmers began to feed wheat to stock, the opinion that exports must be very small was advanced with still greater confidence.

In spite of all this, the official figures now to hand show that actually almost 145 million bushels were sent out. We make the total 144,714,146 bushels, based on the preliminary statements, and this will be somewhat increased when the final statements are received. In the previous year the exports were 164 million bushels, in 1892-3 192 millions, in 1891-2 as much as 225 million bushels, showing of course a very material falling off in the shipments during the three years. But in gauging the size of the movement these years hardly furnish a fair basis of comparison. They were very exceptional, in fact phenomenal, years, the crop in 1891 having been of extraordinary proportions and the very largest in the country's history—estimated by the Agricultural Bureau at 611 million bushels, and by others a great deal higher. Those years therefore stand by themselves. If we compare with the years preceding 1892 we find that as against 145 million bushels in 1895 the wheat and flour shipments in 1891 were only 106 million bushels; in 1890, 109 million bushels, and in 1889 but 88 million bushels. In the ten years from 1883 to 1891 there were but two years when the total exceeded that for 1895, and in fact in our whole history prior to 1892 it happened but five times that the exports were over 145 million bushels. In the following table we show the wheat and flour shipments (both separately and combined) for each year back to 1874. Taking the 22 years covered by this table, thus including the exceptionally heavy totals of 1892 and 1893, the average exports for the entire period are found to have been only 128 million bushels per year, so that the shipments for 1895 at 145 million bushels are 17 million bushels in excess of that average.

* Figures for 1895 are subject to slight corrections.

It is thus evident that as far as concerns the quantity shipped the showing for the year must be considered entirely satisfactory. But when we come to look at the prices realized the aspect changes. The average price received has been unprecedentedly low, and it is on that account mainly that the result for the year is poor and unsatisfactory. On the year's exports the average price has been only a little over 57 cents (57·6) per bushel. To show how low this figure is it is not necessary to go back fifteen or twenty years to the time when the average was $1 25 per bushel and higher. Even as recently as 1892 the price was above a dollar a bushel, the average in 1891-92 (when our exports of wheat and flour reached the unparalleled total of 225⅝ million bushels) having been $1·026. Hence in the brief space of three years the price has been reduced almost one-half. This refers to wheat in its native state. The reduction in the case of flour has been equally striking. For 1894-5 the average is only a little over 3¼ dollars ($3 38) per barrel, in 1891-2 it was almost five dollars ($4 96) per barrel. In 1874, the initial year in our table above, the average was $7 15 per barrel. As regards the exports of corn, the crop failure and the high prices ruling for the cereal of course made the shipments very small; only 27,677,145 bushels of corn were exported from the United States in 1894-5, against 65,324,841 bushels in 1893-4. The price realized was of course higher, being 52·9 cents per bushel, against 46·2 cents. It will be observed that the average on corn was within five cents of that on wheat—a very remarkable circumstance.

* Figures for 1895 subject to slight corrections

From the foregoing the great change which has occurred the last three years, as the result of the decline in prices and the smaller quantities shipped, is strikingly revealed. The aggregate value of the breadstuffs exports of all kinds is seen to have been only 114 million dollars for 1895, against 166 millions for 1894, 200 millions for 1893 and 299 millions for 1892. We have already referred to the exceptional character of the totals in 1892 and 1893. If we should take the years immediately preceding 1892 the comparisons would be much more favorable to 1895. Thus in 1891 the value of the shipments was only 128 million dollars. Still it is a noteworthy circumstance that the 1895 total is the lowest of any year since 1875—that is, the value of the breadstuffs exports has not been so small before in twenty years.

It remains to say a word about the destination of the wheat exports in the late year. The figures have been furnished as yet for only the eleven months to May 31. For this period the United Kingdom took 50,962,049 bushels of wheat against 48,945,845 bushels in the corresponding period of 1893-4, and 8,315,530 bbls. of flour against 9,273,887 bbls. Germany took 2,478,149 bushels of wheat against 1,599,066 and 239,199 bbls. of flour against 260,939. France, on the other hand, took only 1,596,791 bushels of wheat against 8,669,168 bushels, and the rest of Europe 12,715,362 bushels against 21,953,829. France receives only a trifling amount of flour from us, but to the rest of Europe our shipments were only 979,495 bbls. against 1,482,809 bbls. Hence the falling off has been mainly in the movement to France and Continental Europe and not, as might be supposed, in the movement to Great Britain.

So much has been said recently regarding the large shipments from Russia and other countries that we have taken the trouble to compile figures to show the importations into Great Britain during the same period of eleven months and the countries from which the shipments came. We find that of wheat the imports were 68,049,339 cwt. in 1894-5 against 61,502,762 cwt. in 1893-4, and of flour 17,455,081 cwt. against 18,212,-108 cwt. From the United States the flour imports were only 14,114,260 cwt. against 15,841,789 cwt., and the wheat imports 23,844,721 cwt. against 25,397,516 cwt. From Russia, however, the imports of wheat were 17,340,922 cwt. against 12,775,383 cwt., and from the Argentine Republic 12,051,553 cwt. against 7,819,-334 cwt. India furnished only 5,047,785 cwt. against 6,884,125 cwt.

SIX MONTHS' LISTINGS ON THE NEW YORK STOCK EXCHANGE.

The new figures added this week to our compilation of the listings on the New York Stock Exchange show that during the first six months of 1895 the total amount of bonds listed was $199,157,900, and the total amount of stocks was $98,092,970. This makes the total listings of both stocks and bonds for the half year $297,250,870, as against $233,766,540 for the first half of last year and $327,231,063 for the last half of 1894. The following table shows the total listings during the first six months of each of the last eleven years. The classification is in accordance with principles explained in former articles:

SIX MONTHS' LISTINGS ON NEW YORK STOCK EXCHANGE.

Bonds.	New issues.	Old issues newly listed.	Replacing old securities.	Total.
1895, (6 mos.)	$133,779,000	$14,529,000	$50,849,900	$199,157,900

1886, do	17,548,350	22,251,300	88,726,200	128,525,850
1885, do	9,695,266	2,700,000	35,430,000	47,825,266

NOTE—Applications for the listing of Trust Company receipts and of securities marked "assented" (if preparatory to reorganization), or of securities stamped "assumed" or "assessment paid"—the securities themselves having previously been listed—are not included in this table.

It will be noticed that a large proportion of the listings reported so far this year are new issues. The fact should be borne in mind, however, that $62,315,000 of United States Government bonds are included in the total under this classification. Last year 100 millions of Government bonds were listed, 50 millions being included in our total of new issues for the first six months and 50 millions in the new issues of the last half of the year. After deducting the Government securities the new bond issues listed since the first of January amount to but $71,464,000.

It could hardly have been expected that the listings of new railroad securities would be heavy when we consider the very small amount of new road which has been added of late to the railroad systems of the country. According to the "Railroad Gazette" only 547 miles of new track were laid during the last six months. A somewhat larger figure, 641 miles, is reported by the "Railway Age." During the first half of 1894 the new construction was only about 500 miles, and the total for last year was but 1,919. These figures show a very decided falling off since 1887, when the new trackage added to our railroads was 12,983 miles. In 1888 there were 7,066 miles added; in each of the years 1889 and 1890 about 5½ thousand miles were reported; in 1891 and 1892 only about 4½ thousand miles were reported, and for 1893 the new construction had fallen as low as 2,828 miles.

The listings of refunding issues, *i. e.*, those replacing old securities, show a remarkably small total as compared with amounts classified under that heading in previous years. It will be noticed that the 6 millions of stocks is the smallest amount which we have reported for any corresponding period since our record has been kept in this form. Although a number of reorganizations have been undertaken of late, only a few have reached the stage when the securities are ready for listing.

The total listings for each half-year since the beginning of 1893 are given in the following tables, together

with the amount of new issues and refunding issues included in totals.

LISTINGS FROM JANUARY 1ST TO JUNE 29TH, 1895.

	Total Listings.	New Issues.	Refund. Issues.
Bonds	$199,157,900	$133,779,000	$50,849,900
Stocks	98,092,970	56,176,900	6,780,870
Total stocks and bonds	$297,250,870	$189,955,900	$57,630,770

LISTINGS FROM JULY 1ST TO DECEMBER 29TH, 1894.

	Total Listings.	New Issues.	Refund. Issues.
Bonds	$139,524,100	$79,310,000	$28,689,500
Stocks	187,706,963	29,406,253	153,440,710
Total stocks and bonds	$327,231,063	$108,776,253	$182,130,210

LISTINGS FROM JANUARY 1ST TO JUNE 30TH, 1894.

	Total Listings.	New Issues.	Refund. Issues.
Bonds	$170,280,500	$105,175,000	$64,092,500
Stocks	63,486,040	7,150,000	56,336,040
Total stocks and bonds	$233,766,540	$112,625,000	$120,428,540

LISTINGS FROM JULY 1ST TO DECEMBER 30TH, 1893.

	Total Listings.	New Issues.	Refund. Issues.
Bonds	$132,397,461	$54,566,500	$77,830,900
Stocks	67,945,381	37,178,061	30,767,300
Total stocks and bonds	$200,342,761	$91,744,561	$108,598,200

LISTINGS FROM JANUARY 1ST TO JUNE 30TH, 1893.

	Total Listings.	New Issues.	Refund. Issues.
Bonds	$156,406,000	$84,705,800	$20,522,500
Stocks	130,299,900	56,565,100	24,859,800
Total stocks and bonds	$286,705,900	$141,271,800	$54,382,300

With the more favorable industrial and financial conditions which prevail at present, it is probable that many of the long-postponed plans for rehabilitation will at last be carried through, and it may reasonably be expected that the amount of refunding issues listed during the next six months will be by no means so insignificant.

All the listings of railroad bonds for the last half-year are given below, with a brief statement of the purpose of each issue.

LISTINGS OF RAILROAD BONDS.

Company and title of loan.	Amount.	Purpose of issue.
Baltimore & Ohio consol. 5s	$1,888,000	In ex. for ster. loan bds.
Balt. & Ohio Southwestern—1st consol. 4½s	850,000	Exch. for old secur. and for improvements
Balt. & Ohio So. W. Ter. Co.—1st M guar. 5s	1,200,000	Bonds of '90 just list'd.
Buffalo & susq. 1st mort 5s	195,000	Add. road completed.
Chicago B. & Q. Neb. Ext. 4s	1,019,000	Extension of road.
do do Chi. & Ia. Div. 5s	2,320,000	Sec. by coll. proceeds for improvem'ts, etc.
Chic. & No. West. deben. 5s of 1909.	2,000,000	Improve'm'ts and equip
Chic & No West. Mil. L. S. & W. exten. and imp. 5s	44,000	Extensions.
Clev. Lorain & W. consol. 1st M. 5.	4,300,000	Exc. for bds. of old cos
Clev. & Marietta 1st M. 4½s	1,250,000	Retiring old 6s, float'g. debt, car tr'ts & impts.

Ill. Cen., West. Lines 1st M. 4s	3,550,000	In exch. for Dubuque & Sioux City 5s.
Indiana Ill. & Iowa 1st ext. M. 5s	500,000	Ext. to 9s. Bend. etc.
Int & Gr. Northern 3d M. 4s	119,000	Defaulted 2d M. coup.
Kentucky Central 1st M. 4s	219,000	To retire Cov. & Lex. 5s
Long Island RR. 40 yr. deb 5s	1,500,000	General improvem'ts.
Man. (Elev.) Ry. consol. 4s	2,085,000	Improv. & exten.
do Man. Elev. 4s	8,925,000	For retir. N. Y. El. 7s.
Mex Northern 1st M. 6s	1,476,000	Issue of '90 just listed
Minn. & St. Louis 1st consol. 5s	5,000,000	Past due coup., to acq cer. outstand'g bds. and for expenses.
Missouri Kan. & T. of Tex. 1st M. 5s	50,000	Extension.
Missouri K. & T. 1st M. exten. 5s	330,000	Extensions in Kansas
Mobile & Ohio gen. M. 4s	1,608,000	Funding floating debt.
Montauk Extension RR. 1st M. 5s	300,000	Cost of road.
Nashville Chat. & St. L. 1st con. 5s	192,000	Exten. $140,000; redemptions, $42,000.
N. Y. Central & H. R. RR. g. deb. 4s	3,500,000	Park Ave. (N Y.) and other improvem'ts.
N. Y. Ontario & Western refund. 4s	500,000	Exten. and imp.
Norfolk & Southern 1st M. 5s	50,000	Improvements.
Northern Pacific receivers' ctfs	770,000	Current liabil. & exp.
Northern Pacific coll. tr. 6s of '98.	2,775,000	Funding floating debt.
Northern Pac. Ter. Co. 1st M. 6s	342,000	Terminals and imp.
Oregon & California 1st M. 5s	1,135,000	Additional road.
Rio Grande So. 1st 3-4s (old 5s)	3,416,000	Bonds accepting reduction of interest.
St. L. Alton & T.H. 1st M. & Ter. 5s	2,200,000	Funding floating debt, and improv'ts, etc
St. L. Iron Mt. & So. Ark. Br. 5s	2,500,000	Ext. from June 1, '95.
St. Louis Southern 1st M. consol. 5s	303,000	In exch. for 2d M. inc.
St. L. & Merchants Br. Terminal—1st guar. 5s	3,500,000	Bonds of 1890 just list'd
St. P. M. & M. 1st consol. 4½s of '33	410,000	In exch. for prior bds.
South Carolina & Ga., 1st M. 5s	5,250,000	In exch. for So. Carolina Ry. bonds and for re-organ. purposes.
Terminal RR. Ass. of St. Louis—1st consol. 5s	4,500,000	In place of old 2d mort.
Wabash RR. 1st M. 5s	800,000	In exch. for part of bds. due July 1, 1895.
Western N. Y. & Pa. 1st M. 5s	277,000	Equipment notes, etc.
do gen. M. 2-3 4s of 1943.	10,000,000	In exchange for old secur. under reorg. plan.
do non-cum income 5s	10,000,000	
Wheeling & Lake Erie, consol 4s	500,000	Imp. and equip.
do exten. and imp. 5s	30,000	In exch for Tol. Belt 5s.
Wilkesbarre & Eastern 1st M. 5s	3,000,000	Bds. of 1892 just list'd.
Total RR. bonds 6 months	$97,935,000	

Of the $11,010,000 of Manhattan Elevated 4s listed, about $2,085,000 were sold for improvements, and the remainder, $8,925,000, listed in June, were issued to retire New York Elevated 7s due January 1 1906 but redeemable on January 1 1896 at 105 per cent. The Cleveland Lorain & Wheeling consol. 5s for $4,300,000, listed in January, are part of an issue of $5,000,000, and were "used in effecting the consolidation and in the redemption of all outstanding liens of the consolidating companies, as provided in the mortgage." The balance of $700,000 is reserved for the retirement of an equal amount of Cleveland Tuscarawas Valley & Wheeling 7s. The $20,000,000 of bonds listed by the Western New York & Pennsylvania were issued in exchange for old securities under the reorganization plan which was reviewed in our "INVESTORS' SUPPLEMENT" of last January.

The total listings of miscellaneous bonds, including Government securities, was $84,022,900, as follows:

LISTINGS OF MISCELLANEOUS BONDS.

Company and title of loan.	Amount.	Purpose of issue.
B'klyn Wharf & Ware'se 1st M. 5s	$16,000,000	Acq. water front, etc.
Edison Elec Ill. of B'klyn 1st M. 5s	350,000	Part of pur. Citiz. Elec. Ill. Co. & improv.
Edison Elec Ill. of N. Y.—1st consol 5s	1,697,000	Pur. of Man. & Har cos
Equit. Gas L. of N Y. 1st consols 5s	300,000	Extension of plant
Interior Conduit & Insulat'n deb. 5s	500,000	Retiring $250,000 of stock and for general purposes
N. Y. & N. J. Teleph Co gen. M. 5s	350,000	Retiring prior liens.
People's Gas L. & Coke of Chgo.—1st consol 6s	1,950,000	Improvements.
U. S. Cordage 1st M & coll. tr. 6s	249,000	In exch. for old secur.
Louisiana, State of, new consols	111,900	Refunding.
U. S. of America 4s of 1925	62,315,000	Replenishing of gold reserve.
Total Miscellaneous State and U. S. bonds, 6 months	$84,022,900	

In May the Brooklyn Wharf & Warehouse Co. listed $16,000,000 first mortgage 5 per cent bonds and $7,500,000 of stock, issued for the acquirement of the Brooklyn water front from above the Brooklyn Bridge to the Erie Basin; being total frontage of 14,569 feet.

The street railway bonds include $8,000,000 belonging to the Metropolitan Traction system of New York. The Twin City Rapid Transit Co. has listed during this year stocks and bonds to the amount of $23,813,200.

LISTINGS OF STREET RAILWAY BONDS.

Company and title of loan—	Amount.	Purpose of issue.
Colum. & 9th ave. (N. Y.) 1st M. 5s	$3,000,000	Repres'g cost of road.
Lex. Ave. & Pavonia Ferry (N. Y.)—1st M. 5s	5,000,000	Repres'g cost of road.
Twin City Rapid Transit—Minneapolis St. Ry. 1st consol. 5s	4,050,000	Bonds of '89 just listed.
St. Paul City Ry. cable consol. 5s	2,480,000	Bonds of '87 just listed.
do guaranteed 5s	1,138,000	
Seaside & Brooklyn Bridge El.—1st M. 5s	1,365,000	Bonds of '92 just listed.
Denver Consol. Tramway—1st consol. 5s	145,000	In exch. for prior liens.
Total street ry. bonds, 6 mos.	$17,178,000	

The various stock issues added to the Stock Exchange list in the past six months are described below under the general heads of Railroad Stocks, Miscellaneous and Street Railway.

LISTINGS OF RAILROAD STOCKS.

PHYSICAL CONDITION OF RAILROADS.

Our readers will be interested in the following letter received by us from Mr. Joseph O. Osgood, Consulting Engineer, regarding the life of rails and the effect thereon of heavy locomotives. His figures show clearly that we were well within conservative limits in our estimate last week as to the number of tons of rails that should be renewed yearly per mile of road.

New York, July 13, 1895.

Editor of the Commercial and Financial Chronicle:

Dear Sir—As indicated by my letter to the William B. Dana Company of March 11th last, I appreciate your excellent series of articles on the physical condition of railroads.

The subject is a very important one, and there is at present too little information at hand in regard to it. Referring to the life of rails, I have for some years past assumed, as the result of observation and inquiry, that on roads of moderate traffic about five tons per mile of main track, or of road, were required annually for average renewals.

Last spring, in compiling some figures on this general subject, I made some calculations from data in "Poor's Manual" for various years and from the "Mineral Industry" for 1892 to determine in a broad way the annual consumption for the United States per mile of track and road.

After reading your article in to-day's issue it occurs to me that the figures may interest you, and I give them below:

RAIL RENEWALS IN THE U. S.

	Tons.
Consumption of rails 1849-1892 inclusive (44 years)	35,196,619
Length of main track and sidings in 1892	221,629 mls.
" " " 1848	
5,996 mls. reported, plus 15 p.c. for sid'gs	6,895 "
Total additions to mileage	214,734 "
Assuming an average of 100 tons per mile	21,478,400
Leaving for renewals	13,723,219

The average mileage for the 44 years was 69,912 miles of main line. Adding 25 per cent for sidings gives total of 87,390 miles. $\frac{13,723,219}{87,390}$ = 157 tons per mile for renewals. If we neglect the depreciation existing in 1848 and assume that the rails as a whole in 1892 had lost one-fourth of their life by use, $\frac{21,478,400}{4}$ tons must be added to the allowance for renewals. This equals 5,368,350 tons, and divided by 87,390 equals 61·4 tons per mile.

$\frac{157 + 61{\cdot}4}{44}$ = 4·96 tons per year per mile of all tracks. Assuming that the sidings and second tracks are 25 per cent of the length of main line, 6·2 tons per mile of road per year would be required for renewals.

The assumptions made above are made on a basis which would indicate that the average renewals would be more likely to exceed than to fall below the figures arrived at; but I am inclined to think that these last are not far from the truth.

Owing to greatly increased tonnage, and especially to the enormous increase in the weight on engine driving wheels, the wear of rails per mile of road has of late years been rapidly increasing. Harder steel will doubtless check this to some extent, and the importance of the item of rail renewals is growing less with the fall in prices; but the item will always be an important one.

Ties as well as rails are somewhat affected by the intensity of traffic, but not to nearly the same extent, although usually classed as independent of such conditions.

On roads of light traffic and earnings they are allowed to remain in the track much longer than on roads of large traffic, where a good track is more important. The result is that, while maintaining ordinary conditions of road-bed, the road of small traffic spends less money per mile for this than the other.

Yours truly,

Jos. O. Osgood.

RAILROAD NET EARNINGS FOR MAY.

As the returns last year grew worse each month, so this year they are growing better every month. In May, particularly, the results in 1894 had been very poor. In fact, in reviewing the statement at that time we remarked that it was the most unfavorable that we had been obliged to chronicle, and that there was scarcely a redeeming feature in it, the showing being almost uniformly bad.

The poor exhibit last year followed as the result of a remarkable combination of unfavorable circumstances and conditions. Trade depression, large gold exports and tariff uncertainties had been disturbing factors for a long time. To these were added in May 1894 the great strike of the bituminous coal miners, stopping the shipments of coal, paralyzing the iron trade, and by cutting off the supply of fuel compelling manufacturing establishments in various parts of the country to close up. Then railroad rates were badly demoralized in both the West and South, and there were extensive floods both in the East (that is in Pennsylvania and adjoining States) and on the North Pacific Coast.

The effect of these conditions was reflected in a loss in gross and net alike by every leading group outside of the Mexican, and by an aggregate loss of $11,935,834 or 19·51 per cent in gross and of $6,253,373 or 33·79 per cent in the net. It is natural that the recovery the present year, though falling far short of the previous year's loss, should yet be somewhat proportioned to it. Hence it is not surprising to find that in amount and ratio of gain the exhibit is the best we have yet had in the present upward movement. In the gross the increase is $3,476,874 or 6·95 per cent, in net $2,809,965 or 21·79 per cent. How much better

this is than in the months preceding appears from the fact that for the five months to May 31 the gain is only $8,222,657 or 3·37 per cent in gross and only $6,064,089 or 9·37 per cent in net.

	May. (132 roads.)			January 1 to May 31. (127 roads.)		
	1895.	1894.	Increase.	1895.	1894.	Increase.
	$	$	$	$	$	$
Gross earn's	53,931,262	50,054,588	3,876,674	252,130,752	243,908,095	8,222,657
Oper. exp...	37,230,592	37,103,673	606,980	181,345,172	179,186,664	2,158,508
Net earn's	16,700,689	12,950,715	2,869,965	70,785,580	64,721,491	6,064,089

General conditions the present year were of course much better than they were last year. There were no gold exports, the Treasury condition was much stronger, and business kept steadily reviving and expanding. The Western country, however, still suffered from the effects of last season's crop shortage. In the following we compare the results for May and the five months for a series of years.

Year and number of roads.	Gross Earnings. Year Given.	Year Preceding.	Increase or Decrease.	Net Earnings. Year Given.	Year Preceding.	Increase or Decrease.
May.	$	$	$	$	$	$

1893 (121)	[illegible]	[illegible]	[illegible]	82,[illegible]2,[illegible]	62,[illegible]3,[illegible]	+19,[illegible]9,[illegible]
1892 (114)	[illegible]	[illegible]	[illegible]	82,[illegible]1,[illegible]	82,[illegible]1,[illegible]	−[illegible]2,[illegible]
1891 (111)	[illegible]	[illegible]	[illegible]	63,[illegible]8,[illegible]	70,[illegible]3,[illegible]	−17,[illegible]3,[illegible]
1890 (127)	243,130,752	243,[illegible]5,[illegible]	+8,[illegible]2,[illegible]	70,[illegible]5,[illegible]	64,721,491	+6,[illegible]4,[illegible]

It is almost needless to say that we have some very large amounts of gain, though not equal to last year's losses. The Pennsylvania naturally leads, having $1,409,765 increase (Eastern and Western lines combined) in gross and $662,397 increase in net. Last year the road lost $2,904,188 in gross and $1,685,595 in net. Other large gains in gross are $262,011 by the Chesapeake & Ohio, $223,962 by the Illinois Central, $289,684 by the Baltimore & Ohio, and $195,734 by the Erie, &c., &c. In the net we have $287,124 increase by the Union Pacific, $203,771 by the Illinois Central, $178,396 by the Reading, $150,256 by the Atchison, &c. In the following we show all gains down to $30,000 in amount and also all losses down to the same amount. The latter are not very numerous, comprising in the net only the Southern Pacific and the Central of Georgia. In the gross the list of losses is somewhat more extensive, embracing 9 systems altogether, but these are either anthracite coal roads, which have suffered from the poor condition of the anthracite trade, grain-carrying roads which are still suffering from last year's poor crops, or Southern roads which have had their traffic reduced by the failure of the orange crop in Florida

‡ We include these Western lines in our table by taking an estimate for 1894 on which to base the *increase* or *decrease* reported for this year.

† For month only.

The ratio of improvement in net in the different groups varies from 10·48 per cent in the Northwestern group to 68·13 per cent in the Eastern and Middle group. In the trunk-line group there is only one road which shows a decrease in gross, and only one which has a decrease in net. In the anthracite group 3 roads out of 7 have decreases in gross and 4 decreases in net; in the Eastern and Middle group only 2 roads out of 15 have decreases in gross, but 6 decreases in net. In the Middle Western section

3 out of 26 have lost in gross, 10 in net; in the Northwestern section 4 out of 7 fall behind in gross and 2 in net; in the Southwestern 3 out of 15 have suffered decreases in gross, 5 in net; in the Southern group 8 out of 29 have sustained a contraction in gross, 11 a loss in net. In the Pacific group 10 out of 17 have decreases in gross, 8 decreases in net.

IMPORTS, EXPORTS AND IMMIGRATION FOR JUNE.

The Bureau of Statistics has issued a detailed statement of the foreign commerce and immigration of the country for the month of June, 1895 and 1894, and for the twelve months ending June 30, in 1894-95 and 1893-94, as follows:

MERCHANDISE.

	June.	*12 mos. end June 30.*
1894-95.—Exports—Domestic	$53,878,512	$793,553,018

a. Gold and silver.

IMPORTS AND EXPORTS OF GOLD AND SILVER AT SAN FRANCISCO.

The Collector of Customs at San Francisco has furnished us this week the details of imports and exports of gold and silver through that port for the month of June, and they are presented below, together with the figures for the preceding months, thus completing the results for the fiscal year 1894-95. The imports of gold were heavier than in any month since October, 1893, the amount received reaching $601,091, of which $488,984 was in coin; and of silver there came in only $107,824, of which $74,830 was bullion. There has been received during the twelve months a total of $1,873,467 gold and $2,047,171 silver, which compares with $2,693,636 gold and $2,127,060 silver in 1893-94. The shipments of gold during June reached $56,064, all coin, and the exports of silver have been $311,133 coin and $491,400 bullion. For the twelve months the exports of gold have been $708,293, against $1,202,443 in 1893-94, and $13,314,012 silver has been sent out, against $13,142,267 in 1893-94. The exhibit for June and the twelve months is as follows:

Monetary and Commercial English News

[From our own correspondent.]

LONDON, SATURDAY, July 6, 1895.

Money, if anything, is rather easier than last week, and it will probably be easier still in a few days. This is leading to an improvement in trade and is stimulating speculation in every direction.

On Wednesday a Chinese Imperial Customs loan bearing 6 per cent interest and amounting to a million sterling was offered for subscription here, the minimum price being 106. The loan was arranged for during the war for the purpose of paying for ships and guns, and preparations were made three or four months ago to bring it out, it was understood at the time, at the price of 95. A hitch occurred, however, and the issue was delayed till now. It has been a very great success, having been covered in the course of a very few minutes after the opening, and the scrip has been dealt in on the Stock Exchange at from 3 to 3½ premium.

After very protracted negotiations, which several times threatened to break down altogether, the Russian and French governments have succeeded in concluding the arrangement for the long-talked-of Russo-Chinese loan. The Chinese Government, however, has refused to accept a Russian guarantee, and in the contract signed at Pekin there is no mention of such a guarantee. The loan is secured on the Customs revenue, ranking immediately after existing charges. The French bankers, though, are given a guarantee by Russia, so that French investors have not only the security of the Chinese Customs revenue but the guarantee of the Russian Government also. How the Russian guarantee is to be paid for is not known. As China has repudiated the guarantee, people are asking whether she gives anything for Russia's help. On the other hand, it is thought incredible that Russia would guarantee 16 millions sterling to China unless she got a full equivalent of some kind.

The long uncertainty about the loan has naturally depressed the silver market. The price fluctuated during the week around 30½d. per ounce. But holders of silver are very confident that when the loan is placed by and by it will lead to large purchases of the metal. In the meantime there is very little demand for silver, either for China or India. Still, the India Council is selling its drafts fairly well. It disposed of the whole 60 lakhs offered on Wednesday at 1s. 1 7-32d. per rupee, which is somewhat better than the rice obtained a week ago.

There is a very much better feeling here in commercial circles; especially the woolen manufacturing industry is active. The buying for the United States is very large, and there is a good demand likewise for the Continent and for the Colonies. On Tuesday a series of Colonial wool sales began and there has been a rise compared with the last auctions of from 5 to 7½ per cent in merino wool and of from 10 to 15 per cent in cross-bred wools, the coarser descriptions being particularly in demand. It will be recollected that there was some rise at the last sales, and it is hoped, therefore, that the turn has come and that now there will be a steady advance. Still, the price of wool is lower than it was in November, but it is decidedly higher than at the beginning of the year. If the expectation is fulfilled the benefit to the Australasian Colonies and to Argentina will be very great, a rise of a penny in the lb. being estimated to increase the receipts of the Australasian Colonies by about 3 millions sterling. Unfortunately the condition of the reconstructed Australasian banks, mortgage and finance companies is checking business in the Colonies. The negotiations for reducing the interest upon the deposits are going on satisfactorily. In two or three cases the proposals have been accepted both here and in the Colonies. In other instances committees have been appointed to inquire into all the circumstances.

With the exception of the South African department, business has been rather slack upon the Stock Exchange this week. There continues to be a fair investment in good American bonds, but the general public is holding aloof from the share market and even professional operators are doubtful, their operations being checked by the high sterling exchange. The general public is disquieted by the apprehension of gold shipments from New York. The silver agitation is being watched here with great keenness. As far as can be judged at this distance the Silver Party seems to be losing ground. If that turns out to be the case there will, no doubt, be a very considerable increase in the demand for American securities. But while uncertainty continues a very large business is hardly to be expected. Everything in the market here turns upon the currency question.

International markets are fairly well supported by Paris and Berlin, but there is little doing here except in Argentine, Brazilian and Chilian stocks. In Argentina the signs are accumulating of a marked improvement. The railway traffic returns are increasing week by week, and all the reports received here state that the political outlook is also good. In Brazil a cessation of hostilities between the Central Government and the insurgents in the province of Rio Grande do Sul has been arranged, and strong hopes are entertained that a pacific settlement will be arrived at.

The rise in consols continues. They have reached this week 107¼, and it is freely predicted in the market that they will go to 110. Indian sterling 3 per cents are at the same quotation. Colonial stocks generally have advanced, and there has been a marked rise in British municipal stocks and in gas and water stocks, especially in the latter, the Committee of the House of Commons, which was inquiring into the bill for permitting the purchase of the water companies by the London Common Council, having dissolved without framing any report.

Almost the whole interest in the Stock Exchange has been centred during the week upon the South African market, where there has been an extraordinary rise. The buying is most extensive, chiefly British, though there is a very good demand from the Continent, especially from France. In some cases the rise of prices this week has been extraordinary. In a single day the nominal £1 share of one company rose from 1⅛ to 9⅛, so that it is now at a premium of 850 per cent. No doubt capital is small and the property very rich and extensive; but the advance shows how wild the buying has now become. After a while speculation must extend, and it would go most heartily into the American department if only the public were satisfied that sound money would be maintained.

The bank dividends for the first half of the year are now being announced. As was generally expected, they show in almost every case a reduction upon those declared twelve months ago. The London & Westminster, for example, pays 10 per cent against 11 per cent last year, and the Union 9 per cent against 10.

The following return shows the position of the Bank of England, the Bank rate of discount, the price of consols, &c., compared with the last three years:

	1895. July 3.	1894. July 4	1893. July 5.	1892. July 6.
	£	£	£	£
Circulation	26,303,820	26,400,850	27,481,955	27,219,475
Public deposits	9,708,498	10,912,163	5,881,235	5,553,218
Other deposits	37,881,242	34,938,104	36,944 332	34,752,388

Commercial and Miscellaneous News

IMPORTS AND EXPORTS FOR THE WEEK.—The following are the imports at New York for the week ending for dry goods July 11 and for the week ending for general merchandise July 12; also totals since the beginning of the first week in January.

FOREIGN IMPORTS AT NEW YORK.

For Week.	1892.	1893.	1894.	1895.
Dry Goods	$2,279,798	$2,372,945	$1,486,921	$2,944,744
Gen'l mer'dise.	8,023,348	5,861,635	7,308,611	9,968,367
Total.	$10,303,136	$8,234,580	$8,795,532	$12,913,111
Since Jan. 1.				
Dry Goods	$66,185,190	$78,712,451	$44,261,065	$79,441,771
Gen'l mer'dise.	242,027,521	270,987,100	187,297,511	201,217,535
Total 28 weeks	$308,212,701	$349,699,551	$231,558,576	$280,659,306

The imports of dry goods for one week later will be found in our report of the dry goods trade.

The following is a statement of the exports (exclusive of specie) from the port of New York to foreign ports for the week ending July 16 and from January 1 to date:

EXPORTS FROM NEW YORK FOR THE WEEK.

	1892.	1893.	1894.	1895.
For the week..	$6,123,627	$8,234,338	$6,298,365	$6,540,634
Prev. reported.	212,282,214	184,948,846	193,780,961	178,085,121
Total 28 weeks.	$218,405,841	$193,183,184	$200,079,326	$184,625,755

The following table shows the exports and imports of specie at the port of New York for the week ending July 13 and since January 1, 1895, and for the corresponding periods in 1894 and 1893:

EXPORTS AND IMPORTS OF SPECIE AT NEW YORK.

Gold.	Exports. Week.	Exports. Since Jan. 1.	Imports. Week.	Imports. Since Jan. 1.
Great Britain	$250,000	$8,349,768	$	$14,780,139
France		12,032,300		4,603,988
Germany	5,000	5,780,086		1,527,191
West Indies	4,100	7,513,146	9,942	293,569
Mexico				33,021
South America		902,354	4,808	226,484
All other countries		261,488	986	61,796
Total 1895	$259,100	$34,839,642	$15,736	$21,526,188
Total 1894	650,169	70,447,843	77,076	10,742,291
Total 1893	2,000	68,676,475	968,415	8,067,403

Silver.	Exports. Week.	Exports. Since Jan. 1.	Imports. Week.	Imports. Since Jan. 1.
Great Britain	$768,300	$18,032,528		$49,246
France				3,364
Germany		13,485	$1,351	5,160
West Indies		122,406	13,438	188,159
Mexico		349	6,695	312,574

—The semi-annual report of the Union Discount Company, of London, for the half-year ending June 30 is published as usual in our advertising columns. The gross profits for the half-year after making provision for bad and doubtful debts were $462,352. A dividend at the rate of 9 per cent per annum was paid. The paid-up capital is $3,185,000 and the reserve fund $1,029,000. The Union Discount Company have a standing card on the second page of the CHRONICLE in which they keep revised by cable the rates they allow for money.

—The Reorganization Committee of the Milwaukee Street Railway Company announces that about 90 per cent of the bonds and stocks having been deposited with the Central Trust Company of New York, the plan of reorganization has been declared effective, and further deposit of securities thereunder will be received only on payment of $10 for each bond and $1 for each share.

—The Bondholders' Committee of the Omaha Water Works Company gives notice to holders of 53 bonds of the American Water Works Company which have not deposited their bonds with the Farmers' Loan & Trust Company under the agreement of August 16, 1893, that the time for the deposit of such bonds is limited to August 10, 1895, after which no more bonds will be received.

—Messrs. Joralmon & Co., Denver, Col., are prepared to appraise and report upon investments, either defaulted or otherwise, made in Colorado. They will take charge of property for non-residents and act for them in any way that may be desired. The card of Messrs. Joralmon & Co. will be found on the front page of the CHRONICLE.

—Reports of the condition on July 11 of the following-named national banks will be found in our advertising columns: Mercantile, City, American Exchange, Continental and Gallatin.

—The new loan of the city of Waterbury, Conn—fifteen-year 4 per cent water bonds—is offered for sale by Messrs. W. J. Hayes & Sons, Boston.

WALL STREET, FRIDAY, JULY 19, 1895.—5 P. M.

The Money Market and Financial Situation.—Business at the Stock Exchange has been restricted during the week awaiting developments in regard to the crop situation, the coal business and the foreign exchange market.

While most of the industrial stocks have suffered from persistent bear pressure, investment securities, both bonds and stocks, have been in request and prices are generally well sustained.

Reports from the rapidly maturing crops are mostly of a favorable character, especially those relating to corn and spring wheat.

Some small shipments of gold have been made, but the aggregate thus far is not large and the movement is of no importance.

We are informed by leading bankers that there is some inquiry from the West and South for loans. The increasing activity in those sections is rapidly absorbing the surplus in local banks, and the demand for crop moving purposes will soon be felt at this centre. Anticipating this there is already a tendency to hardening of rates.

The open market rates for call loans during the week on stock and bond collaterals have ranged from 1 @ 1½ per cent. To-day's rates on call were 1 to 1½ per cent. Prime commercial paper is quoted at 3 to 4 per cent.

The Bank of England weekly statement on Thursday showed an increase in bullion of £53,532, and the percentage of reserve to liabilities was 58 42 against 59·66, last week; the discount rate remains unchanged at 2 per cent. The Bank of France shows an increase of 7,917,500 francs in gold and 672,000 francs in silver.

The New York City Clearing-House banks in their statement of July 13 showed a decrease in the reserve held of $1,231,600 and a surplus over the required reserve of $33,405,300 against $32,173,700 the previous week.

Foreign Exchange.—The demand for foreign exchange has been limited, and rates and conditions are unchanged.

To-day actual rates of exchange were as follows: Bankers' sixty days sterling, 4 89@4 89½; demand, 4 90@4 90¼; cables, 4 90¼@4 90⅝.

Posted rates of leading bankers are as follows:

July 19.	Sixty Days.	Demand.
Prime bankers' sterling bills on London	4 89½@4 90	4 90½@4 91
Prime commercial	4 88½@4 88⅝	
Documentary commercial	4 88 @4 88¼	
Paris bankers' (francs)	5 18¾@5 18⅛	5 14⅝@5 14⅜
Amsterdam (guilders) bankers	40⅝@40⅜	40⅞@40⅝
Frankfort or Bremen (reichsmarks) b'kers	95⅜@95⅝	95⅝@96

The following were the rates of domestic exchange on New York at the under-mentioned cities to-day: Savannah, buying par, selling ⅛@1-10 premium; Charleston, buying par, selling ⅛ premium; New Orleans, bank, $1 50 premium, commercial 50c. premium; Chicago, 10c. per $1,000 premium; St. Louis, 60@75c. per $1,000 premium.

United States Bonds.—Sales of Government bonds at the Board include $20,000 5s, coup., at 116¾; $11,500 4s, coup., 1907, at 112¾; $15,000 4s, registered, 1907, at 112¼ to 112⅜. Closing prices were as follows:

State and Railroad Bonds.—The sales of State bonds at the Board include $12,000 Virginia fund. debt 2-3s of 1991 at 61¾ to 62, $30,000 Tenn. settlement 3s at 90¼ to 91¼; $7,000 Alabama Class A at 109. $10,000 So. Carolina 6s, non. fund., at 1¼, and $900 N. Carolina 4s, small, at 101.

The railroad bond market has been strong under the influence of some investment demand. There have been liberal offerings of Col. & 9th Ave. and Lex. Ave. & P. F. bonds, which have each advanced about one point under the movement. Ches. & Ohio issues are fractionally higher on limited sales. Ore. Short Line 6s have advanced about 2 points on reports of earnings in excess of the fixed charges and other conditions favorable to the bonds. Some of the Reading issues are fractionally higher than last week. Some Southwestern bonds have declined in sympathy with the stocks, including Mo. Kans. & Tex. issues, Tex. & Pacs. and St. Louis Southwest. 1sts and 2ds. Southern Ry. 5s have been relatively dull and heavy. Sav. & Western 1st rects. have not held the advance noted last week and declined to 62. There has been a noticeable movement of No. Pac. con. 5s to-day, and they have advanced over a point to 42.

Railroad and Miscellaneous Stocks.—The stock market has been very largely in the hands of professionals during the week and interest has centered in the industrial list, with the result that prices are generally lower.

American Sugar has fluctuated between 106 and 111, closing to-day at 110¾. Under various rumors about a receiver, etc., Chicago Gas sold on Tuesday at 49⅞, the lowest point it has touched since August, 1893; and it is interesting to recall that this stock sold at 63¾ since July 1 and at 78¼ within the current year. U. S. Leather pfd. has been active but weak, under the prospect of an additional issue of $4,000,000 of common and $4,000,000 of preferred stock, and declined to 81¼ on Tuesday. It closes to-day at 81½ (ex. div.) Am. Tobacco sold on Wednesday nearly 5 points lower than the close last week, a part of which it has recovered. Distilling and General Electric have been relatively steady and firm. Tenn. Coal & Iron sold at 32½ on Tuesday, a loss of over 5 points since our last quotations, closing to-day at 35¾. U. S. Rubber has been firm on limited sales and is one of the few industrials which close higher to-day than they did last week.

The railroad list has been exceptionally dull but firm, and changes are generally unimportant. The grangers have ruled strong under the continued favorable crop reports, and with no change in the coal situation the coal stocks have been without feature of interest. The Vanderbilt stocks have been strong on some investment buying, and L. Shore has advanced nearly 3 points. In the absence of a stimulating foreign demand Southern Ry. pfd. has been weak, selling at 41¼ on Wednesday and closing at 41¾, against 43 last week. Some of the Southwestern shares are also fractionally lower.

NEW YORK STOCK EXCHANGE—*ACTIVE STOCKS for week ending JULY 19, and since JAN. 1, 1895.*

HIGHEST AND LOWEST PRICES.

Investment AND Railroad Intelligence.

RAILROAD EARNINGS.

The following table shows the gross earnings of United States railroads (and also a few Mexican and Canadian roads) for the latest period reported. The statement includes every road from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the calendar year from January 1 to and including such latest week or month.

ROADS.	Latest Earnings Reported.			Jan. 1 to Latest Date	
	Week or Mo	1895.	1894.	1895.	1894.

Net Earnings Monthly to Latest Dates.—The following shows the gross and net earnings to latest dates of all railroads furnishing monthly statements. The compilation includes every road from which we can get returns of this character, and in that form is given once a month. Early returns are published from week to week, as soon as issued, but for the convenience of our readers all the roads making returns are brought together here in the week in which we publish our monthly article on net earnings—say on or about the 20th of the month. We also add the street railways at the end.

a Net earnings here given are after deducting taxes.
b Net earnings here given are before deducting taxes.
c Expenses for May, 1895, include $12,496 for account of new rails, and for March, April and May combined $155,839 for the same purpose.
d $12,428 on account of steel rails is included in expenses for May, 1894.
e After deducting other expenditures for repairs, replacements and general expenses, net income applicable to interest on bonds in May was $93,122, against $84,950 last year, and for five months to May 31 $418,650, against $376,823; after adding earnings received from Federal Government net from January 1 to May 31, 1895, was $418,650, against $454,491. This is the result in Mexican dollars treated (according to the company's method of keeping its accounts) as equivalent to 80 cents in United States money—that is, all depreciation beyond 20 per cent has already been allowed for.
f Results of coal mining operations only.
g Including other income, the net for June, 1895, was $30,115, against $20,767 for 1894, and from January 1 to June 30, $126,041, against $218,462, and from July 1 to June 30, $413,026, against $589,953.
* After deducting proportion due roads operated on a percentage basis and results of operations of auxiliary companies, net in May, 1895, was $403,592, against $404,519 in 1894; for five months ended May 31 $1,300,941, against $1,055,643, and for eight months from October 1 to May 31, $2,555,257, against $2,861,137.
† Includes only one-half of lines in which Union Pacific has a part interest. Figures are given exclusive of results on Oregon Railway & Navigation, Union Pacific Denver & Gulf, Fort Worth & Denver City, Leavenworth Topeka & Southwestern and Montana Union.
‖ Including income from ferries, &c.

ANNUAL REPORTS.

Wisconsin Central Company.

(Report for the year ending June 30, 1894.)

The Auditor's report contains the following consolidated statements relating to the business of the Wisconsin Central Company and the Wisconsin Central Railroad Company for the fiscal year ended June 30, 1894. They show the financial condition of the property which is represented by the bonds and stocks of the Wisconsin Central Company, and are a consolidation of the operations by the Northern Pacific Railroad Company, lessee, under the lease, from July 1 to August 15, and by Messrs. Oakes, Payne and Rouse, receivers of that company, to September 27, 1893, and the operations under Messrs. Henry F. Whitcomb and Howard Morris, as receivers of both Wisconsin Central corporations, from the last named date to June 30, 1894.

CONSOLIDATED BALANCE SHEET JUNE 30, 1894.

Deficit for the year		$559,225
Add surplus June 30th, 1893.		333,606
Deficit June 30, 1894		$225,619

* Taxes for 1893 were paid by lessee.

Land Department.—The land department of the Wisconsin Central Railroad Co. for the year had receipts of $64,511 (including $12,124 for sales and $31,433 for royalties) and expenses of $74,111, of which $52 85 for taxes; excess of payments over receipts, $1 ,600; total surplus June 30, 1894, $575; lands unsold June 30, 1894, 557,372 acres; land sales during year, 19,742 02 acres for $86,645.—V. 60, p. 1151.

GENERAL INVESTMENT NEWS.

Atchison System—Atlantic & Pacific.—At Albuquerque, N. M., July 17, a bill was filed in the United States Court by the United States Trust Company of New York, trustee under the first mortgage of the Atlantic & Pacific Railroad, asking for foreclosure and sale of the property. The first mortgage bonds were pledged to secure the guarantee trust 4 per cents, and were purchased recently at auction by the committee representing those bonds. It is understood that the Atlantic & Pacific committee does not desire to break away from the system, but believes its interests can be better looked after by a separate receiver, while at the same time maintaining all existing traffic relations.—V. 60, p. 747.

Atchison Topeka & Santa Fe.—The time for the deposit of bonds and stock without payment of a penalty having expired on July 8, 1895, deposits under the reorganization plan are now received only on payment of a penalty of 1 per cent on the par amount of the bonds and stock deposited.—V. 61, p. 68.

Atlantic Short Line.—Receiver Young was unable to sell this property at auction on July 12, as ordered by the Court.—V. 60, p. 1038.

Augusta & Savannah—Central of Georgia.—The stockholders of the Augusta & Savannah RR. Co. will meet at Savannah Aug. 6 to vote on making a new lease to the Central of Georgia Railway Company (successor to the present Central RR. & Banking Co.), upon a net rental of 5 per cent per annum.—V. 60, p. 1008.

Baltimore & Ohio.—The electric locomotive made two trips through the Belt Line tunnel at Baltimore on Wednesday. Thirty cars and two "dead" engines were pulled through without a mishap, and then thirty one loaded cars, two "dead" engines and a caboose, aggregating 1,500 tons, were pulled through in eight minutes.—V. 60, p. 70.

Birmingham Sheffield & Tennessee River.—A very large majority of the first mortgage five per cent bonds of this railway company are reported to have been deposited under the reorganization agreement dated the 9th April, 1895, and the time for deposit of outstanding bonds was finally extended to the 15th July, 1895. A copy of the agreement and further particulars may be obtained from the Secretary to the Reorganization Committee in London, Mr. H. Ansell, 75 Lombard Street.—V. 61, p. 26.

Central Railroad & Banking of Georgia.—The modified plan compares with the original plan as published in the CHRONICLE of June 8 (V. 60, p. 1008) as below given. The absolute fixed charges are increased $15,000, while interest charges ahead of second preference bonds are reduced $60,000 net and ahead of stock they are reduced by $160,000.

First Mortgage.—Unchanged.

Consolidated Mortgage.—Authorized amount, $16,500,000, instead of $13,000,000, with right to increase this by $2,000,000 on the conditions laid down in original plan. No increase to $20,000,000 is provided for. The bonds cover all the property described in the original plan and in addition are to have a first lien on the Savannah & Western RR., except the Chattanooga Rome & Columbus RR. and Columbus & Rome.

General Mortgage.—This is done away with.

First Preference Bonds.—The amount of these is reduced from $5,000,000 to $3,500,000. As security they will have a lien on the Savannah & Western, Columbus & Rome and Savannah & Atlantic, in place of the Savannah & Western, Chattanooga Rome & Columbus, Macon & Northern and Savannah & Atlantic. They will also cover the leaseholds, securities, etc., as stated in the original plan.

Second Preference Bonds.—These are reduced from $8,500,000 to $6,500,000, with same security as the first preference bonds.

Third Preference Bonds and Stock.—These remain unchanged at $4,000,000.

The only changes in the distribution of new securities are the following for each $1,000 bond:

		——NEW SECURITIES IN EXCHANGE.——		
OLD BONDS.		*Consol. M.*	*1st Pref. Inc.*	*2d Pref. Inc.*
Savannah & Western first mort. bonds held by public	$550¶	$350		$250
Savannah & Atlantic 1st M.	....	600		500

Note.—Nothing additional is given for over-due interest on either loan.

The Macon & Northern and Chattanooga Rome & Columbus are left out entirely, as their security-holders refused the terms offered.

¶"All consolidated bonds thus allotted will be sold for account of the owners by the syndicate marketing the main issue of such securities, provided that any Savannah & Western bondholder shall have the right, upon written option filed with his protective committee within fifteen days after the bondholders' meeting, to require the purchasers to buy his share of such consolidated bonds at 85 per cent of their par and interest accrued after Sept. 1, 1895."—V. 61, p. 68.

Chattanooga Belt.—This company, which is successor of the Chattanooga Union RR. Co., is to issue a mortgage bearing interest at the rate of 3 per cent for two years, 4 per cent for two years, and thereafter 5 per cent; also an income mortgage. The property was purchased at foreclosure sale by the reorganization committee, of which H. W. Bartol, 532 Drexel Building, Philadelphia, is chairman, and will be leased to the Alabama Great Southern RR. Co.—V. 61, p. 68.

Citizens Traction (Pittsburg).—The stockholders have received a circular saying:

The Board of Directors has declared a semi-annual dividend of two per cent, in pursuance of the company's policy to pay only out of its earnings. It is the consequence of the business depression which seriously affected the revenues of the company in the earlier months of the year. The receipts of the last two months and the current month, however, warrant the belief that dividends in the future will be at the usual rate of six per cent per annum.—V. 60, p. 930.

Colorado Fuel & Iron.—The CHRONICLE is officially informed that this company has closed a contract for the sale of $2,000,000 of its general mortgage bonds. The bonds are to be delivered August 1. The proceeds will enable the company to pay off its bond loans, preferred stock scrip and other floating debt, and give an increased working capital of between $490,000 and $500,000, thus placing the company in strong financial condition. Among the subscribers to the bonds are Moore & Schley, G. H. Prentiss & Co., Ladenburg, Thalmann & Co., J. Kennedy Tod & Co., Manhattan Trust Company and Chase National Bank. The directory will be strengthened by the admission of some of the parties interested in the recent purchase of bonds.—V. 61, p. 26.

Davenport & Rock Island (Street.)—This street railway, which is controlled by Chicago people, is in financial straits, and has therefore, through its President, D. H. Louderback, mailed to the stockholders a circular which says in part:

The company is unable to pay its debts, and the officers recommend that a new company be organized with a capital stock of $600,000 to take over the property, all stockholders to subscribe for the stock of the new company in the proportion of the amount of their holdings in the present company. All subscriptions to the capital stock of the new company must be paid in full. * * * It is believed that a voluntary transfer by the present to a new company which will pay off the indebtedness of the present company, except its first mortgage, will be preferable to a receivership and a sale under a decree of court.

The company's embarrassment is said to be due in large measure to the fact that it has been heavily assessed for street paving purposes.

Distilling & Cattle Feeding—American Spirits Manufacturing.—Judge Taft, in the Ohio and Kentucky District of the Federal Court, on Monday, confirmed the decree of sale rendered in Chicago last week by Judge Showalter. The American Spirits Manufacturing Company is being organized to take over the property upon its purchase by the Reorganization Committee.—V. 61, p. 68.

Federal Street & Pleasant Valley (Pittsburg).—This company has passed its July dividend, the reason given being that earnings during the early part of the half-year fell off, and that since then expenses have been increased on account of laying tracks and paving streets.

Houston City (Street).—At Sherman, Tex., on July 11, John H. Kirby was appointed receiver and Walter Burns Master in Chancery for this company by Judge Bryant on application of Albert N. Parlin et al in behalf of the bondholders. The company has been embarrassed for some time. The Galveston *Daily News* says:

The property is one of the most extensive and valuable street railroad plants and franchises in the State. The company operates forty miles of track, with an electric system embracing forty-seven motor cars and a number of trailers, traversing thirteen separate and distinct lines with the finest belt system to be found anywhere. Besides they own a large and elegantly equipped power house, and a good deal of real estate located in various parts of the city.

Indiana Decatur & Western.—The Indiana Decatur & Western Railway has been consolidated with the Decatur & Eastern Railway Company as the Indiana Decatur & Western Railway Company. The directors are William G. Outten, Henry P. Page, Wilburn Harwood, all of Decatur, Ill.; two years, Barsford K. Durfee, Decatur, James A. Eads, Paris, Ill., Robin Smith, New York; three years, Henry W. Smith, Theodore W. Morris and Francis S. Smithers, all of New York. This is a step in the re-organization, under which will be issued common and preferred stock at $6,000 each per mile and first mortgage 5s at $12,000 per mile.—V. 60, p. 432.

Illinois Central.—Listed on the New York Stock Exchange this week were $3,145,000 additional 4 per cent bonds of 1953, issued to acquire and improve the Louisville New Orleans & Texas, making the total amount listed $24,679,000 out of the $25,000,000 authorized. The earnings of the L. N. O. & T. (now Yazoo & Mississippi Valley RR.) are reported to the Exchange as follows for the years ending June 30, 1894 and 1895, June, 1895, being estimated.

Year.	*Gross.*	*Net.*	*Taxes*	*Bal. for int., etc.*
1894-95.....	$3,318,410	$1,028,111	$90,058	$938,053
1893-94.....	3,338,860	1,028,489	89,091	969,398

—V. 60, p. 1058.

Jacksonville St. Augustine & Indian River.—This road is to be extended 70 miles from its present terminus at West Palm Beach to Miami, on Biscayne Bay, which will then be the southernmost point reached by any railroad in the United States.

Lehigh Coal & Navigation.—This company has sold to Brown Brothers & Co., of Philadelphia, $1,000,000 collateral trust bonds, bearing interest at 4½ per cent, redeemable in ten years in gold. The bonds are a portion of an authorized issue of $1,500,000, the other $500,000 being reserved for future needs. The bonds are secured by the deposit with the Fidelity Insurance, Trust & Safe Deposit Company, as trustee of securities representing a par value of $3,716,225. The bonds, it is said, were sold at par and accrued interest. Of the proceeds it is reported that $500,000 will be used in liquidating the floating indebtedness, and the remainder for improvements.—V. 60, p. 346.

Lehigh & New England.—It is stated that this company will not issue over $375,000 of its recently-authorized bonds until the earning capacity of the road is demonstrated and its credit firmly established. When these conditions obtain, more bonds will be issued and the road completed.—V. 61, p. 69.

Lehigh Valley.—A dispatch from Philadelphia says that Brown, Shipley & Co., the London bankers, have notified the officers of the Lehigh Valley Railroad Company that they will exercise their option and float the $6,800,000 of 5 per cent gold bonds of the Lehigh Valley Coal Company which they took some months ago as collateral for a loan with option to purchase. By the floating of this $6,800,000 of bonds, says the dispatch, the railroad company will be able to wipe out its entire floating indebtedness, including the £600,000 notes, and will have remaining in hand a considerable surplus available for other purposes.

The shareholders of the Easton & Northern Railroad, which is owned by the Lehigh Valley, this week voted to increase the capital stock $100,000 to $300,000. The building of a connection with the Lehigh Valley Railroad at Easton, is said to be proposed.—V. 61, p. 28.

Listing on New York Stock Exchange.—The New York Stock Exchange has listed $3,145,000 additional Illinois Central Railroad Company 4 per cents of 1953. See that company. V. 61, p. 69.

Long Island Traction.—The time for the deposit of stock of this company with the Central Trust Company has been extended until and including July 23. Deposits with the Trust Company under the plan aggregate over 280,000 shares of stock, representing a cash contribution already received of $1,400,000, and numerous letters received by the committee from persons at a distance indicate that a large number of the outstanding shares will be deposited. The payment of the final assessment on stock deposited will be received up to and including Sept. 4.—V. 61, p. 69.

Lynn & Boston—North Shore Traction.—The Massachusetts State Railroad Commission has authorized the Lynn & Boston to issue at par $100,000 of the $163,900 new stock which the company desired to issue for improvements. —V. 60, p. 929.

Macon & Northern.—At the meeting of bondholders in Baltimore on Thursday Mr. Alexander Brown stated that the parties making the proposition to acquire road had requested that the bondholders adjourn their meeting until July 31, at which time it is expected that the proposition, complete in al its details, will be submitted to the bondholders.—V. 61, p. 26.

Missouri Kansas & Texas.—It is said the management of this railroad will publish hereafter regular monthly statements of net earnings, beginning with the month of August. The English Association of American Bond and Shareholders, Limited, as agents for the company, have received a cable message not to send out the coupons due August 1 on the second mortgage four per cent gold bonds of the Missouri Kansas & Texas Railway, as they will not be paid. Holders are aware that from August 1, 1895, the interest on these bonds is obligatory.—V. 60, p. 1145.

New York New Haven & Hartford.—This company is reported to have borrowed for improvements a considerable sum of money at about 3½ per cent interest. Even if this is true, it seems scarcely credible that the loan runs a year, as reported, since the company will receive by Oct. 31 about $12,750,000 from sale of new stock and debentures.—V. 60, p. 1105.

New York & Philadelphia Traction—Central Jersey Traction.—An application for a receiver has been made for the Central Jersey Traction, which was formed in 1894 to construct the line of the New York & Philadelphia, a road projected to run between New York and Philadelphia. The application for a receiver is made by ex-Senator Lemuel Miller of Cape May County, who alleges that the company is insolvent, with liabilities of $235,000, of which $35,000 is due him for work in constructing part of the road between Raritan and Bound Brook, and the remainder is due for bonds issued. The bill filed says there are no assets, except a contract with the New York & Philadelphia Traction Company to construct and equip an electric railway, and the contract is without present market value.—V. 59, p. 115.

Northwestern Elevated (Chicago).—The stockholders of the Columbia Construction Company, which proposes to build the Northwestern Elevated Railroad in Chicago, on Monday voted to increase the company's stock from $2,000,000 to $5,000,000. That portion of the issue which may not be taken by the present stockholders at par is said to be practically underwritten and will be taken by some of the large holders.—V. 60, p. 1105.

Oregon Short Line & Utah Northern.—At Portland, Ore., on Monday, Judge Belinger, in the United States Circuit Court, ordered the foreclosure sale under the consolidated mortgage of so much of this company's property as lies in Oregon, Idaho and Montana. Similar decrees will be sought in the other districts in which the road is situated.—V. 61, p. 69.

Philadelphia & Reading.—At Philadelphia on Thursday Judge Acheson filed an opinion in the United States Circuit Court overruling all the demurrers to the bill of complaint of the Pennsylvania Company for Insurance on Lives and Granting Annuities for the foreclosure of the general mortgage. In the opinion Judge Acheson says:

> To deny to a Philadelphia & Reading general mortgage bondholder the right to proceed by suit to enforce his mortgage security upon default in the payment of the semi-annual interest might work the greatest injustice, for by the provisions of the mortgage a bondholder is prevented from levying upon, taking in execution, or selling, under any ordinary judgment at law for interest, any part of the mortgaged premises. Now, the bonds run until the year 1958. Therefore, if a bondholder cannot resort to a bill for a foreclosure upon the non-payment of interest, he might be, and, unless he could procure the co-operation of other bondholders representing the requisite amount, surely would be, practically remediless. A construction of the mortgage involving consequences so unreasonable is not to be accepted.—V. 61, p. 70.

Reorganization Plans, etc.—The following is an index to all defaults, foreclosure sales, reorganization plans, the names of all reorganization committees, and all statements respecting the payment of overdue coupons, that have been published in the CHRONICLE *since* the April edition of the INVESTORS' SUPPLEMENT was issued, all earlier facts of this nature being set forth in that publication. It does *not*, however, include matter in to-day's CHRONICLE.

The following abbreviations are used: *Plan* for reorganization or readjustment plan; *coup.* for coupon payments; *def.* for default; *Com.* for committee.

Southern Railway—Georgia Southern & Florida.—The Southern Railway recently purchased, as already announced, about $1,800,000 of the reorganization certificates of the Georgia Southern & Florida, each $1,000 certificate entitled to one bond, $200 preferred stock, $300 second preferred stock and $200 common stock. The purchase was made to secure control of the road, and for this the stock alone was necessary. The bonds have therefore been sold to a Baltimore syndicate represented by the Maryland Trust Company at a price which reimburses the Southern Railway for its outlay and practically gives it control of the road without cost.—V. 60, p. 1145; V. 61, p. 68.

Toledo Ann Arbor & North Michigan.—At Cincinnati, July 16, Judge Taft, in the United States Court, overruled the motion to set aside the sale of this railway, which was bid in July 2 last by R. C. Martin for the bondholders' committee, for $2,627,000. The sale was confirmed. The reorganization committee has also purchased for $210,000 in cash the old Frankfort & Southeastern, 23 miles in length, previously a part of the system and recently reorganized after foreclosure sale as the Escanaba Frankfort & Northeastern Railroad.—V. 61, p. 70.

United States Cordage.—At the request of the *bondholders' protective committee*, the following persons, constituting the "*bondholders' committee*," have prepared a plan of reorganization: Stuyvesant Fish, George Mosle and Charles A. Peabody, Jr. Burrill, Zabriskie & Burrill are counsel and John H. Rathbone (31 Broad St., New York,) is Secretary to the Committee. Stuyvesant Fish is President of the Illinois Central Railroad, also Vice-President of the National Park Bank, and a large holder of the securities of the company; George Mosle is a member of the firm of Mosle Brothers, commission house, representing a large amount of securities, and Charles A. Peabody, Jr., is a director of the Farmers' Loan & Trust Co., and represents said Trust Company and the Astor estate. The committee has issued a circular in which they say:

> This committee deems it a matter of prime importance that the affairs of the reorganized company be managed by persons conversant with the cordage business in order that the failures of the past may not be repeated. They recommend that the mills not necessary for the purposes of the company should be disposed of, and that the amount thereby realized be applied to the payment of underlying liens on the remaining mills. By this means also the cost of carrying the mills, which last year amounted to $100,000, will be saved. With an efficient management it is believed that the company can safely incur the fixed charges imposed by this plan.

The committee has deposited with the Farmers' Loan & Trust Company a plan of reorganization under which they ask deposits of stock and bonds with the Trust Company on or before August 5

Two plans compared.—The new securities proposed by the bondholders' committee are described below in comparison with those provided for by the company's plan.

	Bondholders' Plan.	*Company's Plan*
First mortgage 50-year gold bonds	$6,250,000. Interest to begin April 1, 1896, at 3 p. c. for three years, and 6 p. c. thereafter.	$4,000,000. Bearing 6 p. c. interest for entire term.
Consol. mort. income 50-yr gold bds., with voting power; 5 p. c. int. non-cumulative	None.	$7,500,000
Common stock	$16,250,000	$12,000,000

Exchange of Securities.—The exchange of securities and the assessments to be paid under the two plans are as follows for each $1,000 of bonds and $100 of stock, first mortgage bonds by both plans to be given at par for the amount of the assessment:

	New Securities.					
	—*Bondholders' Plan.*—			—*Company's Plan.*—		
—Old— Securities.	*Assessment.*	*Com. Stock.*	*1st mort.*	*Assessment.*	*Com. Stock.*	*1st mort.*
1st mort. ...	.....	$100 00	$600	..	....	....
Guar. stock. ..	$15 00	90 00	....	$20	$80	....
Pref. stock.....	7 50	45 00	....	10	40	....
Com. stock.....	3 75	22 50	....	5	20	....

	Consol. mort.
1st mort. ...	$1,000
Guar. stock. ..	.....
Pref. stock.....	.....
Com. stock.....	.....

The assessments under the bondholders' plan aggregate $2,250,000; under the company's plan $3,000,000.

Secretary Rathbone, of the bondholders' committee, says: "Under the Sturgis-Waterbury plan of reorganization, the interest charges are $180,000 and contingent charges ahead of stock $375,000, making $585,000 per year. Under the bondholders' plan the interest charges are $312,500 per annum for the first three years, a saving of $243,500 a year, or about 1½ per cent on the stock in favor of the bondholders' plan.

"President Sturgis, of the United States Cordage Company, in his statement to the bondholders' committee, said he estimated the earnings on rope $400,000 per year as a minimum, and in addition about $150,000 on twine.

"From other and independent sources this committee estimates that it is absolutely safe to count on at least $400,000 on the entire business, and that they have strong reasons to anticipate in the revival of trade this amount will be largely exceeded."

See further particulars as to this plan in the advertising columns of to-day's CHRONICLE. For company's plan see V. 60, p. 1012.

It has recently transpired that the Pearson Mill is subject to a first mortgage for $900,000, guaranteed by the United States Cordage Company and pledged, it is said, with J. P. Morgan & Co., as collateral for loans. The Protective Committee say the United States Cordage expended a large sum in purchasing the Pearson Mill, and then failed to bring the property under its own first mortgage as the committee maintain it should have done.—V. 61, p. 70.

United States Leather.—The *New York News Bureau* says:

It is announced on the authority of officers of the company that an additional issue is contemplated of $4,000,000 preferred and $4,000,000 common stock, increasing the capitalization of the company to about $64,000,000 preferred and $64,000,000 common stock. Respecting the proposed issue the following statement is made at the offices of the company:

When the company was formed in February, 1893, it was deemed that $60,000,000 would be sufficient to cover the cost of all tanneries, leather and bark lands acquired by the corporation. So far as the tanneries and leather were concerned, an actual valuation was readily arrived at. Unexplored bark lands were taken at the estimate of the owners and about 60 per cent of this valuation was paid, the remaining payment depending upon the examination of experts, on condition that should the seller of the property have undervalued it, the excess of the expert estimates over his own would be paid to him by the company in shares of the preferred and common stocks in equal amounts. The preferred stock represented the actual value of the land and bark; the common stock, as is well known, only the goodwill of the business, of which the lands were a part.

The result of the expert survey of these properties has shown an excess of $2,000,000 over the original estimates made by the owners of the land, and it is to the payment of these claims that $2,000,000 of the new preferred and $2,000,000 of the new common stock will be devoted. The remaining $4,000,000 of the new issues will go toward settling further claims of the same description, should any excess valuations be developed by the experts who are still investigating bark land properties, and it will also be used for further contingencies. The authorization by two thirds of the stock necessary to make the new issue has practically been obtained.—V. 60, p. 390.

United States Rubber.—The statement furnished to the Stock Exchange recently is an amplification of the figures contained in the annual report, which was published in the CHRONICLE of May 25, page 926:

OPERATIONS FOR THE YEAR ENDING APRIL 1, 1895.

Surplus April 1, 1894	$216,037	Dividends on pref. stock	$1,552,040
Inc. from stock owned in other companies	2,751,476	Div. on common stock, 2½ p. c. in March, '95	504,150
Profits from operation	178,767		
Total income	$2,930,243	Total dividends paid	$2,056,190
Salaries, taxes and other expenses	213,873	Balance to surplus	660,180
Balance	$2,716,370	Total sur. Apr. 1, '95	$876,217

The net earnings of the several companies from which the above income was derived were $3,038,351.—V. 60, p. 926.

The liabilities are given as previously reported, but the assets have been more fully stated as follows:

ASSETS.

Cash	$119,900	Manufactured goods	$478,020
Bills receivable	92,199	Addition to plant	70,168
Accounts receivable—		Furniture and fixtures	20,208
For merchandise	759,023	Investments	38,586,731
For miscellaneous	122,907		
Raw material	303,701	Total assets	$40,552,862

—V. 60, p. 298.

Trust Companies in New York City and Brooklyn.—The statements for June 30, 1895, of the trust companies in New York and Brooklyn, filed with the Banking Department at Albany, are as given below. We add the corresponding statements of 1894 and 1893 for comparison.

In the CHRONICLE of February 2, 1895, were published the statements for the years ending Dec. 31, 1894, 1893 and 1892.

The few reports that have not yet been filed will be published in subsequent issues of the CHRONICLE.

The Commercial Times.

COMMERCIAL EPITOME.

FRIDAY NIGHT, July 19, 1895.

Few changes of important character have taken place in the markets for leading lines of merchandise during the current week. A steady, healthy movement of supplies from first hands was reported with manufacturers of staple goods booking a fair number of contracts for fall and winter delivery, and previous gains in value have been well supported. Speculative commodities have not attracted much attention from the general trading public. Weather reports were variable early in the week, but latest advices indicate seasonable conditions in most latitudes. Information from sources considered authoritative indicate continued healthy growth of corn in nearly the entire planted area and oats generally turning out well. Wheat-threshing returns thus far reported about equal previous estimates, but farmers are indifferent sellers. In South Dakota and Southwestern Minnesota drought is said to have injured spring wheat, but in general the crop shows fine promise. Growing cotton has been favored with better conditions. Prospects are very promising for an abundant rice crop.

For lard on the spot the demand has been limited and prices declined in response to a weaker market for futures, closing at 6 60c. for prime Western, 6 15@6 25c. for prime City and 7 00c. for refined for the Continent. The speculation in the local market for lard futures has been extremely dull and prices have declined slightly in sympathy with the weakness of the grain markets, closing steady:

DAILY CLOSING PRICES OF LARD FUTURES

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
July ..... c.	....	....	....	....	6 60	6 60
September ..... c.	6 70	6 67	6 60	6 60	6 65	6 70

For pork the demand has been quiet and prices have declined, closing dull at $12 25@$12 75 for mess, $12 75@$14 50 for short clear and $13 for family. Cut-meats have had a limited call and prices have ruled strong, particularly for bellies, owing to a scarcity of hogs in the local market, closing at 7¼@7½c. for pickled bellies, 12 7-10 lb. average, 6c for pickled shoulders and 9½@10c. for pickled hams. Beef has been quiet and unchanged, closing at $8 for mess, $9@$11 for packet, $11 25@$13 for family and $17 00@$18 50 for extra India mess. Beef hams have been steady, closing at $18 50@$18 50. Tallow has further declined, closing at 4½c. Oleostearine has been quiet but steady, closing at 6½c. Lard stearine has been without change at 8½c. Cotton seed oil has advanced, closing firm at 23@24c. for prime crude and 26½c. for prime yellow. Butter has been fairly active and steady, closing at 12@17c. for creamery. Cheese has been in moderate demand and fairly steady, closing at 6 7-8@7½c. for State factory, full cream. Fresh eggs in fair demand for choice and steady, closing at 13@13½c. for choice Western.

Coffee generally has been slow of sale and easy in tone, but a few specially attractive grades found fair attention. Rio quoted at 15½c. for No. 7 flat bean, good Cucuta 19c. and standard Java 27@27½c. For future delivery trading was slow and indifferent, with prices barely supported, but at the close European buying infuses a trifle more strength.

The following were the final asking prices:

July	14 00c.	Oct.	14 30c.
Aug.	14 75c.	Nov.	14 30c.
Sept.	14 50c.	Dec.	14 30c.
Jan	.....	14 70c.	
Feb	.....	14 70c.	
March		14 45c.	

Sugars have been taken up with fair freedom at full former rates, with some stock purchased on speculation. Centrifugals quoted at 4½c. for 96-deg. test and muscovado at 3½c. for 89-deg. test. Refined sugars sold slowly and moderately at unchanged rates; granulated quoted at 4½c. Teas neglected and easy.

There has been an improved demand for Kentucky tobacco, mainly from exporters, at firm prices. Sales, 275 hhds. Seed leaf tobacco has sold slowly but prices have held steady. Sales for the week were 1,125 cases, as follows: 200 cases, 1893 crop, Wisconsin Havana, 8@9c.; 100 cases, 1892 crop, Wisconsin Havana, 10½@13c.; 75 cases, 1893 crop, Zimmers 11@13c.; 250 cases, 1893 crop, Pennsylvania B's, private terms; 150 cases, 1893 crop, New England Havana, private terms; 200 cases 1894 crop, New England Havana, 15@18c.; 50 cases, 1892 crop, New England Havana, 15@35c., and 100 cases sundries, 5@20c. Also 900 bales Havana, 65c.@$1 10 and 400 bales sumatra, 60c.@$3 20 in bond.

Rather more speculative interest has been shown in the market for Straits tin and prices have advanced slightly in response to stronger foreign advices, closing steady at 14 25c. Ingot copper has continued to advance and the close was firm at 11 25@11 30c. for domestic. Lead has also advanced and the close was firm at 3 35c. for domestic. Spelter has been stronger and the close was firm at 3 75@3 72½c. for domestic. Pig iron has been fairly active and firm at $11 50@$14 for domestic.

Refined petroleum has been quiet but steady, closing at 7 65c. in bbls., 5 15c. in bulk and 8c. in cases; crude in bbls. has been nominal; naphtha, 9 25c. Crude certificates have further advanced, closing at $1 59 bid. Spirits turpentine has been quiet and unchanged, closing at 28 7-8@29c. Rosins have been steady, closing at $1 55@$1 60 for common and good strained. Hops have been dull and barely steady. Wool has been less active but prices have ruled firm.

COTTON.

FRIDAY NIGHT, July 19, 1895.

THE MOVEMENT OF THE CROP, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening the total receipts have reached 2,676 bales, against 3,866 bales last week and 3,795 bales the previous week, making the total receipts since the 1st of Sept., 1894, 7,853,492 bales, against 5,903,498 bales for the same period of 1893-4, showing an increase since Sept. 1, 1894, of 1,949,994 bales.

Speculation in cotton for future delivery at this market has been of moderate volume. The outside trading public found no attraction in the situation and regular operators confined themselves to the manipulation and liquidation of old engagements. Local sentiment regarding crop conditions is more hopeful and current demand from consumers is considered unsatisfactory. The trading on Saturday was exceedingly small and tone easy with 1 point net loss. Monday opened heavy under pressure to sell "long" engagements, and although temporary recovery took place the close was at 4 points net decline. A few European covering orders received on Tuesday morning raised cost 5 points, but no other demand appearing 3 points were lost before the close. Wednesday opened 6 points higher on slightly firmer cable advices and covering by small shorts, but a portion of the gain was afterward lost. Yesterday apparent improvement in the crop outlook and renewed liquidation of long engagements served to weaken the tone and prices declined 7 points. To-day, however, offerings are moderate, and with a little better news from domestic spinning trade rates recovered 5 points and were steady. Cotton on the spot quiet and steady at 7c. for middling uplands.

The total sales for forward delivery for the week are 494,600 bales. For immediate delivery the total sales foot up this week 3,190 bales, including 292 for export, 2,798 for consumption — for speculation and 100 on contract. The following are the official quotations for each day of the past week—July 13 to July 19.

Rates on and off middling, as established Nov. 22, 1893, by the Revision Committee, at which grades other than middling may be delivered on contract:

Fair	c. 1 14 on.	Good Ordinary.....	c. 1 8 off.
Middling Fair.	7 8 on.	Good Middling Tinged...	Even.
Strict Good Middling.....	1 2 on.	Strict Middling Stained..	7 32 off.
Good Middling.....	5 16 on.	Middling Stained.....	7 16 off.
Strict Low Middling.....	3 16 off.	Strict Low Mid. Stained..	29 32 off.
Low Middling	7 16 off.	Low Middling Stained....	1 8 off.
Strict Good Ordinary.....	13 16 off.		

On this basis the prices for a few of the grades would be as follows:

UPLANDS.	Sat.	Mon	Tues	Wed	Th.	Fri
Good Ordinary.....	5 15 16	5 7 8	5 7 8	5 7 8	5 7 8	5 7 8

☞ The imports into Continental ports the past week have been 78,000 bales.

The above figures indicate an *increase* in the cotton in sight to-night of 545,331 bales as compared with the same date of 1894, an *increase* of 384,133 bales over the corresponding date of 1893 and an increase of 4,063 bales from 1892

AT THE INTERIOR TOWNS the movement—that is the receipts for the week, and since September 1, the shipments for the week and the stocks to-night, and the same items for the corresponding period of 1893-94—is set out in detail below.

Towns.	Movement to July 19, 1895. Receipts. This week.	Since Sept. 1, '94.	Shipm'ts This week.	Stock July 19	Movement to July 20, 1894. Receipts. This week.	Since Sept. 1, '93.	Shipm'ts This week.	Stock July 20.

Total, 31 towns	1,250	1,735,750	2,205	3,497	1,250	1,735,750	2,205	3,497

* Louisville figures "net" in both years.
‡ This year's figures estimated.

The above totals show that the interior stocks have *decreased* during the week 2,453 bales and are now 16,291 bales *less* than at same period last year. The receipts at all the towns have been 1,250 bales *less* than last week last year and since Sept. 1 are 1,735,750 bales *more* than for same time in 1893-94.

QUOTATIONS FOR MIDDLING COTTON AT OTHER MARKETS.—Below we give closing quotations of middling cotton at Southern and other principal cotton markets for each day of the week.

Week ending July 19.	CLOSING QUOTATIONS FOR MIDDLING COTTON ON—

RECEIPTS FROM THE PLANTATIONS.—The following table indicates the actual movement each week from the plantations. The figures do not include overland receipts nor Southern consumption; they are simply a statement of the weekly movement from the plantations of that part of the crop which finally reaches the market through the outports.

Week Ending—	*Receipts at the Ports.*			*Stk at Interior Towns.*			*Rec'pts from Plant'ns*		
	1893.	1894.	1895.	1893.	1894.	1895.	1893.	1894.	1895.
June 14....	20,576	28,813	16,527	166,902	99,982	76,155	.....	6,664	5,261
" 21 ..	23,196	12,369	15,514	159,762	92,347	71,898	6,986	4,434	11,257
" 28.....	19,818	12,806	6,223	155,823	85,185	67,570	4,569	6,044	2,195
July 5	17,884	10,179	3,795	125,280	70,386	61,124	6,771	3,623	649
" 12.....	15,762	5,910	5,956	120,466	76,577	58,162	10,448	3,101	.. ..
" 19.	11,091	3,812	2,676	119,269	73,105	56,304	894	340	218

The above statement shows: 1.—That the total receipts from the plantations since Sept. 1, 1894, are 7,852,461 bales; in 1893-94 were 5,900,437 bales; in 1892-93 were 6,023,184 bales.

2.—That although the receipts at the outports the past week were 2,676 bales, the actual movement from plantations was only 218 bales, the balance being taken from the stocks at the interior towns. Last year the receipts from the plantations for the week were 340 bales and for 1893 they were 894 bales.

OVERLAND MOVEMENT FOR THE WEEK AND SINCE SEPT. 1.—We give below a statement showing the overland movement for the week and since September 1. As the returns reach us by telegraph late Friday night it is impossible to enter so largely into detail as in our regular monthly report, but all the principal matters of interest are given. This weekly publication is of course supplementary to the more extended monthly statements. The results for the week ending July 19 and since Sept. 1 in the last two years are as follows:

July 19.	1894-95.		1893-94	
	Week.	*Since Sept. 1.*	*Week.*	*Since Sept. 1.*
Shipped—				
Via St. Louis.....	1,394	933,828	3,370	609,210
Via Cairo	994	336,229	1,094	292,365
Via Hannibal	.....	545	.....	13,756
Via Evansville	.....	3,817	.....	7,369
Via Louisville	33	189,310	291	130,772
Via Cincinnati.....	142	177,855	1,803	107,463
Via other routes, &c.....	172	141,097	819	129,267
Total gross overland.....	2,735	1,782,682	6,377	1,290,202
Deduct shipments—				
Overland to N. Y., Boston, &c .	1,488	574,315	635	300,005
Between interior towns.....	339	32,346	4	21,890
Inland, &c., from South.....	378	78,699	203	102,855
Total to be deducted.....	2,205	685,360	842	424,750
Leaving total net overland*..	530	1,097,322	5,535	905,452

* Including movement by rail to Canada.

The foregoing shows that the week's net overland movement this year has been 530 bales, against 5,535 bales for the week in 1894, and that for the season to date the aggregate net overland exhibits an excess over a year ago of 291,870 bales.

In Sight and Spinners' Takings.	1894-95		1893-94	
	Week.	*Since Sept. 1.*	*Week.*	*Since Sept. 1.*
Receipts at ports to July 19.	2,676	7,852,492	3,812	5,903,498
Net overland to July 19.	530	1,097,322	5,535	905,452
Southern consumption to July 19.	10,000	710,000	8,000	653,000
Total marketed.....	13,206	9,660,814	17,347	7,361,950
Interior stocks in excess.....	*2,458	11,631	*3,472	13,061
Came into sight during week.	10,748	.....	13,875	.....
Total in sight July 19.	.....	9,659,783	.....	7,358,889
North'n spinners tak'gs to July 19	3,701	1,995,195	18,204	1,541,586

* Decrease during week. † Less than September 1.

It will be seen by the above that there has come into sight during the week 10,748 bales, against 13,875 bales for the same week of 1894, and that the increase in amount in sight to-night as compared with last year is 2,300,894 bales.

Weather Reports by Telegraph.—Our telegraphic reports from the South this evening indicate that the weather has in general been quite satisfactory during the week. At several points on the Atlantic there has been rather too much moisture, but as a rule the rainfall has been light. In some sections of Southern and Central Texas light showers would be beneficial. Boll worms are reported in a few localities in the coast district of Texas.

Galveston, Texas.—We have had rain on one day of the week, the rainfall reaching nine hundredths of an inch. The thermometer has ranged from 80 to 88, averaging 84.

Palestine, Texas.—There has been no rain all the week. Average thermometer 83, highest 92 and lowest 72.

Huntsville, Texas.—Dry weather has prevailed all the week. The thermometer has averaged 84, the highest being 96 and the lowest 72.

Dallas, Texas.—The weather has been exceptionally favorable for cotton, except that light showers would be beneficial to the plant over the southern and central portions of the State, especially on uplands. Boll worms are reported in a few localities in the western part of the coast district. Early-planted cotton is fruiting very nicely; other crops are in general doing well. Rain has fallen on one day during the week, the rainfall reaching thirty-one hundredths of an inch. The thermometer has averaged 80 and has ranged from 64 to 96

San Antonio, Texas.—There has been no rain during the week. The thermometer has ranged from 72 to 98, averaging 85.

Luling, Texas.—We have had no rain all the week. Average thermometer 85, highest 98, lowest 72.

Columbia, Texas.—It has been dry all the week. The thermometer has averaged 84, the highest being 96 and the lowest 72.

Cuero, Texas.—The weather has been dry all the past week. The thermometer has averaged 86, ranging from 74 to 98.

Brenham, Texas.—We have had no rain during the week. The thermometer has ranged from 72 to 98, averaging 85.

Belton, Texas.—We have had dry weather all the week. Average thermometer 90, highest 102, lowest 78.

Weatherford, Texas.—We have had rain during the week to the extent of two hundredths of an inch on one day. The thermometer has averaged 79, the highest being 96 and the lowest 62.

Fort Worth, Texas.—Rain has fallen on one day of the past week, the rainfall being sixty-three hundredths of an inch. The thermometer has averaged 80, ranging from 63 to 96.

New Orleans, Louisiana.—It has rained on one day of the week, the precipitation being twelve hundredths of an inch. Average thermometer 84.

Shreveport, Louisiana.—Rain has fallen on one day during the week, but to an inappreciable extent. The thermometer has ranged from 72 to 96, averaging 84.

Leland, Mississippi.—We have had rain during the week, the precipitation being sixty hundredths of an inch. The thermometer has averaged 79, ranging from 67 to 95.

Columbus, Mississippi.—It has rained on one day of the week, but to the extent of only one hundredth of an inch. Rain is badly needed. Average thermometer 87, highest 105, lowest 70.

Meridian, Mississippi.—Telegram not received.

Little Rock, Arkansas.—We have had rain on two days of the week, the precipitation being forty hundredths of an inch. Average thermometer 82, highest 96 and lowest 70.

Helena, Arkansas.—Crops are becoming grassy. There have been showers during the week, the rainfall reaching forty-four hundredths of an inch. The thermometer has averaged 90, the highest being 96 and the lowest 72.

Memphis, Tennessee.—There are some complaints of grass and weeds, but generally the outlook is fine, especially for corn. It has rained on four days of the week, the precipitation reaching one inch and thirty-six hundredths. The thermometer has ranged from 64·6 to 96·9, averaging 81.

Nashville, Tennessee.—The week's precipitation has been two inches and thirty-seven hundredths. The thermometer has averaged 78, ranging from 63 to 93.

Mobile, Alabama.—Reports indicate favorable weather and some improvement in crop condition, but prospects are still somewhat unfavorable. We have had no rain all the week. Average thermometer 84, highest 94 and lowest 73.

Montgomery, Alabama.—All crops are doing well. There has been light rain on three days of the week, the precipitation reaching seventy-seven hundredths of an inch. The thermometer has averaged 83, the highest being 92 and the lowest 74.

Selma, Alabama.—The weather has been favorable the past week. Some low lands in prairie where crop was damaged have been thrown out. Rain has fallen on two days to the extent of thirty-eight hundredths of an inch. The thermometer has averaged 84, ranging from 72 to 94.

Madison, Florida.—The week's rainfall has been two inches and sixty hundredths, on seven days. The thermometer has ranged from 70 to 90, averaging 81.

Columbus, Georgia.—We have had rain on two days of the week, the rainfall reaching twenty-seven hundredths of an inch. Average thermometer 85, highest 95 and lowest 73.

Stateburg, South Carolina.—There has been good rain on two days of the week, the precipitation reaching two inches and seventy-two hundredths. The thermometer has averaged 79·7, the highest being 91 and the lowest 69.

Greenwood, South Carolina.—Crops are doing fairly well but need moisture. We have had no rain during the week. Average thermometer 81, highest 93 and lowest 69.

Wilson, North Carolina.—There has been rain on one day of the week, the precipitation reaching eighty-five hundredths of an inch. The thermometer has averaged 80, the highest being 94 and the lowest 68.

Savannah, Georgia.—There has been rain on five days of the week, the precipitation being three inches and ninety-seven hundredths. The thermometer has averaged 82, the highest being 93 and the lowest 70.

Augusta, Georgia.—We have had rain on three days of the week, the precipitation being fifty-six hundredths of an inch. The thermometer has averaged 82, ranging from 70 to 95.

Albany, Georgia.—Rain has fallen on three days of the week, to the extent of one inch and fifteen hundredths. The thermometer has ranged from 74 to 93, averaging 82·7.

Charleston, South Carolina.—We have had rain on five days of the week, the rainfall reaching one inch and forty-eight hundredths. Average thermometer 82, highest 90 and lowest 72.

The following statement we have also received by telegraph, showing the height of the rivers at the points named at 8 o'clock July 18, 1895, and July 19, 1894.

		July 18, '95.	*July* 19, '94.
		Feet.	*Feet.*
New Orleans	Above zero of gauge.	4·9	4·5
Memphis	Above zero of gauge.	9·4	7·5
Nashville	Above zero of gauge.	6·4	2·1
Shreveport	Above zero of gauge.	19·6	·1
Vicksburg	Above zero of gauge.	18·4	14·1

India Cotton Movement From All Ports.—The receipts and shipments of cotton at Bombay have been as follows for the week and year, bringing the figures down to July 18.

BOMBAY RECEIPTS AND SHIPMENTS FOR FOUR YEARS.

Year	*Shipments this week.*			*Shipments since Sept. 1.*			*Receipts.*	
	Great Brit'n.	*Continent.*	*Total.*	*Great Britain*	*Continent.*	*Total.*	*This Week.*	*Since Sept. 1.*
'94-5	.....	.....	.....	26,000	509,000	535,000	10,000	1,481,000
'93-4	1,000	.....	1,000	47,000	744,000	791,000	14 000	1,759,000
'92-3	1,000	3,000	4,000	42,000	782,000	824,000	7,000	1,708,000
'91-2	1,000	4,000	5,000	69,000	817,000	886,000	8,000	1,721,000

According to the foregoing Bombay appears to show a *decrease* compared with last year in the week's receipts of 4,000 bales and a *decrease* in shipments of 1,000 bales, and the shipments since Sept. 1 show a *decrease* of 256,000 bales. The movement at Calcutta, Madras, and other India ports for the last reported week and since the 1st of September, for two years, has been as follows. "Other ports" cover Ceylon, Tuticorin, Kurrachee and Coconada.

	Shipments for the week.			*Shipments since Sept. 1.*		
	Great Britain.	*Continent.*	*Total.*	*Great Britain.*	*Continent.*	*Total*
Calcutta—						
1894-95...	.....	.....	.....	7,000	28,000	35,000
1893-94...	.....	.....	.....	20,000	83,000	103,000
Madras—						
1894-95...	.....	.....	.....	7,000	10,000	17,000
1893-94...	.....	.....	.....	21,000	14,000	35,000
All others—						
1894-95...	2,000	2,000	4,000	24,000	82,000	106 000
1893-94...	.....	3.000	3,000	29,000	77,000	106,000
Total all—						
1894-95...	2,000	2,000	4,000	38,000	120,000	158,000
1893-94...	.....	3,000	3,000	70,000	174,000	244,000

The above totals for the week show that the movement from the ports other than Bombay is 1,000 bales *more* than the same week last year. For the whole of India, therefore, the total shipments since September 1, 1894, and for the corresponding periods of the two previous years, are as follows:

EXPORTS TO EUROPE FROM ALL INDIA.

Shipments to all Europe from—	1894-95.		1893-94.		1892-93.

Alexandria Receipts and Shipments.—Through arrangements we have made with Messrs. Davies, Benachi & Co., of Liverpool and Alexandria, we now receive a weekly cable of the movements of cotton at Alexandria, Egypt. The following are the receipts and shipments for the past week and for the corresponding week of the previous two years.

Alexandria, Egypt, July 17	1894-95.		1893-94		1892-93.	
Receipts (cantars*)						
This week	.....		2,000		1,000	
Since Sept. 1.	4,538,000		4,975,000		5,136,000	
	This week.	*Since Sept. 1.*	*This week.*	*Since Sept. 1.*	*This week*	*Since Sept. 1.*
Exports (bales)—						
To Liverpool	2,000	272,000	4,000	314,000	4,000	308,000
To Continent	4,000	343,000	5,000	302,000	2,000	326.000
Total Europe	6,000	615.000	9,000	616,000	6.000	634,000

*A cantar is 98 pounds.

This statement shows that the receipts for the week ending July 17 were —— cantars and the shipments to all Europe 6,000 bales.

SEA ISLAND COTTON MOVEMENT.—We have received this (Friday) evening by telegraph from the various ports the details of the Sea Island cotton movement for the week. The receipts for the week ending to-night (July 19) and since Sept. 1, 1894, the stocks to-night, and the same items for the corresponding periods of 1893-94, are as follows.

Receipts to July 19.	1894-95.		1893-94.		Stock	
	This week.	Since Sept. 1.	This week.	Since Sept. 1.	1895.	1894.
Savannah	3	64,254	....	54,175	370	974
Charleston	....	5,359	....	2,212	55	356
Florida, &c.	....	5,139	....	3,571	43	806
Total	3	74,752	....	59,958	468	2,136

The exports for the week ending this evening reach a total of — bales, of which — bales were to Great Britain, — to France and — to Reval, and the amount forwarded to Northern mills has been — bales. Below are the exports for the week and since September 1 in 1894-95 and 1893-94.

Exports from—	Week Ending July 19.			Since Sept. 1, 1894.			North'n Mills.

Florida, &c.	.....	.....	.....	765	.....	765	.....	4,172
New York	.....	.....	.....	4,391	3,156	7,547	.....	.....
Boston	.....	.....	.....	8,463	.....	8,463	.....	.....
Baltimore	.....	.....	.....	391	.....	391	.....	.....
Total	.....	.....	.....	35,008	5,650	40,658	.....	34,912
Total 1893-4	12	.....	12	32,596	4,642	37,248	35	22,425

A considerable portion of the Sea Island cotton shipped to foreign ports goes via New York, and some small amounts via Boston and Baltimore. Instead of including this cotton for the week in which it leaves the Southern outports, we follow the same plan as in our regular table of including it when actually exported from New York, &c. The details of the shipments of Sea Island cotton for the week will be found under the head "Shipping News," on a subsequent page.

Quotations July 19 at Savannah, for Floridas, nominal.

Charleston, Carolinas, nominal.

DOMESTIC EXPORTS OF COTTON MANUFACTURES.—Through the courtesy of Mr. W. C. Ford, Chief of the Bureau of Statistics, we have received this week a statement showing the exports of domestic cotton manufactures for May and for the eleven months ended May 31, 1895, with like figures for the corresponding periods of the previous year, and give them below:

Quantities of Manufactures of Cotton (colored and uncolored) exported to—	Month ending May 31.		11 mos. ending May 31.	
	1895.	1894.	1895.	1894.

EXCHANGES.—The following exchanges have been made during the week:

·25 pd. to exch. 1,400 Aug. for Jan.
·20 pd. to exch. 1,500 Aug. for Dec.
·10 pd. to exch. 4,300 Aug. for Oct.
·19 pd. to exch. 500 Aug. for Dec.
Even 200 July for Aug.
·05 pd. to exch. 400 Aug. for Sept.
·10 pd. to exch. 100 Nov. for Jan.
·35 pd. to exch. 100 July for Mch.
·35 pd. to exch. 100 Aug. for Mch.
·14 pd. to exch. 100 Oct. for Jan.
·25 pd. to exch. 400 Aug. for Jan.
·20 pd. to exch. 2,300 Aug. for Dec.
·15 pd. to exch. 500 Aug. for Nov.
·11 pd. to exch. 500 Aug. for Oct.

JUTE BUTTS, BAGGING, &C.—Jute bagging has ruled quiet during the week under review at unchanged prices. The quotations this evening are 4 1/8c. for 1¾ lbs., 4 1/4c. for 2 lbs. and 5c. for standard grades in a jobbing way. Car-load lots of standard brands are quoted at 4 1/4c. for 1¾ lbs., 4 5/8c. for 2 lbs. and 5 1/4c. for 2¼ lbs. f. o. b. at New York. The market for jute butts has been dull at 1 1/4c. for paper quality, 1 5/8c. for mixing and 1 [illegible]c. for bagging quality.

SHIPPING NEWS.—The exports of cotton from the United States the past week, as per *latest mail* returns, have reached 15,785 bales. So far as the Southern ports are concerned, these are the same exports reported by telegraph and published in the CHRONICLE last Friday. With regard to New York we include the manifests of all vessels cleared up to Thursday.

	Total bales.
NEW YORK—To Liverpool, per steamer Taurio, 221	221
To Hull, per steamer Galileo, 401	401
To Bremen, per steamers Lahn, 1....Wittekind, 1,010	1,011
To Antwerp, per steamer Noordland, 277	277
To Genoa, per steamer California, 29	29
NEW ORLEANS—To Liverpool, per steamer Darien, 1,229	1,229
MOBILE—To Liverpool, per steamer Hesper, 3,240	3,230
SAVANNAH—To Barcelona, per steamer Citta di Messina, 4,700	4,700
BOSTON—To Liverpool, per steamers Boselanian, 251 ...Cambronnan, 4 Catalonia, 379 ... Lancastrian, 176 ... Scotsman, 1,071	1,881
BALTIMORE—To Bremen, per steamers Stuttgart, 115....Weser, 552	667
PHILADELPHIA—To Liverpool, per steamer Southwark, 1,239	1,239
PUGET SOUND—To Japan, per steamer ——, 900	900
Total	15,785

The particulars of these shipments, arranged in our usual form, are as follows:

	Liverpool.	Hull.	Bremen.	Antwerp	Barcelona & Genoa.	Japan.	Total.

BREADSTUFFS.

FRIDAY, July 19, 1895.

The market for wheat flour during the past week has been lifeless. Buyers have been very indifferent operators and would not trade except at concessions, which holders as a rule have not been disposed to grant. City mills have had only a limited call but prices have held steady. Rye flour has sold slowly and prices have weakened slightly. A fair business has been transacted in the choice grades of corn meal and prices have been advanced a trifle. To-day the market for wheat flour was dull and easy.

Despite less favorable crop advices from the Northwest and a small movement of the new winter-wheat crop, prices have gradually weakened under dull foreign advices, absence of an export demand for "cash" wheat and lack of speculative interest. In the spot market business has been quiet, though at the close of the week shippers showed more interest than at any time during the past month. The sales yesterday included No. 2 red winter at 1½c. over Sept. f. o. b. afloat and No. 1 hard at 4¾c. over Sept. f. o. b. afloat. To-day the market opened lower on disappointing foreign advices, but later rallied in sympathy with an advance in corn. The spot market was dull but steady. The sales included No. 1 hard at about 4½c. over Sept. f. o. b. afloat:

DAILY CLOSING PRICES OF NO. 2 RED WINTER WHEAT.

	Sat	Mon.	Tues.	Wed.	Thurs.	Fri.
July delivery.....c.	70⅜	71¼	71⅛	70⅜	69⅝	69⅝
August delivery.....c.	71⅛	71⅛	71¼	70⅞	69¾	69¾
September delivery....c.	71⅛	71⅜	71⅝	71¼	70⅛	70⅛

December delivery.....c	73⅞	74⅛	73⅞	73⅜	72¼	72¼
May delivery.....c.	....	....	76⅞	76⅛	75⅜	75¼

In the market for Indian corn futures the speculation has been quiet and prices have steadily declined under general selling, prompted by continued favorable prospects for the growing crop and dull and easier foreign advices. In the spot market shippers have been fairly large buyers but at declining prices. The sales yesterday included No. 2 mixed at 48¾@49c. in elevator, 49½@49¾c. delivered, and 1½c. over September, f. o. b. afloat; new No. 2 mixed for December and January shipment at 43¾c., f. o. b. afloat and yellow at 50¼c. delivered. To-day the market declined during early 'Change, but subsequently an active export trade stimulated a demand from "shorts" to cover contracts and prices advanced. The spot market was active, shippers having been large buyers. The sales included No. 2 mixed at 1¼c. over September, f. o. b. afloat; No. 2 white at 50¾c., f. o. b. afloat., and yellow at 50c. in elevator.

DAILY CLOSING PRICES OF NO. 2 MIXED CORN.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
July delivery.....c.	50⅜	49⅞	50	49⅝	....	48¼
August delivery.....c.	....	50	....	....	48⅝	48¾
September delivery....c.	51⅛	50½	50½	50⅛	49¼	48⅜

Oats for future delivery have been quiet, and prices have weakened slightly under favorable crop prospects and in response to easier advices from the West. The spot market has been irregular; white grades have been plentiful and prices have declined, but mixed grades have been in demand, part for export, and prices have advanced. The sales yesterday included No. 2 mixed at 28¾@29c. in elevator and No. 2 white at 31½c. in elevator. To-day the market was quiet and easy. The spot market was fairly active and steady for mixed; exporters were buyers. The sales included No. 2 mixed at 28¾@29c. in elevator and 30c. delivered; also No. 2 white at 31¼c. in elevator.

THE DRY GOODS TRADE.

NEW YORK, FRIDAY, P. M., July 19, 1895.

The demand for cotton goods has again shown some expansion, but in the instance of staples has still failed to come up to the expectations of sellers except in the matter of export business, and this is mostly confined to descriptions of brown goods which are sold so far ahead that there is difficulty in taking advantage of the business offered. The tone of the plain goods market continues firm, but prices are hardly better than a week ago. An occasional advance is reported, but on the other hand some buyers have secured merchandise at prices which were ineffectually bid recently. These irregularities are insignificant, as in a quiet time the market is hardly ever free from them no matter how good general conditions are. Reports from the West speak of a large distribution of fall merchandise in progress, and these reports are confirmed by the anxiety buyers show to secure quick delivery of goods already contracted for. With the opening of a number of lines of fine worsteds during the week, the new assortments of spring styles of men's-wear fabrics is nearly complete, but the price situation has not been simplified thereby, an irregular condition still prevailing. The high grades, like the lower, show in comparison with last season prices without change and both advances and declines, with however more lines higher than lower.

DOMESTIC COTTON GOODS.—The exports of cotton goods from this port for the week ending July 15 were 8,034 packages, valued at $352,912 their destination being to the points specified in the table below:

NEW YORK TO JULY 15.	1895. Week.	1895. Since Jan. 1.	1894 Week	1894 Since Jan. 1.
Great Britain	73	3,011	9	3,246

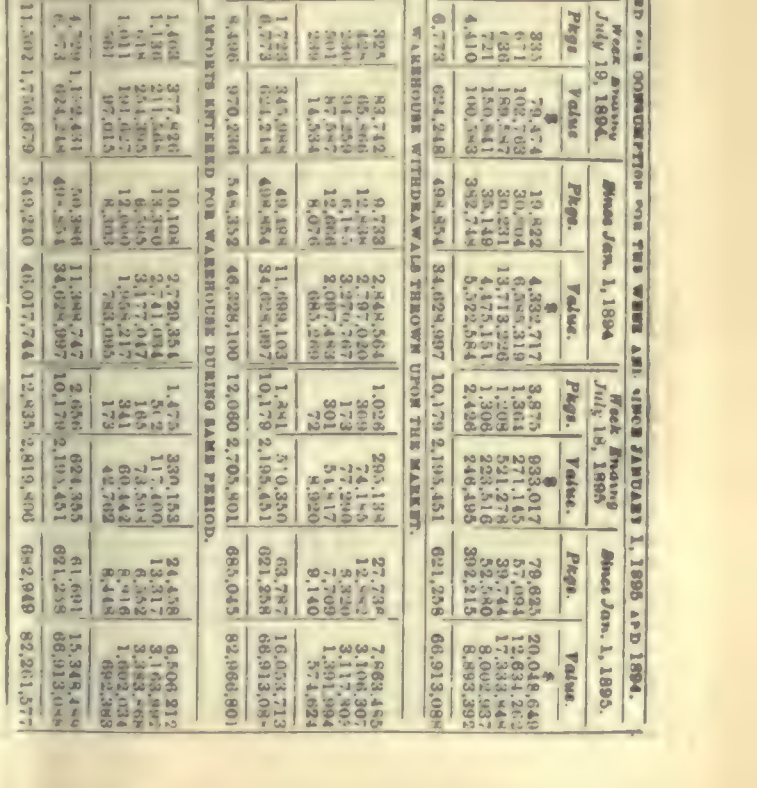
China, via Vancouver*	3,650	15,350	3,510	14,298
Total	11,[illegible]84	126,327	11,536	135,343

* From New England mill points direct.

The value of the New York exports for the year has been $4,943,289 in 1895 against $6,404,429 in 1894.

Heavy-weight sheetings and drills are in good request for export but the home demand has again been moderate. Prices are generally without change, but some four-yard makes, which are in exceptionally strong position, have been advanced 1/16c. to 1/8c. per yard. Low-grade bleached cottons are strong, with limited supplies, and in sympathy with print cloths; fine and medium grades quiet but firm. Denims are quiet and barely as firm as a little while ago, and in ticks, cheviots, checks and stripes, plaids and other coarse-colored goods, business is limited, with sellers not difficult to deal with at current prices. Wide sheetings quiet. Cotton flannels and blankets very firmly held. Kid-finished cambrics quiet on the basis of 3 1/2c. for 64 squares. Silesias, percalines, twills and other finished linings firm but demand moderate. Dark fancy prints firm, with current sales indifferent. In other prints an advance of 1/4c. in American blacks and grays the chief feature. Dark ginghams are dull; staples quiet but firm. There have been no sales of print cloths this week, sellers refusing 2 1/16c. for extras, the best buyers have bid. At the close most sellers have practically retired pending next week's developments, when a threatened strike may affect a number of Fall River Mills.



Stock of Print Cloths—	1895. July 13.	1894. July 14.	1893. July 15.
At Providence, 64 squares	182,000	302,000	147,000
At Fall River, 64 squares	55,000	542,000 }	181,000
At Fall River, odd sizes	99,000	228,000 }	
Total stock (pieces)	336 000	1,072,000	328,000

WOOLEN GOODS.—The new lines opened during the week include such fine grades as the Rock, Hockanum and other fine worsted fabrics. Most of these are opened at last season's prices, some at slight advances, and a few at slight declines. On the whole, the higher grade worsteds compare more favorably in price with last season than the lower-priced woolens. Buyers have again been in good attendance and business has been brisk in most grades, a number of mills being already so well sold ahead that agents are talking of withdrawing samples, a feature most noticeable in such lines as clays and other medium-priced varieties. Heavy-weights for immediate consumption have been in improved request at firm prices and the market is now in generally clean condition. Overcoatings have sold fairly in light weights in plain-faced goods. Cloakings are quiet. Flannels and blankets are strong, with an upward tendency. Woolen and worsted dress goods for fall are being re-ordered more freely at full prices and supplementary business is promising.

FOREIGN DRY GOODS.—Woolen and worsted dress goods have been in firm request. Mohairs strong and under good control. Men's-wear woolens for spring in medium-priced fancy worsteds have sold freely. There has been a moderate re-order business in silks at firm prices. Ribbons, linens, hosiery and underwear, etc., quiet and unaltered.

Importations and Warehouse Withdrawals of Dry Goods

The importations and warehouse withdrawals of dry goods at this port for the week ending July 18, and since January 1, 1895, and for the corresponding periods of last year are as follows:

* From New England mill points direct.

State and City Department.

TERMS OF SUBSCRIPTION.

The Investors' Supplement will be furnished *without extra charge* to every annual subscriber of the Commercial and Financial Chronicle.

The State and City Supplement will also be furnished *without extra charge* to every subscriber of the Chronicle.

The Street Railway Supplement will likewise be furnished *without extra charge* to every subscriber of the Chronicle.

The Quotation Supplement, issued monthly, will also be furnished *without extra charge* to every subscriber of the Chronicle.

TERMS for the Chronicle with the four Supplements above named are Ten Dollars within the United States and Twelve Dollars in Europe, which in both cases includes postage.

Terms of Advertising—(Per inch space.)

One time		$3 50	Three Months	(13 times)	$25 00
One Month	(4 times)	11 00	Six Months	(26 times)	43 00
Two Months	(8 times)	18 00	Twelve Months	(52 times)	58 00

(The above terms for one month and upward are for standing cards.)

The purpose of this State and City Department is to furnish our subscribers with a weekly addition to and continuation of the State and City Supplement. In other words, with the new facts we shall give, the amplifications and corrections we shall publish, and the municipal laws we shall analyze in the "State and City Department," we expect to bring down weekly the information contained in the State and City Supplement to as near the current date as possible. Hence every Subscriber will at all times possess a complete and fresh cyclopædia of information respecting Municipal Debts.

Bond Proposals and Negotiations.—We have received through the week the following notices of bonds recently negotiated and bonds offered and to be offered for sale.

Anaconda, Mont.—Six per cent 10 to 20 year city hall bonds of this municipality to the amount of $34,000 will be offered at public auction on August 5.

Arizona.—Proposals will be received until August 26, 1895, by P. J. Cole, Territorial Treasurer, for the purchase of $365,000 of 5 per cent funding bonds. Interest will be payable semi-annually in gold coin on January 15 and July 15, at New York, none of the bonds to be redeemed in less than 20 years from date of issue.

Athens, Ga.—A vote will be taken on issuing $25,000 of electric-light bonds.

Baltimore, Md.—Proposals will be received until July 29, 1895, for the purchase of $720,000 of 3½ per cent city bonds. The securities are dated March 1, 1895, and will mature in 1945.

Bayonne, N. J.—Five per cent 20-year school house bonds of Bayonne to the amount of $40,000 have been authorized by the council.

Bellows Falls, Vt.—Bids will be received until July 24 for the purchase of 4 per cent water-works bonds to the amount of $27,000, the loan to run 20 years.

Belmont, Wis.—Samuel I. Stein, Village Treasurer, reports to the Chronicle that an election held July 10 on issuing $3,000 of water-works bonds resulted in favor of the proposition by a vote of 69 to 24. The date of issue and details of the loan have not as yet been determined, but the bonds will probably bear interest at the rate of 5 per cent.

Bristol, Conn.—Proposals will be received until July 30, 1895, by Miles Lewis Peck, Warden, for the purchase of $50,000 of 4 per cent sewer bonds. The securities will be dated July 1, 1895, interest will be payable semi-annually on January 1 and July 1, and the principal will mature at the rate of $10,000 every five years from July 1, 1905, to July 1, 1925; both principal and interest will be payable at the Bristol National Bank. The bonds will be delivered August 7, 1895. The borough has only a floating debt of about $10,000 and its assessed valuation for 1894 was $2,600,000. The population, according to local figures, is about 5,500.

Canton, Ohio.—Proposals will be received until July 27, 1895, by F. H. Belden, City Clerk, for the purchase of $50,000 of 5 per cent refunding bonds. Interest will be payable semi-annually, and the principal will mature at the rate of $5,000 yearly in from three to twelve years from date of issue, the bonds to be payable at the banking house of Kountze Bros., New York, or at the office of the City Clerk, at the option of the purchaser.

The city's indebtedness consists of $190,000 of water works bonds, $176,625 of street improvement bonds and $343,400 of current expense bonds—total, $710,025; sinking fund, $65,960; net debt, $644,065. The assessed valuation for 1894 was $11,161,760; real valuation, $35,000,000. A low estimate of the present population is 35,000.

Cornwall, N. Y.—The village of Cornwall will sell at public auction on July 26, at 8 P. M., $55,000 of water-works bonds.

The official advertisement of this loan will be found elsewhere in this Department.

Des Moines, Iowa.—A call has been made for the payment of 4½ per cent warrant funding bonds dated November 1, 1886, and numbered from 46 to 209, inclusive, for $1,000 each, and 4½ per cent judgment bonds dated July 1, 1885, and numbered from 68 to 229, inclusive, for $1,000 each. The securities will be paid August 15.

Doon, Iowa.—There is a current report to the effect that the people of this municipality will vote on issuing bonds for water-works, but we are notified by C. Ross, Treasurer, that this proposition was voted down in the spring, settling the question for at least one year.

Fort Collins, Colo.—Robert S. Fedder, City Clerk, reports to the Chronicle that several firms are negotiating for the purchase of $105,000 of 5 per cent refunding water bonds of Fort Collins, but as yet nothing definite has been accomplished. Interest on the loan is payable semi-annually on February 1 and August 1 and the bonds mature August 1, 1915, with an option of call on or after August 1, 1900. The city has no other indebtedness than the $105,000 of water bonds, for the refunding of which the above-mentioned loan is to be issued, and its assessed valuation, which is 2-5 of actual value, for 1894 was $904,565; total tax rate (per $1,000) $49 50.

Hillsborough County, N. H.—Proposals will be received until July 31, 1895, by the Board of County Commissioners for the purchase of $35,000 of 4 per cent bonds, issued to refund a like amount of bonds maturing Sept. 1, 1895. The securities will be dated Sept. 1, 1895. Interest will be payable annually on Sept. 1, and the principal will mature Sept. 1, 1910.

The county's total debt is at present $252,000. Its assessed valuation for 1894 was $57,379,216.

Houston, Tex.—The special committee of the city's Common Council, appointed to investigate the advisability of bonding for improvements, has advised the issuance of city bonds to the amount of $1,000,000,

Laramie, Wyo.—Water-works bonds of Laramie to the amount of $40,000 will soon be issued.

Lewiston, Mich.—Water-works bonds to the amount of $3,500 have recently been sold.

Logan County, W. Va.—The people of this county have voted in favor of issuing $50,000 of railroad aid bonds.

Lorain, Ohio.—An election held July 10 on issuing $125,000 of water works bonds resulted in favor of the proposition.

Lowell, Mass.—There is a current report to the effect that sewer bonds of Lowell to the amount of $75,000 and paving bonds to the amount of $25,000 have been authorized by the Council, but we are notified by John H Harrington, City Treasurer, that the city does not contemplate the issuing of bonds of any description at present.

Mankato, Minn.—An election held July 10 on issuing $10,000 of electric-light bonds resulted in favor of the proposition.

Massachusetts.—Proposals will be received until to-day by E. P. Shaw, State Treasurer, for the purchase of a $300,000 3½ per cent Medfield Insane Asylum Loan. The securities will be dated April 1, 1895, interest will be payable semi-annually on April 1 and October 1, and the principal will mature April 1, 1915, both principal and interest to be payable in gold coin or its equivalent at the office of the State Treasurer.

Medford, Mass.—It is reported that this city has sold $149,000 of 4 per cent coupon building bonds to N. W. Harris & Co. at 104·215. The average time of the bonds is about fourteen years.

Morristown, Tenn.—Water-works bonds of Morristown to the amount of $30,000 have recently been sold.

Nebraska City, Neb.—Proposals will be received until August 15 for the purchase of 4½ per cent 5 20 year refunding bonds to the amount of $204,000.

Newark, N. J.—This city has placed a temporary loan to the amount of $140,000 at 3 per cent.

It is also reported that another loan of $160,000 will be negotiated during July.

New York City.—Sealed proposals will be received until July 23 by Ashbel P. Fitch, Comptroller, for the purchase of $489,939 24 of gold bonds and stocks of the city of New York, as follows:

LOANS—	When Due.	LOANS—	When Due.
Armory Bonds—		Police Department Bonds—	
3s, M&N, $270,500	Nov. 1, 1914	3s, M&N, $549·65	Nov. 1, 1925
Consolidated Stock—		School House Bonds—	
3s, M&N, $103,000	Nov. 1, 1914	3s, M&N, $110,889·59	Nov. 1, 1914

The loans are exempt from city and county tax, but not from State taxation.

New Britain, Conn.—This city has sold $50,000 of 4 per cent water bonds to R. L. Day & Co. at 103 296. The securities are dated August 1, 1893; interest is payable semi-annually in February and August at New Britain, and the principal will mature in 25 years, with an option of call after 15 years.

Thirteen bids were received for the loan as follows:

	Bid.
R. L. Day & Co	103·296
E. H. Rollins & Sons	103·241
Street, Wykes & Co	103·217
Blodget, Merritt & Co	103·167
Lentz, Dentson & Prior	103·133
W. J. Hayes & Sons	103·13
Geo. A. Fernald & Co	103·03
New York Life Insurance Co	102·345
N. W. Harris & Co	102·299
Middletown (Conn.) Savings Bank	102·81
Brewster, Cobb & Estabrook	102·51
State Bank, Hartford, Conn	100
Connecticut Safe Deposit Co	100

Nez Perce County, Idaho.—On July 8, 1895, the county of Nez Perce sold $85,000 of 6 per cent gold refunding bonds to Messrs. Roberts Bros. of Spokane, Wash., at par. Three bids in all were received. The securities will become due in 20 years.

Norwood, Ohio.—On July 12, 1895, the village of Norwood sold $2,332 50 of 6 per cent Monroe Avenue improvement bonds to August Voss, of Cincinnati, at 103 and accrued interest. The securities are dated June 20, 1895, and will mature in equal instalments in from one to ten years. Two other bids were received for the loan, one from Seasongood & Mayer, of Cincinnati, offering 102·32, and one from S. A. Kean, of Chicago, offering 102.

Olean, N. Y.—An election will be held July 24 on issuing $19,000 of water-works bonds.

Peoria, Ill.—On July 10, 1895, the city of Peoria sold $420,000 of 6 per cent special assessment bonds to O. J. Bailey, of Peoria, at 101·35, he to pay cost of printing the bonds. The securities mature part yearly in from one to six years. They are issued for street paving and the construction of the West Bluff sewer system.

Philadelpeia, Pa.—Proposals will be received until July 22, 1895, by Charles F. Warwick, Mayor, for the purchase of $964,500 of 3 per cent improvement bonds as follows:

Series "A," $30,000, falling due Dec. 31, 1905; Series "B," $40,000, falling due Dec. 31, 1906; Series "C," $40,000, falling due Dec. 31, 1907; Series "D," $40,000, falling due Dec. 31, 1908; Series "E," $40,000, falling due Dec. 31, 1909; Series "F," $37,500, falling due Dec. 31, 1910; Series "G," $40,000, falling due Dec. 31, 1911; Series "H," $40,000, falling due Dec. 31, 1912; Series "I," $57,000, falling due Dec. 31, 1913; Series "J," $60,000, falling due Dec. 31, 1914; Series "K," $60,000, falling due Dec. 31, 1915; Series "L," $60,000, falling due Dec. 31, 1916; Series "M," $60,000, falling due Dec. 31, 1917; Series "N," $60,000, falling due Dec. 31, 1918; Series "O," $60,000, falling due Dec. 31, 1919; Series "P," $60,000, falling due Dec. 31, 1920; Series "Q," $60,000, falling due Dec. 31, 1921; Series "R," $60,000, falling due Dec. 31, 1922; Series "S," $60,000, falling due Dec. 31, 1923. Interest will be payable semi-annually on January 1 and July 1. The securities are exempt from all taxes, and settlement in full must be made before 3 P. M. July 30, 1895.

Plainfield, N. Y.—It is reported that $100,000 of 4 per cent sewer bonds of Plainfield have been awarded to Messrs. Harvey Fisk & Sons at par.

Plainview, Minn.—Proposals will be received for the purchase of $10,000 of water-works bonds.

Portsmouth, N. H.—A proposition to issue $150,000 of bonds to complete the sewerage system has been submitted to the Council.

Rockwell City, Iowa.—On July 15, 1895, the town of Rockwell City sold $7,000 of 6 per cent water-works bonds to W. J. Hayes & Sons, of Cleveland, Ohio, for $7,309 flat. Interest will be payable semi-annually in January and July at Rockwell City, and the principal will mature July 1, 1915. Five bids were received for the loan as follows:

	*Amount bid.
Duke M. Farson, Chicago	$7,006 00
S. A. Kean, Chicago	7,017 50
C. E. Swift, Harlan, Iowa	7,280 00
Trowbridge & Co., Chicago	7,308 00
W. J. Hayes & Sons, Cleveland	7,309 00

* Flat prices.

NEW LOANS.

$2,500,000

ESSEX COUNTY, N. J.,

PARK BONDS.

The Board of Chosen Freeholders of the County of Essex, N. J., proposes to issue bonds to the aggregate amount of $2,500,000 pursuant to the provisions of Chapter XCI. of the Acts of 1895 which act has been approved by a vote of the people of said county, for the purpose of establishing a system of Parks and Parkways for said county.

These bonds will be dated August 1, 1895, payable as follows:

$500,000 August 1, 1915.
$500,000 August 1, 1930.
$500,000 August 1, 1925.
$500,000 August 1, 1930.
$500,000 August 1, 1935.

They will be of the denomination of $1,000 each, will bear interest at three and one-half per one-hundredths (3 01-100) per cent per annum, payable semi-annually, will be coupon bonds with the option to the holders to have them registered or exchanged to registered bonds, will be executed by the county officers, and the whole issue duly countersigned, principal and interest payable in gold coin.

The proceeds will be required for use by the Park Commissioners, from time to time during a period of not less than two nor more than three years. At least $500,000 will be required during the present year.

The County of Essex has a population of 300,000, and an assessed valuation of $178,187,892. Its present total indebtedness is $2,625,000 or less than one-half of one per cent of the assessed valuation.

The net number which the bonds are issued requires the annual levy of a county tax sufficient to meet its interest and principal when due. A county tax for any purpose is collected in preference to payment over local taxes for municipal purposes.

Sealed proposals will be received by the Finance Committee of the Board of Chosen Freeholders, at a meeting to be held at said Committee at the Freeholders' room in the Court House, at Newark, N. J., on Tuesday, July 30, 1895, at 3 o'clock P. M., which meeting will remain open until 4:30 P. M. Proposals should be

1. For the whole of said bonds to be issued at once.
2. For the whole amount to be issued in instalments of not less than $500,000 during a period not exceeding three years.
3. For any part of said bonds.

The purchaser to pay the interest accrued on said bonds to the time of delivery.

Certified checks to be received at any time prior to 4 P. M.

The Finance Committee reserves the right to reject any and all proposals if in its judgment the interest of the county requires such action.

By order of the Finance Committee.

D. H. JOHNSON, Chairman.

Roseau County, Minn.—Proposals will be received until July 17, 1895, by the Board of County Commissioners, for the purchase of $8,000 of 6 per cent county bonds. Interest will be payable annually in New York, and the principal will mature in 10 years.

Shawnee County, Kansas.—Proposals will be received until August 1 for the purchase of $25,000 of court-house bonds, the loan to bear interest at the rate of 4 per cent and to run 30 years.

Shawneetown, Ill.—Notice has been given that funding bonds of Shawneetown dated July 1, 1881, and numbered 12, 13, 14 and 15, for $1,000 each, will be paid on presentation at the American Exchange National Bank, New York, on Sept. 1, 1895, on and after which date interest will cease.

St. Johns, Mich.—On July 11, 1895, the village of St. Johns sold $35,000 of 5 per cent electric-light bonds to Messrs Steel, Smith & Co., of Detroit, at par.

St. Paul, Minn.—Bids received on July 13 for 400 certificates of indebtedness of the denomination of $500 each were as follows:

	Bids for Each Cert.
Blake Bros. & Co., Boston	$503·15
Brewster, Cobb & Estabrook, Boston	503·38
St. Paul National Bank, St. Paul	503·76¾
E. W. Peet & Son, St. Paul	504·66
Merchants' National Bank, St. Paul	504·88
W. J. Hayes & Sons, Cleveland	505·15
St. Paul Title Insurance & Trust Co.	505·15⅛
Capital Bank, St. Paul, for 50 certificates	505·27

The loan was awarded to the St. Paul Title Insurance & Trust Co. for a premium of $2,062, or a total amount of $202,062. The securities are dated July 15, 1895, interest at the rate of 5 per cent is payable semi-annually, and the principal will mature August 15, 1896.

Toledo, Ohio.—Proposals will be received until August 7 by M. S. Wright, City Auditor, for the purchase of 5 and 4½ per cent street improvement bonds to the amount of $17,084.

Upshur County, Tex.—Jail bonds of this county to the amount of $3,000 have been issued.

Utica, N. Y.—On July 16, 1895, the city of Utica sold $47,266 89 of 4 per cent paving bonds to Isaac W. Sherrill, of Poughkeepsie, for a premium of $25. The securities are dated March 1, 1895. Interest will be payable annually, and the principal will mature part yearly in from one to six years.

J. A. Cantwell, City Clerk, reports to the CHRONICLE that within a month or so the city will offer for sale $7,000 of 4 per cent school bonds and $8,000 of 4 per cent bridge bonds.

Waterbury, Conn.—On July 15, 1895, the city of Waterbury sold $200,000 of 4 per cent water bonds to W. J. Hayes & Sons at 104·27 and accrued interest. The securities are dated July 1, 1895, interest will be payable semi-annually on January 1 and July 1, and the principal will mature July 1, 1910. Eleven other bids were received for the loan as follows: Blair & Co., 102·75; Street, Wykes & Co., 103·33; N. W. Harris & Co., 103·689; E. H Rollins & Sons, 104·07; Deitz, Denison & Prior, 102·47; New York Life Insurance Co., 102·856; Blodget, Merritt & Co., 103·38; Geo. A. Fernald & Co., 103·513; R. L. Day & Co., 103·697; E. H. Gay & Co., 103·66; Lamprecht Bros. Co., 104·05.

Wayne County, Ohio.—Fifteen year court-house bonds to the amount of $15,000 have been awarded to Messrs. Brewster, Cobb & Estabrook.

West Hoboken, N. J.—Twelve bids were received on July 17 for $35,000 of 5 per cent school bonds, a list of which is given below:

	Bid.
C. Zabriskie	104·34
Sprain, Dickinson & Co.	104·43
Farson, Leach & Co.	101·70
W. E. R. Smith	103⅜
Benwell & Everitt	103·41
Street, Wykes & Co.	101·71
Storrs & Smith	103·57

Specimen copies of THE LIVING AGE, 15 cents each. ☞ Rates for clubbing THE LIVING AGE with other periodicals will be sent on application. Address,

LITTELL & CO., Boston.

Yonkers, N. Y.—Bonds to the amount of $100,000 have been recommended by the Council for the erection of a new city-hall building.

Assessment bonds to the amount of $35,000 will soon be issued.

Youngstown, Ohio.—Proposals will be received until July 22, 1895, by J. Howard Edwards, City Clerk, for the purchase of $1,100 of 5 per cent Loveless Avenue grading bonds. Interest will be payable semi-annually, and the principal will mature at the rate of $200 yearly from October 1, 1897, to 1900, and $300 on October 1, 1901, both principal and interest to be payable at the office of the City Treasurer.

The citizens of Youngstown have voted in favor of issuing $160,000 of water works extension bonds.

STATE AND CITY DEBT CHANGES.

We subjoin reports as to municipal debts received since the last publication of our STATE AND CITY SUPPLEMENT. Some of these reports are wholly new and others cover items of information additional to those given in the SUPPLEMENT and of interest to investors.

Scranton, Pa.—W. L. Connell, Mayor. This statement regarding the finances of the city of Scranton has been corrected to April 1, 1895, by means of the report of Fred J. Widmayer, City Comptroller.

This city is in Lackawanna County.

TAX FREE.—All bonds issued by this city are exempt from taxation.

TOTAL DEBT—The subjoined statement shows Scranton's indebtedness on the dates mentioned.

	Apr. 1, '95.	*July*, 1894.	*Jan.* 1, '94.	1892.
Total bonded debt	$762,000	$528,500	$528,500	$605,000
Floating debt	55,589	259,056	119,247	None.
Total municip. debt	$817,589	$787,556	$647,747	$605,000
Less sinking funds, &c.	143,427	242,215	146,912	158,017
Net debt	$674,162	$545,341	$500,835	$446,983

In addition to the above-stated assets, the City of Scranton purchased bonds of the issue of 1893, 4½ per cent, to the amount of $121,000 and one $500 bond of the issue of 1876, 6 per cent, No. 80, for the benefit of its sinking fund. An exchange was effected by which $17,000 was transferred from the 1893 issue to that of 1876, leaving a balance of $104,000 in the 1893 issue and giving the 1876 issue a credit of $17,500.

ASSESSED VALUATION—The city's assessed valuation (about one-third cash value) and tax rate have been as follows:

Years.	*Real Estate.*	*Personal Property.*	*Total Assessed Valuation.*	*Rate of Tax per $1,000.*
1894	.....	.....	$19,290,180	.....
1893	.....	.....	*18,988,565	.....
1892	$17,545,388	$1,067,385	*18,612,773	$27·63
1891	16,764,609	1,282,705	*18,046,314	26·90
1890	15,190,294	*1,189,540	16,385,834	.....
1880	4,[illegible]871	97,934	4,680,805	.....

*This amount includes occupations as well as other personal property.

POPULATION—In 1890 population was 75,215; in 1880 it was 45,850; in 1870 it was 35,092; in 1892, according to local estimate, it was 80,000.

THE MONETARY TRUST,
50 BROADWAY, NEW YORK.
Speculative Investment.
Permanent Investment.
This new financial institution has been established under authority from the State of New York upon principles that have long commended themselves to investors. It is designed to aid investors in the profitable use of money. It cannot legally engage in speculative operations, but will transact business for its own account. It is the only incorporated institution in New York legally authorized to act in a disinterested position between and accommodate Banks or private individuals who will be advised concerning safe investments with, and assisted in the purchase and sale of securities on the New York Stock Exchange by Messrs. Carley & Co., members thereof. Those investors who desire to obtain more than simple interest will be aided in securing bonds or shares which the officers of the Company believe good assets could be selected with a prospect of future appreciation. Parties who require to use money on the customary call loan basis will find this institution willing to lend money on Stock Exchange collaterals. Depositors can be allowed interest on daily balances, subject to check at sight, or on certificates of deposit for a stipulated time.
EVAN S. DE CARLEY, President.
LEON T. ROSENBAUM, Vice-President.
GODFREY MORRELL JARVIS, Treasurer.
F. A. ROSENGARTEN, Secretary.

POST OFFICE BOX 958. **NEW YORK.**

CLEARING HOUSE RETURNS.

The following table, made up by telegraph, etc., indicates that the total bank clearings of all the clearing houses of the United States for the week ending to-day, July 27, have been $943,841,289, against $991,184,191 last week and $745,213,295 the corresponding week of last year.

Clearings. Returns by Telegraph.	Week Ending July 27. 1895	1894.	Per Cent.
New York	$472,[illegible]174	$[illegible]41,140	-29 2
Boston	76,545,233	55,870,580	+37 5
Philadelphia	55,[illegible]297	44,894,778	+24 1
Baltimore	9,451,841	9,911,775	— 0 9
Chicago	69,2[illegible]174	62,942,281	+10 0
St. Louis	18,015,577	16,153,980	+11 5
New Orleans	4,[illegible]709	4,911,055	— 3 6
Seven cities, 5 days	$[illegible]48,344	$521,147,469	+29 1
Other cities, 5 days	127,[illegible]261	102,013,463	+25 3
Total all cities, 5 days	$[illegible]909,[illegible]05	$623,[illegible]932	+28 0
All cities, 1 day	158,901,784	122,[illegible]363	+30 2
Total all cities for week	$943,841,289	$745,213,295	+26 7

The full details of clearings for the week covered by the above statement will be given next Saturday. We cannot, of course, furnish them to-day, bank clearings being made up by the various clearing houses at noon on Saturday, and hence in the above the last twenty-four hours of the week have to be in all cases estimated, as we go to press Friday night.

Our usual detailed figures for the previous week, covering the returns for the period ending with Saturday noon, July 20, are given below, and we also present the results for the corresponding week in 1894, 1893 and 1892. In comparison with the preceding week there is a decrease in the aggregate exchanges of a little less than seventy-three million dollars, and at New York the loss is forty million. Contrasted with the week of 1894 the total for the whole country shows an increase of 23·4 per cent. Compared with the week of 1893 the current returns record an excess of 4·6 per cent and the loss from 1892 is 4·6 per cent. Outside of New York the gain over 1894 is 16·7 per cent. The excess over 1893 reaches 11·6 per cent, but making comparison with 1892 the decrease is seen to be 4·5 per cent.

THE FINANCIAL SITUATION.

One of the most important features of the week is the gain in receipts from Customs and internal revenue by the Treasury. The statements for the 24th and 25th of July show aggregate receipts for those two days of $1,516,169 42 from Customs, $858,350 88 from internal revenue and $115,603 49 from miscellaneous sources, making the total receipts for the two days $2,490,123 79. The total expenditures for the same days were $1,542,000, which indicates an excess of receipts of $948,123 79. For the month to July 25 the receipts from Customs were $11,532,761 84, from internal revenue $10,716,179 62 and from miscellaneous sources $2,116,767 08, making a total to that date of $24,365,708 54. The expenditures for the same period were $36,649,000, showing a deficiency of $12,283,-291 46.

The estimates made toward the end of the last month and published by us July 6 (page 2) were of a deficiency of not more than $10,000,000 for July. In order to reduce the present deficiency to that figure there must be an average gain of a little more than $400,000 per day for the remaining five business days of the month, and it is perhaps scarcely probable that the gain will be as much as that. It is to be said though that all the heavy payments had been completed at the date named (July 25), the total for pensions then being $12,587,000, while $7,107,000 of the interest paid had been charged off; hence disbursements for the remainder of the month must be quite small. The matter of the sugar bounties, amounting to $5,200,000, will come up on a hearing before the comptroller of the Treasury on August 7. If the decision of that official should be in favor of their prompt payment, it is likely that the disbursements for August will exceed the receipts instead of there being a gain for that month as previously estimated.

A most gratifying fact in the general situation is that the outlook for our grain crops continues in the highest degree favorable. As far as corn is concerned —and that is the crop which exceeds all others in importance in its effects on our industries—the conditions up to date have been almost perfect. All reports are agreed as to that, and the prospect is for the very largest production in the history of the country—barring of course an early frost or some other untoward development between now and the maturity of the crop, and with each day the probability of harm becomes less likely. The indications also point to a very heavy production of oats. As regards spring wheat, reports have been current latterly of considerable injury from smut, which it was claimed altered very materially the bright outlook of a few weeks ago. On the strength of these reports and the very small receipts of wheat in the winter-wheat districts (where the falling off is responsible for the losses in earnings reported by some of the roads) the price of wheat has this week sharply advanced. But the New York "Times" yesterday had a long telegram from Duluth giving what looks like a very careful and conservative review of the situation, and this states that injury from smut is confined to a few limited sections and does not cut much of a figure in the general outlook. The conclusion is reached that in Minnesota and the two Dakotas "a wheat crop exceeding in volume even that of 1891, the banner year in the history of the country, may be expected, unless something unforeseen should damage the grain—and that something must come at once to do any damage, for in a few days the harvest will be well under way."

The general industrial outlook also keeps very promising, and with a realization of the present gratifying prospects for corn, for oats and for spring wheat the revival in business may be expected to make further very decided headway. The iron trade reflects this encouraging state of things. In another article today we show how greatly the make of iron in the first half of this year increased as compared with the very small total of a year ago. The "Iron Age" in its review of the market for the week gives currency to a report which it says emanates from Pittsburg, that the leading concern in that city has again appeared as a heavy buyer of Bessemer pig, taking about 125,000 tons at private terms for delivery well into 1896. The example thus set, it says, has been followed by at least one other large concern. It also notes an increase in the orders for rails. During the first half of 1895 these orders aggregated 713,000 tons, as compared with 502,000 tons in the first half of 1894; the deliveries were 470,000 tons, against 340,000 tons.

The Pennsylvania Railroad, we need hardly say, is very greatly benefitted by the activity in the iron and steel trades and the improvement in general business. The company has this week issued its return for the month of June, and it affords evidence of the greatly changed state of things as between this year and last. On the lines east of Pittsburg and Erie an increase in gross earnings is reported in the sum of $826,018 and on the lines west of Pittsburg and Erie an increase of $548,132, making together $1,374,-150, and the lines separately operated, like the Northern Central, the Allegheny Valley, &c., also show considerable gains. With larger receipts, the managers are able to increase their outlays, and through these increased disbursements business activity is still further stimulated. On the lines east of Pittsburg and Erie the expenses were added to in amount of $690,021, and on the lines west of Pittsburg and Erie in the sum of $194,714. In other words the Pennsylvania Railroad on merely the lines directly operated spent for labor and supplies nearly nine hundred thousand dollars more in June 1895 than in the same month of 1894. Of course last year things were at the lowest ebb, the strike of the bituminous coal operators, which was not terminated until the 18th of the month, acting along with the other disturbing factors to reduce earnings to very small figures; the loss in gross receipts on the combined lines then was $2,784,583 and the reduction in expenses $1,526,159. The increase the present year has been, as stated, $1,374,150 in gross and $884,-735 in expenses. Thus only about one-half of last year's falling off has been recovered, but the extent of this recovery indicates what considerable progress has already been made; as the circle of business activity widens and expands, the revenues of the system may be depended on to reach their former large proportions again.

One unfavorable factor in the present year's results has been the very low freight rates received. Great efforts are now making to secure an improvement in that respect. It will be remembered that in June the rate situation among the trunk lines became so bad that the presidents found themselves obliged once more to get together and seek to provide a remedy. As a result of that meeting, as will also be recalled, it was resolved to restore rates on and after the 8th of July.

The restoration was made as agreed upon, but some outstanding contracts entered into at the low cut rates have proved disturbing to some extent. The managers are fully determined, however, to carry out the agreement, and the meetings this week here in New York and at Manhattan Beach have been held with that end in view. These meetings, it is satisfactory to note, have been attended with a large measure of success. Whatever plan may finally be agreed upon for securing the maintenance of rates, there can be no doubt that the officials are in earnest in their efforts to prevent a relapse into the former chaotic state of things.

There has been no special change in money expcept that banks report a better inquiry from their interior correspondents. This demand some of our Clearing-House institutions state has been on the increase for the last twenty days, while all who have heavy Western and Southern accounts inform us that re-discounts are now larger for both sections. There seems likewise to be a good demand springing up among regular customers, discounts over the counter being more active and at better figures. Money on call continues in abundant supply and loans are almost uniformly made at 1 per cent at the Stock Exchange, with small amounts at 1½, making the average less than 1½ per cent. Banks and trust companies quote 1 per cent as the minimum. For time loans the offerings are liberal for short dates, but very few of the banks are disposed to make engagements extending beyond the end of the year. The inquiry for long dates is chiefly met by the trust companies and other institutions. Quotations are 2 per cent for thirty to sixty days, 2½ per cent for ninety days and 3 per cent for four to five months, with some business at 3½ per cent for longer periods. Rates for paper at Boston have been lower than here this week and institutions there have been taking some paper in this market. Discounting to regular customers of the banks is done generally at 5 per cent, and the recent marking up of rates for paper seems to have resulted in the absorption of accumulations in the hands of brokers, and the demand continues good. Rates are 3 per cent for sixty to ninety day endorsed bills receivable, 3½@4 per cent for four months' commission house and prime four months' single names, 3½@4½ per cent for prime six months' and 4½@5 per cent for good four to six months' single names.

The feature of the situation in Europe this week has been an unsettled feeling until Thursday in the London market, owing to the apprehensions of political troubles in Bulgaria and of serious complications in China. The cable on Thursday reported a recovery in the tone in London. The rate of exchange at Paris on London is reported by cable at 25 francs 27½ centimes, indicating a movement to London, there appearing to be a large accumulation of funds in Paris, which has caused the open market rate to fall to 1 per cent (being within ⅛ of 1 per cent of the lowest rate on record), though yesterday the rate was slightly higher again at 1½ per cent. The Bank of England minimum rate of discount remains unchanged at 2 per cent. The cable reports discounts of sixty to ninety day bank bills in London 9-16 of 1 per cent. The open market rate at Paris, as stated above, is 1½ per cent, and at Berlin and Frankfort it is 1½ per cent. According to our special cable from London the Bank of England gained £437,633 bullion during the week and held at the close of the week £37,961,372. Our correspondent further advises us that the gain was due to the import of £391,000 (of which £237,000 were bought in the open market and £154,000 were from Australia), to receipts from the interior of Great Britain of £74,000 and of exports of £27,000, of which £15,000 were to Malta and £12,000 to Paris.

The foreign exchange market has been dull and steady to firm this week, with a very light counter demand and a great scarcity of bankers' and commercial bills. The few security drafts which have been offered were chiefly on old negotiations, and there does not appear to have been any drawing as yet against securities recently placed. Bankers report that cotton futures, deliverable in sixty to ninety days, are still held at very high figures, and a line of grain bills deliverable in London August 15 has been offered at 4 88½, the highest ever known. Bankers who last week bought some cotton futures and drew their bills against them have this week refused to pay the price demanded and they have done little or nothing in the market. Indeed the smaller exchange houses who have no connection with the Syndicate are doing a very light business at unusually small profits, while the larger houses appear to be chiefly engaged in handling the various classes of Syndicate bills. Rates for actual business in sterling opened on Monday at 4 89@4 89½ for sixty day, 4 90@4 90½ for sight and 4 90½@4 90½ for cable transfers. It was reported that some bankers were making more than the usual recent concessions, but rates were not quotably lower and the tone was steady, and it so continued on the following day. On Wednesday rates were a shade firmer and on the next day the market was strong, especially for long sterling and cable transfers, and the former was quoted at 4 89½ bid. With this exception rates ruled during the week at figures which have been maintained for actual business since July 9. Francs were lower and guilders were fractionally easier, but these were the only alterations in Continental exchange. The concensus of opinion among bankers appears to be that there will be no material change in the tone of the market for sterling for the present and not until there are more liberal offerings of commercial bills at reasonable prices. The following table shows the daily posted rates for exchange by the leading drawers.

		Fri., July 19.	Mon., July 22.	Tues., July 23.	Wed., July 24.	Thurs., July 25.	Fri., July 26.
Brown Bros.	60 days	89½	89½	89½	89½	89½	89½

Merchants' Bk. of Canada	60 days	90	90	90	90	90	90
	Sight	91	91	91	91	91	91

The market closed firm on Friday at 4 89½@4 90 for sixty-day and 4 90½@4 91 for sight. Rates for actual business in sterling were 4 89@4 89½ for long, 4 90@4 90½ for short and 4 90½@4 90½ for cable transfers. Prime commercial bills were 4 88½@4 88¾ and documentary 4 88@4 88½. On Wednesday and again on Thursday Nesslage, Colgate & Co., bullion dealers, shipped gold to Europe, sending $100,000 smelters' bars on Wednesday and $130,000 gold coin obtained from the Treasury on the following day. Yesterday one of the Canadian banks shipped $120,000 gold to Canada.

We have referred above to the very large gains in earnings shown by the Pennsylvania Railroad in its re-

turn for the month of June. On the lines east of Pittsburg and Erie there is an increase of $826,018 in gross and an increase of $135,997 in net, and on the lines west of Pittsburg and Erie an increase of $548,132 in gross and of $353,418 in net; for the combined system the addition is $1,374,150 in gross and $489,415 in net. As already pointed out, these gains though large are much smaller than last year's losses. In June 1894 business, as will be remembered, remained exceedingly depressed, and the bituminous coal strike acted at once to cut off a great part of the traffic in coal (which on the Pennsylvania Railroad is enormous) and to bring the iron industry, from which also the Pennsylvania derives such a large traffic, almost to a standstill. Towards the close of the month the railroad strike came in as a further disturbing factor. As a result of these causes, the gross earnings on the combined system in that month last year fell off $2,784,583 and the net earnings $1,258,424, while the present year, as stated, we have $1,374,150 increase in gross and $489,415 increase in net. The following gives the figures of the Eastern lines for six years—for June and the six months:

Lines east of Pittsburg.	1895.	1894.	1893.	1892.	1891.	1890.
June.	$	$	$	$	$	$
Gross earnings....	4,988,299	4,162,281	5,782,462	5,592,835	5,440,655	5,172,004
Operat'g expenses.	4,037,468	3,337,447	4,352,556	4,429,410	4,053,099	4,114,919
Net earnings...	960,831	824,834	1,429,907	1,163,425	1,387,556	1,057,085
Jan. 1 to June 30.						
Gross earnings.....	29,558,777	26,248,178	33,985,417	32,695,452	31,475,411	31,958,511
Operat'g expenses.	21,913,420	19,377,459	25,049,951	23,838,014	22,407,326	22,982,260
Net earnings...	7,645,357	6,870,719	8,935,466	8,857,438	9,068,085	8,976,251

It will be observed that for the six months results are $3,310,599 better the present year in the gross and $774,638 better in the net than in the half-year of 1894. At the same time there has been a recovery of $1,903,218 in gross and of $1,078,860 in net on the Western lines, making together an improvement of $5,213,817 in gross and of $1,853,498 in net on the combined lines.

The Allegheny Valley, one of the Pennsylvania roads operated separately, reports for June $57,098 increase in gross and $27,592 increase in net; and the Northern Central, another Pennsylvania road, $30,551 increase in gross but $11,441 decrease in net. The Central of New Jersey has $87,335 decrease in gross, $48,780 decrease in net; the Western Maryland $14,033 decrease in gross, $13,196 decrease in net; the Pittsburg Youngstown & Ashtabula $80,972 increase in gross, $41,215 increase in net; and the Chesapeake & Ohio $80,191 increase in gross and $37,483 increase in net. The Chicago & North Western does not report net earnings monthly, but in the gross has $45,537 increase; the St. Paul & Omaha, however, has $132,875 decrease in gross.

Name of Road—		*June Earnings.* 1895.	1894.	1893.	1892.
		$	$	$	$

FREE SILVER IN GEORGIA.

Secretary Hoke Smith has gone to his own State, Georgia, and is there doing the same kind of missionary work in behalf of sound money Secretary Carlisle so ably and effectively did in Kentucky. Secretary Smith spoke this week at Gainesville and also at Columbus to good audiences. At Gainesville the crowd collected from the surrounding country to hear him was so great that the local committee requested the city people would not attend as "the large County Court House" would be inadequate "to hold all the country people who had come from a distance," and who ought to have the first chance. Such demonstrations only evidence again the little depth there is to the sentiment which supports the free-silver coinage idea, the eagerness of the people to get at the facts, and the way best adapted for giving the planters the opportunity of learning them.

No doubt the preparing and circulating of sound money literature is a highly important agency, and the Reform Club is doing a good work in that way through its Sound Money Committee. But after all the documents they issue are chiefly useful in giving facts and thoughts to the local speakers. When a farming population is to be reached it must be through public meetings and public addresses. As a class they do not sit down to read after their day's work is finished. They gain their knowledge even about farming from experience and from word of mouth rather than from books. It was that thought that led us in our articles with reference to "A Sure Way to Defeat Free Silver" to estimate printed matter as comparatively of no account and to lay such stress upon public meetings as an effective method for disseminating the truth. It is to this same condition—the condition of being ordinarily shut in to their own thoughts and the local political busy-bodies—that makes a term of industrial depression and a return of industrial prosperity such important influences in forming and re-forming currency ideas. The pinch is felt as an actuality on every farm and in every home; more money is the want, so the politicians' suggestion to make cheaper money and more of it seems to be the logical cure, until business revives without the change and destroys the argument; then the farmer not only becomes ready to believe the

truth, but craves to hear from some source other than his neighbor, whose logic has been proved faulty, the other side of the question.

Secretary Smith's address at Gainesville, so far as we have seen it reported, was confined to a demonstration of the impracticability of free silver coinage by the United States alone and the fatality to our industrial activity which its adoption would carry with it. He proved his case by reviewing the various occasions when our own Government and the occasion when the Latin Union alone attempted to hold the two metals at a fixed ratio. He showed that we were unable to keep the value of silver up to gold under the free coinage act of 1792, that we were unable to keep gold up to silver under the free coinage act of 1834, and that France and her associates in the Latin Union found themselves unable to keep silver up to gold in 1874. With the failure so clearly established in the case of each of these practical tests under far more favorable circumstances for success than attend the present proposed venture, the free coinage advocates are found to be simply seeking to pass an act to place the currency of the country on a silver basis. Consequently as soon as through an election or otherwise it might become evident that the Government was committed to that policy, business affairs would be thrown into worse confusion than ever before existed. Of course, in the panic which would follow all industry would be arrested, all confidence would be destroyed, and instead of an expansion of the currency there would likewise be a sudden contraction by the disappearance of all the gold in circulation and all now held as reserves by the Treasury and the banks.

But we have presented these matters so fully and on so many previous occasions that they do not need to be dwelt upon now. Besides, our readers are not so much interested in what the Secretary said as they are in the fact that he has taken up the fight among his own people, and that he is pushing it earnestly and with encouraging prospects, and is doing it all for the country at his own expense in the dearth of other equally good material for public speaking willing to enlist on that side of the question. That is to say, a hard-worked, meanly-paid Cabinet Officer has to add to his other duties and other expenses this missionary work in behalf of the people's industries.

There is one suggestion worth making that occurs to us, though it has no direct connection with the matter under discussion. It would be in every way a wise act if the next Congress were to pass a law materially increasing the salaries of Cabinet Officers. What they now receive cannot cover more than one-third of the expenses they are put to in fulfilling the duties of their office at Washington. Congress could if it preferred make the act apply to the next and subsequent administrations and thus give it a wholly non-partisan character. That of course would not do justice to the present incumbents, but it would correct a great wrong. Eight thousand dollars for a Cabinet Officer is much worse than nothing. It is an assumption of paying the outgoes at least. Much better would it be if the President's Ministers gave their services without a dollar of salary than to pay the present trifling sum. Either let us make the position wholly honorary and thus have it clearly understood that republican America believes in the un-democratic idea of making it difficult or impossible for men of moderate means to accept these positions, or else affix to the office sufficient compensation to meet the outgoes and pay for the service.

THE LATE AND THE NEXT INTERNATIONAL RAILWAY CONGRESS.

Most of the American delegates to the International Railway Congress recently held in London have now returned to this country, and they all agree in saying that the occasion was a very interesting one, and that they derived both pleasure and instruction from their attendance upon the sessions of the Congress and from the various excursions and tours of inspection upon which the members of that body were taken. They are loud in their praises of the careful way in which the arrangements were carried out, and the great hospitality which the visiting delegates received at the hands of the English railway officials and the British public. The members of the Congress were entertained in a most lavish manner, and everything was done to promote their comfort and to give them an insight into the workings of the British railways—admitted to be among the best in appointment and management in the world.

This was the first time that American railroad men had taken an active interest in one of these international congresses, and we do not know but that some of them felt a little doubtful whether it would pay them for their trouble to take a trip across the ocean. Moreover, even on this occasion their interest had been enlisted rather tardily, the plans for the convention having all been made before it became certain that any considerable body of United States roads would be directly represented at the meeting in London. For this reason the American delegates did not take as conspicuous a part in the proceedings as would otherwise have been the case. Still, some valuable papers were contributed by them, notably one on Light Railways, by Mr. Haines, the President of the American Railway Association and Vice-President of the Plant System, and another by the Pennsylvania Railroad on the Use of Electric and Pneumatic Signals.

Aside from the convention itself, and the knowledge gained from the tours of inspection, the fact which particularly impressed itself on the delegates from this country was the totally different way in which railroad magnates and the railroad interests are treated in Great Britain and in the United States. It was not alone that the Congress received great attention and consideration from the English railway officials, but that the press and the public alike over there, and in fact in all countries but our own, recognize and appreciate the importance of the railroad industry. The Prince of Wales was made President of the Congress, there was a large attendance of peers and of men prominent in public life, a grand reception was tendered the delegates at the Foreign Office, at which a most distinguished company was present, the Queen received them at a garden party, various commercial bodies entertained contingents of delegates, and in fact every one was anxious to do honor to the members of the Congress.

These various acts are not to be regarded as mere marks of courtesy on the part of the English public towards a body of foreign delegates. Englishmen we know are very generous in their hospitality; but in this case there was in addition an evident desire to show in what high estimation the railroad interest is held in the United Kingdom, and the various marks of attention extended to these railway people reflect the attitude of the people towards the roads—so different from that in the United States. In fact, several of the public speak-

ers took occasion to refer to the intimate connection subsisting between the commercial prosperity of the nations of the world and the expansion and development of the railways, they being called, and very properly, agencies of peace and progress. Lord Stalbridge, particularly, speaking at the banquet at the Imperial Institute on the Fourth of July, laid stress on the useful part played by railroads in the organization of modern industry and society.

The truth is, the difference in the manner of treating the railroads here and abroad indicates a functional difference in the public attitude towards the railroads. In England when a railroad official holds a high place in the railway service he is not unlikely to be knighted. In this country, or at least in the remoter parts of it, petty politicians think it popular to hold him up as an object of distrust and suspicion—as a person who, because of his being the head of a railroad corporation, must necessarily have some purpose antagonistic to popular interests. We admit that an improvement in the temper of the public mind in this particular has occurred within recent periods; the experience of the last two years, with the tremendous losses in earnings by which they have been marked, has served to enlighten the public as to the prominent part played by the railroad industry in the general welfare. But why such a feeling of antagonism to railroad interests should ever have been allowed to grow up, even in the less enlightened sections of the country, passes comprehension. In no other part of the world have the railroads done so much to advance the material welfare and prosperity of the country as in the United States; in no other part of the world are they so essential to a continuance of general prosperity as here—the wide expanse of the national domain making quick means of transportation indispensable; and nowhere else have the public interests been so intelligently and carefully studied and looked after as by those controlling the railway transportation lines in the United States. It is to be hoped that whatever prejudice still exists against the railroads and those charged with their administration will soon pass away, and that the railroad industry will be treated with the care and consideration which its importance demands, and not regarded any longer as a sort of outcast, to be oppressed and harassed at the pleasure of demagogues and politicians.

It has been suggested that the next Railway Congress be held in this country, and we think the suggestion is an excellent one. We find, too, that our railroad officials as a rule look upon the idea with considerable favor, and would like very much to see it adopted. Chairman Coppell and President Jeffery, of the Denver & Rio Grande, both of whom attended the late Congress in London, have openly expressed themselves to that effect. Moreover, at the Convention the delegates quite generally seemed to think that the next Congress should be convened here. When the subject was broached, however, the American delegates could only say that they had no authority to speak for the roads as a whole in this country. There would be a certain fitness in having the Convention here. The United States has 180,000 miles of road, or say one-half the world's entire mileage. On this mileage we have solved problems never before offered for solution anywhere else in the world. In other words, we have had great and varied experience in the construction and operation of railways, a study of which could not fail to be of great advantage to those engaged in similar work in other parts of the world. To us also there would doubtless be advantages in the holding of such a Congress in the United States. It would bring to this country a large number of men competent to pass judgment upon our railroad system and upon the opportunities for further growth and development, and as a consequence make the country and its resources known to many who now have only an imperfect knowledge of it, and would doubtless also lead to further investments of capital here in new and undeveloped sections. In showing to the assembled railroad men our railway appliances and machinery, it might also happen that we would find new markets abroad for our railway materials and supplies.

Of course there is a great deal of expense connected with such gatherings, and the question is whether our railroads would feel justified in incurring it. The delegates have to be entertained, trips and excursions have to be arranged for them, and in various other ways the outlays are necessarily large. But as our railroad mileage is so extensive, if the proposition found general approval, the tax upon any one road would not, we should suppose, be heavy or burdensome. We suggest that those of our railroad officials who attended the Congress at London, and who feel that it would be an advantage to have the next Congress in this country, take the matter up, with the view to seeing if the idea cannot be carried out.

THE MONEY UNIT AND SILVER.

Mr. Edward O. Leech, formerly Director of the Mint, now 2d Vice-President of the National Union Bank, has two articles in the magazines for July—one in Rhodes' Journal of Banking (recently consolidated with The Banker's Magazine), entitled "The Money Unit of the United States," and the other in the North American Review under the caption, "How Free Silver Would Affect Us." Both are carefully-prepared papers.

In the paper on the Money Unit Mr. Leech disposes of the contention of the champions of free silver, that prior to 1873 our laws made silver the unit of value. Mr. Leech's former position as head of the Mint Bureau would in any event give weight to anything he has to say on the point in question, but entirely apart from that his article forms an important contribution to the historical study of the subject.

Mr. Leech undertakes to show that by our coinage laws up to 1873 neither metal was made the measure of value of the other—that it was not the intention to rest the standard on either. He quotes from Alexander Hamilton to the effect that "it seems to be most advisable not to attach the unit exclusively to either of the metals" and from Thomas Jefferson (in writing with regard to Hamilton's report on The Establishment of a Mint) these words: "I concur with you in thinking that the unit must stand on both metals." He also states that it was a unit of accounts rather than a unit of value that the early laws contemplated in speaking of the dollar, and he contends that there is a great difference between the two. "Whatever the monetary system of a country may be, whether gold-monometallic, silver-monometallic, bimetallic, or a paper standard, it must have a money of account."

Mr. Leech's comment on the idea that there should be one kind of money for the "people" and another

for the rich, is vigorous and to the point. He calls it the "very essence of demagogism." All money, he says, should be good money, sound money, and it is an insult to the intelligence of American workingmen to suggest that a poorer class of money is good enough for them. While it is true, he contends, that the poorer classes use checks and drafts less frequently in making payments than those who have large transactions, every dollar of cash which the workingmen use should have the same purchasing power as the dollar called for by the draft of the wealthier citizen. "The idea that the 'republicanism' established by our forefathers consisted in providing a cheap money for the poor and a better money for the rich is as novel as it is ridiculous." Most pertinent of all is his observation that "After all, whether our forefathers preferred silver to gold or not, the important fact never to be lost sight of is, that they never contemplated coining either metal except at its commercial value."

In the article in the North American Review Mr. Leech undertakes to show the impolicy and dishonesty of free silver coinage. He well says that in point of honesty there is no practical difference between stamping and issuing a coin with full debt-paying qualities as $1 00 which is really worth only 50 cents, and cutting a dollar in half and requiring every one to accept the half as a dollar. "No country can thrive by dishonesty, and of all forms of national dishonesty the clipped or overvalued coin is the most ancient and most objectionable." Speaking of the effects of free coinage on the working people, and the argument that free coinage would lead to a great appreciation in prices, he says: "The greatest calamity which could possibly happen to him (the wage-earner) would be to double the price of the commodities which he must use by depreciating the value of the dollar in which he is paid." "Behold," he goes on, "the countries with free silver coinage or the silver standard—Mexico, South America and Asia—and see the rates of wages there compared with wages in countries that have the gold standard—see the 'Prosperity and Happiness (?)' there among the laboring classes compared with the wage-earners of Europe and the United States, and surely no more practical and complete refutation of the theory that a silver currency would benefit our laborers and producers could possibly be adduced."

Mr. Leech concludes by saying that "free silver coinage would replace the doubt of our ability to maintain gold payments by the certainty *that we did not intend to*," and furthermore that "it would be a national disgrace as well as a national misfortune."

CURRENT PIG IRON PRODUCTION IN THE UNITED STATES.

No more striking illustration could be offered of the great change in the industrial situation between this year and last year than is afforded by the statistics of pig iron production for the first half of 1895 compared with the first half of 1894, as shown in the statements published by the American Iron & Steel Association at Philadelphia. The monthly record of furnaces in blast, kept by the "Iron Age," has indicated very clearly from month to month what decided progress was being made towards a complete resumption of activity, but it needed the actual production to reveal the full nature and extent of the change. As the condition of the iron trade plays such an important part in the general industrial situation, and at the same time furnishes an index to the state of trade and business, the figures are decidedly interesting.

In brief we may say that the half-yearly statement shows that in the first six months of 1895 the make of pig iron was over four million gross tons of 2,240 lbs., against a product of less than 2¾ million tons in the corresponding six months of 1894—in exact figures 4,087,558 tons, against 2,717,983 tons, the increase in this period thus having been 1⅓ million tons, or over 50 per cent. This great difference reflects the difference in the conditions in the two years. Last year all the leading influences were unfavorable, and the iron industry suffered as perhaps never before in its history. All commercial interests were completely prostrated; enterprise was practically dead, and following upon the panic of 1893 business was in a state of extreme depression, and the iron industry seemed to feel this depression more than any other branch of trade. Then there was the great strike of the bituminous coal miners lasting from April 21 to June 18, during which (on account of the absence of the needed supply of fuel) iron-making was brought almost to a standstill, and all the allied trades were reduced to the same state of inactivity. The strike of the coke-workers at Connellsvile was another influence which interfered with the normal output of iron during this half-year in 1894. As a consequence of all this the production fell to very small proportions, and even at the close of the half-year, when some improvement had already occurred in the iron and steel trades, Mr. James M. Swank, who prepares the statistics for the Iron & Steel Association, was prompted to say that he did not remember a time in the modern history of the American iron trade when so few furnaces were in blast.

The present year there was no general strike in the coal or coke regions, and the business situation took a decided turn for the better, so it is only natural that the pig iron output should again approach the old basis. The proper view, therefore, to take of the great increase shown is that it is not to be regarded as an expansion such as occurred say during the years from 1885 to 1892 but merely a recovery of what was lost last year in a period of widespread depression and very exceptional conditions. Nevertheless the fact that there should have been this recovery—and such a decided recovery at that—is both gratifying and encouraging, and illustrates very strikingly, as said at the outset, how greatly the industrial outlook has been altered for the better as compared with the early part of last year. In the following we give the make of iron for each half year since the beginning of 1885.

PRODUCTION OF PIG IRON IN HALF-YEARLY PERIODS.

	Gross Tons.		Gross Tons.
1885—1st half	1,920,371	1891—1st half	3,368,107
2d half	2,124,154	2d half	4,911,763
1886—1st half	2,637,682	1892—1st half	4,769,083
2d half	3,045,642	2d half	4,387,317
1887—1st half	3,019,294	1893—1st half	4,562,918
2d half	3,367,854	2d half	2,561,584
1888—1st half	3,020,092	1894—1st half	2,717,983
2d half	3,409,646	2d half	3,939,405
1889—1st half	3,661,803	1895—1st half	4,087,558
2d half	3,942,039		
1890—1st half	4,560,513		
2d half	4,642,190		

The foregoing brings out the fact that even as compared with the second half of 1894 the product for the six months of 1895 records an increase. After the very extended suspension of iron-making in the first half of last year, which it is proper to say followed a still more decided contraction in the last half of 1893 caused by the panic, operations were resumed again on a larger scale during the last half of 1894, and the output in those six months reached 3,939,405 tons. In the first half of the current year the make was, as

already stated, 4,087,558 tons. It is worth noting that this is the third successive half-year now that has shown an increase over its predecessor. The depression reached its lowest depth in the last half of 1893, when only 2,561,584 tons of iron were turned out; and there has been an increase in every half-year since then. The change which has occurred since the panic of 1893 and the coal strike of 1894 can be indicated in no better way than by comparing the product for the twelve months ending June 30 1894, which was only 5,279,567 tons, with the product for the twelve months ending June 30 1895, which was over eight million tons—8,026,963 tons.

Of course there have been other half-years in the past when the output was even larger than the 4,087,558 tons for 1895. In the first half of 1893 the making of iron was 4,562,918 tons, in the first half of 1892 4,769,683 tons, in the first half of 1890 4,560,513 tons. The very largest production of any half-yearly period was that of the last half of 1891, when after the Connellsville coke strike in the first half of that year the product rose to 4,911,763 tons. A fact to be remembered in connection with the current year's production is that the rate of output at the close of the half-year was much heavier than that at the beginning. During the early part of 1895 the business outlook was still clouded by the large gold exports and the precarious condition of the United States Treasury. After the transformation effected in the condition of the Treasury by the Syndicate contract, business revival made only slow headway for a time, and it was not until the last two months that the "boom" in the iron trade developed. This is well shown by the "Iron Age's" monthly record of furnaces in blast. On January 1 the number of active furnaces was 182, with a weekly capacity of 168,414 tons; by May 1 the number had been reduced to 171, with a capacity of 156,554 tons per week; on June 1 there was an increase to 172, with a weekly capacity of 157,224 tons, and by July 1 the number had risen to 185, with a capacity of 171,194 tons.

Another fact enhancing the significance of the 4,087,558 tons output for the six months of 1895 is that it has been reached without any extensive orders for iron and steel from the railroads, such as marked some former periods of large production. There was of course very little building of new road. In the whole of 1894 only about 2,000 miles of track were laid, in the first half of 1895 less than 700 miles. Nor were the railroads buying extensively, or in position to buy, for ordinary repair and renewal work. Some of the roads in the coal-mining and manufacturing districts made quite substantial gains in their earnings, and were thus able to spend more freely than in the contracted times of the previous year; the Pennsylvania Railroad furnishes a notable instance of this kind. Many of the Western roads, on the other hand, suffered further reductions of their revenues on account of the deficient grain crop of last season. These consequently were obliged to continue their policy of retrenchment and economy. Taking the railroad system as a whole, a fair idea of the comparatively small increase in revenues at the command of the roads is furnished by the statement of earnings published by us in the issue of the Chronicle of July 13. This statement showed that the same roads substantially which last year sustained a loss of 74½ million dollars in gross earnings this year recovered only 12¼ million dollars of said loss.

Mr. Swank thinks that in the current or second half of 1895 the make of iron will probably reach 5,000,000 tons. This does not seem an exaggerated estimate in view of the activity prevailing. Should it be realized the product for these six months will be the largest in the entire history of the trade. In the following we compare the output for the first six months of the last six years, classifying the iron according to the kind of fuel used to make it. It will be observed that the iron made with bituminous coal and coke as fuel shows a product close up to the largest previous total, but that that made with anthracite alone or mixed anthracite and coke and that made with charcoal shows but a small recovery from last year's very small output.

PRODUCTION ACCORDING TO FUEL USED.

First Six Months.	Gross Tons.					
	1895.	1894.	1893.	1892.	1891.	1890.
Bituminous coal & coke	3,497,078	2,203,239	3,470,441	3,558,069	2,202,044	3,184,065
Mixed anthr. & coke } Anthracite alone .... }	487,479	412,047	855,234	931,699	907,053	1,095,710
Charcoal	103,001	102,697	237,240	279,915	259,010	280,738
Total	4,087,558	2,717,983	4,562,918	4,769,683	3,368,107	4,560,513
Unsold stocks—						
June 30	520,590	575,866	578,831	775,855	482,466	411,039
December 31	... .	661,328	707,318	535,616	627,233	661,858

NOTE.—In above stocks are included amounts reported held by the American Pig Iron Storage Warrant Company in its yards not under the control of makers, namely 81,300 gross tons June 30, 1895; 63,640 gross tons Dec. 31, 1894; 58,830 gross tons June 30, 1894; 45,250 gross tons December 31, 1893; 29,640 gross tons June 30, 1893; 29,500 gross tons December 31, 1892; 17,998 gross tons June 30, 1892; 30,900 gross tons December 31, 1891; 40,351 gross tons June 30, 1891; 52,937 tons December 31, 1890; 63,500 tons June 30, 1890, and 36,200 tons December 31, 1889.

Still another fact deserves to be mentioned in connection with the 1895 production; it has been attended by a decrease in stocks. Mr. Swank reports that on June 30 1895 the stock of pig iron unsold in the hands of manufacturers or their agents (and which was not intended for their own consumption), and in the yards of the American Pig Iron Storage Warrant Company, was 520,590. On December 31 1894 the aggregate was 661,328 tons, showing a reduction during the six months of 140,738 tons. Stocks now are smaller than at the close of any half-year since June 30 1891. In the following we have worked out the half-yearly consumption on the basis of these changes in stocks.

CONSUMPTION OF DOMESTIC PIG IRON IN UNITED STATES.

First Six Months.	Gross Tons of 2,240 Lbs.					
	1895.	1894.	1893.	1892.	1891.	1890.
Production	4,087,558	2,717,983	4,562,918	4,769,683	3,368,107	4,560,513
Increase in stock	*140,738	*131,452	43,215	148,622	*179,452	127,160
Consumption.	4,228,296	2,849,435	4,519,703	4,621,061	3,547,559	4,433,353

*Decrease.

The most satisfactory feature of all, of course, has been the great advance in the selling prices of iron and all its products. A few leading illustrations will serve to indicate how large and general the advance has been. January 1 No. 1 Bessemer pig at Pittsburg was quoted at $9 80 per ton; this week the price is $14 35@$14 50. In the same period Bessemer steel billets at Pittsburg have advanced from $14 80 to $21 00@$21 50. In steel rails there has been an advance from $22 00 a ton to $24 00.

Summing up we find (1) a quite large product, even though the activity lately noticed did not occur until near the close of the half-year; (2) diminishing stocks; (3) advancing prices. To this should be added the fact that all indications now point to the biggest corn crop in the history of the country, and that this means a large traffic and large revenues to the railroads later on, which in turn means the removal of the restraint on liberal outlays by the railroads which has existed heretofore, so that these great con-

sumers may be expected to come in the market again with heavily increased orders for the purchase of supplies and materials. In a word, the outlook for the iron trade would seem to be most encouraging, and this is a factor of the greatest moment in the general industrial situation.

BULGARIA AND EASTERN EUROPE.

It would seem from recent occurrences that the old Eastern question was showing signs of life. The assassination of ex-Prime Minister Stambuloff has been followed by a state of things of which it is difficult to see the end. How it will fare with Prince Ferdinand no one can tell. Affairs may yet take a turn in his favor, but it is already the belief in Europe that he has seen the end of his authority in Bulgaria.

It was a bold movement, that of sending a deputation to St. Petersburg; and there can be no doubt that the Prince expected from it the happiest results. There were, however, many who doubted its wisdom, and who were of the opinion that the mission would not only fail of its main purpose but would create difficulties greater than those for which it was intended it should open a door of escape. The result so far has justified these latter views. The deputation was received with courtesy enough; but the attitude of the Russian Government toward Bulgaria remains unchanged, and it is broadly stated that there will be no change so long as Prince Ferdinand continues to reign. Of course matters have been aggravated and the crisis precipitated by the assassination of Stambuloff; but it cannot be said that the tendency of events was materially affected by that outrage.

The Balkan difficulties are not confined to Bulgaria alone. The Macedonians are up in revolt against the Turkish authorities. Fighting of a somewhat serious character has taken place in the northern section of Macedonia, at no great distance from the Bulgarian frontier; and it is no secret that the Bulgarians are in active sympathy with the insurgents. It would appear, however, that this Macedonian insurrection is not to be allowed to assume dangerous proportions, the Great Powers, Germany, Austria, England and Italy, being in entire accord as to the course to be pursued in the premises. Austria is to take the leading part in bringing the Macedonians under subjection; and the belief prevails that Servia and Greece will join the movement. The Turkish Government at the same time is showing becoming signs of activity; and some twenty thousand men of the Third Army Corps are to be mobilized in the disturbed district.

The Treaty of Berlin lays upon the Great Powers the responsibility of preserving the peace. But there is always the possibility of irritation when actual war breaks out. We know that Russia has never been satisfied with the Berlin Treaty: and no one has ever doubted that she would take advantage of the first opportunity that offered itself to have the entire Eastern question reconsidered and a new and to her more satisfactory arrangement effected. Wisdom is shown in the selection of Austria to take the leading part. Russia was inadmissible. But much must depend on the manner in which Austria will manage matters. If she should come into collision with the Turkish troops, or should provoke the jealousy of Russia, the situation would be more complicated. Nor is the task which, we are given to understand, Austria has undertaken an easy one. The Macedonians were far from satisfied with the Berlin treaty. Reforms were promised, but they have never been carried out. The present condition of that part of ancient Greece is not unlike that of Bulgaria before the rebellion of 1876, and the restoration of order among such a people necessarily implies vigorous dealing with the Turkish Government.

Taking it for granted, however, that the Macedonian difficulty will not be allowed, for the present at least, to develop into large proportions, there is sufficient cause for anxiety in the work to be done in the settlement of the Bulgarian crown question. It has been a source of trouble since 1879, when it was created. Alexander of Battenberg, mainly through the machinations of Stambuloff, found it necessary to abandon his position after a miserable reign of six years; and there can hardly be a doubt that his unfortunate experience hastened his end. Prince Ferdinand has enjoyed a longer lease of power; and if he has lived a happier life it has not been because he has shown himself to be a more capable man, or better fitted for the position, but because he is a man of easier disposition, and more inclined to pleasure than to work. It is not yet an established fact that he has ceased to be ruler of Bulgaria. It is not even certain that the abandonment of his position has become a necessity. But when a Prince is coolly told by his ministers that his return to his capital implies their resignation, and that if he persists in his purpose he must abide all the consequences, it does not seem as if the end of his reign was far off. Nor do things appear in a more cheerful light, so far as the Prince is concerned, when it is borne in mind that after having bowed the knee to Russia he is plainly told by that Power that reconciliation is impossible.

It would seem therefore to be what we might call a justifiable conclusion that the days of Prince Ferdinand, as ruler of Bulgaria, are numbered. The real difficulty will be experienced when the princely seat is left vacant, and when arrangements must be made to fill it. Alexander was personally acceptable to all the Powers. He was the son of a German prince, his father being of the House of Hesse. He was therefore acceptable to Germany. He was for the same reason sufficiently acceptable to Austria-Hungary. He was related to the Russian Imperial family, his aunt being the wife of the Czar Alexander II.; and in the Russo-Turkish war of 1877-78 he fought under the Russian flag. He was therefore acceptable to Russia. But he offended Russia when he attempted to enlarge the boundaries of his principality, and somehow he lost the favor of Stambuloff. Prince Ferdinand has been acceptable to all but Russia; and that Power has persistently refused to recognize him. If he should retire now and thus give the Sobranje the opportunity to elect a successor, where is the acceptable man to be found? Where is the man possessed of the requisite qualifications who is likely to be willing to enter upon the duties of such a position? Russia will no doubt insist upon the election of a Prince agreeable to herself. The other Powers have not hitherto made trouble. It does not appear that they are particularly concerned about the occupant of the Bulgarian throne, or about the choice of the Bulgarian people. If Russia were less persistent in her purpose to have on that throne a Prince wedded to her interests, there would be no trouble. But Great Britain and Austria-Hungary and Germany

and Italy are resolved that the ruler of Bulgaria shall not be a tool in Russia's hands, and this they will attend to in the event of the abdication of Ferdinand.

There is much in the general situation that gives point and interest to these Balkan troubles. There is also much combustible material in Europe at the present time. Russia of late has been getting her own way. France, taking advantage of Russian friendship, has become, to say the least, distinctly aggressive. The boldness of Russia and France has been largely due to the do-nothing foreign policy of Great Britain for the last few years. The nations, however, are now anxiously awaiting the sound which shall be the key-note of the policy the Unionist Government will adopt. What that will be is not wholly surmised. We may assume that it will not be an aggressive policy from choice, but it will be firm and decided, and will be ready for any emergency. The change in British politics, we think, will prove a restraining and later on a quieting influence.

"A SURE WAY TO DEFEAT FREE SILVER."

We give below the response of the Galveston correspondent to our article of two weeks ago. It is to be regretted that in this last letter he so far repeats the method of criticism adopted in his original charge as to force us to express the opinion that he hardly deserves the consideration accorded his reply. Heedlessness in interpretation and looseness in writing are inseparably connected with carelessness in reading, and hence we beg this correspondent hereafter to first make sure he can find in an article the thought he takes exception to, and then having found his text stick to it.

Galveston, Texas, July 18, 1895.

Ed. Commercial and Financial Chronicle:

Dear Sir:—I hasten to make the explanation called for in your article of July 13, for which my communication to you of the 1st inst. has furnished the theme.

Your article of June 22 plainly stated that the free silver agitation in the South, thanks to the efforts already put forth by the Reform Club* (and which I am ready to concede belong to what may be called legitimate campaign work), was decidedly on the wane, but that what was specially needed at this time was a little more "judicious assistance" on the part of the North, to influence the election of several U. S. Senators in the South this fall. Now since Senators are not elected by popular vote, but by members of the legislatures, who are not influenced by stump speeches and public meetings, I leave it to every candid reader whether your article of June 22 was not open to the interpretation that it was not *solely* for the defraying of legitimate campaign expenses that "every man was requested to put his hand into his pocket."

It is something very unusual even for political papers to urge contributions to so-called legitimate campaign funds through their editorial columns and the adoption of such a course by a non-political paper like the Chronicle must have come in the nature of a surprise not to myself alone.

However, I made no direct and open charge, as stated by you, but merely asked a question, being anxious to have you define your meaning.

Since you now distinctly disclaim the use of money for any other than educational and legitimate campaign purposes, I am ready to make the *amende honorable* and exonerate the Chronicle from impure motives.

I am glad that we agree so entirely in our opinion of the Southern character in general. The attempt, if it was ever made, of pouring money into the South for corruption purposes, would act as a boomerang on its advocates and promoters.

It is a common fallacy entertained in the North that the majority of the people of the South and West who do not agree with them are fanatics on this or any other question. If they were, you would not have countless meetings now everywhere, of the most peaceful and orderly character, in which the money question is nearly always discussed by debaters representing both sides. The people, in fact, are eager for information, and the great majority are unquestionably seeking the solution of the money question on no other lines than from the standpoint of the greatest good to the greatest number. That they will so solve it, regardless of what the Chronicle's or my opinion on the subject may be, and which are not here at issue, I have the utmost confidence.

Yours truly,

Rob't Bornefeld.

* We said not a word about the Reform Club; made no reference to it even indirectly, and did not so much as have it in mind in what we wrote. We mention this only as an instance of the reckless method of writing the correspondent adopts. [Ed.]

DAYS OF GRACE ON PROMISSORY NOTES.

Recent action has been taken by the legislatures of a few of the States repealing the laws and abrogating the common law custom relating to days of grace on promissory notes, bills of exchange, etc. This privilege was originally granted the makers of these instruments for good reason, but now, as the custom has become merely a form, there seems to be no call for its continuance. Some of the legislatures have deferred action, and many of the States still continue the old practice. The belief is that within a few years all will make the change, and the rule which has so long prevailed will become obsolete.

It was in 1894 (May 9th) that the act abolishing days of grace in New York was passed; by its terms the statute applied to all notes, etc., drawn or accepted after January 1, 1895, which contained no expressed stipulation. The Legislature of Connecticut passed a law April 2, 1895, to the effect that no days of grace shall be allowed, unless by the terms of the instrument expressly provided, on any promissory note, bill of exchange, draft or order payable in that State, or upon any bank check dated on or after July 1. The last Legislature of Montana passed a law declaring that on notes, etc., made after July 1, 1895, days of grace were thereby abolished. In New Jersey the law fixed July 4, 1895, as the date after which all notes, etc., made would cease to carry grace except when in the instrument expressly provided. Pennsylvania passed a law which is given below, abolishing days of grace on promissory notes, drafts, etc., on and after January 1, 1896, unless there is a stipulation to the contrary. In Wisconsin no grace is allowed on paper falling due after April 5, 1894, if dated after April 5, 1893.

The following is a copy of a record made by the Fourth National Bank of this city, showing the rule as it now prevails in all the States and Territories regarding grace on time, sight, or plain notes and drafts.

	Grace allowed on drafts.

(1.) Grace allowed if place of payment stated.

(2.) Abstract from an Act concerning holidays, notes, bills of exchange and abolishing days of grace, enacted by the Connecticut Legislature, April 2, 1895.

SECTION 1. No days of grace shall be allowed on any promissory note, bill of exchange, draft, or order, payable in this State, or upon any bank check dated on or after July 1st, 1895, unless expressly therein provided for.

(3.) In District of Columbia checks are treated same as time drafts.

(4.) After July 1st, 1895, under the Codes adopted by the last Legislature, days of grace will be abolished in this State —Montana.

(5.) State of New Jersey—No grace after July 4th, 1895, unless stipulated.

(6.) New York—Grace exists only on time drafts made prior to January 1, 1895, except in cases where there is an express stipulation.

(7.) In reckoning days of grace exclude holidays and Sundays—North Dakota.

(8.) An Act to abolish days of grace on promissory notes, drafts, et cetera, and to determine when such obligations maturing on Sunday or on legal holidays or half-holidays shall become due.

SECTION 1. Be it enacted by the Senate and House of Representatives of the Commonwealth of Pennsylvania, in General Assembly met, and it is hereby enacted by the authority of the same, that on all notes, drafts, checks, acceptances, bills of exchange, bonds, or other evidences of indebtedness, made, drawn, or accepted by any person or corporation after this act shall take effect, and in which there is no expressed stipulation to the contrary, no grace, according to the custom of merchants, shall be allowed, but the same shall be due and payable as therein expressed without grace.

SECTION 2. That all such notes, drafts, bills of exchange, checks, or other paper falling due on Sunday or a legal holiday, or day observed as such, or any half-holiday, shall be deemed to be due on the next secular business day thereafter: Provided, however, That all such notes, bills of exchange, drafts, checks, et cetera, shall not be protested on any Saturday, but must be protested on the next secular or business day.

SECTION 3. All laws inconsistent herewith are hereby repealed.

SECTION 4. This Act shall take effect and be in force on the first day of January, one thousand eight hundred and ninety-six.

(9.) Wisconsin—No grace on paper due after April 5th, 1894, if dated after April 5th, 1893.

STOCK EXCHANGE CLEARING-HOUSE TRANSACTIONS.—The subjoined statement includes the transactions of the Stock Exchange Clearing-House from July 15 down to and including Friday, July 26; also the aggregates from January to June, inclusive, in 1895, 1894 and 1893.

Monetary and Commercial English News

[From our own correspondent.]

LONDON, SATURDAY, July 13, 1895.

The new Chinese loan for 16 millions sterling, or 400 million francs, is to be brought out in Paris on Friday next at about 99¼; but those who choose to pay up at once will get the bonds at about 98f. 80c. There is a clear return, therefore, of somewhat over 4 per cent; and as the loan is a charge upon the Chinese Customs, ranking immediately after all existing loans, which, including those raised at home amount to only 10 millions sterling, and as besides there is a Russian guarantee, it is expected that the applications will be enormous. Preparations are therefore being made for taking gold from London. All the great French banks keep large balances here, but besides drawing upon those they are borrowing in the open market. The withdrawals of gold, however, will be very temporary, for French investors are buying gold shares here upon an immense scale, and French merchants are buying wool here upon a very large scale likewise. The effect of the loan, therefore, upon the money market will be very slight. In the meantime the abundance of money is still raising all first-class securities. Consols have been as high as 108 this week. As another natural result new loans and companies are coming out in very large numbers. We have this week, for example, a new Indian railway company; and it is known that many plans for railway building in India are being considered by the India Office.

The opinion gains ground here that the Chinese loan will not lead to any considerable shipments of silver to China. It is understood, though it has never been officially announced, that the proceeds of the loan—15 millions sterling net—will be handed over at once to Japan as part of the indemnity. If so, the belief is very strong here that Japan will spend the whole of the money in Europe, partly to defray debts incurred during the war and partly to increase her fleet. The silver market in consequence of all this is in an uncertain state. The American mine-owners are not selling, and the operators who bought largely here some time ago are also waiting upon events. In the meantime the India Council is disposing of its drafts very successfully. It sold the whole 60 lakhs offered on Wednesday at 1s. 1 7-32d. per rupee. It is believed that a large part of the demand is for Chinese account.

The improvement in trade is making decided progress At the wool auctions which began last week there was a rise and there has been a further rise this week. Now the advance is from 10 to 20 per cent. The American purchases are on a very large scale—much larger than for two or three years past. There is also good French and German buying and very good home buying. All the intelligence is to the effect that the manufacturing industry all over Europe is very active just now. In other branches there is a better feeling and a stronger tone, though there is not much rise in prices yet; but there is a hope entertained that the Chinese loan will lead to a demand for ships and that that will give a stimulus to the iron and steel trades. The Board of Trade returns for June show a small falling off both in the exports and the imports. But there were five Sundays last month against only four in June the previous year, and the Whitsuntide holidays likewise fell in June this year. Taking these facts into account, there is clearly an increase in the volume of our foreign trade.

The settlement on the Stock Exchange was concluded on Thursday evening very smoothly. It was in most departments a large account, as business had been very active during the fortnight. And in most cases quotations were decidedly higher than at the previous settlement. More business

is being done this week in American securities. There is a fairly good investment demand for sound bonds; and though the general public is still holding aloof from the share market, professional operators are dealing more freely than heretofore. There can be no doubt that if all uncertainty as to the currency were removed the demand for American securities here would grow very rapidly. There is also a better demand for South American and Central American securities; especially a fair amount of business is being done in Argentine, Chilian and Brazilian railways stocks. But in the interbourse department the dealings are small; the business is almost confined to the Continental bourses.

The rise in wool has greatly benefitted the Australian colonies and Argentina, and there is a disposition to employ money more freely in Australia, but this disposition is held in check by the condition of several of the reconstructed banks. One of them, the City of Melbourne, has been negotiating here for some months past for a reduction of the interest on its deposits from 4½ per cent to 2½ per cent, but as yet it has not succeeded, and in consequence the directors in Melbourne have applied to the courts for a winding-up order. The impression here is that the application is purely defensive and is largely prompted by a desire to put pressure upon the European depositors. In some other cases the probability of a reduction of the interest is strong; and the Standard Bank, which has scarcely any European deposits, has arranged with its depositors in the colonies. In the South African department, in spite of the settlement, business has been very active all through the week, and in almost every case there is a decided rise in prices. In some instances the rise is very great. The buying is largely Continental, but there is a very great investment and speculation on home account likewise On Thursday there was a good deal of selling by French holders, though French buying had been very large during the preceding three days. The stock offered was freely taken in London, and now again the French are buying.

The imports since January 1st have been as follows:

Imports.	1895. £	1894. £	Difference. £	Per Ct
January	36,753,068	38,458,613	−1,705,545	−4·43

* July 12.

Messrs. Pixley & Abell write as follows under date of July 11:

Gold—Almost all the arrivals continue to be purchased by the Bank, which has received during the week £307,000. There have been withdrawals to the amount of £300,000, of which £200,000 has been sent to the Cape. Arrivals: Bombay, £49,000; River Plate, £33,000; South Africa, £110,000; West Indies, £31,000. Shipments: To Bombay, £5,000.

Silver—With fairly good enquiry, the market has been very steady. To-day's rate is 30½d. Arrivals: New York, £165,740; West Indies, £13,000. Shipments: To Bombay, £42,500; Malta, £5,000 (coin).

Mexican Dollars—The dealings in these coin have been small in the absence of supplies. Last business quotation was 30½d. Shipments: To Penang, £69,550.

The quotations for bullion are reported as follows:

Gold. London Standard.	July 11. s. d.	July 4. s. d.	Silver. London Standard.	July 11. d.	July 4 d.

NATIONAL BANKS.—The following information regarding national banks is from the Treasury Department:

NATIONAL BANKS ORGANIZED.

5,003.—The Standard National Bank of the City of New York, New York. Capital, $2,000,000. Marvelle W. Cooper, President.

5,004.—The City National Bank of Greenville, South Carolina. Capital, $100,000. G. A. Norwood, President; E. R. Lucas, Cashier.

5,005.—The Rutherford National Bank, Rutherford, N. J. Capital, $50,000. ——— ——, President; H. R. Harden, Cashier.

5,006.—The Park National Bank of Cleveland, Ohio. Capital, $500,000. H. A. Bishop, President; Jno. Sherwin, Cashier.

5,007.—The Miners' National Bank of Boswellsburg, Pennsylvania. Capital, $50,000. S. W. Pomeroy, President; A. L. Smith, Cashier.

5,008.—The First National Bank of Hubbard, Texas. Capital, $50,000. J. B. McConnell, President; Louis C. Wells, Cashier.

5,009.—The First National Bank of Fairfield, Illinois. Capital, $50,000. Thomas W. Scott, President; R. D. Adams, Vice President; Edwin E. Crabs, Cashier; E. J. Brickwalter, Assistant Cashier.

5,010.—The First National Bank of West Newton, Pennsylvania. Capital, $50,000. H. Croushore, President; ——, Cashier.

IN LIQUIDATION.

4,618.—The First National Bank of Augusta, Kentucky, has gone into voluntary liquidation by resolution of its stockholders, dated June 8, to take effect June 20, 1895.

1,591.—The Merchants' National Bank of St. Louis, Missouri, has gone into voluntary liquidation by resolution of its stockholders dated July 1, 1895.

4,333.—The First National Bank of Haskell, Texas, has gone into voluntary liquidation by resolution of its stockholders dated June 18, 1895.

4,262.—The Laclede National Bank of St. Louis, Missouri, has gone into voluntary liquidation by resolution of its stockholders, dated July 1, 1895.

4,770.—The Oklahoma National Bank of Oklahoma City, Oklahoma Territory, has gone into voluntary liquidation by resolution of its stockholders, dated July 15, 1895.

IMPORTS AND EXPORTS FOR THE WEEK.—The following are the imports at New York for the week ending for dry goods July 18 and for the week ending for general merchandise July 19; also totals since the beginning of the first week in January.

FOREIGN IMPORTS AT NEW YORK

For Week	1892	1893	1894	1895
Dry Goods	$2,473,003	$2,914,232	$1,756,879	$2,819,805
Gen'l mer'dise	7,572,093	6,785,984	9,104,387	6,717,759
Total	$10,045,106	$9,699,216	$10,861,036	$9,537,565
Since Jan. 1.				
Dry Goods	$64,658,189	$81,526,683	$46,017,744	$82,261,577
Gen'l mer'dise	249,599,619	277,773,084	196,401,894	207,935,394
Total 29 weeks	$318,257,807	$359,299,767	$242,419,642	$290,196,971

The imports of dry goods for one week later will be found in our report of the dry goods trade.

The following is a statement of the exports (exclusive of specie) from the port of New York to foreign ports for the week ending July 23 and from January 1 to date:

EXPORTS FROM NEW YORK FOR THE WEEK

	1892.	1893	1894	1895
For the week	$6,919,031	$7,814,714	$7,241,177	$5,340,393
Prev. reported	218,405,841	193,183,184	200,079,326	184,625,755
Total 29 weeks	$225,324,872	$200,997,898	$207,320,503	$190,006,148

The following table shows the exports and imports of specie at the port of New York for the week ending July 20 and since January 1, 1895, and for the corresponding periods in 1894 and 1893:

EXPORTS AND IMPORTS OF SPECIE AT NEW YORK

Gold.	Exports. Week.	Exports. Since Jan. 1.	Imports. Week.	Imports. Since Jan. 1.

Of the above imports for the week in 1895 $1,054 were American gold coin. Of the exports during the same time $1,222,000 were American gold coin.

—A limited amount of first mortgage five per cent gold bonds on a street railway earning, it is said, net double interest charges is advertised by Messrs. Redmond, Kerr & Co., 41 Wall Street, New York. Also a line of high grade railroad bonds. Lists furnished on application.

—Messrs. Spencer Trask & Co. offer a new municipal loan of $775,000 of the city of Atlantic City, N. J., 30-year 3 per cent sinking fund gold water bonds, the price to net the investor about 4½ per cent. These bonds are exempt from taxation in New Jersey and are issued to acquire the plant of the Atlanti Water Company and are no tax on the people. The incom from its plant will not only earn interest charges, but will create a sinking fund under the law which will be sufficient to pay for the bonds at maturity. The assessed valuation of the city is $13,000,000; real valuation, $37,000,000; debt, $85,000; population, 18,000. The bonds have been approved by John F. Dillon.

—Messrs. J. & W. Seligman & Co. have been awarded $2,100,000 Kings County 4 per cent bonds at 103·769. These bonds run for much shorter terms than recent issues by the same county, which accounts for the lower price obtained for them.

—It is officially announced that a majority of United States Cordage Co.'s bonds has been deposited with the Manhattan Trust Co. under the Waterbury-Sturgis plan of reorganization.

—Messrs. N. W Harris & Co., 15 Wall Street, advertise in our State and City Department, street railway gold 5s. Particulars on request.

— Attention is directed to the semi-annual statement of the New England Loan & Trust Company, advertised in the INVESTORS' SUPPLEMENT, accompanying to-day's CHRONICLE.

WALL STREET, FRIDAY, JULY 26, 1895.—5 P. M.

The Money Market and Financial Situation.—An important feature of the week in Wall Street is the demand for investment securities, which is especially noticeable in the bond market. London is not a factor in this market at present, and the demand is therefore chiefly local.

The return of Mr. J. J. Hill to New York stimulates the hope that progress will soon begin to develop in the affairs of the No. Pacific Railroad Company. In the meantime the earnings of the road are growing more satisfactory, and so making any plan for reorganization which may be adopted easier to carry into effect.

Further steps have been taken this week by leading trunk line officials in regard to more firmly established and uniform rates for East and West bound traffic, and the prospect of a satisfactory adjustment of the matter is hopeful.

The stock market has been buoyant to-day and in some cases the highest prices of the season have been reached. The movement was stimulated by active buying of granger stocks by commission houses, rumors of an early rate settlement and excellent crop reports.

The open market rates for call loans during the week on stock and bond collaterals have ranged from 1 to 1½ per cent. To-day's rates on call were 1 to 1½ per cent. Prime commercial paper is quoted at 3 to 4 per cent.

The Bank of England weekly statement on Thursday showed an increase in bullion of £437,633, and the percentage of reserve to liabilities was 59·04 against 58·42, last week; the discount rate remains unchanged at 2 per cent. The Bank of France shows an increase of 8,082,000 francs in gold and 3,010,000 francs in silver.

The New York City Clearing-House banks in their statement of July 20 showed an increase in the reserve held of $5,172,900 and a surplus over the required reserve of $38,491,125 against $33,405,300 the previous week.

Foreign Exchange.—There are no new developments of importance in regard to foreign exchange. The market is strong and rates have been steady at the quotations which have ruled for several weeks past.

To-day actual rates of exchange were as follows: Bankers' sixty days sterling, 4 89@4 89¼; demand, 4 90@4 90¼; cables, 4 90¼@4 90½.

Posted rates of leading bankers are as follows:

July 26.	Sixty Days.	Demand.
Prime bankers' sterling bills on London	4 89½@4 90	4 90½@4 91
Prime commercial	4 88½@4 88¾	.....
Documentary commercial	4 88 @4 88¼	.....
Paris bankers' (francs)	5 16⅞@5 16⅜	5 15⅝@ 14 15/16
Amsterdam (guilders) bankers	40¼@40⅝	40⅜@40⅞
Frankfort or Bremen(reichmarks) b'kers'	95 9/16@95⅝	95 15/16@96

The following were the rates of domestic exchange on New York at the under-mentioned cities to-day: Savannah, buying par, selling ⅛@1-10 premium; Charleston, buying par, selling ⅛ premium; New Orleans, bank, $2 00 premium, commercial 75c. premium; Chicago, 15c. per $1,000 premium; St. Louis, 50@75c. per $1,000 premium.

United States Bonds.—Government bonds have been dull but firm. Sales at the Board include $1,000 4s, coup., 1907, at 112½; and $2,500 2s, reg., at 97. Closing prices were as follows:

State and Railroad Bonds.—Sales of State bonds at the board include $68,000 Virginia fund. debt 2-3s of 1991 at 62 to 62¾; $11,000 Tenn. Settlement 3s at 89⅞ to 90½; $10,000 So. Carolina 6s, non-fund., at 1⅝, and $10,000 Louisiana con. 4s at 99.

The railroad bond market has been strong and the volume of business notably larger than it was last week. Atchison issues have been the chief feature, as progress with the reorganization is now being made and the 4s rects. and 2ds rects. have each advanced 3 points.

In sympathy with this movement Col. Mid. 4s rects. have gained 3 points during the week. No. Pacific con. 5s have made a further advance of 2 points and the 2d coup. 2½ points, as developments towards reorganization are looked for. Chic. & No. Pac. 1st rects. have also gained over 2 points. There was a noticeable movement of Ches. & Ohio R. & A. 1st con. 4s on Wednesday, during which the price advanced from 96½ to 99. Mo. Kan. & Tex. 2ds have been active and are over 2 points higher. Sav. & Western 1sts rects. have gained about one point and the agreement of the company with the Georgia Cent. has been signed this week. Other active issues include Southern Ry. 5s, the Readings, Or. Short Line, Tex. & Pac., Wabash and Wis. Central bonds.

Railroad and Miscellaneous Stocks.—During the early part of the week the market for railroad stocks was active and buoyant under the prospect of a heavy grain traffic and other favorable conditions. The grangers generally reached the highest prices of the year on Tuesday, when Rock Island had advanced 4¾ points from the close last week, Burlington over 3 points, St. Paul and North West. each about 2 points. Iowa Central developed some activity and had gained a point on Wednesday, and Wabash preferred 2 points under liberal sales. Atchison shares with 2d installment paid advanced from 13 on Monday to 15 to-day as a result of progress with its reorganization.

There is hope that the conditions governing the anthracite coal trade will soon be improved and some of the coal stocks are higher.

Reading has been the most active on the railroad list, with prices ruling at about our last quotations. Southwestern stocks continue strong and Mo. Pacific has advanced over a point. Wheeling & Lake Erie has been active and is fractionally higher.

The industrials have been less conspicuous than they were last week, but are generally higher. There is no lack of rumors about Chicago Gas, and it sold at 58 on Wednesday, closing at 54½, against 52¾ last week. The manipulators of Am. Sugar put the price up to 114⅛ on Tuesday; to-day it closes at 113¾. Distilling, U. S. Rubber and Nat. Lead have each advanced about one point, Am. Tobacco and U. S. Leather common about two points, while Leather pfd. is about 4 points and Pullman P. C. shares 3 points higher than last week.

NEW YORK STOCK EXCHANGE—*ACTIVE STOCKS for week ending JULY* 26, *and since JAN.* 1, 1895.

Investment AND Railroad Intelligence.

RAILROAD EARNINGS.

The following table shows the gross earnings of United States railroads (and also a few Mexican and Canadian roads) for the latest period reported. The statement includes every road from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the calendar year from January 1 to and including such latest week or month.

Roads.	Latest Earnings Reported.			Jan. 1 to Latest Date

ANNUAL REPORTS.

San Francisco & North Pacific Railway Co.

(Report for the year ending June 30, 1895.)

President Arthur W. Foster says in part in the report:

It has been the aim of the company carefully to maintain the physical condition of the track and roadway, bridges and buildings, as well as to improve the shipping facilities by the addition of new side tracks, stations, etc., where found requisite for the public convenience. The necessary cost of such conveniences, including purchase of ground, as well as the addition to the equipment of new box cars, has been charged to operating expenses, in accordance with plan heretofore adopted. According to the provisions of the mortgage, $25,000 has been paid on account of the sinking fund. I am glad to be able to report the results for the fiscal year warrant the belief that the financial and commercial depression is departing, and that the varied business interests of the State will soon assume their normal proportions.

The statistics for four years have been compiled for the CHRONICLE as follows:

EARNINGS, EXPENSES AND CHARGES.

	1894-95.	1893-94.	1892-93.	1891-92.

—V. 59, p. 228.

Chicago Junction Railways & Union Stock Yards Co.

(Report for the year ending June 30, 1895.)

The report of President Chauncey M. Depew says in part:

Transfer System.—About a year ago your proprietary corporation, the Union Stock Yard & Transit Company, undertook the work of transferring and handling all cars within its precincts and instituted a trackage charge upon cars of live stock similar to that previously charged upon dead freight. The former step involved the purchase of locomotives and the building of an appropriate plant. The experience of a year has fully justified this step. A satisfactory profit has been earned upon the investment, and the Chicago Company [the Union Stock Yard & Transit Co.] has promptly met from the net income of this branch of business the maturing lease warrants and all charges incurred in this connection. Although some objection to the trackage charge above mentioned was made last summer, the officers of the Chicago Company were able to show the legality and equity of the company's action.

Chicago Strike.—Shortly after our annual meeting, the strike of the American Railway Union was declared at Chicago. The most dangerous mobs operated at the Chicago Stock Yards; the destruction of railroad property was very great, and several serious and concerted attempts were made to burn the yards. The extent to which the force at the yards was reduced may be judged from the fact that in the transit department, which handles the switching service, out of 150 men in its employ at the beginning only 21 of their number remained in service when the strike ended. The Board feel justified in congratulating you upon the comparatively small loss sustained.

Receipts of Cattle, etc.—The decrease of 13½ per cent during the year in the receipts of cattle has been partly offset by an increase in the receipts of hogs, sheep and horses. Two causes have operated to produce the falling off in receipts of cattle—the failure of the corn crop in 1894 and the reduction in the number of cattle which is now apparent. The latter condition has been brought about by the marketing of unusual amounts of cows, thus reducing the breeding capacity of the herds, and by the slaughter of calves, both due secondarily to the unprofitable character of the business during the past three years. The improved prices must now lead to the preservation of female stock, and should within two or three years restore the conditions of three years ago.

A comparative statement of live stock and car receipts is as follows for the years ending June 30, 1894 and 1895, June, 1895, being partly estimated:

Year—	*Cattle.*	*Calves.*	*Hogs.*	*Sheep.*	*Horses.*	*Cars.*
1894-5	2,664,912	182,754	7,816,203	3,158,935	111,032	271,600
1893-4	3,082,886	200,761	7,094,273	3,117,267	81,742	290,985

Improvements.—While the work of improving the Chicago Company's facilities for yarding and unloading hogs need not be undertaken this year it must be regarded as something to be dealt with in the near future. For immediate repairs the master mechanic estimates that about $105,000 must be expended during the next six months. The system of drainage also at the yards is inadequate for the volume of business, and it is unwise to postpone much longer this needed improvement. The surplus earnings of the Chicago Company will, it is expected, adequately provide for these improvements.

A probable financial requirement for the future is that of providing for the elevation of our system of tracks. Acting under city ordinances, the Lake Shore and the Rock Island railroads have raised their tracks from their city terminals to the point of intersection with our lines. In a report to the Mayor of Chicago the City Engineer urges that the work should be undertaken at once. The length of the elevation work between the yards and the Illinois Central tracks is about two miles and a height of 17 feet above grade is thought to be necessary.

Earnings of Chicago Company.—The following is a comparative statement of the earnings of the Union Stock Yard & Transit Company for the years ending, respectively, June 30, 1895, and June 30, 1894:

	Gross receipts.	*Operating expenses.*	*Net receipts.*	*Dividends to N. J. Com'y.*
Year end. June 30, 1895	$3,354,559	$1,251,412	$2,103,146	$1,724,412
do June 30, 1894	2,917,368	1,126,618	1,790,749	1,692,809
Increase	$437,191	$124,794	$312,397	Dec. 31,603

The sum of $1,700,494 represents the income of your company for the year from all sources. During the year the company expended the sum of $200,000 for sinking fund and interest due on income bonds issued under the agreement of January 15, 1892.

In view of the small amount of the stock of your company held in Chicago, the Board has discontinued the transfer agency in that city and New York certificates are being issued in exchange for the registered Chicago certificates.

Statistics.—The income account for three years and the balance sheet June 30, 1895, show the following:

INCOME ACCOUNT.

	1894-5.	1893-4.	1892-3.
	$	$	$
Balance from previous year	79,894	21,835	210,638

Philadelphia Traction.

(For year ending June 30, 1895.)

The annual statement furnished by this company to the Pennsylvania State authorities is given below, as also the statement made to the CHRONICLE.

EARNINGS FOR YEARS ENDING JUNE 30.

	1895.	1894.	1893.
Miles of track	201	181	144
Passengers carried (all classes)	111,475,482	102,142,479	97,928,397
Transfers issued	39,721,208	.....	.....
Income—			
Passenger receipts	$5,450,568	$5,002,111	$4,706,921
Rents and mumm.	13,945	15,751	15,331
"Other sources"	198,538	165,795	160,300
Total receipts	$5,662,051	$5,183,657	$4,972,552

PAYMENTS REPORTED TO STATE FOR YEAR 1894-95.

Repairs of railway	$12,334	Injuries to persons	$318,762
Repairs of buildings	7,578	Interest on bonds	43,206
Repairs to cars	78,011		
Cable expenses, { material	315,762	Total	$3,576,322
Cable expenses, { labor	168,168	Balance	2,085,529
Electrical expenses	175,623	Rentals not reported—see below	
Other operating exp	2,055,550	Dividends (10 per cent)	$1,000,000
Taxes	265,094		

NOTE.—These are the figures as furnished the State. In response to a request for information the company reports to the CHRONICLE: "We presume your object is more to get the net results than the details furnished the state, and we would say that the report showed receipts for the year to be $5,662,051, and the operating expenses and rentals to be $4,060,443." It would appear, therefore, that the income available for dividends was $1,601,608.

BALANCE SHEET JUNE 30, 1895.

Assets.		*Liabilities.*	
Cash	$438,714	Capital stock	$15,000,000

Binghamton (Street) Railroad Company.

(Report for the year ending June 30, 1895.)

President G. F. Rogers says in his report:

Since submitting my last annual report, issued July 1st, 1894, the road has shown the remarkable gain in gross earnings of 17 per cent, and a gain in net earnings from operation (before taxes, of 24 per cent. The percentage of operating expenses to earnings for the past year was 57 5-6 per cent. These results have been accomplished with the same trackage under the same conditions and in the face of the prevailing financial depression and the most severe winter the road ever experienced. After paying interest on funded debt amounting to $41,500, there remains a dividend upon the capital stock of over 5 per cent. This amount in our surplus account, taken together with the twenty per cent in stock dividends declared during the past five years of the present management, should prove satisfactory to the stockholders.

	1895.	1894.	1893.	1892.
Receipts	$127,483	$104,710	$98,176	$85,508
Operating expenses	73,716	64,677	60,275	51,266
	$53,767	$44,032	$40,101	$34,237
Taxes	3,247	2,771	2,064	1,394
Net earnings from oper.	$50,519	$41,261	$38,036	$33,242

BALANCE SHEET JUNE 30TH, 1895.

Assets.		*Liabilities.*

Supplies on hand	2,421 10	Funded debt	590,000 00
Open accounts	4,762 90	Bills payable	129,242 98
Cash on hand and in bank	3,622 83	Accrued interest	3,000 00
		Open accounts	9,892 24
		Surplus	24,832 64
	$1,082,337 86		$1,082,337 86

There are $110,000 bonds held in the Treasury.

GENERAL INVESTMENT NEWS.

Altoona Clearfield & Northern.—A despatch from Hollidaysburg, Pa., July 15, says that the court has discharged two receivers of this company, and directed the transfer of the franchises and rolling stock to the board of directors of the corporation. This company has been in the hands of the receivers for three years past. New stock has been subscribed and the concern will now pay its indebtedness dollar for dollar.

Atchison System—St. Louis & San Francisco.—The St. Louis & San Francisco *Equipment 7 per cent bonds of 1880* will receive August 1 at the office of the receivers, 120 Broadway, New York, the interest due June 1, 1895, and interest thereon. —V. 61, p. 67.

Atchison Topeka & Santa Fe—Chicago Elevated Terminal.—The Union Trust Company of New York, trustee under the Atchison general mortgage of 1889 for $150,000,000, has asked the United States Circuit Court at Chicago to set aside the contract entered into four years ago with the Chicago Elevated Terminal Railroad Company. The Atchison Topeka & Santa Fe Railroad in Chicago, it will be remembered, was the owner of the Atchison properties in Chicago and the right of way to the city limits. All the capital stock of this corporation, and all, or nearly all, its bonds are pledged with the Trust Company as part security for the general mortgage of 1889. The facts regarding the transfer of its property to the Chicago Elevated Terminal Company are stated by the Chicago *Herald* as follows:

The Trust Company alleges that in December, 1891, a contract was made between the Santa Fe officials and the Chicago Elevated Terminal Company for the purchase by the latter of the Chicago properties and leases for the sum of $8,102,264, in furtherance of the scheme to elevate the tracks, build the union depot, etc. On Feb 20, 1892, the deed to the property was made. There was no consent of bondholders, the Trust Company alleges, nor was it itself consulted. The purchase money was to be paid as soon as the first mortgage bonds of the Terminal Company could be sold. By the agreement the Santa Fe was to pay an annual rental of $350,000 and all taxes on the property. Until the purchase money was paid, the road was to deduct $324,090 a year, the interest on the $8,102,264, and to deduct $100,000 and $36,000 respectively, rentals on leases to the Western Indiana and Grand Trunk railroads. This left a net sum of $189,000 a year rental to be paid to the Terminal Company. The Trust Company alleges that no consideration whatever was paid by the Terminal Company for the property, that since the execution of the deed of transfer the Santa Fe has been in actual possession of the line as it was before.

The Trust Company asks the Court to set aside the transfer, to compel the recovery of the rentals paid under it, and by injunction to restrain any further recognition of the contract or transfer until the cause is heard and disposed of.—Vol. 61, p. 111.

Atlantic Short Line.—Judge Speer, at Savannah, Ga., has granted an order allowing Receiver Young to borrow $30,000 on receiver's certificates to complete the road between Bruton and Stillmore.—V. 60, p. 1038.

Baltimore & Washington Boulevard Electric—Maryland & Columbia.—It is reported that bids have been asked to complete the Baltimore & Washington electric line by the Columbia & Maryland Railway Co., of which T. M. Lanahan, of Baltimore, is president. It is stated that the road is to be double track throughout, and to be completed by June, 1896. —V. 60, p. 1105.

Called Bonds.—RAILWAY EQUIPMENT OF MINNESOTA.—The numbers of the first mortgage bonds drawn for redemption Dec. 1, 1895, are published in our advertising columns.

Central Iron—Southern Iron.—A press dispatch from Nashville, Tenn., says that in the case of the Central Trust Company of New York against these companies a foreclosure decree has been entered in the Federal Court here. The action is preliminary to a sale and reorganization of the properties. The first mortgage bonds amount to $3,600,000. It is said the holders under the reorganization are to get 12½ per cent of their holdings in new bonds and 18¾ per cent in new stock. After foreclosure the company will be organized under the name of the Buffalo Iron Company.

Charleston City Railway.—The CHRONICLE is informed that the deal for the purchase of the stock of the two Charleston, S. C., city railway lines by Brooklyn parties is at an end. The bonus of $5,000 deposited with the City Railway has been forfeited.—V. 60, p. 925.

Chicago Milwaukee & St. Paul Railway Co.—This company has listed an additional $1,204,000 of general mortgage bonds, making total amount listed $19,010.—V. 60, p. 480.

Cincinnati & Muskingum Valley—Pittsburg Cincinnati Chicago & St. Louis.—At Cincinnati, July 21, Judge Sayler decided in favor of the plaintiff the suit of Henry and others against the Pennsylvania Company. The decision requires the latter to pay about $750,000 interest on the disputed lease of the Cincinnati & Muskingum Valley. The ground of the original suit was that the Pennsylvania had deliberately di-

verted business from the C. & M. V., but the present decision hinges on a technicality. It will probably be appealed to a higher court.—V. 60, p. 747.

Colorado Fuel & Iron.—This company has just listed on the New York Stock Exchange $1,750,000 of its common stock, making the total amount listed $11,000,000, which is also the total authorized. For the acquisition of coal lands, &c., in Colorado $1,000,000 has been used, and $750,000 will be used to pay off dividend scrip and floating debt and for an increased working capital. The company will on Aug. 1 redeem the $160,000 of dividend scrip that it issued for two semi-annual dividends of 4 p. c. each on its preferred stock.—V. 61, p. 112.

Cumberland Valley—South Pennsylvania—It is announced that the Cumberland Valley Railroad, controlled by the Pennsylvania Railroad, has purchased the maps, unfinished road and general effects of the South Pennsylvania Railroad Company. This is the last of the great West Shore settlement among the trunk lines in 1885.

Distilling & Cattle Feeding.—At Chicago on Wednesday in the United States Circuit Court Judge Showalter entered a final decree which makes the receivership of Gen. McNulta permanent and final, and directed him to sell as speedily as possible the remainder of the property not already ordered sold. It also provides that notice shall be given to all of the stockholders of the trust to bring in their stock and prove their claims as stockholders before September 1, and that thereafter a distribution shall be made of all the assets in the receiver's hands. It further provides that the receiver shall prosecute the suits already begun by him against the old directors, in which the receiver seeks to recover $1,000,000, alleged to have been misappropriated, and also seeks to set aside the sale of the bonds which were sold to Morris and Greenhut while they were directors of the company for 50 cents on the dollar.—V. 61, p. 112.

Dry Dock East Broadway & Battery (Horse)—Earnings for the quarter and the twelve months ending June 30 have been reported as follows:

3 mos. ending June 30.	Gross earnings.	Net earnings.	Other income.	Interest, taxes, etc.	Balance, surplus.
1895	$190,637	$45,759	$2,121	$38,484	$9,396
1894	168,929	84,374	8,824	74,480	18,718
12 months—					
1894-95	$719,765	$187,520	$10,264	$136,091	$61,693
1893-94	640,439	176,870	15,118	175,894	15,594

—V. 60, p. 711.

Duluth & Iron Range.—A press dispatch from St. Paul says that Attorney-General Childs has rendered an opinion by which this company may get possession of a land grant of 200,000 acres of pine and mineral land, the value of which is estimated at several millions of dollars. The claim of the company will be further contested, however, by the Federal Land Office. The Illinois Steel Co. is one of the big beneficiaries by the decision.—V. 60, p. 744.

Jacksonville Mayport Pablo Railroad & Navigation.—This company's property, which includes 17 miles of railroad, &c., will be sold at public sale on Monday, September 2, under order of the Circuit Court, the proceeds to be used first to pay certain claims, &c., and second the first mortgage bonds, of which there are $165,000. Seventy-five thousand dollars' worth of them were set aside for the payment of labor liens.

Knoxville Electric.—At Knoxville, Tenn., on July 30, this road was sold in foreclosure under the first mortgage of 1889, and purchased for $162,157 by J. Simpson Africa, of the Union Trust Company of Philadelphia, representing a reorganization committee composed of a majority of the bondholders. W. G. McAdoo, representing the Thomson-Houston company, and C. E. Lucky, representing the minority bondholders, were bidders at the sale.

Lehigh Coal & Navigation.—On a subsequent page of the Chronicle will be found in full the application for listing on the Philadelphia Stock Exchange the $1,000,000 collateral 4½ per cent gold bonds, due 1905, which have been issued for improvements and payment of the floating debt.—V. 61, p. 112.

Louisville Evansville & St. Louis.—The time for deposit of bonds with the Consolidated Bondholders' Committee at the New York Security & Trust Company without penalty has been limited to August 20, 1895. See advertisement in the Chronicle.—V. 60, p. 967.

Listings on New York Stock Exchange.—The Governing Committee has listed $1,204,000 additional general mortgage 4 per cent bonds of the Chicago Milwaukee & St. Paul Railroad Co.; also $1,750,000 of the common stock of the Colorado Fuel & Iron Company.—V. 61, p. 112.

Lynn & Boston.—E. H. Gay & Co. of Boston have sold $2,500,000 Lynn & Boston first mortgage gold 5 per cent bonds to the Bank of Montreal in London. This is the balance of the loan recently issued.—V. 61, p. 112.

Mammoth Cave.—At Glasgow, Ky., July 15, Circuit Judge Jones issued an order for the appointment of a receiver and Master Commissioner for this Railroad Company. The road has not paid expenses and is operated at a loss for the owners by the Louisville & Nashville.

Manchester & Lawrence.—The State of New Hampshire is taking measures to recover the amount recently received by this company from the Concord & Montreal, and paid out as an extra dividend. The officers of the Manchester & Lawrence contend that the distribution of the $500,000 makes an average of 10 per cent on the stock from the start, and hence it is claimed there are no surplus earnings to which the State of New Hampshire is entitled under the charter provisions. The case will come before the October term of the Supreme Court.—V. 61, p. 27.

Metropolitan Street Railroad (Washington, D. C.)—This company has completed the construction of an underground trolley system on the Ninth Street branch of its lines. A trial trip was made late Wednesday night. It was successful and satisfactory.

Milwaukee Street Railway Co.—About 90 per cent of the bonds and stocks of this company having been deposited with the Central Trust Company, New York, the plan of reorganization has been declared effective, and further deposit of securities thereunder will be subject to penalty of $10 for each bond and $1.00 for each share.—V. 60, p. 1,146.

Missouri Pacific—St. Louis Iron Mt. & Southern.—Under authority granted by the stockholders at a meeting on June 12 these companies are about to issue collateral trust notes to the amount of $13,000,000 for the purpose of funding their floating debt. All the notes will bear interest at 5 per cent and mature March 1, 1905, but are redeemable at par and interest at any time.

Of the $13,000,000 the Missouri Pacific will issue $8,256,000 and also guarantee $1,495,000 of the St. Louis & Iron Mt. notes. The St. Louis & Iron Mt. will issue $4,744,000. The $1,495,000 of Iron Mt. notes guaranteed will be turned over to the Missouri Pacific in settlement of the balance due that company. It is understood the notes will be listed on the New York Stock Exchange.—V. 60, p. 1059.

Nassau Electric (Brooklyn)—The General Term of the Supreme Court, Kings County, handed down a decision Friday in favor of the Nassau Electric Railroad Company, in the taxpayers' suit brought by John Adamson, to have its franchises declared void on the ground that they had been obtained through fraud. The application for the franchise was granted by the Board of Aldermen in 1892. Justice Smith in April handed down a decision declaring the Nassau Company's franchise void, and the next day an injunction was obtained from Justice Smith restraining the company from running cars, or even with going ahead with the building of its lines. In May the appeal was argued before the General Term of the Supreme Court, comprising Justices Brown, Pratt and Dykman, whose decision was handed down to day. Justice Smith's decision is overruled, and the complaint is dismissed with costs.—V. 60, p. 836.

New York City Dry Docks.—It is proposed to bring all the dry dock companies in the vicinity of New York under one management, and to pay 2 per cent per annum as rental on the stock of the companies absorbed. The capitalists interested are said to have acquired options on two-thirds the capital stock involved, W. P. Shaw, 41 Wall Street, being their representative. Owing to severe competition the business has been unprofitable for several years. The present move is an effort to place it on a paying basis.

North Carolina Railway.—This company is reported to have received a proposition from the Southern Railway Company for a further lease of 99 years from 1901, when the present lease expires, at the same rental paid under the present lease, namely $273,000 per annum.—V. 61, p. 113.

Ohio Southern.—The general mortgage bondholders have petitioned the court to authorize the issue of $125,000 receivers' certificates to pay the June coupon on the first mortgage bonds, the certificates to rank after the first mortgage.—V. 61, p. 27.

Oregon Pacific.—At Salem, Oregon, July 22, the Supreme Court confirmed the sale of this road.—V. 60, p. 712.

Oregon Railway & Navigation.—The sale by order of the American Loan & Trust Company of $4,260,000 of trust mortgage bonds of the Washington & Idaho Railroad Company and $1,511,580 of first mortgage bonds of the Oregon Railway Extension Company, securing the Oregon Railway & Navigation collateral trust 5s, due 1919, was adjourned on Thursday to Aug. 29.—V. 60, p. 1147.

Ottawa (Ill.) Electric.—Bondholders of this street railway have filed a suit for a receiver and for foreclosure sale for the benefit of the bondholders. The road was built in 1889 and was bonded for $75,000.

Philadelphia Traction — People's Traction—Electric Traction—Union Traction.—The work of consolidating the interests of the three leading street railway companies in Philadelphia is reported to be making rapid progress. It is said the final plan agreed upon by gentlemen representing a majority interest in the Electric, People's and Philadelphia Traction companies contemplates the incorporation of a new company, to be called the Union Traction Company, with a capital of $30,000,000, divided into 600,000 shares, upon each share of which $5 is to be paid at the time of subscription. The new Union Traction Company will lease the Philadelphia Traction for 999 years at an annual rental of $4 per share (8 per cent), payable in gold. It will also issue collateral trust 4 per cent certificates for the purchase of Electric Traction stock at $85 per share, payable in said certificates, and for the purchase of People's Traction stock at $76 per share, payable in certificates. In addition to this each holder of a share in either of the consolidated companies will have the privilege of subscribing to about .774 of a share of the Union Traction Company. It is said the Hestonville road will be asked to come into the amalgamation.

The Philadelphia *Ledger* on Thursday said :

We are informed that the charter of the Union Traction Company will be issued about the middle of August, so that the new arrangements are expected to be in full operation by September. The exchanges of securities to be made will then immediately proceed, the majority of proxies of Philadelphia Traction and of consents from the shareholders of the Electric and People's companies being obtained, where necessary, in advance of the formal action of shareholders' meetings. The 4 per cent trust certificates issued will have the Pennsylvania Company for Insurances, &c., as trustee, the stocks being deposited as collateral. The new company is expected to call upon its capital stock not over $15 per share in a number of small instalments, which will be deemed ample to pay for every improvement and complete all work. The new company expects to give the public increased and improved service. There is no syndicate of any kind in the new arrangement, it not being necessary, and the smallest investor in Traction shares has exactly the same proportionate right of participation as the largest. It is stated that Mr. John Lowber Welsh will be the president of the new company, and that the directors will be selected from the active managers of the three present companies

Application for the charter of the new company was made on Thursday under the General Street Railway Act of 1889. The capital stock is $30,000,000, of which $8,000,000, it is stated, was paid in in cash, which is deposited with Drexel & Co. The incorporators are the following, who it is said will also be directors of the new corporation : John Lowber Welsh, Caleb S. Fox and William H. Shelmardine, of the People's Traction Company : P. A. B. Widener, William L. Elkins, Thomas Dolan, Joseph B. Altemus and James McManes, of the Philadelphia Traction Company, and Jeremiah J. Sullivan, Alfred Smith and Alexander M. Fox, of the Electric Traction Company.—V. 60, p. 523.

Pittsburg & Eastern.—A contract for 45 more miles of this road was let on July 19.—V. 60, p 1010.

Pittsburg Street Railway Consolidation—Consolidated Traction Company.—On Tuesday a charter for 99 years was obtained for the "Consolidated Traction Company," the company into which it is proposed to merge the Pittsburg Traction, Central Traction and Duquesne Traction companies, of Pittsburg, Pa. The shareholders of the new company are C. L. Magee, George W. Elkins, William Flinn, George Sheppard and John M. McBride. They are all directors of the company except Mr. McBride. This consolidation, as also that in Philadelphia, was rendered possible by the act passed at the last session of the Pennsylvania Legislature, permitting traction companies to issue bonds to the amount of their capital stock paid in. Theretofore the law restricted the issue of bonds to 70 per cent of the stock paid up.—V. 61, p. 112.

Rio Grande Southern.—Twenty more of the bonds that were outstanding have come into the plan, so that only 24 bonds remain to be heard from. The interest due July 1 on the assented bonds was paid at maturity at the reduced rate fixed by the plan.—V. 60, p. 1059.

Rockaway Valley.—At Somerville, N. J., on Monday, this road was sold, under foreclosure of a mortgage of $2 30,000, to John F. and James N. Pidcock, Jr., who are interested in the bonds of the road, for $30,000.

Sacramento Electric Light & Power.—*Power transmitted by electricity* —A press dispatch from Sacramento, Cal., says that on July 15 electricity generated by the falls of the American River at Folsom, 24 miles away, was transmitted to that city, and is being used to propel the street cars. Two weeks ago we spoke editorially respecting the Niagara Falls Power Company, which proposes to supply power in Buffalo, 18 miles from the Falls, and as much farther as may prove practicable. In connection with that article, the following dispatch to the New York *Times* will be read with interest:

The waters of the American River will now be utilized for lighting Sacramento's streets, propelling her cars, operating her factories and cooking the food of her citizens. To accomplish this an immense masonry dam was thrown across the American River at Folsom, creating a reservoir three miles long and furnishing a flow of 85,000 cubic feet per minute. The water passes through four horizontal shaft double turbine wheels and is then used for irrigation purposes.

The turbine wheels are 30 inches in diameter and under a head of 55 feet develop 1,500 horse power each. The shafts of the wheels are coupled direct to the shafts of four three-phase alternating current generators of the general Electric type, each capable of developing 1,000 horse power. These dynamos weigh about forty tons each. They are the largest in the world except those being built for Niagara Falls. The electric current is passed through "step up" or raising transformers, which raise the voltage to 10,000 volts, and it is then transmitted by overhead copper wires to this city.

Two separate lines have been built as a precaution against accident or shut-downs for repairs. It is calculated that 80 per cent of the electric power generated at Folsom will be transmitted twenty-four miles to Sacramento. With the enormous water power at hand it was not deemed necessary to employ a larger conductor to reduce the waste. Only the street cars were furnished with power to-day, but it will be gradually extended to all kinds of industrial establishments and used for light and heat.

—From the City of Mexico comes the report of another project for the utilizing of water power by electrical transmission. A company with authorized capital of 20,000,000 francs has obtained a concession for the bringing of power from the falls of the River Necaxa, in the State of Puebla, to the City of Mexico, Pachuca, to be used for lighting and manufacturing purposes. The concessionaire agrees to secure a maximum force of 8,000 horse power within five years, the price per horse power (736 volts in 24 hours) being fixed at $90 a year.

Savannah & Atlantic—Central RR. of Georgia.—The bondholders of the Savannah & Atlantic Railroad have refused to accept the offer of the Georgia Central Reorganization Committee made through the committee which came to New York last week.—V. 60, p. 112.

Sheffield Iron & Steel.—A press dispatch from Montgomery, Ala., says that this company has purchased all of the property of the Alabama Iron & Steel Company, including three furnaces at Sheffield, several thousand acres of coal and ore lands, several mines and a number of coke furnaces, all near Sheffield.

Southern Railway.—The City Council of Norfolk, Va., has unanimously agreed to the terms by which the Southern Railway secures terminal facilities at that port under a lease running thirty years. The company agrees to establish its deep water terminus there and give Norfolk freight rates as favorable as those given to and from Portsmouth, Richmond and West Point.—V. 61, p. 113.

Tennessee Coal & Iron.—President Baxter is quoted as saying: "The company owns 17 blast furnaces of the most modern make, equal to the best in the world, of which 11 are in blast, turning out about 59,000 tons of iron a month. It is preparing to blow in two additional furnaces and within 60 days will be producing 65,000 tons per month. The company is the largest producer of pig iron for the general market in the world and it is making iron at a lower cost than has been duplicated at any previous period. Its coal output varies from 275,000 to 315,000 tons per month.

"It is earning fixed charges and the dividend on the preferred stock. It will undoubtedly at an early date resume payment of dividends on the preferred, and, with a continuation of the present iron market, will earn and pay dividends on the common. The company has in the treasury $447,000 of Debardeleben bonds, for which it has refused 92½. The sale of these bonds would leave a surplus of treasury assets of over $1,000,000." * * "There has not been a bond of the company issued since 1887, but since that time we have taken up $912,300 of bonds and expended on the property $3,055,500."—V. 60, p. 1106.

United States Cordage.—The time for deposit of bonds under the company's plan (the Waterbury-Sturgis plan) expired yesterday, but it was thought would be extended. It was announced that a majority of the bonds had been deposited.

Secretary Rathbone of the Cordage Boadholders' Reorganization Committee says : The Farmer's Loan & Trust Company continues to receive deposits of bonds daily, and other than the bonds of the Bank of New York, which were withdrawn ten days ago and those of the Western National Bank which were withdrawn two days ago, no bonds have been withdrawn. Since the withdrawal of these bonds the plan has been underwritten. The Farmer's Loan & Trust Co. received to-day the largest deposit of bonds in any day since the plan has been submitted to the security holders, and from the amount of bonds on deposit, Secretary Rathbone says he cannot understand how the Waterbury Committee claim a majority.

The Niles stockholders' committee have suggested a compromise between the other reorganization plans.

The bondholders' protective reorganization committee announces that its plan has been underwritten by a syndicate of the highest responsibility.—V 61, p. 113.

Union Pacific.—It is advertised that the *six per cent collateral trust gold notes* will receive their interest due August 1 on that date at the office of J. P. Morgan & Co., New York, or at the office of Jacob C. Rogers, 43 State street, Boston.—V. 61, p. 70.

Valley of Ohio—Baltimore & Ohio—Wheeling & Lake Erie.—The settlement with the Valley Railroad bondholders, announced in our issue of the 13th inst., gives each $1,000 first mortgage bond cash for the principal at par and interest at 7 per cent from Dec. 15, 1891, to June 15, 1895, and interest at 6 per cent on the defaulted interest for the same period. From June 15 to date of settlement 4 per cent interest is paid on the amount due June 15 under this settlement. A 99-year contract has been made giving the Wheeling & Lake Erie trackage privilege on a wheelage basis. This will make a joint line between Wheeling and Cleveland, over which the B. & O. and the W. & L. E. will have equal privileges.—V. 61, p. 70.

Westinghouse.—In the annual report of this company (V. 61, p. 25), reference was made to the Tesla power distributing inventions. As explaining the importance of these inventions we quote from an article by Clemens Herschel in *Cassier's Magazine* as follows :

The earliest electric lighting was by the arc system, the peculiarities of the current rendering the system totally unfit for anything else. Next came the low tension incandescent system, which was gradually and successfully adopted for both arc lighting and motor service. But the limitations of this system were within such narrow lines that it was proved at once to be far short of perfection in a commercial sense. The distance from the station to which this low-tension direct current can be profitably transmitted is not over a mile and a-half.

In 1887 the single-phase alternating system was first introduced in this country by the Westinghouse Company. It was a step in advance, yet not the ideal, in that only lighting could be done by the system, there being no fit motor invented for this current.

A short time after this—in 1888—patents were first issued to Nikola Tesla on a complete polyphase alternating system. He labored diligently, taking out in all twenty-nine uncontested patents, all acquired by the Westinghouse Company, covering every part of the system, and it was not long before the scientific world knew that the long hidden result was achieved—an electrical system, perfectly well adapted for use in small villages, but still so flexible that both arc and incandescent lights and power for factories or mills can be profitably furnished twenty miles or more from the dynamo. Indeed, the limit of distance over which it may practically be transmitted is not yet fully determined, and such engineers as Mr E H. Kennelly and Prof. Houston assert with confidence that Albany, 300 miles away, can easily be lighted and supplied with power from the great plant at Niagara Falls —V. 61, p. 25.

Trust Companies in New York City and Brooklyn.—In addition to the statements published in last week's CHRONICLE, on pages 114 to 116, the following are given, filed this week. The statements of these companies for December 31, 1894, 1893 and 1892 were published in CHRONICLE of Feb. 2, 1895.

Reports and Documents.

LEHIGH COAL & NAVIGATION.

PHILADELPHIA STOCK EXCHANGE—SECURITIES LISTED.

THE LEHIGH COAL & NAVIGATION COMPANY COLLATERAL TRUST FOUR AND ONE-HALF PER CENT GOLD LOAN DATED JUNE 1ST, 1895. DUE SEPTEMBER 1ST, 1905.

PHILADELPHIA, July 17th, 1895.

The Stock List Committee have to-day listed on this Exchange:

$1,000,000 Four and One-Half per cent Collateral Trust Bonds of The Lehigh Coal & Navigation Company, coupon, with privilege of registration of principal Nos. 1 to 1,000, both inclusive, for $1,000 each; interest March 1st and September 1st; principal due September 1st, 1905; both principal and interest payable in gold, free of tax, at the company's office in Philadelphia. The Fidelity Insurance Trust & Safe Deposit Company, Trustees.

The authorized issue of the above-described loan is $1,500,000, of which amount $1,000,000 has been issued for general improvements and betterment of company's property and payment of floating debt; $500,000 being reserved for future requirements of the company.

The payment of the principal and interest is secured by the deposit of securities representing a par value of $3,716,225, with The Fidelity Insurance, Trust and Safe Deposit Company, Trustees, as follows:

Stock of the Wilkesbarre & Scranton Railway Company, 9,950 shares, of the par value of $50 each. (Five per cent dividends guaranteed out of the rental reserved under a lease dated May 1st, 1888, assigned to and assumed by the Central Railroad Company of New Jersey.)	$497,500 00
Stock of the Allentown Terminal Railroad Company, 4,450 shares of the par value of $50 each. (Five per cent dividends guaranteed under lease dated July 10th, 1889, to the Philadelphia & Reading Railroad Company and The Lehigh Coal & Navigation Company, the interest of the latter having been assigned to and assumed by the Central Railroad Company of New Jersey.)	222,500 00
$280,000 thirty-year five per cent general mortgage bonds of the Lehigh & Hudson River Railway Company, due July 1st, 1920	280,000
First mortgage six per cent bonds of the Alliance Coal Mining Company	644,000
Stock of the Alliance Coal Mining Company, 82,889 shares of the par value of $25 each. (The capital stock of the Alliance Coal Mining Company consists of ninety thousand shares, of the par value of twenty-five dollars each, all of which is owned by The Lehigh Coal & Navigation Company, except six thousand shares held by The Central Railroad Company of New Jersey, and twenty-seven shares by individual holders. The outstanding mortgage bonds amount to $692,000, of which $644,000 are owned by the Lehigh Coal & Navigation Company, and the balance by the Central Railroad Company of New Jersey. Its property consists of about four thousand acres of anthracite coal lands situated in Schuylkill County, valued at $1,000 per acre, and believed to be readily marketable at upwards of $500 per acre.)	2,072,225

The funded deb tof the company, in addition to the above, is as follows:

Loan due 1914		$5,000,000
Loan due 1897 (railroad)		2,000,000
Loan due 1897 (gold)		4,652,500
Loan due 1911 (consolidated mortgage bonds)		2,467,000
Scrip redeemable in consolidated mortgage bonds		3,750
Loan due 1924 (general mortgage)		3,686,000
		$17,809,250
Less gold loan, 1897, assumed by C. RR. Co. of N. J.	$2,310,000	
Less gold loan, 1897, assumed by L. & W. B. Coal Co.	500,000	2,810,000
		$14,999,250

Authorized capital, $14,366,650, of which amount there is outstanding $14,346,650; par value of shares, $50, full paid.

Floating debt January 1st, 1895, $425,000.

Attest:

J. BELL AUSTIN,
Secretary.

—The Bondholders' Committee of the Northern Pacific & Montana Railroad Co. announces that out of $5,631,000 in amount of first mortgage bonds, $3,168,000 have been deposited with the Knickerbocker Trust Co., under agreement of November 26, 1894, and the trust company's certificates of deposit have been listed on the New York Stock Exchange. Outstanding bondholders may deposit their bonds with the Knickerbocker Trust Co. without penalty up to August 1st, after which $10 00 a bond will be required.

—The card of Messrs. S. Munn, Son & Co. appears among our advertisements in the cotton department to-day. This firm is one of the old houses in their line, having been established in 1844. Their offices are in the new Coffee Exchange Building.

—The statement of the City Bank, Buffalo, shows resources, $2,453,014; deposits, $1,983,443. William C. Cornwall, well-known in banking circles throughout the United States, is the President of the City Bank.

The Commercial Times.

COMMERCIAL EPITOME.

FRIDAY NIGHT, July 26, 1895.

Some lines of merchandise have sold with less freedom in consequence of quieting influences ordinarily prevailing towards end of month. A general feeling of cheerfulness continues in commercial circles, however, and pronounced confidence is expressed in an excellent fall trade. Advices from growing crops have been generally favorable during the current week, and especially so regarding cereals, with latest information reporting oats maintaining good promise and corn in excellent condition, though needing moisture in a few localities; previous cheerful promises for spring wheat have became only slightly modified, but threshing returns from winter wheat are said to be disappointing. Slow marketing of wheat and unusually small supplies at shipping depots have served as influences to attract liberal investing demand toward the grain, but other staple commodities receive only indifferent speculative attention.

The inquiry for lard on the spot has been very limited, both from local refiners and shippers, but prices have ruled fairly steady, closing at 6·62½c. for prime Western, 6·25c. for prime City and 7c. for refined for the Continent. There has been no speculation in the local market for lard futures, but prices have weakened slightly in response to weaker advices from the West and the slowness of the "spot" trade.

DAILY CLOSING PRICES OF LARD FUTURES

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
September.....c.	6·77	6·77	6·77	6·65	6·62	6·65

The amount of business transacted in pork has been small, but prices have held steady, closing at $12 25@$12 75 for mess, $12 25@$14 50 for short clear and $12 50@$18 for family. Cut meats have sold rather slowly, but prices have ruled firm, closing at 7½@8c. for pickled bellies, 12@10 lbs. average, 6c. for pickled shoulders and 9½@10c. for pickled hams. Beef has been quiet but steady, closing at $8 for mess, $9@$11 for packet, $11@$13 for family and $17@$18 50 for extra India mess. Beef hams have been unchanged, closing at $18@$18 50. Tallow has sold slowly and the close was easy at 4½c. asked. Lard stearine has been dull, closing at 8¼c. Oleo stearine has had a slow call and the close was easy at 6½c. asked. Cotton-seed oil has further advanced, closing firm at 28@29c. for prime yellow and 27@27½c. for off grade yellow. Butter has been in fair demand for choice grades, and firmer, closing at 12@17½c. for creamery. Cheese has been fairly active and firmer for fancy, closing at 5¾@8½c. for State factory, full cream. Fresh eggs have been steady, closing at 13@13½c. for choice Western.

Coffee has found decided increase of demand of general character, which served as a stimulating influence upon values, and cost is higher. Rio quoted at 15½c. for No. 7 flat-bean, good Cucuta 19½c. and standard Java 27@27½c. For future delivery the tone was somewhat buoyant in consequence of strong accounts from primal markets and free covering of shorts, closing still in sellers' favor.

The following were the final asking prices:

July.....15·40c.	Oct.....15·35c.	Jan.....15·10c.
Aug.....15·40c	Nov.....15·25c.	Feb.....15·05c.
Sept.....15·30c.	Dec.....15·20c.	March.....15·05c.

Sugars have shown fair animation on market for raw grades, with most of the offering purchased, and in some cases at slightly better rates. Centrifugal quoted at 3¼c. for 96 deg. test and muscovado at 2⅞c. for 89 deg test. Refined sugars were disappointingly dull but generally held steady at former rates; granulated quoted at 4⅛c. Teas still greatly neglected.

For Kentucky tobacco the demand has been less active but prices have ruled firm; sales 225 hhds. For seed leaf tobacco the demand has continued slow but prices have held steady; sales for the week were 1,900 cases, as follows: 150 cases 1892 crop, New England Havana, 18@35c.; 200 cases 1893 crop, New England Havana, 8@13c.; 300 cases 1894 crop, New England Havana, 16@18c.; 100 cases 1893 crop, Zimmer's, 12@14c.; 200 cases 1892 crop, Wisconsin Havana, 14@15c.; 50 cases 1893 crop, Pennsylvania Havana, 11@13c.; 100 cases 1892 crop, Gebhart's, 10c., and 100 cases 1893 crop, Gebhart's, private terms; also 700 bales Havana, 65c.@$1 20, and 400 bales Sumatra, 75c.@$3 25 in bond.

The speculation in the market for Straits tin has been quiet but prices have advanced in response to decidedly stronger foreign advices, closing quiet at 14·55c. Ingot copper has further advanced and the close was firm at 11·40@11·50c. for Lake. Lead has continued to advance and the close was strong at 3·50c. Spelter has advanced a trifle and the close was firm at 3·77½@3·77½c. for domestic. Pig iron has continued fairly active and firm, closing at $11 50@14 for domestic.

Refined petroleum has declined, closing at 7·50c. in bbls., 5·00c. in bulk and 7·50c. in cases; crude in bbls. has been nominal; naphtha, 9·25c. Crude certificates have declined, closing at 1·30c. bid. Spirits turpentine has declined, closing easy at 27½@28c. Rosins have been steady, closing at $1 55@$1 57½ for common and good strained. Wool has been fairly active and firm. Hops have been dull and without change.

COTTON.

FRIDAY NIGHT, July 26, 1895.

THE MOVEMENT OF THE CROP, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening the total receipts have reached 2,734 bales, against 2,676 bales last week and 5,866 bales the previous week, making the total receipts since the 1st of Sept., 1894, 7,856,226 bales, against 5,907,419 bales for the same period of 1893-4, showing an increase since Sep. 1, 1894, of 1,948,807 bales.

Speculation in cotton for future delivery at this market was again of limited proportions. A very large part of the business recorded has been simply of deals to change location of engagements, quite liberal liquidation of August options finding balance in renewals for October and the later months. The slow sale of cotton in sight is considered a slightly bearish factor. Some 2@3 points were lost on Saturday, but the market furnished no other new feature worthy of record. During Monday there was not much done except in the liquidation of August and the taking up of later options, prices fluctuating considerably and finally closing at 2@3 points net gain. Tuesday furnished almost a duplicate of the previous day's market, except that prices were easier and lost 1 point net. Wednesday's deal was more active, first declining 6@7 points under free selling and then fully regaining the loss in consequence of covering by local shorts. Yesterday trade was quiet again and 4 points lost, with no special feature to advise. To-day there was a pretty full issue of August notices of delivery, but they were fairly well stopped and rates gained a few points. New trading orders continued scarce. Cotton on the spot steady at 7c. for middling uplands.

The total sales for forward delivery for the week are 476,000 bales. For immediate delivery the total sales foot up this week 3,633 bales, including 500 for export, 3,133 for consumption, — for speculation and — on contract. The following are the official quotations for each day of the past week—July 20 to July 26.

Rates on and off middling, as established Nov. 22, 1893, by the Revision Committee, at which grades other than middling may be delivered on contract:

Fair	c. 1 1/4 on.	Good Ordinary	c. 1 1/8 off.
Middling Fair	7/8 on.	Good Middling Tinged	Even.
Strict Good Middling	1/2 on.	Strict Middling Stained	7/32 off.
Good Middling	5/16 on.	Middling Stained	7/16 off.
Strict Low Middling	3/16 off.	Strict Low Mid. Stained	29/32 off.
Low Middling	7/16 off.	Low Middling Stained	1 1/8 off.
Strict Good Ordinary	13/16 off.		

On this basis the prices for a few of the grades would be as follows:

UPLANDS.	Sat.	Mon	Tues	Wed	Th.	Fri
Good Ordinary	5 7/8	5 7/8	5 7/8	5 7/8	5 7/8	5 7/8

☞ The imports into Continental ports the past week have been 75,000 bales.

The above figures indicate an *increase* in the cotton in sight to-night of 494,232 bales as compared with the same date of 1894, an *increase* of 447,972 bales over the corresponding date of 1893 and a decrease of 27,374 bales from 1892

AT THE INTERIOR TOWNS the movement—that is the receipts for the week, and since September 1, the shipments for the week and the stocks to-night, and the same items for the corresponding period of 1893-94—is set out in detail below.

Towns	Movement to July 26, 1895.				Movement to July 27, 1894.

* Louisville figures "net" in both years.
† This year's figures estimated.

The above totals show that the interior stocks have *decreased* during the week 3,998 bales and are now 12,549 bales *less* than at same period last year. The receipts at all the towns have been 508 bales *less* than at same week last year and since Sept. 1 are 1,734,781 bales *more* than for same time in 1894-95.

QUOTATIONS FOR MIDDLING COTTON AT OTHER MARKETS.—Below we give closing quotations of middling cotton at Southern and other principal cotton markets for each day of the week.

RECEIPTS FROM THE PLANTATIONS.—The following table indicates the actual movement each week from the plantations. The figures do not include overland receipts nor Southern consumption; they are simply a statement of the weekly movement from the plantations of that part of the crop which finally reaches the market through the outports.

Week Ending—	Receipts at the Ports.			Stk at Interior Towns.			Rec'pts from Plant'ns		
	1895.	1894.	1893.	1895.	1894.	1893.	1895.	1894.	1893.
June 21 ...	21,696	12,849	15,514	150,162	92,347	71,898	6,956	4,434	11,257
" 28....	19,998	12,896	6,223	135,893	85,585	67,870	4,569	6,014	2,196
July 5. ...	16,384	10,119	3,705	125,780	79,356	64,724	6,771	3,920	649
" 12.....	15,762	5,910	5,856	120,466	76,577	58,762	10,448	3,101	.....
" 19 ...	14,971	3,812	2,676	119,260	73,105	58,354	894	340	218
" 26	10,205	3,921	2,734	97,788	65,945	53,346	.....	.....	.....

The above statement shows: 1.—That the total receipts from the plantations since Sept. 1, 1894, are 7,853,287 bales; in 1893-94 were 5,897,193 bales; in 1892-93 were 5,019,908 bales.

2.—That although the receipts at the outports the past week were 2,734 bales, the actual movement from plantations was only —— bales, the balance being taken from the stocks at the interior towns. Last year the receipts from the plantations for the week were —— bales and for 1893 they were —— bales.

OVERLAND MOVEMENT FOR THE WEEK AND SINCE SEPT. 1.—We give below a statement showing the overland movement for the week and since September 1. As the returns reach us by telegraph late Friday night it is impossible to enter so largely into detail as in our regular monthly report, but all the principal matters of interest are given. This weekly publication is of course supplementary to the more extended monthly statements. The results for the week ending July 26 and since Sept. 1 in the last two years are as follows:

July 26.	1894-95.		1893-94	
	Week.	*Since Sept. 1.*	*Week.*	*Since Sept. 1*
Shipped—				
Via St. Louis.....	2,180	436,000	3,333	612,543
Via Cairo	425	336,654	204	232,569
Via Hannibal	.....	545	.....	13,756
Via Evansville.....	.....	3,817	.....	7,369
Via Louisville	63	189,373	471	131,243
Via Cincinnati	75	177,930	520	107,983
Via other routes, &c	294	141,391	207	129,474
Total gross overland.....	3,037	1,785,719	4,735	1,234 937
Deduct shipments—				
Overland to N. Y., Boston, &c..	988	575,303	172	300,177
Between interior towns.....	121	32,467	8	21,898
Inland, &c., from South.....	386	79,085	290	103,145
Total to be deducted.....	1,495	686,855	470	425,220
Leaving total net overland*..	1,542	1,098,864	4,265	809,717

* Including movement by rail to Canada.

The foregoing shows that the week's net overland movement this year has been 1,542 bales, against 4,265 bales for the week in 1894, and that for the season to date the aggregate net overland exhibits an excess over a year ago of 289,147 bales.

In Sight and Spinners' Takings.	1894-95.		1893-94	
	Week.	*Since Sept. 1.*	*Week.*	*Since Sept. 1.*
Receipts at ports to July 26.....	2,734	7,856,226	3,921	5,907,419
Net overland to July 26.....	1,542	1,098,864	4,265	809,717
Southern consumption to July 26.	10,000	720,000	8,000	661,000
Total marketed	14,276	9,675,090	16,186	7,378,136
Interior stocks in excess.....	*2,908	*3,939	*7,160	110,221
Came into sight during week.	11,368	.....	9,026	.....
Total in sight July 26.....	.....	9,671,151	.....	7,367,915
North'n spinners tak'gs to July 26	12,358	2,007,553	12,739	1,554,32

* Decrease during week. † Less than September 1.

It will be seen by the above that there has come into sight during the week 11,368 bales, against 9,026 bales for the same week of 1894, and that the increase in amount in sight to-night as compared with last year is 2,303,236 bales.

Weather Reports by Telegraph.—The weather at the South during the past week, as indicated by our telegraphic reports this evening, has been favorablo as a rule. Needed rain has fallen in a number of districts of Texas and the plant has benefitted. At a few points in the Gulf section there has been too much moisture, but at others moisture is needed. From the remainder of the cotton belt our advices are in the main satisfactory.

Galveston, Texas.—There have been showers on four days during the week, the rainfall reaching two inches and forty hundredths. Average thermometer 80, highest 92 and lowest 68.

Palestine, Texas.—We have had showers on three days of the past week, the rainfall reaching twenty hundredths of an inch. The thermometer has averaged 82, the highest being 96 and the lowest 68.

Huntsville, Texas.—It has been showery on one day of the week, the precipitation being seventy-five hundredths of an inch. The thermometer has averaged 84, ranging from 72 to 96.

Dallas, Texas.—The weather has been favorable for crops and farm work generally the past week, except that in a few localities rain has retarded the latter. The showers have as a rule been beneficial to cotton, as the dry weather was causing the plant to shed in some districts over the western portion of the State. Cotton is fruiting very nicely and some bolls are opening, but more rain is desirable on uplands, especially in southwest Texas. Sharpshooters are reported in early cotton in limited areas over the western part of north Texas. The corn crop is excellent. There has been rain on three days of the week, the rainfall being nineteen hundredths of an inch. The thermometer has ranged from 70 to 98, averaging 84.

San Antonio, Texas.—There has been rain on one day of the week, the precipitation reaching one inch and seven hundredths. Average thermometer 85, highest 98 and lowest 72.

Luling, Texas.—Dry weather has prevailed all the week. The thermometer has averaged 87, the highest being 100 and the lowest 74.

Columbia, Texas.—It has rained on one day of the week, the precipitation reaching four hundredths of an inch. The thermometer has averaged 84, ranging from 72 to 96.

Cuero, Texas.—There has been no rain during the week. The thermometer has ranged from 74 to 98, averaging 86.

Brenham, Texas.—There has been rain on three days of the week, the precipitation reaching two inches and sixty-one hundredths. Average thermometer 85, highest 98 and lowest 72.

Belton, Texas.—It has been showery on three days of the week, the rainfall being nineteen hundredths of an inch. The thermometer has averaged 84, the highest being 100 and the lowest 68.

Fort Worth, Texas.—Rain has fallen on three days of the past week, the rainfall being fifty hundredths of an inch. The thermometer has averaged 84, ranging from 70 to 97.

Weatherford, Texas.—We have had rain on three days of the week, the rainfall reaching two inches and nineteen hundredths. The thermometer has ranged from 70 to 96, averaging 83.

New Orleans, Louisiana.—Rain has fallen on six days of the week, to the extent of four inches and thirty-one hundredths. Average thermometer 77.

Shreveport, Louisiana.—There has been rain on five days of the week, the precipitation reaching three inches and forty hundredths. The thermometer has averaged 80, the highest being 94 and the lowest 70.

Columbus, Mississippi.—The crop continues to improve. It has rained on six days of the week, the rainfall reaching one inch and seven hundredths. The thermometer has averaged 82, and ranged from 69 to 101.

Leland, Mississippi.—There has been rain on four days of the week, the precipitation being two inches and five hundredths. The thermometer has ranged from 70 to 93, averaging 79.

Meridian, Mississippi.—Telegram not received.

Little Rock, Arkansas.—Rain has fallen on five days of the week. The rainfall reached one inch and eighty-nine hundredths. The thermometer has averaged 80, the highest being 94 and the lowest 72.

Helena, Arkansas.—Crops look well but are grassy. We have had light showers on five days of the week, the precipitation reaching two inches and twenty-six hundredths. The weather now is clear. The thermometer has averaged 79, ranging from 64 to 94.

Memphis, Tennessee.—This has been the rainiest July on record. To the 25th inclusive there have been six inches and forty-three hundredths of precipitation. Crops are grassy. Rain has fallen lightly the past six days, the rainfall being one inch and three hundredths; but the weather now is clear. The thermometer has ranged from 67 to 92 7, averaging 79.

Nashville, Tennessee.—We have had rain during the week to the the extent of one inch and forty-eight hundredths. Average thermometer 80, highest 95 and lowest 63,

Mobile, Alabama.—Crop reports are rather unfavorable. There are complaints of too much rain, excessive growth of grass and weeds and that plants are fruiting poorly. It has rained on six days of the week, the rainfall being two inches and fifty-eight hundredths. The thermometer has averaged 79, the highest being 88 and the lowest 72.

Montgomery, Alabama.—The crop is doing fairly well but has had rather too much moisture of late. Corn is made and is abundant. Rain has fallen on four days of the week, the rainfall being one inch and three hundredths. The thermometer has averaged 80, ranging from 71 to 88.

Selma, Alabama.—Since rain stopped and where cotton is worked it shows improvement. Upland and rolling land crop is promising. In some districts rain is now needed. We have had rain on three days of the week, the rainfall reaching sixty-eight hundredths of an inch. The thermometer has ranged from 67 to 92, averaging 79.

Madison, Florida.—We have had rain on six days of the week, the precipitation reaching one inch and sixty hundredths. Average thermometer 79, highest 87, lowest 68.

Columbus, Georgia.—We have had rain on two days during the week, the rainfall reaching fifty-seven hundredths of an inch. The thermometer has averaged 81, the highest being 92 and the lowest 71.

Savannah, Georgia.—Rain has fallen on six days of the week, the rainfall reaching eighty-five hundredths of an inch. The thermometer averaged 83 and has ranged from 71 to 94.

Augusta, Georgia.—We have had rain on three days of the week, to the extent of ninety hundredths of an inch. The thermometer has ranged from 71 to 94, averaging 82.

Albany, Georgia.—Cotton is being injured by too much rain. We have had rain on six days of the week, the precipitation being one inch and eleven hundredths. Average thermometer 81·7, highest 92 and lowest 73.

Charleston, South Carolina.—There has been rain on three days of the week, the rainfall reaching two inches and ninety hundredths. The thermometer has averaged 82, the highest being 92 and the lowest 72.

Stateburg, South Carolina.—We have had light rain on one day of the week, the rainfall being three hundredths of an inch. The thermometer has averaged 81·4, ranging from 73 to 91.

Greenwood, South Carolina.—Some sections have had rain, others are suffering for moisture. It has been showery here on four days of the week, the precipitation reaching twenty-one hundredths of an inch. The thermometer has ranged from 71 to 93, averaging 82.

Wilson, North Carolina.—We have had rain on two days of the week, the rainfall reaching one inch and forty-one hundredths. Average thermometer 82, highest 94 and lowest 68.

The following statement we have also received by telegraph, showing the height of the rivers at the points named at 8 o'clock July 25, 1895, and July 26, 1894.

		July 25, '95.	*July 26, '94.*
		Feet.	*Feet.*
New Orleans	Above zero of gauge.	5·0	4·0
Memphis	Above zero of gauge.	7·3	5·6
Nashville	Above zero of gauge.	3·6	2·9
Shreveport	Above zero of gauge.	26·8	0·8
Vicksburg	Above zero of gauge.	16·8	9·3

India Cotton Movement From all Ports.—The receipts and shipments of cotton at Bombay have been as follows for the week and year, bringing the figures down to July 25.

Bombay Receipts and Shipments for Four Years.

Year	*Shipments this week.*			*Shipments since Sept. 1.*			*Receipts*	
	Great Brit'n.	*Continent.*	*Total.*	*Great Britain*	*Continent.*	*Total.*	*This Week.*	*Since Sept. 1.*
'94-5	.....	4,000	4,000	26,000	513,000	539,000	9,000	1,490,000
'93-4	.....	6,000	6,000	47,000	750,000	797,000	8,000	1,767,000
'92-3	.....	3,000	3,000	42,000	785,000	827,000	7,000	1,715,000
'91-2	.....	6,000	6,000	69,000	823,000	892,000	8,000	1,729,000

According to the foregoing Bombay appears to show an *increase* compared with last year in the week's receipts of 1,000 bales and a *decrease* in shipments of 2,000 bales, and the shipments since Sept. 1 show a *decrease* of 258,000 bales. The movement at Calcutta, Madras, and other India ports for the last reported week and since the 1st of September, for two years, has been as follows. "Other ports" cover Ceylon, Tuticorin, Kurrachee and Coconada.

All others—						
1894-95...	2,000	3,000	5,000	26,000	85,000	111,000
1893-94...	2,000	4,000	6,000	31,000	81,000	112,000
Total all—						
1894-95...	2,000	3,000	5,000	40,000	123,000	163,000
1893-94...	4,000	5,000	9,000	74,000	179,000	253,000

The above totals for the week show that the movement from the ports other than Bombay is 4,000 bales *less* than the same week last year. For the whole of India, therefore, the total shipments since September 1, 1894, and for the corresponding periods of the two previous years, are as follows:

EXPORTS TO EUROPE FROM ALL INDIA.

Shipments to all Europe from—	1894-95. This week.	1894-95. Since Sept. 1.	1893-94. This week.	1893-94. Since Sept. 1.	1892-93. This week.	1892-93. Since Sept. 1.
Bombay	4,000	539,000	6,000	797,000	3,000	827,000
All other ports	5,000	163,000	9,000	253,000	3,000	157,000
Total	9,000	702,000	15,000	1,050,000	6,000	984,000

ALEXANDRIA RECEIPTS AND SHIPMENTS.—Through arrangements we have made with Messrs. Davies, Benachi & Co of Liverpool and Alexandria, we now receive a weekly cable of the movements of cotton at Alexandria, Egypt. The following are the receipts and shipments for the past week and for the corresponding week of the previous two years.

Alexandria, Egypt, July 24	1894-95.	1893-94.	1892-93.
Receipts (cantars*)			
This week	.....	1,000	.....
Since Sept. 1	4,536,000	4,976,000	5,136,000

	This week.	Since Sept. 1.	This week.	Since Sept. 1.	This week.	Since Sept. 1.
Exports (bales)—						
To Liverpool	1,000	273,000	6,000	320,000	.....	308,000
To Continent	.....	343,000	4,000	306,000	2,000	328,000
Total Europe	1,000	616,000	10,000	626,000	2,000	636,000

* A cantar is 98 pounds.

This statement shows that the receipts for the week ending July 24 were —— cantars and the shipments to all Europe 1,000 bales.

MANCHESTER MARKET.—Our report received by cable to-night from Manchester states that the market is easy for both yarns and shirtings. Merchants are buying very sparingly. We give the prices for to-day below and leave those for previous weeks of this and last year for comparison:

SEA ISLAND COTTON MOVEMENT.—We have received this (Friday) evening by telegraph from the various ports the details of the Sea Island cotton movement for the week. The receipts for the week ending to-night (July 26) and since Sept. 1, 1894, the stocks to-night, and the same items for the corresponding periods of 1893-94, are as follows.

Receipts to July 26.	1894-95. This week.	1894-95. Since Sept. 1.	1893-94. This week.	1893-94. Since Sept. 1.	Stock 1895.	Stock 1894.

Total 1893-4	.....	.....	.....	32,566	4,842	37,248	.....	22,425

A considerable portion of the Sea Island cotton shipped to foreign ports goes via New York, and some small amounts via Boston and Baltimore. Instead of including this cotton for the week in which it leaves the Southern outports, we follow the same plan as in our regular table of including it when actually exported from New York, &c. The details of the shipments of Sea Island cotton for the week will be found under the head "Shipping News," on a subsequent page.

Quotations July 26 at Savannah, for Floridas, nominal. Charleston, Carolinas, nominal.

NEW ORLEANS FIRST BALE.—The first bales of cotton of the crop of 1895-96 received at New Orleans arrived there on Thursday, July 25. Last year the first bale arrived at New Orleans on July 16 and in 1893 the earliest arrival was on July 13.

JUTE BUTTS, BAGGING, &c.—The market for jute bagging has been without animation the past week, but prices have ruled fairly steady at 4⅛c. for 1¾ lbs., 4½c. for 2 lbs. and 5c. for standard grades in a jobbing way. Car load lots of standard brands are quoted at 4½c. for 1¾ lbs., 4⅝c. for 2 lbs. and 5¼c. for 2¼ lbs. f. o. b. at New York. Jute butts continue rather dull on the spot at 1⅛c. for paper quality, 1½c. for mixing and 1¾c. for bagging quality.

EXPORTS OF COTTON GOODS FROM GREAT BRITAIN.—Below we give the exports of cotton yarn, goods, &c., from Great Britain for the month of June and since October 1 in 1894-95 and 1893-94, as compiled by us from the British Board of Trade returns. It will be noticed that we have reduced the movement all to pounds.

Stockings and socks							880	910
Sundry articles							16,921	15,302
Total exports of cotton manufactures							945,173	935,789

The foregoing shows that there has been exported from the United Kingdom during the nine months 945,173,000 lbs. of manufactured cotton, against 935,789,000 lbs. last year, or an increase of 9,434,000 lbs.

A further matter of interest is the destination of these exports, and we have therefore prepared the following statements, showing the amounts taken by the principal countries during June and since October 1 in each of the last three years:

EGYPTIAN COTTON CROP.—The report of the Alexandria General Produce Association upon the condition and prospects of the new cotton crop at the end of June is as follows:

The unusually cool weather for Egypt which has prevailed during June, though not hurtful to the growth of the cotton plants, has been certainly prejudicial in fostering the development of the cotton worms. After a first alarm, early in the month, produced by the large number of worms in the Beraseem fields, the insects disappeared without doing any damage. But since then the moths have been almost daily depositing their eggs on the cotton leaves, and the hatching of these eggs has been favored by a steadily cool temperature. The result is an invasion of worms beyond anything that has hitherto been seen. They now prevail throughout the Lower Egypt, and are especially numerous in the more forward cultivations, and a certain amount of damage is announced from several districts. The position is critical and causes considerable anxiety; if really hot weather does not soon set in and kill the worms the plantations will be seriously damaged. Hotter weather has prevailed these last two or three days, giving hope for an increasing temperature, which may be efficacious. From the Fayoum there are complaints of too cool weather, and for the first time cotton worms have appeared in the cotton fields there. But from the more southerly districts of Upper Egypt the reports are good; the plants are doing well and are free of the taint. Water continues to be everywhere abundant

COMPARATIVE PORT RECEIPTS AND DAILY CROP MOVEMENT.—A comparison of the port movement by weeks is not accurate as the weeks in different years do not end on the same day of the month. We have consequently added to our other standing tables a daily and monthly statement, that the reader may constantly have before him the data for seeing the exact relative movement for the years named. The monthly movements since September 1, 1894, and in previous years, have been as follows:

Monthly Receipts.	Year Beginning September 1.					
	1894.	1893.	1892.	1891.	1890.	1889.
Sept'mb'r	518,767	377,408	405,355	676,823	732,236	561,710
October..	1,622,664	1,311,269	1,135,473	1,532,426	1,365,231	1,325,358

May.....	158,135	126,011	129,905	192,895	196,018	57,362
June.....	61,441	65,998	95,682	101,161	101,834	25,191
Total..	7,842,843	5,885,495	4,994,312	7,047,297	6,856,884	5,778,772
Per'tage of tot. port receipts June 30..	98·50	97·66	98·46	98·05	98·34	

This statement shows that up to June 30 the receipts at the ports this year were 1,957,348 bales more than in 1894 and 2,848,531 bales greater than in 1893. By adding to the totals to June 30 the daily receipts since that time we shall be able to reach an exact comparison of the movement for the different years.

	1894-95.	1893-94.	1892-93.	1891-92.	1890-91.	1889-90.

Percentage of total port rec'pts July 26	98·71	98·69	99·10	98·58	98·56	

This statement shows that the receipts since Sept. 1 up to to-night are now 1,949,576 bales more than they were to the same day of the month in 1894 and 2,809,317 bales greater than they were to the same day of the month in 1893. We add to the table the percentages of total port receipts which had been received to July 26 in each of the years named.

THE FOLLOWING ARE THE GROSS RECEIPTS OF COTTON at New York, Boston, Philadelphia and Baltimore for the past week, and since September 1, 1894.

THE EXPORTS OF COTTON from New York this week show an increase compared with last week, the total reaching 3,065 bales, against 1,939 bales last week. Below we give our usual table, showing the exports of cotton from New York, and the direction, for each of the last four weeks; also the total exports and direction since Sept. 1, 1894, and in the last column the total for the same period of the previous year.

BREADSTUFFS.

FRIDAY, July 26, 1895.

There has been a better market for wheat flour. Demand has improved, as an advance in wheat has had a tendency to stimulate buyers, and prices in some instances have improved about 10c. per bbl. For city mills there has been a fairly active inquiry at firm prices. Rye flour has continued in slow request and prices have further declined. For corn meal the demand has been limited, but prices have held steady. To-day the market for wheat flour was quiet and easy.

The speculative dealings in the market for wheat futures have been fairly active and prices advanced, particularly during the latter part of the week, on a brisk demand from "shorts" to cover contracts, stimulated by reports of crop damage in the Northwest by smut and talk of political complications in Europe. In the spot market business has been slow, but prices have advanced in sympathy with the rise in futures. Yesterday No. 2 red winter was quoted at 1⅛c. over Sept. f. o. b. afloat. To-day the market for wheat futures opened higher on stronger foreign advices, but immediately weakened and declined under realizing sales by "longs," being easy. The spot market was dull. No business was reported and No. 2 red winter was quoted at 2c. over Sept. f. o. b. afloat.

DAILY CLOSING PRICES OF NO. 2 RED WINTER WHEAT.

	Sat.	Mon.	Tues.	Wed.	Thurs	Fri.
July delivery	70⅜	72⅛	71⅛	73⅜	74⅜	73⅜
August delivery	70⅜	72⅛	71⅛	73⅜	74⅜	73⅜
September delivery	71	72⅛	71⅛	73⅜	74⅜	73⅜
October delivery	71⅜	73⅛	72⅛	74⅜	75⅛	74
November delivery	74⅛	74⅛	74⅛	77⅛	76⅛	75⅛
May delivery	76⅛	77⅛	76⅛	80⅛	79⅛	78⅛

Indian corn futures have been fairly active, and despite continued favorable crop prospects at the West, prices advanced during the first half of the week on buying by "shorts" to cover contracts, stimulated by the rise in wheat and stronger foreign advices. Subsequently, however, realizing sales by "longs" caused the improvement to be lost. In the spot market shippers have continued fair buyers and prices have followed futures. The sales yesterday included No. 2 mixed at ¼c. under September in elevator, ⅛c. over September delivered and 1⅛c. over Sept. f. o. b. afloat; also No. 2 white at 31½c. f. o. b. afloat. To-day the market was quiet, and prices declined slightly in sympathy with the weakness in wheat. The spot market was active; shippers bought freely and prices were steady. The sales included No. 2 mixed at 48@48¼c. in elevator, 49c. delivered and 1⅝@1¾c. over Sept. f. o. b. afloat.

DAILY CLOSING PRICES OF NO. 2 MIXED CORN.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
July delivery	48⅜	49⅛	49⅞	49⅜	48⅜	48¼
August delivery	....	....	....	....	48⅜	48⅛
September delivery	49¼	49⅞	49¼	49⅞	48¾	48¼
October delivery	....	48⅜	48⅛	....	48	47⅜
May delivery	....	41½	....	41¼	40⅞	41

Oats for future delivery have been quiet and no important changes have been made in prices, although at one time during the week there was a slight improvement in sympathy with the rise in wheat and corn, but favorable crop prospects caused what little advance there was to be lost. The spot market has been moderately active and white grades have been stronger, owing to scarcity; mixed grades have declined. The sales yesterday included No. 2 mixed at 28½c. in elevator and No. 2 white at 33c. in elevator. To-day the market was quiet and easier. The spot market was firmer but quiet. The sales included No. 2 mixed at 29¾c. in elevator and No. 2 white at 32@32½c. in elevator.

DAILY CLOSING PRICES OF NO. 2 MIXED OATS.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.

THE DRY GOODS TRADE.

NEW YORK, FRIDAY, P. M., July 26, 1895.

During the early part of the week the market presented no feature of greater interest in cotton goods than a slight increase in the demand, but towards the close there developed a renewed upward movement in bleached cottons, a number of important lines being advanced ¼c. per yard. This may exercise a decided influence over the course of business in taple goods generally, as it has come without the aid of anything like current active demand, and is a clear indication of the strong position of a very considerable number of manuacturers. There have been complaints of business this month not coming up to expectations, and occasional impatient sellers have shown a disposition to adopt an easier attitude, but such instances are without effect on the situation generally, and are practically ignored in face of the evidences of strength cropping out from time to time. The jobbing trade at large is also in a good position on cotton goods, as it owns large quantities considerably below prices at which they could now be replaced and can sell relatively cheaper than the primary market and still earn profits. This should be conducive to a quick distribution from second hands and ensure a good supplementary business here before long. Reports from manufacturing districts show mills unusually well employed and operatives better paid than for a considerable time past, while the projected strike at Fall River has been abandoned.

DOMESTIC COTTON GOODS.—The exports of cotton goods from this port for the week ending July 22 were 1,752 packages, valued at $100,126 their destination being to the points specified in the table below:

NEW YORK TO JULY 22.	1895. Week.	1895. Since Jan. 1.	1894 Week	1894 Since Jan. 1.
Great Britain	58	3,069	102	3,348
Other European	42	1,718	9	2,023
China	95	30,912	2,880	55,300
India	....	3,634	301	4,880
Arabia	....	14,247	919	14,237

South America	1,017	32,963	805	24,612
Other Countries	36	3,984	42	1,841
Total	1,752	112,729	5,500	126,545
China, via Vancouver*	....	15,350	....	14,298
Total	1,732	128,079	5,500	140,843

* From New England mill points direct.

There have been a number of advances of ¼c. in bleached shirtings during the week, the most important being Lonsdale, Fruit of the Loom and Masonville 4-4 bleached to 7⅛c., Blackstone and Hope 4-4 to 6½c., Fitchville 4-4 to 6¼c., and Farmers' Choice and Forget-Me-Not 4-4 to 5¾c. Other makes not yet changed are likely to move up to a parity during the next few days. In 64-squares and other low-grade bleached several advances of ⅛c. per yard are reported. In brown goods also advances of ⅛c. to ¼c. are recorded, but mostly in export grades, which are not only heavily sold ahead but are in good current request in both sheetings and drills. Coarse colored cottons are without improvement. A fair number of orders are reported for denims, but they are for small quantities and are readily filled by sellers. In wide sheetings the only feature is an advance of ⅛c. in Pepperell, 10-4 and 6-4 makes. Kid-finished cambrics are firmer and occasionally ⅛c. higher for both 64 squares and 56x60s. Silesias and percalines also show isolated advances of ¼c. Prints are firm throughout for both dark fancies and other regular varieties, but business is quiet. Ginghams in limited demand for dress styles, with moderate sales of staples at previous prices. Print cloths close dull but firm at 2⅞c., plus 1 per cent, for extras, after 2 15-16c. paid early in the week.

The value of the New York exports for the year has been $5,043,415 in 1895 against $6,655,254 in 1894.

Stock of Print Cloths—	1895. July 20.	1894. July 21.	1893. July 22.
At Providence, 64 squares	172,000	310,000	159,000
At Fall River, 64 squares	66,000	562,000	236,000
At Fall River, odd sizes	106,000	212,000	
Total stock (pieces)	344,000	1,084,000	395,000

WOOLEN GOODS.—The course of business in men's-wear woolens and worsteds in light weights has been marked by some irregularity during the past week, and competition of foreign goods is reported as affecting the demand in both plain and fancy fabrics in certain medium and fine grades, chiefly in worsteds. Nevertheless a good aggregate business has been done in Clays, fancy worsteds, cassimeres, cheviots and staple wool and piece-dyed fabrics. Indigo blue flannel suitings have sold more freely under influence of a reduction of 7½ to 10 per cent in prominent makes. There has been no feature of importance in heavy-weight trouserings and suitings, or in overcoatings and cloakings. Cotton-warp cassimeres, cotton worsteds, satinets and doesk in jeanshave been in fair request. Woolen and worsted dress goods are being reordered in fair quantities, particularly in bright goods, and prices are firm. Flannels are very firmly held, and, with blankets, look like going higher.

FOREIGN DRY GOODS.—An improved general business is reported in foreign merchandise. Woolen and worsted and mohair dress goods have sold fairly at full prices and lightweight worsteds for men's wear have done well. Silks show an improvement in sales at firm prices, as do ribbons. Linens, hosiery and underwear are without material change.

Importations and Warehouse Withdrawals of Dry Goods

The importations and warehouse withdrawals of dry goods at this port for the week ending July 25, and since January 1, 1895, and for the corresponding periods of last year are as follows:

STATE AND CITY DEPARTMENT.

TERMS OF SUBSCRIPTION.

THE INVESTORS' SUPPLEMENT will be furnished *without extra charge* to every annual subscriber of the COMMERCIAL AND FINANCIAL CHRONICLE.

THE STATE AND CITY SUPPLEMENT will also be furnished *without extra charge* to every subscriber of the CHRONICLE.

THE STREET RAILWAY SUPPLEMENT will likewise be furnished *without extra charge* to every subscriber of the CHRONICLE.

THE QUOTATION SUPPLEMENT, issued monthly, will also be furnished *without extra charge* to every subscriber of the CHRONICLE.

TERMS for the CHRONICLE with the four Supplements above named are Ten Dollars within the United States and Twelve Dollars in Europe, which in both cases includes postage.

Terms of Advertising—(Per inch space.)

One time	$3 50	Three Months (13 times)	$25 00
One Month (4 times)	11 00	Six Months (26 times)	43 00
Two Months (8 times)	18 00	Twelve Months (52 times)	58 00

(The above terms for one month and upward are for standing cards.)

The purpose of this State and City Department is to furnish our subscribers with a weekly addition to and continuation of the STATE AND CITY SUPPLEMENT. In other words, with the new facts we shall give, the amplifications and corrections we shall publish, and the municipal laws we shall analyze in the "State and City Department," we expect to bring down weekly the information contained in the STATE AND CITY SUPPLEMENT to as near the current date as possible. Hence every Subscriber will at all times possess a complete and fresh cyclopædia of information respecting Municipal Debts.

STATE AND CITY INDEX.

In this number of the CHRONICLE we publish an index to all news items printed in this Department since the issuance of our last STATE AND CITY SUPPLEMENT, April 13, 1895. In all cases when the item includes later figures of debt, assessed valuation, &c., full-face types are used. Items published in to-day's CHRONICLE are not included in the index. This index will be published the last Saturday of each month.

Decision Against the District Irrigation Laws of California.—On Monday of this week the report was sent out from Los Angeles that Judge Ross of the United States District Court had declared the Wright Irrigation Law of California unconstitutional. This Wright act provides for the organization of irrigation districts and authorizes such districts to issue bonds.

A part of the dispatch received by the New York *World* reads as follows:

Judge Ross held that under the Wright act land was taken from private owners without the process of law, not for public purposes.

Among the clauses of the Wright act is one which provides for confirmation of proceedings by the Superior Court. In this particular case the Superior Court has not yet confirmed the proceedings. It has been held by the United States Supreme Court in reclamation cases that where there is a confirmation proceeding, and when, after the close of these proceedings, the regularity of the proceedings is confirmed, the case is adjudicated and the constitutionality of the proceedings can be brought up.

Under the Wright act bonds have been issued to the extent of $30,000,000 and over, and they are held all over this country and Europe. The decision invalidates $25,000,000 of bonds in irrigation districts in which confirmation proceedings have not been taken.

Bond Proposals and Negotiations.—We have received through the week the following notices of bonds recently negotiated and bonds offered and to be offered for sale.

Alexander County, Ill.—At a recent election in this county it was voted to issue $55,000 of 6 per cent compromise bonds for the purpose of retiring $110,000 of old 8 per cent bonds at the rate of 50 cents on the dollar. There are thirty-six of these bonds for $1,000 each, issued twenty-two years ago to aid in the construction of the Cairo & St. Louis and the Cairo & Vincennes railroads. They have been a source of much litigation, and now most of the holders offer to compromise, and take new bonds in half of the amount at 6 per cent interest. The new bonds will not be placed on the market by the county, but used for compromising old bonds, and for no other purpose whatever.

Ann Arbor, Mich.—Sewer bonds to the amount of $30,000 have been authorized.

Aroostook County, Me.—It is reported that $223,000 of 4½ per cent county bonds have been sold to E. H. Gay & Co. at 107·46. The securities are dated July 1, 1895, interest is payable semi-annually in January and July at Boston, and the principal will mature in 20 years.

Austin, Texas.—It is reported that six bids were received on July 22 for the purchase of $500,000 of additional water bonds, the highest of which being equivalent to 104 and accrued interest.

Bellows Falls, Vt.—It is reported that $27,000 of 4 per cent 20-year water-works bonds of Bellows Falls were sold on July 24 to G. A. Fernald & Co. at 101·75.

Binghamton, N. Y.—The people of Binghamton will vote August 1 on issuing paving and sewer bonds.

Bloomsburg, Pa.—R. H. Ringler, Secretary of the Council, reports to the CHRONICLE that at the instance of the Electric Light Company of Bloomsburg the Court issued a preliminary injunction restraining the holding of an election which was to have taken place on July 16 on issuing $40,800 of bonds. If the injunction is dissolved by the Court, the election will probably be held later. The loan, if authorized, will bear interest at the rate of 4½ per cent, and will mature part yearly from 1896 to 1915, inclusive.

Brattleboro, Vt.—It is reported that Brattleboro has sold $25,000 of 4 per cent town-hall bonds running from one to twenty-five years at 103·62, and $2,500 of bonds, $1,000 maturing in 5 years, $1,000 in 6 years and $500 in 7 years at 104½. Both loans were awarded to E. H. Rollins & Sons.

Carrollton, Ohio.—A vote taken July 16 on issuing $35,000 of water-works bonds resulted in favor of the proposition.

Cayuga County, N. Y.—On July 23, 1895, the County of Cayuga sold $9,191 75 of 5 per cent bonds to the Auburn Savings Bank for $9,538 09. The securities are dated July 23, 1895, and interest is payable annually on Feb. 1. $1,191 75 of the amount to mature Feb. 1, 1896, and $2,000 yearly thereafter. A list of the bids received for the loan is as follows:

	Amount Bid.
Auburn Savings Bank	$9,538 09
S. A. Kean, Chicago	9,329 63
Ithaca Trust Co., Ithaca, N. Y.	9,288 67
L. W. Morrison, New York	9,214 73
Edward C. Jones & Co., New York	9,300 00
Walter Stanton & Co., New York	9,353 52
Sherrs & Smith, New York	9,445 44
L. W. Sherrer, Philadelphia	9,353 52
Cayuga Co. Savings Bank, Auburn, N. Y.	9,493 30
Seasoll, Wykes & Co., New York	9,471 75
W. J. Hayes & Son, Cleveland, Ohio	9,368 75

A bid was also received from William Howland, of Sherwood, N. Y., offering $2,010 for bond of $2,000 due Feb. 1, 1899, and $2,015 for bond of $2,000 due Feb. 1, 1900.

Columbus, Ga.—The people of Columbus will vote on issuing bonds for water-works.

Deerfield, Mo.—Proposals will be received until August 15, 1895, by I. O. Brueston, President, for the purchase of $5,000 of 5 per cent village water-works bonds. The securities will be dated January 1, 1896, interest will be payable annually at the office of the Village Treasurer or at the Bank of Deerfield and one bond of $100 will mature January 1, 1903, and one bond of $330 yearly thereafter until paid, the five bonds last payable to be redeemable at any time. The village has at present no debt of any kind and its assessed valuation, which is one-third of actual value, for 1894 was $100,435. The present population, according to local figures, is 519.

Everett, Mass.—Registered school-house bonds to the amount of $35,000, maturing at the rate of $2,000 yearly for 17 years, and $1,000 in 18 years, registered police bonds to the amount of $5,000 running from one to five years, and coupon sinking fund water bonds to the amount of $10,000, running 28½ years, have been sold to E. H. Gay & Co. for $51,795.

Fitchburg, Mass.—Proposals will be received until July 30 for the purchase of $50,000 of 4 per cent school bonds, the loan to run 30 years.

Geneva School District, N. Y.—Bonds of this district to the amount of $32,000 will be offered at public auction on August 6, 1895. Persons wishing to bid by mail may address M. S. Sandford, President of the Board of Education. The securities are dated May 1, 1895, interest is payable semi-annually on May 1 and November 1, and $2,500 of the principal will mature May 1, 1898, $2,000 yearly from May 1, 1899 to 1904, $3,000 yearly from May 1, 1905 to 1909, and $2,500 on May 1, 1910, both principal and interest to be payable at the First National Bank of New York. The total debt of the district, including this issue, is $44,500. Its assessed valuation for 1894 was $5,110,705.

Homestead, Pa.—The people of this borough have voted to issue $40,000 of bonds, $20,000 for street improvements, $10,000 for sewers and $10,000 for water-works extension.

Hudson, N. Y.—Bonds of this city to the amount of $20,000, known as "Cemetery Purchase Bonds," will be sold at public auction on August 1, 1895. The securities will be dated August 1, 1895, interest at the rate of 4 per cent will be payable semi-annually on February 1 and August 1, and the principal will mature at the rate of $2,000 yearly from February 1, 1905, to February 1, 1914.

Humboldt, Tenn.—Bonds to the amount of $15,000 have been sold for water works and an electric-light plant.

Ithaca, N. Y.—On July 28, 1895, the city of Ithaca sold $150,000 of 4 per cent sewer bonds to W. E. R. Smith of New York on a 3 51 per cent interest basis. Nineteen bids in all were received. The securities are dated July 1, 1895, interest is payable semi-annually on January 1 and July 1, and the principal will mature at the rate of $7,500 yearly from July 1, 1906, to July 1, 1926, both principal and interest to be payable in gold coin in New York.

Jacksonville, Fla.—All of the old 8 per cent bonds of Jacksonville, Fla., have now been surrendered, and Messrs. Coler & Co., of this city, who are negotiating the new million dollar 5 per cent loan, report that the Jacksonville finances are in good condition.

Kasson, Minn.—On July 22, 1895, the village of Kasson sold $6,000 of 4¾ per cent water-works bonds to Lewis Speck, of Kasson, at par. Nine bids were received for the loan. Interest will be payable annually at Kasson, and the principal will mature at the rate of $1,000 yearly from Aug. 1, 1898, to Aug. 1, 1903.

Kings County, N. Y.—On July 23, 1895 the county of Kings sold $1,500,000 of 4 per cent registered public park fund bonds to the New York Life Insurance Company at 110·59 and accrued interest. The securities are dated May 1, 1895, interest is payable semi annually on May 1 and November 1, and the principal will mature at the rate of $37,500 yearly from May 1, 1905 to May 1, 1944. Five bids were received for the loan as follows:

Kings County Savings Institution, for the first three instalments due, 104 95, 105·37 and 105·77 respectively.
Farson, Leach & Co., for the whole amount, 103·459.
Daniel A. Moran & Co., for the whole amount, 108·51.
J. & W. Seligman & Co., for the whole amount, 110·35.
The New York Life Insurance Company, for the whole amount, 110·59.

Four per cent county bonds to the amount of $2,100,000 were also sold on July 26 to J. & W. Seligman & Co. at 103·769.

Lancaster, Wis.—The citizens voted July 16 in favor of issuing $24,000 of water-works bonds.

Louisville, Ky.—An ordinance will be drawn up authorizing the Mayor to borrow $312,803 at 4 per cent to pay outstanding warrants now bearing interest at the rate of 6 per cent.

Lorain, Ohio.—Proposals will be received until August 24 for the purchase of $3,500 of bonds.

Lynn, Mass.—Water-works bonds to the amount of $165,000 have been sold to E. H. Rollins & Sons at 107·30. The loan bears interest at the rate of 4 per cent and matures in 1925.

Madisonville, Ohio.—Proposals will be received until August 19, 1895, by Bennett Carter, Village Clerk, for the purchase of $1,087·20 of 6 per cent assessment bonds. The securities will be dated August 19, 1895, interest will be payable annually at the German National Bank of Cincinnati, and the principal will mature at the rate of $108·72 yearly in from one to ten years.

Massachusetts.—On July 20, 1895, the State of Massachusetts sold a $300,000 3½ per cent Medford Insane Asylum loan to Blake Brothers & Co. at 107 88 and accrued interest. The securities are dated April 1, 1895; interest is payable semi-annually on April 1 and October 1, and the principal will mature April 1, 1915. Both principal and interest are payable in gold coin or its equivalent at the office of the State Treasurer. Nine bids were received for the loan as follows:

	Bid.
Blake Brothers & Co., Boston	107·88
E. H. Rollins & Co., Boston	107·620
E. H. Gay & Co., Boston	107·59
J. & W. Seligman, New York	107·53
Brewster, Cobb & Estabrook, Boston	107·067
R. L. Day & Co., Boston	107·059
Blodget, Merritt & Co.	107 037
W. I. Quintard, New York	106·03
Kountze Brothers	106·

McKeesport, Pa.—It is reported that at a recent special meeting of the Finance Committee of McKeesport Common Council, the bid of W. R. Thompson & Co., bankers, of Pittsburg, of $2,444 16 premium on $268,000 of 4 per cent funding bonds, was accepted. The bonds had been sold to Z. T. Lewis, of Dayton, O., at $2,948 premium, but the contract was canceled after the Lewis forgeries had been discovered. The total issue was $300,000 of serial funding bonds, dated July 1, 1895, one series to become due each year from July 1, 1896, to July 1, 1914. The city reserved the first three series due in 1896, 1897 and 1898, amounting to $32,000, for its sinking fund.

McKee's Rocks, Pa.—Proposals will be received until August 5, 1895, by John Zinkham, Clerk of Council, for the purchase of $40,000 of 5 4-10 per cent borough bonds. The securities will be dated September 1, 1895, interest will be payable semi-annually at the Diamond National Bank, Pittsburg, Pa., and the principal will mature September 1, 1915.

Milford, Mich.—Proposals will be received until July 29, 1895, by George P. McCoy, Village Clerk, for the purchase of $18,000 of 5 per cent water-works bonds. The securities will be dated August 1, 1895, and interest will be payable semi-annually, both principal and interest to be payable at Lacy & Liddell's Bank, Milford, Mich. Bids will be received in two forms, first, the principal to mature at the rate of $1,000 yearly after five years and $4,000 the twentieth year; and, second, the principal to mature at the rate of $6,000 each year in ten, fifteen and twenty years from date.

Milwaukee, Wis.—Proposals will be received until August 6, 1895, by the Commissioners of Public Debt, care of William J. Fiebrantz, Comptroller, for the purchase of $200,000 of 5 per cent bonds, $100,000 to be issued for city hall and $100,000 for street improvement purposes. The securities are dated July 1, 1895, interest is payable semi-annually, and the principal will mature at the rate of 5 per cent annually, the date of maturity being specified on each bond. Proposals will be received for each issue separately, or for both.

Montclair, N. J.—On July 22, 1895, the town of Montclair sold $60,000 of sewer bonds, $30,000 bearing interest at the rate of 4½ per cent at 104 and $30,000 bearing interest at the rate of 4 per cent at par. The securities were awarded to J. R. Rand and E. A. Bradley, jointly. The bonds are to be dated August 1, 1895, the principal will mature August 1, 1905. A list of the bids received for the loan is as follows:

	Bid.
Farson, Leach & Co., for $60,000 of 4½ p. c. bonds	100·815
J. R. Rand and E. A. Bradley, for $30,000 4½ p. c. bonds	104·
Do do for $30,000 4 p. c. bonds	100·
W. R. Smith, for $60,000 of 5 p. c. bonds	106·
C. Zabriskie, for $60,000 of 5 p. c. bonds	106·57
Do for $60,000 of 4½ p. c. bonds	102·67
Savings Bank of Montclair, for $60,000 of 4½ p. c. bonds	100·104⅓
State Mutual Life Ins. Co., Worcester, for $30,000 of 5 p. c. bonds	104⅛

S. A. Kean, for $60,000 of 5 p. c. bonds	100⅓
N. W. Harris & Co., for $60,000 of 4½ p. c. bonds	102·83
Benwell & Everitt, for $60,000 of 5 p. c. bonds	106·13
New York Life Ins. Co., for $60,000 of 5 p. c. bonds	108·07

*These are flat prices.

School bonds of Montclair to the amount of $5,000 have also been sold to C. W. Anderson, a local investor, at a few dollars less than a 4½ per cent basis.

Mount Sterling, O.—Bonds of this city have been voted for water-works and electric-light purposes.

Newark, N. J.—A resolution has been passed authorizing the issuance of $1,000,000 of 4 per cent 20-year street bonds. Interest will be payable semi-annually.

New York City.—Three per cent gold bonds and stocks of the city of New York to the amount of $450,000 were awarded on July 23 as follows:

	Price.
Queen Insurance Co. of America, $25,000, due 1914	101·26
do do do 25,000, due 1914	101·53
Traders' Fire Lloyds of New York, 50,000, due 1914	101·
Kountze Brothers, $200,000, due 1914	100·05
Richard M. Cornell, $150,000, due 1914	100·

The total amount of the securities offered for sale was $489,939 24, as described below:

LOANS—	*When Due.*	LOANS—	*When Due*
ARMORY BONDS—		POLICE DEPARTMENT BONDS—	
3s, M&N, $270,500	Nov. 1, 1914	3s, M&N, $549·65	Nov. 1, 1925
CONSOLIDATED STOCK—		SCHOOL HOUSE BONDS—	
3s, M&N, $108,000	Nov. 1, 1914	3s, M&N, $110,889·59	Nov. 1, 1914

The loans are exempt from city and county tax, but not from State taxation.

North Olean, N. Y.—The people of this village voted recently in favor of issuing $19,000 of bonds to purchase the water-works and $1,000 of bonds for the purchase of fire department supplies.

Norwalk, Ohio.—A vote will be taken August 13 on issuing $100,000 of water-works bonds.

Omaha, Neb.—Nine bids were received for the purchase of $80,000 of short-time district improvement bonds of Omaha, recently offered for sale, a list of which is as follows:

	Premium.
John Dale, Omaha	$3,627 00
Mason, Lewis & Co., Chicago	3,736 00
S. A. Kean, Chicago	3,400 00
J. W. Longstreet & Co., Boston	3,208 00
Blodget, Merritt & Co., Boston	3,632 00
R. L. Day & Co., Boston	3,535 20
C. H. White & Co., New York	2,960 00
Powell & Potter, Omaha	2,800 00
Blake Bros. & Co., Boston	3,416 00

The securities were awarded to Mason, Lewis & Co. of Chicago.

Perry, N. Y.—An election will be held August 2 to vote on issuing $40,000 of water-works bonds.

Petersburg, Va.—It is reported that $160,000 of 5 per cent South Side Railroad renewal bonds have been sold to the Mercantile Loan & Trust Company, of Baltimore, at 104. The bonds run 40 years and are issued to replace a like amount of 8 per cent bonds.

Philadelphia, Pa.—Philadelphia has made another failure to place 3 per cent improvement bonds which were first offered for sale on July 8. This time only $150,600 of the securities were taken, all at par. The bids were as follows:

George H. Welbert, Series C	$8,000
Mack Paving Company, Series A	22,100
Arthur H. Lea, Series F	7,500
Pennsylvania Asphalt Paving Company, Series B	11,000
Russell Duane, Series A	2,000
Fidelity I. S. D. & T. Co., any series	100,000
Total	$150,600
Previously subscribed for	235,500
Total	$386,100
Amount not taken	$813,900

Mayor Warwick announced that he would not again re-advertise, but that until councils met any and all bids could be sent to the City Treasurer's office, and there would be opened every other week. The Mayor was hopeful that this form of a popular loan would prove successful. The smallest multiple of the loan is $100, and subscriptions from that amount upward will be received until the balance of the loan is sold.

Mayor Warwick is quoted as saying concerning the failure to float the entire loan:

"The city is not in any financial straits, and we will have no difficulty whatever in getting along until the meeting of councils in September even if we do not dispose of any more of the loan. I am satisfied that more will be taken as soon as people understand that they can secure the bonds without the intervention of brokers. It is a difficult matter to state exactly the cause of the failure to place the loan; but it is probable that the prospect of an opportunity to invest in the subway loan at 4 per cent in the near future may have had some effect.

"It is plain that brokers cannot take this loan at 3 per cent with a view of placing it with their customers, as it leaves too small a margin for them to work on, and they cannot be expected to do their business for fun. They have allowed the people having money to invest to come in and take the bonds themselves, and we will give every opportunity for them to invest by keeping the matter open at all times until the first Thursday in September. The loan will be made a popular one."

The total bond issue was for $1,200,000. Interest will be payable semi-annually on January 1 and July 1, and the principal will mature at the rate of $60,000 yearly from December 31, 1905, to December 31, 1924. The loan will be free from all taxes.

Rankin, Pa.—The people of this municipality will vote August 13 on issuing $50,000 of sewer bonds.

Ripley County, Mo.—An election held in this county July 20 to vote on issuing court-house and jail bonds resulted in the defeat of the proposition.

St. Ignace, Mich.—Proposals will be received until August 10, 1895, by James Conners, Mayor, for the purchase of $7,500 of 6 per cent incandescent electric light bonds. One bond of the denomination of $1,500 will become due in 1900 and one bond of the denomination of $2,000 in each of the years 1901, 1902 and 1903.

Syracuse, N. Y.—Proposals will be received until July 29, 1895, for the purchase of $120,000 of registered local improvement bonds. The loan will be dated August 1, 1895, and will mature at the rate of $30,000 yearly in from one to four years from date.

Taunton, Mass.—On July 24, 1895, the city of Taunton sold $12,000 of 4 per cent highway improvement bonds due June 1, 1905, and $9,000 of water bonds due July 1, 1923, to E. H. Gay & Co., at 105.24 and accrued interest. Interest on the loans is payable semi-annually.

Ventura, Cal.—The people of Ventura voted July 9 on issuing $150,000 of bonds for water-works and electric-light purposes.

Turtle Creek, Pa.—An election held July 23 on issuing $50,000 of street improvement bonds resulted in favor of the proposition. The borough's total debt, including this issue, will be $70,000. Its assessed valuation for 1894 was $1,025,640.

Waco, Texas.—An election will be held at Waco to vote on issuing bonds for the construction of a new bridge.

Washington, Pa.—The Washington School Board has awarded $55,000 of bonds to E. H. Gay & Co., of Boston, for a premium of $1,500, the firm to furnish lithographed paper for the bonds. The securities bear interest at the rate of 4½ per cent, and mature in from one to eighteen years.

Whitman, Mass.—Water-works extension bonds to the amount of $5,000 have been voted.

Wilkinsburg School District, Pa.—Proposals will be received until to-day by John Reece, Secretary, for the purchase of $50,000 of 4 per cent coupon school bonds. The securities are dated July 1, 1895, interest is payable semi-annually on January 1 and July 1 at the First National Bank of Wilkinsburg, and the principal will mature at the rate of $2,000 yearly, beginning July 1, 1900.

Windom, Minn.—On July 19, 1895, the village of Windom sold $23,000 of water-works electric-light and sewer bonds to C. H. Brown of Mapleton, Minn., for a premium of $190. Interest will be payable semi-annually at St. Paul, Chicago or New York, as the purchaser desires, and the principal will mature in 20 years.

Yonkers, N. Y.—Public building bonds of this city to the amount of $100,000, payable at the rate of $10,000 each year from 1902 to 1911, inclusive, were sold on July 25 to Benwell & Everitt at 104.75; public bath bonds to the amount of $20,000, payable $5,000 each year in 1900, 1905, 1910 and 1915, to R. L. Day & Co., of Boston, at 105.639, and assessment bonds to the amount of $35,000, $25,000 maturing February 1, 1897, and $10,000 February 1, 1898, to the Westchester County Savings Bank, Tarrytown, at 101.01. All of the bonds bear interest at the rate of 4 per cent.

Youngstown, Ohio.—Proposals will be received until August 19, 1895, by J. Howard Edwards, City Clerk, for the purchase of $160,000 of 5 per cent water-works extension bonds. The securities will be dated August 31, 1895, interest will be payable semi-annually on May 1 and November 1, and the principal will mature at the rate of $10,000 yearly from May 1, 1896, to May 1, 1911. Both principal and interest will be payable at the office of the City Treasurer. The bonds will be ready for delivery and must be paid for at the office of the City Clerk on August 31, 1895.

The city's debt on July 18, 1895, included $100,000 of water-works bonds; $25,000 of fire department bonds; $362,570 82 of special assessment bonds, and $47,000 of floating indebtedness; total $534,570 82; sinking fund $70,382 23; net debt $464,238 59. The assessed valuation in 1894 of real estate was $9,667,220; personal property, $3,647,490; total, $13,314,710; real valuation, $40,000,000. The population at present according to local figures is 40,000.

STATE AND CITY DEBT CHANGES.

We subjoin reports as to municipal debts received since the last publication of our STATE AND CITY SUPPLEMENT. Some of these reports are wholly new and others cover items of information additional to those given in the SUPPLEMENT and of interest to investors.

Waltham, Mass.—Henry S. Milton, Mayor; Charles F. Allen, Auditor. The following statement regarding the finances of the city of Waltham has been corrected to February 1, 1895, by means of the city's annual report.

This city is in Middlesex County.

NEW LOANS.

$2,500,000

ESSEX COUNTY, N. J.,

PARK BONDS.

The Board of Chosen Freeholders of the County of Essex, N. J., proposes to issue bonds to the aggregate amount of $2,500,000, pursuant to the provisions of Chapter XCI. of the Acts of 1895, which act has been approved by a vote of the people of said county, for the purpose of establishing a system of Parks and Parkways for said county.

These bonds will be dated August 1, 1895, payable as follows:

$500,000 August 1, 1915.
$500,000 August 1, 1920.
$500,000 August 1, 1925.
$500,000 August 1, 1930.
$500,000 August 1, 1935.

They will be of the denomination of $1,000 each; will bear interest at three and sixty-five one-hundredths (3 65-100) per cent per annum, payable semi-annually; will be coupon bonds with the option to the holders to have them registered or exchanged to registered bonds; will be executed by the county officers, and the whole issue duly countersigned; principal and interest payable in gold coin.

The proceeds will be required for use by the Park Commission from time to time during a period of not less than two nor more than three years. At least $750,000 will be required during the present year.

The County of Essex has a population of 300,000, and an assessed valuation of $178,165,000. Its present total indebtedness is $766,859, or less than one-half of one per cent of the assessed valuation.

The act under which the bonds are issued requires the annual levy of a county tax sufficient to meet interest and principal when due. A county tax for any purpose is entitled to priority in payment over local taxes for municipal purposes.

Sealed proposals will be received by the Finance Committee of the Board of Chosen Freeholders, at a meeting to be held by said Committee, at the Freeholders' room in the Court House, at Newark, N. J., on Tuesday, July 30, 1895, at 3 o'clock P. M., which meeting will remain open until 3:30 P. M. Proposals should be

1. For the whole of said bonds to be issued at once.
2. For $1,000,000 to be now issued.
3. For the whole amount to be issued in instalments of not less than $500,000 during a period not exceeding three years.
4. For any part of said bonds.

The purchaser to pay the interest accrued on said bonds to the time of delivery.

Under the statute no bids can be received at any other time or place.

The Finance Committee reserves the right to reject any and all proposals, if in its judgment the interest of the county requires such action.

By order of the Finance Committee.

D. H. JOHNSON, Chairman.

FINANCIAL.

THE MONETARY TRUST,
50 BROADWAY, NEW YORK.

Speculative Investment. Permanent Investment.

This new financial institution has been established under authorization from the State of New York upon principles not heretofore incorporated into any monetary institution. It is designed to aid investors in the profitable use of money. It cannot legally acquire ownership in securities nor transact business for its own account. It is the only incorporated institution in New York legally restricted to a disinterested position toward all investments. Banks or private individuals will be advised concerning safe investments without cost except simple commission if transactions are consummated, and all transactions in securities listed on the New York Stock Exchange will be executed upon that Exchange by Messrs. Carley & Co., members thereof. Those investors who undertake to obtain more than simple interest will be aided in acquiring bonds or stocks which the officers of this institution believe most nearly combine safety with promise of radical improvement. Those who venture to use money in this manner will find this institution the best medium which modern finance has yet developed through which a given sum can be thoughtfully placed at risk. Small investors (of Savings Bank class) carefully provided for.

FRANCIS D. CARLEY, President.
LEON T. ROSENGARTEN, Vice-President.
ROBERT MURRELL JARVIS, Treasurer.
F. A. ROSENGARTEN, Secretary.

1850. 1895.
The United States Life Insurance Co.
IN THE CITY OF NEW YORK.
This old and reliable Company now has the experience of forty-five years of practical Life Insurance, which has taught it that the *sine qua non* of success is the adoption of good plans of insurance, and the pursuit of a liberal policy towards both its Insured and its Agents. These essentials it possesses in an eminent degree, but judiciously tempered by that conservatism which is the best possible safeguard of the policy-holder. Its contracts are incontestable after two years. They are non-forfeiting, providing generally for either paid-up policy or extended insurance, at the option of the policy holder. It gives ten days of grace in payment of all premiums. Its course during the past forty-five years abundantly demonstrates its absolute security.

Active and successful Agents, wishing to represent this Company, may communicate with the President at the Home Office, 261 Broadway, New York.

COMMISSIONER'S SALE.—In the Circuit Court of the United States for the Eastern District of Texas, at Galveston. The Farmers' Loan & Trust Company, Trustee, Complainant, vs. the Houston & Texas Central Railway Company, Charles Dillingham and George E. Downs, defendants. No. 227 Chancery Docket.

Notice is hereby given that in pursuance of the decree entered in the above entitled cause on the 5th day of March, 1895, at the regular March term of said Court in the City of Galveston, Texas, I, the undersigned Master Commissioner, thereby designated, shall, on the 3d day of September, 1895, that being the first Tuesday of said month of September, or on the day to which I may adjourn such sale, at twelve o'clock noon, in front of the Court House door of McLennan County, in the City of Waco, in the State of Texas, make sale at public auction as an entirety to the highest bidder therefor of all the mortgaged premises and property, real, personal and mixed, rights and franchises, wherever situated, mentioned in said decree and thereby directed to be sold, viz.:

The railway of the Houston & Texas Central Railway Company, known as the Waco & Northwestern Division, beginning at a point on the main line of said railway company in the town of Bremond, in Robertson County, Texas, passing through the County of Falls, and running to the town of Ross in McLennan County in said State, a distance of about fifty-eight miles, together with all side-tracks, turn-outs, rolling stock, equipment and materials, all right of way and tracks, depot and shop grounds, tenements, hereditaments, rights and franchises, including all the property, real and personal, pertaining to the operation of the said fifty-eight miles of railway, and including any and all rights in, to or in respect to the franchise to build to the Red River and thence to the northern boundary line of said State; and also all and singular the portion of the land grant donated by the State of Texas to aid in the construction of the Waco & Northwestern Railroad or said Waco & Northwestern Division covered by said mortgage as specified therein and remaining unsold at the date of entry of said decree which portion of said land grant consists of about two hundred and twenty-three thousand six hundred and twenty-two and twenty eight hundredths (223,622·28) acres, all situated in the following-named Counties in the State of Texas, and more particularly described as follows: All of the lands described by Patent No. and Volume No. are patented by the State of Texas to the Houston & Texas Central Railway Company, as assignee of the Waco & Northwestern Railroad Company, and all lands described by Certificate No. and Survey No., which numbers follow the words "Cert." and "Survey" in the following description, are not patented, but are located by virtue of land Certificates issued to the said Waco & Northwestern Railroad Company, and when land is stated to be in two or more Counties it means that part of it is in each:

THE FINANCIAL SITUATION.

A conspicuous feature this week has been the deposit with the Sub-Treasury by the Morgan-Belmont Syndicate of $2,000,000 gold in exchange for which they received United States legal tender notes. This was for the purpose of reimbursing the Treasury for the amount of gold which had been withdrawn and shipped to Europe since the settlement with the Government. The transaction, it may be said, cost those whose act it was but a trifle measured in dollars and cents, and yet for any who think it is fair dealing or even good policy to make a cheap currency to pay one's debts with (a fifty-cent-dollar currency for instance) it is an object lesson worth studying. No member of the Syndicate was required by the letter of the contract to make this further deposit. Even the spirit of the arrangement had been fully lived up to when a settlement with the Government was effected. Perhaps some may say they could well afford to do it; they made a large amount of money out of the Government. We have not seen their balance-sheet; one thing is everywhere known, however, which is that they have done a most marvelous work for the country—a work that could not have been done through any other possible connections in America and Europe, and we certainly hope they will in the end find they have made enough money to pay them well for the benefits they have conferred upon the country.

The revival of business activity finds no more striking or noteworthy illustration than that furnished by the weekly and monthly records of bank clearings. Through the liberal use of the telegraph we are able this week to present our statement of clearings for the month of July, and it is by all odds the best monthly exhibit we have yet had in the present upward movement. For May the ratio of improvement over last year had been 24·7 per cent, for June 22·1 per cent; for July the increase is almost 30 per cent—29·8 per per cent. It is true there was an extra business day in the month the present year (July 1895 having contained only four Sundays, whereas July 1894 contained five Sundays), but the increase in the ratio of improvement is much larger than would be explained by that fact alone. This is shown more particularly in the case of the results outside of New York, where against an increase of 12·3 per cent in May and an increase of 12·5 per cent in June, the gain in July is as much as 21·7 per cent. The further expansion is the more noteworthy in view of the fact that at quite a number of Western points, in the section where the crop failure was so complete, the clearings returns have shown not an increase but actually a large falling off. Thus Omaha, Duluth, St. Joseph, Sioux City, Des Moines, Lincoln, Topeka, Fremont, Hastings and Sioux Falls all report diminished clearings, the decrease ranging from 8·4 per cent to 55·0 per cent.

Of course July last year was the period of the great railroad strike, and it may be thought therefore that we are comparing with much poorer results than in other recent months. On the contrary, in July 1894 notwithstanding the strike the ratio of decrease was only 15·7 per cent, or less than in any preceding month of that year. As a matter of fact the most gratifying feature in the present statements of clearings is that the totals not only show a large increase over last year but that they compare well with the years preceding too. For instance the aggregate for the whole country, at 4,570 million dollars for 1895 compares with 3,522 millions for 1894, with 4,155 millions for 1893, with 4,639 millions for 1892 and with 4,392 millions for 1891. In other words the present volume of the clearings is 10 per cent larger than that for 1893, over 4 per cent larger than that for 1891 and comes within 1½ per cent of the very heavy total for 1892.

The fact that no improvement has yet occurred in the condition of the anthracite coal trade, but that on the contrary prices are quoted lower than before, gives to the returns of gross and net earnings of the anthracite coal roads for the month of June, received within the last ten days, unusual interest. However, the losses in earnings reported by these roads should not be invested with an importance which they do not deserve, or accepted as reflecting simply the demoralization in the coal trade. The Reading statement, for example, shows $270,577 loss in gross and $226,670 loss in net for the Railroad Company and $875,462 loss in gross and $159,393 loss in net for the Coal & Iron Company; and the Central of New Jersey $87,335 decrease in gross and $48,781 decrease in net; while the decrease of $30,125 in gross and $203,496 in net by the Erie is, no doubt, also connected with the coal movement. But it would be a mistake to charge these losses simply to the low prices for coal prevailing. The truth is we are comparing with very exceptional results—with a month in 1894 when on account of the strike in the bituminous coal fields the product in the anthracite regions was increased in that month alone over a million tons, and the total amount mined was the largest ever reached in any single month, namely 5,116,844 tons. The present year no such abnormal stimulus existed to swell the output, and hence the amount mined in June 1895 was only 3,777,644 tons as against the 5,116,844 tons for 1894. It is this great falling off in tonnage, due to a special cause, that mainly explains the poor showing of earnings made by the anthracite roads. In fact it is rather surprising in the case of the Erie and the Central of New Jersey that the losses should be no larger.

Money on call is in abundant supply at the Stock Exchange, and loans have this week been almost uniformly made at 1 per cent and some moderately large bankers' balances have been left unemployed. A few loans have been made for comparatively small amounts at 1¼, making the average for the week about 1⅛ per cent. Banks and trust companies quote 1 per cent as the minimum, but loans are permitted to stand for indefinite periods at 1½ per cent on good security. The offerings of money for fixed periods are chiefly for short dates, for which, however, there is little demand. The inquiry is principally for loans maturing after the end of the year and some business is done for six months, while very little is recorded for less than four months. Quotations on good marketable collateral are 2 per cent for thirty to sixty days, 2½ for ninety days to four months and 2¾@3 for five to seven months. A broker who usually handles large loans for banks and trust companies reports contracts difficult to make, though offered at 1½ per cent for sixty days, 2 per cent for ninety days, 2½ per cent for four and 3 per cent for six months. Banks having extensive correspondence with institutions at the South and West report an increase in the inquiry for re-discounts, and some quite large sums have been placed in Texas and at Western centres. One bank reports that nearly all the business it has done for the past fortnight has been re-discount-

ing, and in that interval no time loans have been made and no city paper has been bought. The market for commercial paper is moderately well supplied, and increased offerings are expected within the next fortnight, when business, especially for the spring season, will probably become active. The demand for paper is good, though most of the banks prefer that which will mature before the end of the year, and rates are firmly held at 3 per cent for sixty to ninety day bills receivable, 3½@4 per cent for four months commission house names, 3¾@4 per cent for prime four months single names, 4@4½ per cent for prime six months and 4½@5 per cent for good four to six months single names.

The political tension in Europe growing out of the troubles in Bulgaria seems to have entirely disappeared, and there has been no trace of disturbance this week. The Bank of England minimum rate of discount remains unchanged at 2 per cent. The cable reports discounts of sixty to ninety day bank bills in London 9-16 of 1 per cent. The open market rate at Paris is 1 per cent and at Berlin and Frankfort it is 1½ per cent. According to our special cable from London the Bank of England gained £172,636 bullion during the week, and held at the close of the week £38,134,008. Our correspondent further advises us that the gain was due to the import of £669,000 (of which £508,000 were bought, £132,000 were from Australia, £19,000 were from France and £10,000 were from China); to the export of £205,000 (of which £100,000 were to the Cape, £55,000 were to Brazil and £50,000 were to Egypt) and to shipments to the interior of Great Britain of £291,000.

The foreign exchange market has been dull and strong this week. Bankers report that the offerings of commercial bills are very small. Futures against cotton and grain shipments have advanced during the week, and those which looked dear last week are regarded as comparatively cheap now, but they are firmly held and few bankers care to take the risk of buying them, for every day brings nearer the time when the market should be supplied with spot bills. The drafts against securities placed in Europe have been few and principally against old transactions, and the Syndicate have met the inquiry for remittance with their own bills and those which they have obtained from other bankers. Selling of securities by the arbitrage houses has somewhat increased the demand for remittance this week and this will account in part for the strong tone to the market. On Monday the Bank of British North America advanced the posted rates to 4 90 for long and 4 91 for short and the market was dull and firm all day. On Tuesday Brown Bros. & Co. and Heidelbach, Ickelheimer & Co. also advanced their rates to the same figures, and the market was quoted as strong at 4 89½@4 89½ for actual business in long sterling, 4 90½@4 90½ for short and 4 90½@4 90¾ for cable transfers. The market continued dull and strong on the following day, when the Canadian Bank of Commerce advanced their rates, and on Thursday Lazard Freres advanced their posted rates to 4 90 for 60 day and 4 91 for sight and the tone was firm at the close and so continued yesterday, when Baring, Magoun & Co. also advanced their rates, making the quotations uniform by all the bankers at 4 90 for 60-day bills and 4 91 for sight. The following table shows the posted rates for exchange by the leading drawers for each day of the past week:

		Fri., July 26.	Mon., July 29.	Tues., July 30	Wed., July 31.	Thurs., Aug. 1.	Fri., Aug. 2

	Sight.....	90½	90½	91	91	91	91
Lazard Freres..	60 days..	89½	89½	89½	89½	90	90
	Sight.....	90½	90½	90½	90½	91	91
Merchants' Bk. of Canada.	60 days..	90	90	90	90	90	90
	Sight.....	91	91	91	91	91	91

As already stated the market was very strong on Friday at 4 90 for sixty-day and 4 91 for sight. Rates for actual business in sterling were 4 89½@4 89½ for long, 4 90½@4 90½ for short and 4 90½@4 90¾ for cable transfers. Prime commercial bills were 4 88¾@4 89 and documentary 4 88½@4 88½. The Canadian banks sent $300,000 gold to Canada during the week, and a firm of coffee importers gave notice at the Sub-Treasury on Thursday that they would require $250,000 gold for shipment to Europe on Saturday. Yesterday W. H. Crossman & Bro. engaged $1,000,000 for shipment to-day and Nesslage & Fuller engaged $100,000. Handy & Harman will ship $100,000 in gold bars, but this was not taken from the Treasury. Altogether, to-day's shipments foot up $1,450,000. The Bank of Montreal yesterday also withdrew $1,000,000 from the Treasury, but it is not known what disposition will be made of the gold.

We have referred above to the favorable character of the exhibits of bank clearings for the month of July. As in the months preceding, the best returns as a rule come from the Eastern manufacturing and financial centres. For instance, for the New England section the increase is 32·6 per cent, for the Middle States, including New York, 33·8 per cent, and for New York alone 37·1 per cent. For the Middle Western States the gain is only 21·6 per cent and for the Far Western section but 8·2 per cent—this part of the country still suffering from the effects of last year's crop shortage. For the Southern States the gain is also quite small, being 12·3 per cent, but for the Pacific Coast the increase is 30 per cent. The following is a summary of the monthly aggregates since the beginning of the year.

MONTHLY CLEARINGS.

At quite a number of points the 1895 clearings are the largest for July of any recent year. This is notably true of Boston, Philadelphia, St. Louis, Baltimore, Pittsburg, Kansas City, Buffalo, Detroit and Cleveland, as will appear by the following.

BANK CLEARINGS AT LEADING CITIES.

As regards the influence of Stock Exchange business upon the clearings at this point, the stock sales during the month at the Exchange aggregated 5,849,466 shares, which is smaller than the transactions for June or May, but much larger than the total for July 1894, when on account of the disturbances caused by the railway strike business was at a minimum.

The St. Paul statement of net earnings for June has been issued, and with $120,077 decrease in gross shows $157,921 increase in net. The Burlington & Quincy for the same month reports $1,153 increase in gross, $37,482 decrease in net; the Chicago Burlington & Northern $510 decrease in gross, $6,460 decrease in net; the Wabash $123,796 increase in gross, $36,682 increase in net; the Canadian Pacific $54,179 increase in gross, $160,943 increase in net; the Southern Pacific, Atlantic system, $79,861 increase in gross, $7,080 increase in net; the Buffalo Rochester & Pittsburg $142,084 increase in gross, $78,444 increase in net. We have already commented on the losses in earnings shown by the anthracite coal roads—the Reading, the Central of New Jersey and the Erie; it remains to say that the New York Susquehanna & Western has gross of $180,807, against $176,056, and net of $65,068, against $55,947. The Minneapolis & St. Louis reports gross of $153,505, against $125,702, and net of $62,630, against $33,009; the Oregon Improvement gross of $274,874, against $309,353, and net of $29,430, against $44,436, and the Cincinnati Jackson & Mackinaw gross of $47,037, against $45,930, and net of $4,333, against $6,274. The Mexican Central has $39,121 increase in gross, $58,200 increase in net; the Mexican International $33,817 increase in gross, $1,458 increase in net; the Pacific Mail Steamship $72,273 increase in gross, $26,181 increase in net.

INDUSTRIAL REVIVAL AND GOVERNMENT FINANCES.

The Treasury statements for July present decidedly encouraging features. Foremost among these are the evidences afforded of a permanently enlarged revenue. We say permanently because the development has come after a long suspension of income from certain important taxes, and the expansion has taken place in a way which indicates that the causes of the suspension of income are being gradually removed, and that the increase is normal, healthy and growing.

Our industries are thus fortunately placed in having just at this time new and better conditions confronting the Treasury. Indeed it seems as if every conceivable force was contributing to make up a truly prosperous outlook for the coming year. Nature certainly is doing its best by bountiful harvests to gladden the hearts of the agriculturalists, while the better prices ruling for all farmers' products, including the important item of wool, show that the income from what they have to sell will be further added to through the enhanced value of these larger surpluses. Manufacturers, too, of almost every description are exhibiting evidences of prosperity not

only by advancing wages but also by enlarging their plant in numerous cases; with reference to iron it is to be said that we are apparently entering upon a season of the heaviest production the country has ever enjoyed, which, as we all know, means much to many departments of trade. In brief, the industrial activity which has been such a marked feature for months in the Eastern and Middle States is at length beginning to manifest itself everywhere. The point suggested by these facts, and which concerns the subject under review, is that this brighter prospect had its inception in the stability given to the Treasury and in the confidence given to capital through the Syndicate bond purchase in February last, and has received further aid this week by the same parties in re-fortifying the Government's gold reserve.

This brief recital thus serves again to disclose that so far as our industries are concerned the "key of strength and safety" is to be found lying very close to the financial situation of the Government. Hence, when we say the Treasury statements for July indicate that the situation as to revenue is permanently improving, and that the Government has entered upon a new and better era in this particular, we are stating a fact of the widest interest, one which means that the Treasury will soon be independent of syndicates and be able to take care of itself. That this is the truth seems to be a fair inference. What has hitherto curtailed the Government income both from Customs duties and from internal revenue taxes? Speaking in a general way it has been, first, the large imports made last year in anticipation of higher duties under the new tariff—mainly of sugar in the months prior to the revised sugar schedule going into effect: next, the great quantity of whiskey withdrawn from warehouse in June, July and August 1894, to avoid the extra internal revenue tax on whiskey, and, finally, the intense industrial strain that has prevailed so long, growing worse instead of better almost month by month during a large portion of the late fiscal year until February, but after that relaxing, very slowly at first, then, as hereinbefore described, more rapidly in the Eastern and Middle States, but only felt within one or two months to any considerable extent elsewhere.

In other words, it is plain enough that the industrial conditions have not been such until quite recently as to give any natural expansion to Government revenue; they have been just the conditions that would prolong the distribution and consumption of the over-supply thrown on the market of the two articles referred to above and chiefly depended upon for additional revenue. We all know too that the depressed state of business has not by any means even yet everywhere been thrown off. A large part of our country has scarcely felt the revival and cannot reap its benefits but very partially for months yet. Indeed until after the corn crop of the Northwest has begun to be marketed no man can say that the enterprise and energies of our people are in full operation and the productiveness of the new system of taxation is fully developed.

In the light of these facts look at the Government revenue figures. If we keep to the facts we will not get far astray either in the attempt to interpret the past or to forecast the future. We will give first the Customs receipts. In the following statement we have arranged them by months for the last two fiscal years, adding also the average for each three months.

CUSTOMS PAYMENTS—(000 omitted.)

1894-95.			1893-94.

July... $14,077			July... $8,427		

The foregoing covers the last half of 1893 made memorable by the silver crisis which forced the legislation ending in the repeal of the purchase clause of the 1890 silver bill. This contest had been so prolonged in the Senate that even when tariff legislation began in December 1893 the Customs duties had through the collapse of business fallen to the lowest point reached in the two years with the exception of the months of June and July 1894. We pass the figures for the fiscal year of 1893-94 with the simple suggestion that they show the effect on revenue of a loss in business activity while all the tax laws were unchanged. They are consequently something of a guide in reaching a judgment as to the extent to which business depression has been acting more recently and is still acting in reducing the productiveness of the present tax laws. Remember that the Customs revenue under the same laws that were in force in 1893-94 averaged $16,946,251 for the fiscal year 1892-93, against an average of $10,984,877 in 1893-94. Hence we see that business depression did in that case reduce productiveness 35 per cent. If that condition was such a forceful contracting influence in 1893 and 1894 why should it not have had a like influence in 1895 and with its removal why should not revenue be further enlarged? This is a fair question and the answer we have made to it is a fair inference.

As to 1894-95, the first event which imparted irregularity to the Customs figures was the completion of tariff legislation, the new act having become a law August 28th. Hence withdrawals from warehouse of imported goods were increased to some extent in August, more largely in September and in smaller amount in October; these withdrawals included some goods held in bond to await lower duties and others which were taken out in anticipation of an enlarged consumptive demand, which was not fully realized, and not being realized the excessive supplies subsequently aided in keeping the Customs duties small. Another event was that in January 1895 the woolen schedule went into effect, and that fact, together with larger imports in anticipation of greatly improved business in 1895, added to the revenue in the next three months. The total imports from January to March, inclusive, were 195 million dollars, against 173 million dollars the last three months of 1894 and 167½ million dollars from July to September 1894. As we have already shown, business did not revive to any considerable extent in the first quarter of 1895, and hence these larger imports, which were continued in April, in some measure over-supplied the current demand and lessened the movement in subsequent months; besides May and June imports are usually below the year's average.

These details are in themselves uninteresting, but they are of use because they explain the irregularity in the receipts from Customs during previous months and also clearly indicate that in the matter of general imports there has been no special cause operating to make the movement in July abnormally large, so that whatever increase there is shown to be must be due to

the ordinary trade influence. We do not intend to be understood as saying that Customs payments in the immediately succeeding months will show a large growth. After so considerable an addition as we have in July it would not be surprising if the total were a little smaller for August. But in the autumn when business develops and becomes more general, as it no doubt will, imports will increase and Customs payments be further enlarged. This is a conclusion which the figures we have given clearly establish.

Very little need be added with reference to the internal revenue taxes. The wide variations in the receipts from that source have been caused, incidentally of course, by trade influences, but other than that almost wholly by the tax on spirits, as we have fully explained on former occasions. In July, however, the addition to the total was in great part due to special licenses, which we stated more than two months ago (Chronicle May 25 1895, page 904,) always expire at the close of the fiscal year and are renewed and chiefly paid in July. It will be interesting to give the monthly receipts from internal revenue sources in the same form in which we gave the Customs dues.

INTERNAL REVENUE—(000 omitted.)

1894-95.				1893-94.			
	1895.		1894.		1894.		1893.

June..	11,811	Dec	8,950	June..	15,179	Dec....	12,448
[Av'ge.	$11,192	Av'ge.	$7,739	Av'ge.	$13,426	Av'ge.	$12,413
July...	$12,898			July...	$25,200		

The foregoing is instructive. First, it shows the influence of the proposed increase in the whiskey tax by Congress, beginning with February 1894, when the bill passed the House, and ending with August of the same year, when the Tariff bill became a law. In the movement during that period we see the reason for the very small average which up to July that branch of the revenue service contributed, and also the ground for the expectation that under the higher tax and improving business the total internal revenue receipts will exceed even the total for July, the month which has just closed, before the fall months are ended.

With reference to the immediate future of this department of revenues, it is to be said that August payments will lose the amount contributed by the renewa of licenses; expanding trade may though make this loss in part good, but we hardly expect a total the current month equal to that of July. One other fact is worth mentioning. As the fiscal year ends with June 30th, and as the figures usually published the first of the month were on that account included in the June total, July had one less day than August will have, and this to a trifling extent will be favorable to the income of the later month.

THE CHICAGO & NORTH WESTERN REPORT.

The Chicago & North Western report for the fiscal year ending May 31 is a document of great interest. Twelve months ago it was supposed that the previous fiscal year had been a very trying one, and certainly it was about as trying a period (speaking generally) as any the railroad industry had ever been called upon to endure. But it remained for the late year to disclose a situation and condition of things worse even than that for which the year 1893-94 had been distinguished.

Business depression following the panic of 1893 and intensified by the tariff uncertainties, the large gold exports, the deficiency in Government revenues, and the precarious condition of the National Treasury, would in any event have prevented any material recovery in revenues, if it did not actually entail a further loss. But in addition there were other disturbing factors of large magnitude. The great railroad strike inaugurated towards the close of June last year, and which in July assumed such a threatening aspect, for the time being bringing railroad operations almost to a standstill, was one of these; it interrupted trade and travel, and imposed a great loss in revenues, both gross and net, upon the Chicago & North Western, the same as upon other roads. Then came the widespread disaster to the crops. This involved in the case of the section traversed by the Chicago & North Western the spring-wheat crop and the corn crop—the two chief crops in that section.

We have often during the last few months referred to the extent and effects of this remarkable crop failure. In Iowa, where the North Western has 1,163 miles of road, the 1894 production of corn was only about 81 million bushels, against 251 million bushels in 1893, and in Nebraska, where 985 miles of the 1,300 miles comprised in the trans-Missouri system are located, the corn yield was but 14 million bushels, against 157 million bushels. In several of the other States through which the lines of the system run there was also a considerable shortage in corn, and the spring wheat crop was likewise deficient. While this shortage necessarily greatly reduced the volume of the grain tonnage of the road, the effects extended way beyond this one item of freight. The failure operated to restrict very materially the purchasing and consuming capacity of the people of that section. In Nebraska part of the population was left in an actually destitute condition, so complete was the crop failure. Unfortunately, too, with the wheat yield below the average the price of wheat was very low, curtailing yet further the spending power of the farming classes. Still another drawback existed during the twelve months. In the preceding fiscal year the company, in common with others, had had the advantage of a large passenger traffic from the World's Fair. In 1894-5 this business was entirely lacking, involving a large loss in passenger revenues on that account, besides which the general passenger movement, local and through, was reduced by the business depression and the crop failure.

All these are conditions and influences from which all the roads in that part of the country have suffered. It is to be regretted that, owing to the inclusion of the Milwaukee Lake Shore & Western in the accounts of the North Western, it is not possible to state the exact amount of loss in traffic and revenues which the road has sustained during the last two years. The annual report makes the decrease in gross earnings in 1894-95, as compared with 1893-94, $3,877,808, or 12·12 per cent. But for the reason mentioned this falls short of showing the full amount of the decrease. In the comparison the Milwaukee Lake Shore & Western is included for the whole of 1894-95 but for only the last nine months of 1893-94. We estimate that on an even basis of mileage the loss in gross revenues would be in the vicinity of $5,000,000. At the same time this decrease follows a very large decrease in the year preceding. According to the com-

pany's report for 1893-4 the decrease was only $723,565. But in that year the comparison was even more disturbed than in the late year by the absorption of the Lake Shore & Western, the operations of said road being included for nine months of 1893-4, but not at all for 1892-3. We showed at the time that on the basis of the same mileage the loss would have been $3,452,188, instead of only $723,565. Hence it follows that allowing for the revenues of the Lake Shore & Western gross earnings of the Chicago & North Western have fallen off, roughly, in 1894-5 $5,000,000, after a falling off of $3,500,000 in 1893-4, making for the two years a loss of 8½ million dollars. And this furnishes an idea at once of the magnitude of the shrinkage in receipts and of the severity of the influences which produced it. We may add that the 8½ million dollars loss does not include the trans-Missouri lines, where there has been a further decrease in the two years of a million dollars.

The gross revenues constitute the only item where we can approximate the loss. The net revenues and all the items of traffic statistics are affected in the same way, but we cannot eliminate the operations of the Lake Shore & Western in those cases. We may note, however, that passenger earnings in 1894-5, even with that road included for the whole year, were only $7,044,691 against $9,226,467 in the year preceding, when the additional mileage was included for only nine months, thus showing a decrease of $2,181,776, or nearly 24 per cent. A great part of this falling off, we need hardly say, was due to the absence of the World's Fair travel, which played such a conspicuous part in the business of the previous year. For instance, in round trip or excursion travel, which in 1893-4 embraced the bulk of the World's Fair passengers, the decrease was $1,675,079, or 64 per cent. However, that business depression and the crop failure also operated to reduce the passenger revenues very materially is evident from the fact that while in 1894-5 on 5,031 miles the total of the passenger earnings was only a little over 7 million dollars, in 1892-3, on 4,273 miles, the amount was almost 8 million dollars. As a matter of fact, notwithstanding the addition of nearly 800 miles of road, the 1895 passenger earnings were the smallest of any year since 1891. The freight revenues for 1894-5 were only $19,484,415 on 5,031 miles, against $23,377,715 and $23,788,422 respectively for 1892-3 and 1891-2 on only 4,273 miles.

These comparisons help one to understand the occasion and the necessity for the reduction in dividends which the company was obliged to make during the late year. It has been, as we see, a most remarkable period. The management, as we shall presently point out, pursued a rigid policy of retrenchment and economy, but of course it was not possible to offset in that way a loss of 8½ million dollars in gross revenues during the last two years. Hence we find that even after all the saving in expenses the sum available for dividends in 1895 was only $2,851,956, as against $4,307,544 in 1894 and $4,779,710 in 1893, and furthermore that the amount was the smallest of any year since 1879. The company paid the usual dividend of 7 per cent on the preferred stock, but, as will be remembered, the dividend on the common shares was reduced at both semi-annual periods—from 3 per cent to 2½ per cent in January, and then to 1½ per cent in July, making the payment for the year on the common stock only 4 per cent, against 6 per cent in the years preceding. The company did not even quite earn the 4 per cent, but the deficiency is smaller than at one time seemed likely. The preferred stock dividends called for $1,563,450, deducting which there was left for the common stock $1,288,506, equal to a little less than 3¼ per cent on the $39,054,788 of stock outstanding. The company paid 4 per cent, as said, calling for $1,562,096, and for the balance of $273,590 drew on its accumulated surplus. No account is taken in these figures of the income of the land department nor of the results of operations of the trans-Missouri lines. The latter show for the late year a deficiency of $332,195; the land department shows a net income of $316,771, and the one may be regarded as offsetting the other.

Considering the tremendous losses in earnings which the road sustained, this is not a bad showing for the year. It deserves to be mentioned, too, that the experience of the North Western has been no different from that of its leading neighbors; they have all had to reduce dividends. The Burlington & Quincy from a 5 per cent basis has come down to 4 per cent, the St. Paul made the semi-annual dividend on its common stock last April only 1 per cent against 2 per cent previously, and the Rock Island has for some time been giving its stockholders only ¼ per cent each quarter instead of the old rate of 1 per cent.

A point of great interest and importance in the case of all roads, where a policy of retrenchment is forced upon the managers, is as to how the saving in expenses has been effected. We know of course that with a smaller volume of traffic the aggregate cost of doing the work will also be less. But at such times the managers are likewise obliged to reduce their yearly outlays for repairs and renewals. With roads like the North West, where a liberal policy in that respect has been pursued in the past, such a course is comparatively easy. In analyzing the company's figures a year ago we showed that while there had been a considerable reduction in the repair and renewal outlays in 1893-4, the saving had been chiefly under one main head—namely, under repairs and renewals of freight cars—and was explained by the addition of a greatly diminished number of new cars. In the late year of course, with the further large loss in revenue, the process had to be carried to greater lengths.

As already pointed out, it is not possible to make direct comparisons with preceding years, but bearing in mind that results in 1894-95 are on an average of 5,031 miles, in 1893-94 on an average of 4,841 miles and in 1892-93 on an average of 4,273 miles, the figures for the three years are nevertheless useful as showing the extent to which this class of expenditures has been reduced. On the larger mileage of 1895 the repair and renewal outlays on locomotives was only $973,852, against $1,136,251 and $1,178,034 respectively on the smaller mileage of 1894 and 1893. On freight cars $878,559 was spent, against $1,082,009 in 1894 and $1,725,103 in 1893, and on roadway and track $2,419,818 against $3,202,075 and $3,373,905 respectively, while under the various smaller heads the result has been much the same. In the following we bring forward a table which we gave last year, adding the figures for 1894-95. At the end of the table we show the number of locomotives and of freight cars purchased or rebuilt each year and charged to expenses. Rolling stock receiving merely ordinary repairs is not included in the designation rebuilt.

Chicago & North Western Ry.	Year ending May 31. 1895.	1894.	1893.	1892.	1891.
Miles of road	5,031	4,841	4,273	4,278	4,254

" " rebuilt	6	183	92	316	261
	899	283	871	908	661

Altogether it will be seen the company spent in these various ways for repairs and renewals in 1895 on 5,031 miles of road only $5,501,888, against $6,792,491 in 1894 on 4,841 miles and $7,857,213 in 1893 on 4,273 miles. In connection with this great reduction it should be remembered that many of the supplies needed in making repairs could be bought at lower prices in the late year than in the years preceding and that with a smaller volume of business, wear and repair would also in many instances be less. Furthermore, it may be accepted as a fact that the 1893 expenditures in the above were exceptionally large. But allowing for all this, it is still evident that the necessities of the situation forced the management to retrench in an unusual way, which is of course true likewise of practically all railroad properties.

In the last Burlington & Quincy report it was stated that in reducing expenses during the past three years repairs on rolling stock and buildings had not been fully kept up, and that it was estimated that about $1,000,000 ought to be expended to put them in good shape. President Hughitt, of the North West., on the other hand, it is gratifying to note, is able to state in the present report that "notwithstanding the large curtailment of expenditures in all departments as compared with former recent years, made necessary by the serious falling off in tonnage movement and passengers, the amount of material and labor expended has been sufficient to maintain the property in good condition." Of course, however, Mr. Hughitt must not be inferred as saying that repairs can be permanently kept at the low figures of the late year. His declaration simply means that owing to the high standard to which the road and plant had been brought by the very free outlays of previous years, it has been found possible temporarily to restrict the annual expenditures without detriment to the property. We may suppose that the management will think it prudent to enlarge these outlays again with any considerable increase in business and revenues.

The outlook now is for such an increase, and what margin there is for a recovery is evident from the loss of 8½ million dollars in gross earnings the last two years. In truth, the fact which it is important to remember above all others in studying the results of this great system for the late year is that these results furnish absolutely no criterion of the value or earning capacity of the property. They reflect the outcome in a year of very exceptional and wholly abnormal conditions. Happily, too, it seems likely that these conditions will soon belong entirely to the past. As every one knows, trade and business have already greatly improved all over the United States, and further decided progress in the same direction is being made with each succeeding day. The road is also getting a greatly increased tonnage in iron ore as the result of the revival in the iron trade. Then too the prospects for the crops are extremely favorable. Should nothing occur to mar these fine prospects between now and harvest, we may be sure that the showing for the current fiscal year will be totally different from that for the year which we have just reviewed.

THE BRITISH ELECTIONS AND THE POLICY THEY INDICATE.

There is now no longer any doubt as to the result of the British elections. It was our conviction that the electors had become so tired of the home and foreign policy of the Liberals that the Conservatives with their allies, the Liberal Unionists, would be returned in such numbers as would give them a strong working majority in the House of Commons. We did not, however, expect the result would prove so complete. No such victory has been won by either of the great political parties in many years. A majority of one hundred and fifty is something marvellous; and in ordinary circumstances such a preponderance of political strength might justly be regarded as dangerous.

The elections in themselves and in their results present some features which are not unworthy of notice. It is noteworthy, as has already been remarked in these columns, that there was not much of a war cry on either side. The Liberals had nothing new to offer. Home rule was not mentioned by them. On the question of disestablishment in Wales and in Scotland they were silent. Whatever eloquence has been displayed by them since the elections commenced has been foolishly directed against the House of Lords. The opposite side had less need of either platform or programme. They had made no professions. They had not, therefore, failed in the fulfilment of their promises. They were before the people asking their suffrages because they had been resisting Radical legislation. On that ground they still stood. The question, therefore, before the country and demanding the attention of the electorate was the continuance of the policy of the party in power, and the returns are an emphatic answer to this question.

The result would have been unfortunate if the Conservatives—the old Tory element—had been strong enough to enable them to shake off at will the Liberal-Unionists. To the Liberal-Unionists they are indebted for all the success which has attended them so far. But for them they would not have been able to offer resistance so effective to the aggressive policy of their opponents; and the presence in the Cabinet of such men as the Duke of Devonshire, the Marquis of Lansdowne, Mr. Goschen and Mr. Chamberlain, not to mention the Unionist rank and file in both Houses, ought to be a powerful counteractant against any policy of retrogression. Toryism has not always been unwilling to yield to popular demand; but for active effort in the direction of reform, it has never been the worse for the judicious application of the Liberal whip. It has on more than one occasion stolen the thunder of the Whigs; but as a rule it has done so in order to save itself from destruction. Nor is it a matter of small consequence that the Irish party no longer constitutes the balance of power. Their strength was a source of great annoyance to Mr. Gladstone. Their comparative weakness will be a positive advantage to Lord Salisbury. Much is expected of the new Government; and it is fortunate that Cabinet Ministers find themselves in a position to meet expectations.

There can be no doubt that the new government has in store some surprises in regard to home affairs. It

is quite true that during his last administration Lord Salisbury did not perform wonders in the sphere of home legislation. In the County and the Parish Councils, however, he inaugurated a great work of reform—a work which is destined to be fruitful of good for ages to come. But he was characteristically cautious and faithful to the antecedents of his party, making no haste after change. He is placed now in slightly different circumstances, and it will be necessary for him to do something to please his Liberal associates. Men like Devonshire and Landsdowne and Goschen, and others of their stamp both in and out of office, will not be satisfied with a do-nothing policy. The work of reform must go on in every part of the three kingdoms, and something must be done for Ireland.

Rumors are already afloat of certain schemes—schemes suggestive of the younger and more aggressive brain of the First Lord of the Treasury than of the less yielding disposition of the Cabinet Chief. The Local Councils, which are working so well on the larger island, are to be extended, it is said, to the lesser; a United Catholic University is to be organized under Government patronage and largely aided by Government money; and whatever there is in Ireland having the appearance of an injustice—if such does not exist in England and Scotland—is to be removed. By way of making Ireland yield some compensation for these favors, the number of members she sends to Westminster is to be considerably reduced. This last arrangement it may be found difficult to accomplish; for although, as compared with Scotland particularly, Ireland has more members than her constituency justifies, the existing number forms a distinct stipulation in the act of union. Irishmen, it may be found, while willing enough to accept the favors, will grudge the payment. Times may yet be lively enough in the green isle; but it is to be hoped that her people will give the Government a fair opportunity to bring about a condition of peace, contentment and prosperity.

Great importance attaches to the foreign policy of the new Government. For the last four or five years so much has the attention of Ministers and members of Parliament been engaged with home affairs—engaged unfortunately to but little purpose—that foreign affairs to all intents and purposes have been neglected. The result has been that a feeling of unrest, altogether unfavorable to the continuance of peace, has taken possession of the nations. That high sense of honor, too, which was wont to characterize the foreign policy of the civilized world has latterly, in some prominent cases, been found wanting. There is something very disgraceful in the feeling manifested by France towards Great Britain in the matter of Egypt. France would do nothing when men and money were required to save Egypt from ruin. But France would like to share all the benefits which have resulted from the magnanimous and self-sacrificing work which England accomplished single-handed and alone. There is something even more reprehensible if possible in the conduct of Russia toward Japan. In some respects Russia's behavior in this matter is one of the most indefensible in modern history. We see the beginnings of what may prove similar wrong doing by the great Northern power in regard to Italy and in the matter of Abyssinia. Such things could not have happened in the days of Lord Palmerstone, who in his day nobly upheld the honor of England. They could not have happened when Lord Beaconsfield was at the head of affairs. Lord Salisbury, on whom the mantle of Beaconsfield has fallen, is not likely to be found wanting in present circumstances. It is time the voice of England were heard in foreign affairs; and from present indications we are not likely to have long to wait. The first words have already been uttered; and they have not been uttered in vain. Turkey has been spoken to in the matter of Armenia, and has been told that delay will no longer be tolerated. As a result we are informed that the Sultan's Government has decided to accept in their entirety the Armenian reforms proposed by the Powers. We wait to hear the same voice speak to France and to Russia; and we feel satisfied that as the result there will be less bravado and more fair play. We have no fear of war. England does not court it; and neither France nor Russia, for reasons well known to themselves, will provoke it.

ACTIVITY IN BUILDING.

It is perhaps not surprising that with trade and business reviving everywhere there should be evidence also of a considerable expansion in building operations here in New York City. According to the records, the work of erecting new buildings in this centre is apparently being prosecuted on a perfectly surprising scale. But it will be well to see if some special circumstance or condition has not affected the result to such an extent as to qualify somewhat the conclusions to be drawn from it. Of course building goes on all the time, whether the general trade situation is good or bad, but the extent of the movement is governed very largely nevertheless by the trade situation. Last year, when our industries were depressed beyond precedent, the building operations reflected that fact, and the projects filed for the erection of new buildings were the smallest in a good many years. The present year we have not only a recovery, but an increase so pronounced and general as to place 1895 way ahead of all other recent years, both in the number and aggregate cost of the new buildings planned.

This work of erecting new buildings is so important in itself and plays such a prominent part in affecting so many trades, it is surprising that the figures do not receive more attention from time to time. The "Record and Guide" of this city has recently published the statistics for the first six months of the year, and in view of the fact that the figures, as already said, reveal a very great increase, and that they seem to have escaped notice, it will be well to give them a little consideration. In brief we may say that the statistics show that plans were filed in the six months for 2,562 new buildings to cost $59,201,804, against plans for only 1,297 buildings to cost but $27,779,160 in the same six months of last year. The number of buildings has just about doubled, the estimated cost considerably more than doubled. In other words, should these projects all be carried to completion, they would provide for the expenditure of 31½ million dollars more than the projects undertaken in the first half of 1894. We need hardly say that this additional expenditure, if made, would mean a very great stimulus to all branches of trade. Of course the present is the season most favorable for building, but such new projects, be their number or their cost large or small, always provide work for a considerable time to come, and besides many of the structures in all periods require many months for their completion.

That the statistics are not open to question is evident from a statement which has come from the Bureau of Statistics of Labor at Albany. We are not informed as to the purpose which the Labor Bureau has in view in dabbling in the building statistics in this city, but at any rate the Bureau has prepared a statement of that kind. This statement makes the number of buildings for which plans and specifications were filed in the half-year of 1895 2,565, against 1,302 in the half-year of 1894, and the estimated cost $60,463,804, against $27,849,935. Here the 1895 total is larger even than that of the "Record and Guide," and we may add that the Bureau also has aggregated the cost of alterations to buildings, which it reports at $6,550,598 for the six months of this year, against $3,005,184 for the six months of last year. We prefer, however, to use the figures of the "Record and Guide," as that journal has been engaged in the work for a good many years and its statistics extend back over a long period of time.

If there were an increase only as compared with 1894 the fact would not possess special significance, last year's total having been small. But as a matter of fact the 1895 total, as already said, is considerably in excess of the totals for the years preceding too. As against the 2,562 buildings provided for in 1895, the number in 1893 was only 1,552, in 1892 1,814, in 1891 1,589. The estimated cost in 1893 was $43,007,813, which included the Cathedral of St. John the Divine, to cost $5,000,000, and St. Luke's Hospital, to cost $1,000,000. Eliminating the Cathedral, the aggregate for 1893 is reduced to $38,007,813, while for 1895, as we have seen, the amount is $59,201,804; in 1892 the plans provided for an expenditure of $39,252,583, in 1891 for $34,500,816. Hence the present year's aggregate is very much higher than that for any of these preceding years. The following shows the figures for each of the six months for the last four years. It will be observed that there is an increase over 1894 both in number and cost for every month except June, which exception, however, as we shall presently see, is rather significant.

NEW BUILDINGS PROJECTED IN NEW YORK CITY.

	1895.		1894.		1893.		1892.	
	No.	Cost.	No.	Cost.	No.	Cost.	No.	Cost.
		$		$		$		$
January	176	4,348,944	141	3,026,550	174	3,938,097	195	2,666,730
February	394	9,488,215	155	2,599,585	123	4,550,521	238	5,007,403
March	532	13,721,645	236	3,681,970	301	6,328,820	394	8,041,460

May	715	15,101,190	268	8,285,245	310	*18155625	203	5,702,450
June	187	4,546,460	239	4,747,500	240	†6,177,325	342	7,306,500
Total	2562	59,201,804	1297	27,779,160	1552	43,007,813	1814	39,252,583

* Includes the Cathedral of St. John the Divine to cost $5,000,000.
† Includes St. Luke's Hospital to cost $1,000,000.

If we classify the new buildings according to the different parts of the city in which they are to be located, we find an increase no less decided or general. The "Record and Guide" has divided the city into seven sections or districts, and here is a comparison for these districts for the last three years.

DISTRIBUTION OF NEW BUILDING PROJECTS IN NEW YORK.

First Half-Year.	1895.		1894.		1893.	
	No.	Cost.	No.	Cost.	No.	Cost.

Total	2562	59,201,804	1297	27,779,160	1552	43,007,813

* Includes Cathedral of St. John the Divine, to cost $5,000,000, and St. Luke's Hospital to cost $1,000,000.

We have already shown that the statistics themselves are not open to doubt. The question still remains to be answered, however, why are the totals so very large? Mere trade revival will not account for it. Speculation has some times played a large part in swelling the aggregates. We know of no speculative considerations that would have prompted the launching of new projects on an extensive scale the present year. But the Legislature at its last session was considering and finally passed an amendment to the building laws, providing more stringent regulations regarding the erection of tenement houses. Bearing that in mind, it is rather significant that a large part of the total increase for the six months is found under the head of "flats and tenements." Plans were filed for 1,519 of these in 1895 to cost $33,708,200, against only 393 in 1894 to cost $7,794,550 and 527 in 1893 to cost $11,365,800. Here is an increase over 1894 of 26 million dollars and over 1893 of 22 million dollars. This of course suggests that a good many plans were filed in anticipation of the new law and to get the advantage of the less stringent provisions of the old law. If this surmise be correct—and it is further supported by the fact that the new law went into effect on the 29th of May and that in the next month (June) there was at once a marked falling off—then a good many of the building projects for which plans have been filed may not be immediately carried out and some perhaps never be carried out.

Still, the increase shown in the building projects can not all be explained in that way. There has been a considerable addition in some of the other classes of buildings, and this there is no reason to suppose has been swelled by any fictitious element. For instance, the present year's projects cover 683 private dwellings to cost $6,836,000, against 550 to cost $6,045,460 in 1894, and 126 office buildings, hotels, stores, &c., to cost $17,442,200, against only 116 to cost $12,650,350 in 1894. On the whole, therefore, the conclusion is that there is a considerable increase in projects which it is intended to carry to completion, but no such increase as appears by the face of the figures.

Looking at the building statistics of some of the other leading cities, we find that at Chicago plans were filed for 4,465 buildings to cost $19,103,908 in 1895, against 5,670 buildings in 1894 to cost $17,720,640. The decrease in the number of buildings coincident with the increase in aggregate cost is significant as showing that the tendency in that city is towards the erection of a better class of buildings. Even as it is, the contrast with New York is very striking, as the average per building in the City on the Lakes stands at less than $4,500, whereas at this centre the average stands at over $23,000. We subjoin the Chicago figures for the past five years. In explanation of the very large totals for 1891 and 1892, it should be said that those were the years preceding the holding of the World's Fair, when building was going on on an exceptional scale.

NEW BUILDINGS PROJECTED IN CHICAGO.

Jan. 1 to June 30—	No. of Bldgs.	Feet Frontage.	Estimated Cost.
1891	6,068	149,177	$22,877,700
1892	6,716	156,402	28,840 400
1893	4,850	130,489	18,235,895
1894	5,670	129,193	17,720,640
1895	4,465	114,887	19,103,908

In Brooklyn, or more accurately Kings County, there has been only a small increase over 1894, leaving the totals much below those of the years preceding. The plans provide for 1,899 buildings, against 1,759 in

1894, but against 2,199 in 1893 and 2,380 in 1892. The estimated cost stands at $7,831,354, against $7,040,895 in 1894, $11,452,444 in 1893 and $11,953,084 in 1892. The class of buildings here is as unlike those in New York as are the buildings in Chicago, the average per building being only a little over $4,000. It will be interesting to bring the figures of the three cities together as regards the expenditures provided by these building projects, and this we have accordingly done in the following:

ESTIMATED COST OF NEW BUILDINGS PROJECTED.

First 6 months.	1895.	1894.	1893.	1892.
New York City	$59,201,804	$27,779,161	$43,007,813	$39,252,583
Kings County	7,831,354	7,040,895	11,452,444	11,953,084
Total	$67,033,158	$34,820,035	$54,460,257	$51,205,667
Chicago	19,103,908	17,720,640	18,235,845	28,840,400
Total	$86,137,066	$52,540,695	$72,696,152	$80,046,067

Thus the aggregate for the three cities stands at $86,137,066 in 1895, against $52,540,695 in 1894 and $72,696,152 in 1893, $80,046,067 in 1892 and $69,709,353 in 1891. If we should knock from the 1895 figures 15 million dollars to represent projects filed in New York merely to get the benefit of the old building law, the total would still be very large, and make a fair comparison with 1893 and 1892, in the latter of which years the number of new buildings put up in Chicago was extraordinarily large in anticipation of the World's Fair.

MR. ASHLEY ON FREE SILVER.

Mr. O. D. Ashley, President of the Wabash Railroad Company, has an interesting article on "free silver" in last week's "Independent". It is difficult to write anything really new on the subject. His article comes as near to doing that as it can be done. He has at least put old things in a new and attractive form so as to make them fresh if not distinctively new.

We wish Mr. Ashley in the article had carried his suggestion with reference to wheat as currency another step. So far as he develops the thought it is strikingly simple, instructive and conclusive. Had he gone on and applied to such a currency a coinage proposal like to that of the free silver advocates, he would of course have reached results similar to those he did reach, but expressed in that way they would be likely to have made a still more effective appeal to the classes he was addressing.

He takes the case of a community agreeing upon wheat as the measure of values and calling a bushel instead of a dollar the unit, and making bushels of wheat a legal tender for all debts, public and private. Then in place of saying that a house was worth ten thousand dollars, its worth would be expressed by ten thousand bushels of wheat; wages, on the supposition that the normal value of wheat was one dollar, would be one, two, three or four bushels of wheat per day in the place of one, two, three or four dollars per day. Wheat, as we know, is liable in the markets of the world to variations in value according to the supply and demand, just as silver is. In the case supposed wheat itself would not show to that community these variations, as its nominal value would be fixed by law; but all other products would be higher or lower according to the fluctuations of that article in the world's markets. Hence if wheat declined to fifty cents in London, farmers who had a surplus to sell would find that measured in other products or other values the purchasing power of wheat had declined. The owner of a house, for instance, who asked 10,000 bushels for the house before would now, perhaps, ask 15,000 bushels, and so on. This gives the substance of the thought Mr. Ashley pursues in the early part of his argument.

Some of the conclusions of the article are not just such as we should have reached. But with reference to those matters it is to be said that Mr. Ashley was endeavoring to put the case in the best possible light for silver so that he could not be charged with unfairness by the class he was addressing. If were asked to express his position, as it appears to us, we should say that he endeavored so hard to be just that we think he has leaned over backwards a little. We need take the space to mention but one instance, and we would not mention that were it not that the admission he makes is such an important one. He says "some advance in the gold value of silver may be reasonably anticipated" in the case of the free coinage of silver by the United States alone. We think on the contrary that if such an operation had any effect upon the price of silver it would be to depreciate its gold value. Of course a temporary spurt like that which occurred just before and just after the 1890 silver purchase law went into effect might be experienced. Aside from that speculative and temporary movement, the course of the silver market expressed in gold would be downwards. We have given our reasons briefly on former occasions for this view and there is no need for elaborating them again. If any friend of silver thinks we are in error and that silver would appreciate in the contingency mentioned, he is free to send us his views and we promise to publish them, and to answer them, too; the latter we think we can do to his complete satisfaction.

EFFECTS ON TRADE OF THE OPENING OF ADDITIONAL CHINESE TREATY PORTS.

The generally accepted view of the opening of additional treaty ports in China, through the treaty of peace concluded between Japan and that country, is that it will lead to a great increase in the trade with foreign countries, and that in this increase the United States may reasonably be expected to share. We have received from an esteemed reader the following communications, taking a different view of the importance of the event referred to.

The firm in China whose opinion has been solicited by our correspondent is a very large and influential one, as would be recognized if we were permitted to mention their name. This gives to what they say much weight, and besides it is interesting to hear what can be urged on the other side of the question. We make room for their letter on that account.

For ourselves, we must be permitted to say that we can not resist the conclusion that the opening of the new Chinese ports and the great stirring up which the war has caused must in the end result in a considerable expansion in the foreign trade with the East. Our correspondent's communications comprise two letters, the first the one addressed by him to the Chinese house referred to and the other the reply of that house.

NEW YORK, April 24, 1895.

Mr. ——, HONG KONG:

DEAR SIR—According to the reports in the papers here, peace has been practically established between Japan and China, and among other conditions required by Japan are the opening of five more treaty ports to all nations, the introduction of machinery and improvements, and possibly other goods and materials.

From what I can read and gather from others, if the stipulations of this treaty are carried out it seems to me that there will be a great demand for American machinery and goods of

various kinds and classes. Now, while we know that England and Germany have in the past catered in style, quality, prejudice and manner of putting up of articles to people of other countries, and therefore secured a larger part of foreign trade than ourselves, is there not, under the new condition of things, a possibility for a great extension and expansion of trade from this country with China and Japan, the former in the cruder and coarser goods, the latter in finer and "more civilized" articles? Allowing for the moment this to be so, will not our shipping ports on the Pacific Coast, particularly Seattle and Tacoma, gain much from this, not only from the freight of the East, but what is produced or raised in their own vicinity? Having been here so recently, you are well able to judge of conditions and trend of matters in connection with Chinese trade, and I would be glad to have you at your leisure write me a reply to this such as I could show or submit to others, and also give me a general outline of the sort and kind of exports this country could with profit send to the East, and how it would be done; in what manner would payment be made—that is through a firm such as yours acting as a commission house—and would there be any money in it for you; and where, if at all, the bank or firm on this end would "come in?"

Another factor in this, in the course of a few years, will be the imports from China and Japan by our people of not only staple and necessary articles, but expensive and high-class goods, curios and bric-a-brac so-called; for as soon as times improve, and they are fast doing so, money will be made, as in the past, by "new people" who will want all these things and will spend their surplus wealth freely.

Trusting that I am not asking too much of your time and attention, I am, Yours sincerely, ———.

HONG KONG, June 17th, 1895.

Mr. ———, NEW YORK.

DEAR SIR—I had the pleasure of receiving from you by the mail before the last a letter of inquiry as to the probable alteration or expansion of trade in China, in particular with the United States, consequent upon the conclusion of the Chino-Japanese War.

My own very definite opinion, on the assumption that the war is really now terminated, is that no or very little change will come over the commercial relations of the United States and China that would not have occurred had the war never taken place.

As regards imports here, with the exception of flour, kerosene oil and ginseng, America seems to produce very little that the Chinese need, and of these three articles of merchandise kerosene is the only one in what may be called universal use, as ginseng and flour practically go to Hong Kong alone.

The expansion of the oil trade will probably proceed as in the past decade, checked or encouraged momentarily by the usual factors, fluctuations in price, changes in internal taxation and foreign competition. The American oil trade now concerns only the consumers and the Standard Oil Company, and though the largest in volume of any item in China's import trade, for that reason is of small interest to the mercantile body.*

Flour is persistently making its way as an important article of food supply in South China and Hong Kong, the latter being a distributing point to the Philippines, Indo-China and the Straits. The Northern Chinese have not as yet taken seriously to wheat bread and cakes, mainly owing, we suppose, to climatic reasons. All the flour comes from the Pacific Slope, California, Oregon and Washington, and the trade is constantly increasing by reason of the many shipping facilities and the reduced cost of milling in the wheat-growing country. The business is not general among foreign firms in China, and is mostly in the hands of local agents of the mills, who sell directly to the Chinese.†

Ginseng comes principally from the Middle and Western States, and trade in it remains stationary, owing to the gradual extinction of the plant, which cannot be grown artifically with success. The quantity imported is about the same last year as for the few years immediately preceding, and the gold price has varied to about the same extent.

One foreign firm, our own, does one-third of the trade, and the Chinese the rest. The imported value for 1894 was about $2,000,000 (Mexican.) The effects of the war were very slight. In the export trade the leading features are silk, tea, matting, straw, braid, rugs and furs, and Canton sundries, comprising fire-crackers, cassia, palm-leaf fans, etc. As far as my observation goes, not a single one of these commodities has been affected in production or price by the war. Formosa tea, owing to the peculiar state of affairs in that island, may prove an exception, but Formosa is now Japan, or rather is in process of becoming so. Shipments of all the different merchandise mentioned go on in a perfectly steady and natural way, slowly increasing year by year, the emolument to the merchant remaining the same, as the cutting of commissions and profits about keep pace with the increase in value, and there are no more merchants now than there were ten years ago.

The war has done very little towards awakening China to a proper sense of its backwardness in civilization and to its culpable folly in not taking steps to avail of the new methods of defending itself by the introduction of modern arms and tactics and later-day modes of inland transport. China is a huge lethargic pachyderm and so inert and nerveless as never to have been thoroughly aroused to the fact that it has had on its hands a war that dangerously threatened its very existence and pointed to its eventual partition among the leading powers of the world.

The great jealousy existing between one province and another, or rather the governors thereof, and between the different political cliques at Peking acts as a great bar to the introduction of reform and progressive works. The development of mines, establishment of factories and building of railways would add so much to the power and wealth of any chosen province that the mandarindom of other provinces unite together to put a damper upon any progressive spirit that manifests itself. There is a difference of opinion as to whether all of China's resources will be so taxed to pay Japan's indemnity that there will be nothing left for home improvements, or she will proceed at once to put her affairs in order and the Government make amends for its failure to protect in the past her borders from foreign attack. An old-fashioned middle course I think will be adopted, and we shall see some funds available for forts, guns and a new navy. The United States may, if manufacturers are energetic and able to compete with Europe in price, obtain a share of this work, and it is to those only interested in armed ships, fortifications and guns that the present condition of China especially appeals.

In a country like the United States, of such high returns for interest on capital, foreign loan mongering has no place.

I remain, dear sir,
Yours faithfully,

---

* Imports to Hong Kong only of American oil for 1893, 1,420,000 cases of 10 gallons, valued at $2,130,000 Mex. Shanghai imports were about the same.

† American flour imported to Hong Kong in 1894, 2,000,000 quarter sacks of 50 lbs. each, valued at $2,800,000 Mex.

Clearings by Telegraph.—Sales of Stocks, Bonds, &c.—Stock Exchange Clearing-House Transactions.—The subjoined statement, covering the clearings for the current week, usually appears on the first page of the CHRONICLE, but on account of the length of the other tables is crowded out once a month. The figures are received by telegraph from the leading cities. It will be observed that as compared with the corresponding week of 1894 there is an increase in the aggregate of 20·9 per cent. So far as the individual cities are concerned New York exhibits an increase of 25·9 per cent, and the gains at other points are: Boston 37·2 per cent, St. Louis 4·7 per cent, Philadelphia 19·1 per cent and Baltimore 11·3 per cent. Chicago records a decrease of 3·9 per cent and New Orleans 8·2 per cent.

CLEARINGS. *Returns by Telegraph.*	*Week Ending August 3.*		
	1895.	1894.	*Per Cent.*
New York	$437,405,849	$347,479,601	+25·9

Monetary and Commercial English News

[From our own correspondent.]

LONDON, SATURDAY, July 20, 1895.

The long continuance of cheap money is stimulating the bringing out of new issues, as was to have been expected. Messrs. Brown, Shipley & Co. are offering nearly 7 million dollars of Lehigh Valley Coal Co. gold bonds, guaranteed by the Lehigh Valley Railroad Company: Messrs. Rothschild are offering 6 millions sterling of Brazilian Government bonds; a number of new railroad enterprises in India are being brought out; there is talk of another Chilian loan before long; and several colonial loans are in preparation. All this goes to prove that confidence here is completely restored and that the investing public now is prepared to give all necessary accommodation to foreign countries and to foreign enterprises. It is understood even that large applications have been made from London for the new Chinese loan. The loan is not offered in London, but three of the great French banks which have offices here are accepting applications from their customers.

The silver market is rather dull, with a drooping tendency. The impression gains ground that very little silver will be remitted to China. Nothing official has yet been announced, but the belief in Paris, as well as in London, is that the whole of the proceeds of the loan will be at once handed over to Japan, and it is thought that Japan will spend the money in Europe, partly to pay off loans incurred during the war and partly to strengthen the army and navy. Still the India Council is selling its drafts fairly well. On Wednesday it offered 60 lakhs. The applications were for about two and one-half times as much, and the whole amount was sold at 1s. 1 5-32d. per rupee as the minimum price, one-half indeed being placed at 1s. 1 3-16d. The applications for the drafts are largely on Chinese account. It is probable, however, that the new Indian railway enterprises that are being started in considerable numbers will by and by strengthen exchange.

The bank dividends for the first half of the year have now been all announced, and upon the whole they are better than might have been expected. The purely London banks, like the London & Westminster, the London Joint Stock, and the Union of London, all distribute at the rate of 1 per cent per annum less than twelve months ago. The banks that are partly metropolitan and partly provincial have not suffered quite so much, but as a rule they also pay less dividends. The purely provincial banks, on the other hand, have fairly well maintained their rates of dividend. A few of them pay considerably less, but as a rule they distribute about the same amounts. Of course it is to be recollected that the competition is not as great in the provinces as in London, and that

consequently the old customary rates are generally maintained. For the half-year the average rate of discount for three-months' bank bills in the open market has been only about 17s. per cent, whereas in the first half of last year it was 26s. 6d., and short loans have ranged between ¼ and ½ per cent—considerably less than in the first half of last year.

Only a few railway dividends have yet been announced. These, however, are rather better than had been looked for in the market. It was known that there would be a reduction in most cases, partly because of the increased fixed charges. But it is found that so far, at all events, the companies have been able to make reductions in their working expenses.

Trade throughout the country is decidedly improving. Especially the woollen manufacturer is very active, and the wool auctions which have been going on since the beginning of the month are well attended and the rise in prices is well maintained. The buying for the United States is exceptionally good. The Continent is not buying so much this week as last week; but the buying for home account is very large.

The elections for members of the new Parliament began on last Saturday morning and they have continued all through the week, one result being much less activity upon the Stock Exchange than before they began. The city is greatly pleased with the Conservative victory, and probably markets will be strengthened by and by. But the holiday season is now beginning and attendance in the Stock Exchange must be expected to be small for the next two months. Investment in good American bonds is decidedly increasing, and there is a fair amount of activity in the share market likewise, but the business is purely professional. The general public is still holding aloof. There is no doubt that business would increase rapidly if it came to be believed that sound money would be maintained. But while doubt as to what Congress may do continues, the general public will probably remain timid. Investment in bonds, however, is sure to go on unless, of course, alarm returns in the United States itself.

In the South African department there is still active buying—not quite so much of course as before the elections began, but still there is very considerable activity for an election time and the season of the year. Prices, too, are exceedingly well maintained.

Outside of these two departments there is scarcely anything doing. The murder of M. Stambuloff, the renewed activity of the Russian Pan-Slavists everywhere, the agitation in Armenia and Macedonia, and the unsettled state of Servia, are all deterring operators on the Continental bourses. That the Chinese loan has been a success cannot be doubted, for everything possible has been done by the French banks to make it so. Besides, the issue itself is attractive. It is secured upon the Chinese Customs and has, besides, a Russian guarantee, and it yields rather more than 4 per cent. But in spite of the great success of this issue business is quiet in Paris and Berlin, and there is a more anxious feeling than has prevailed for some time. The belief continues that peace will be maintained, but at the same time every one recognizes that the state of things in the Balkan Peninsula and in Asia Minor is exceedingly dangerous. And the attitude of Japan likewise inspires some apprehension. Probably there is a good deal of exaggeration in the reports that reach this country; but there appears to be no doubt that there is great indignation throughout Japan at the action of Russia; and it is reported that Russia is sending out fresh ironclads and is insisting upon the immediate withdrawal of the Japanese troops from all Chinese territory.

Rumors too of political troubles in South America are renewed. There appears to be no foundation for them. Apparently the Brazilian Government is making progress in the pacification of the country, and strong assurances are given, both by Chili and Argentina, that the disputes between them will be settled amicably. Still the Uruguayan Government affects to believe that war will break out, and two million dollars have been voted by the Uruguayan Assembly to increase the army. The Brazilian loan announced to-day has not been very well received, being quoted at only ½ to ¾ premium.

It may be mentioned that the success of the Conservatives at the elections is regarded as putting local veto out of the range of practical politics for a long time to come, and the values of brewery shares and of public house property are rising in value, the improvement during the past week already having been considerable.

The following return shows the position of the Bank of England, the Bank rate of discount, the price of consols, &c., compared with the last three years:

Commercial and Miscellaneous News

Changes in Legal Tenders and National Bank Notes to August 1.—The Comptroller of the Currency has furnished us the following, showing the amounts of national bank notes July 1, together with the amounts outstanding August 1, and the increase or decrease during the month; also the changes in legal tenders held for the redemption of bank notes up to August 1.

National Bank Notes—		
Amount outstanding July 1, 1895		$211,600,698
Amount issued during July	$692,777	
Amount retired during July	1,011,567	318,790
Amount outstanding August 1, 1895*		$211,281,908
Legal Tender Notes—		
Amount on deposit to redeem national bank notes July 1, 1895		$25,538,600
Amount deposited during July	$187,442	
Am't reissued and bank notes retired in July	1,021,567	834,125
Amount on depos't to redeem national bank notes August 1, 1895		$24,704,475

* Circulation of National Gold Banks, not included in above, $90,137

According to the above the amount of legal tenders on deposit August 1 with the Treasurer of the United States to redeem national bank notes was $24,704,475. The portion of this deposit made (1) by banks becoming insolvent, (2) by banks going into voluntary liquidation, and (3) by banks reducing or retiring their circulation, was as follows on the first of each of the last five months:

Deposits by—	April 1.	May 1.	June 1.	July 1.	August 1.
	$	$	$	$	$
Insolv'nt bks.	1,022,020	1,021,523	949,924	1,017,913	982,710

—$1,900,000 Metropolitan Street Railway Company of Kansas City, Missouri, consolidated 5 per cent gold bonds, due May 1, 1910, are offered by Messrs. Lee, Higginson & Co., of Boston and Messrs. N. W. Harris & Co., of New York and Chicago, at 97½ and interest, yielding about 5¼ per cent. The attention of our readers is called to the advertisement in another column.

—Mr. F. J. Lisman, the well-known bond broker of 10 Wall Street, was this week admitted to membership in the New York Stock Exchange. Mr. Lisman is recognized as exceptionally well informed on investment securities, a line of business to which he devotes most of his attention.

—Messrs. W. J. Hayes & Sons, Cleveland and Boston, invite attention to a list of municipal bonds which they offer in the advertising columns of this issue. Complete data will be furnished on application.

—The United States Trust Company, New York, will receive offers for the disposal of 100 Johnson Company first mortgage bonds, to be retired September 1, under the terms of the sinking fund.

WALL STREET, FRIDAY, AUGUST 2, 1895.—5 P. M.

The Money Market and Financial Situation.—No new features of importance have developed during the week to affect the markets or change the course of business in Wall Street. While the principal activity in the stock market is due to the speculative element, there continues to be a demand for investment securities which absorbs all the offerings of that class.

The certainty of a very large yield of spring wheat and the growing assurance of a bountiful corn crop are facts which, although not new, are the most important factors today in the general situation.

It is pleasant to note that progress is being made in the reorganization of some of the important companies now in receivers' hands, and it is hoped that we may soon see the Reading, Erie and Northern Pacific following in the line of New England, Atchison and the U. S. Cordage Company. The market for both bonds and stocks has been weak to-day and declines were general. The movement was stimulated by the withdrawal of over $2,000,000 of gold from the subtreasury, a considerable part of which is for export.

There is an increasing demand for loans by banks in the South and West, which will no doubt soon be reflected in advancing rates in this market.

The open market rates for call loans during the week on stock and bond collaterals have ranged from 1 to 1½ per cent. To-day's rates on call were 1 per cent. Prime commercial paper is quoted at 3 to 4 per cent.

The Bank of England weekly statement on Thursday showed an increase in bullion of £172,636, and the percentage of reserve to liabilities was 57·76 against 59·04, last week; the discount rate remains unchanged at 2 per cent. The Bank of France shows a decrease of 1,950,000 francs in gold and an increase of 875,000 francs in silver.

The New York City Clearing-House banks in their statement of July 27 showed an increase in the reserve held of $4,161,600 and a surplus over the required reserve of $41,996,575 against $38,491,125 the previous week.

Foreign Exchange.—There is no change to note in the condition of the foreign exchange market. There is a scarcity of both sterling and Continental bills and rates continue at the highest figures. Some gold has been engaged for export to Canada and Europe.

To-day actual rates of exchange were as follows: Bankers' sixty days sterling, 4 89¼@4 89½; demand, 4 90¼@4 90½; cables, 4 90⅛@4 90¾.

Posted rates of leading bankers are as follows:

Aug. 3.	Sixty Days.	Demand.
Prime bankers' sterling bills on London	4 90	4 91
Prime commercial	4 88¾@4 89	.....
Documentary commercial	4 88¼@4 88½	.....
Paris bankers' (francs)	5 16 3/16@5 16¼	5 15@5 14 5/16
Amsterdam (guilders) bankers	40¼@40 5/16	40 7/16@40½
Frankfort or Bremen (reichmarks) b'kers'	95 9/16@95⅝	95 15/16@96

The following were the rates of domestic exchange on New York at the under-mentioned cities to-day: Savannah, buying par, selling ⅛@1-10 premium; Charleston, buying par, selling ⅛ premium; New Orleans, bank, $2 00 premium, commercial $1 00 premium: Chicago, 35c. per $1,000 premium; St. Louis, 50@75c. per $1,000 premium.

United States Bonds.—Sales of Government bonds at the Board include $24,000 4s, coup., 1925, at 123¼ to 123½; $7,000 4s, reg., 1907, at 112 to 112½; $2,000 5s, reg, at 115⅝, and $20,000 5s, coup., at 115⅛ to 115¼. Closing prices were as follows:

Fine gold bars	par @¼ prem.	U. S. trade dollars	— 55 @— 75

State and Railroad Bonds.—Sales of State bonds at the Board include $21,000 Tenn. settlement 3s at 90 to 90⅜; $27,500 Virginia fund. debt 2-3s of 1991 at 63 to 63¼; $8,500 Louisiana con. 4s at 98 to 99 and $9,000 So. Carolina 6s, non-funadable, at 1½.

The railroad bond market has continued active and firm in tone, and changes are generally to higher prices.

The Atchisons have been the most prominent features and the transactions in them aggregate a large amount. The 2d rects. 1st instalment paid have advanced nearly 2 points and the adj. 4s, new (when issued), about 1 point. Chic. & No. Pac. 1st rects. and Sav. & Western 1st rects. are one point higher. Mo. Kan. & Texas and Texas & Pac. issues have been active and are higher, the former 2ds having gained about 2 points. Or. Short Line & U. N. con. rects. have made the same advance.

U. S. Cordage 1sts., in sympathy with the stock, have advanced about 5 points, as the reorganization plan becomes operative. Wabash issues have been conspicuously active without material change in prices.

Railroad and Miscellaneous Stocks.—The stock market has been fairly active and was strong during the early part of the week, especially for the railroad list. The increasing prospect of an abundant harvest has caused the granger stocks to advance to a higher level of prices. The Atchison and other Southwestern shares have continued active and strong, Mo. Pac. having advanced 3 points on liberal buying, as the plan for funding the floating debt is succeeding. There is no change in the unfortunate coal situation, and the coal stocks have been neglected but without material change in prices. Louisville & Nash. has advanced about 2 points on good buying, stimulated no doubt by recent developments in the financiering of the company. Some of the low-priced stocks, including Lake Erie & Western, New York Susq. & Western, Wheeling & Lake Erie, C. C. C. & St. Louis, Minn. & St. Louis, Mobile & Ohio and P. C. C. & St. Louis, have been more active than usual.

The speculative industrials have been the most active stocks in the market. Am. Sugar advanced from 113¾ at the close last week to 118 on Thursday, and closes to-day at 113¼. Chicago Gas is over 2 points higher, and there is no reason known to the public for any change in the value of either of these stocks. General Electric has gained about a point. Tenn. Coal & Iron has been strong on limited sales. U. S. Leather has been unsteady, the preferred fluctuating between 88 and 85. U. S. Cordage shares advanced rapidly on Thursday when it became known that a sufficient amount of securities had been deposited under the plan of reorganization to make the same operative.

Investment AND Railroad Intelligence.

RAILROAD EARNINGS.

The following table shows the gross earnings of United States railroads (and also a few Mexican and Canadian roads) for the latest period reported. The statement includes every road from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the calendar year from January 1 to and including such latest week or month.

Roads.	Latest Earnings Reported.			Jan. 1 to Latest Date.	
	Week or Mo	1895.	1894.	1895.	1894.
